The Connecticut State University System reaches throughout the state with major campuses in four regional centers: Central Connecticut State University in New Britain, Eastern Connecticut State University in Willimantic, Southern Connecticut State University in New Haven, and Western Connecticut State University in Danbury. It enrolls more than 35,300 students who are taught by approximately 1,100 full-time faculty members and hundreds of part-time instructors.

Origins of the Connecticut State University System date back to 1849, with the founding of a school for teachers in New Britain. During their distinguished histories, the campuses have evolved from normal schools to teachers colleges to multipurpose state colleges and, finally, to universities. Today, after a century and a half of growth and development, the four campuses of the Connecticut State University System are thoroughly diversified institutions. Among their alumni are physicians, teachers, lawyers, dentists, nurses, clergy, business people, journalists, scholars, librarians, artists and a host of other professionals. The graduates of the Connecticut State University System contribute to all aspects of Connecticut's economic, social and cultural life.

The governance of the Connecticut State University System is the responsibility of an 18-member Board of Trustees. Fourteen of the Trustees are appointed by the Governor, and four are students elected to the Board by their classmates. The Chancellor of the Connecticut State University System is responsible for the administration of the system. Each campus operates with a considerable measure of autonomy and functions under the leadership of a president.
Central Connecticut State University, one of four universities of the Connecticut State University System

The content of this catalog is provided for the information of the student. It is accurate at the time of printing, but is subject to change from time to time as deemed appropriate by Central Connecticut State University in order to fulfill its role and mission or to accommodate circumstances beyond its control. Any such changes may be implemented without prior notice and without obligation and, unless specified otherwise, are effective when made.
Central Connecticut State University
Administrative Officers

Accreditation and Memberships

The University is accredited by the New England Association of Schools and Colleges, the Connecticut Department of Higher Education, and the Connecticut Department of Education (for its certification programs in education) and the National Council for the Accreditation of Teacher Education. Programs in chemistry are accredited by the American Chemical Society. The honors track of the computer science program is accredited by the Computing Sciences Accreditation Board. The civil engineering technology and the manufacturing engineering technology programs are accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology. The industrial technology programs are accredited by the National Association of Industrial Technology, and the Bachelor of Science in Nursing program is accredited by the National League for Nursing. The Council on Social Work Education has accredited the baccalaureate social work program, and the Council on Accreditation of Nurse Anesthetist Programs has accredited the master's degree in biological sciences, anesthesia specialization.

The University is a member of the American Association of Colleges for Teacher Education, the American Association of Higher Education, the American Association of State Colleges and Universities, the American Council on Education, the Association of American Colleges and Universities, the College Board, the Council for Advancement and Support of Education, the Council of Graduate Schools, the National Commission for Cooperative Education and many other professional organizations related to the activities of individual departments at Central Connecticut State University.

March 24  Spring Recess begins 1:30 p.m.
March 29  Spring Recess ends 8 a.m.
April 14  Last day to drop second eight-week courses
April 21  Last day for full-time students to withdraw from the University
May 1  Final day for undergraduates to apply for May 2004 graduation (Registrar’s Office)
May 7  Day classes end
May 8–9  Reading Days (make-up days if needed) — no day or evening classes
May 12–17  Examinations
May 17  Semester ends; last class meeting for Saturday classes
TBA  Graduate Commencement
TBA  Undergraduate Commencement

Winter Session 2003

December 30  Classes begin
December 31  No classes
January 1  New Year’s Day — Holiday — no classes
January 17  Classes end

Spring Semester 2003

January 13  Academic semester begins
January 20  Martin L. King, Jr., Day — Holiday — no classes

Summer Session 2003

May 27  First five-week session begins; eight-week session begins
June 26  First five-week session ends
June 30  Second five-week session begins
July 4  Independence Day — Holiday — no classes
July 17  Eight-week session ends
July 31  Second five-week session ends
August 4  Three-week post session begins
August 21  Three-week post session ends
The University

Central Connecticut State University (CCSU) is a regional, comprehensive public university dedicated to learning in the liberal arts and sciences and to education for the professions. Comprising four schools—Arts and Sciences, Business, Education and Professional Studies, and Technology—CCSU offers undergraduate and graduate programs through the Master’s and sixth Professional Studies, and Technology—program (Ed.D.) in Educational Leadership distinctive academic programs of high quality, the University is also a responsive and creative intellectual resource for the people and institutions of our state's Capital Region. Over 85 percent of our graduates remain in Connecticut, contributing to the intellectual, cultural, and economic health of our state.

Founded in 1849 as the New Britain Normal School—a teacher-training facility—CCSU is Connecticut's oldest publicly supported institution of higher education. It became the Teachers College of Connecticut in 1933, and after a period of extensive institutional growth and external expansion it became the Central Connecticut State College in 1959. In recognition of the institution's continual development in mission and aspiration, the present name and educational charter were conferred in 1983. Honoring our "visionary innovations in undergraduate education," the Association of American Colleges & Universities selected CCSU as one of only 16 "Leadership Institutions" in the nation—and the only one in Connecticut.

The largest of four comprehensive universities within the Connecticut State University System, CCSU enrolls nearly 7,000 full-time and more than 5,000 part-time students. The University has a full-time faculty of nearly 400 members, over 70 percent of whom possess the doctorate, and 450 part-time instructors offer an array of distinctive educational and professional experiences.

CCSU is embarked on a major campus renovation program, investing in state-of-the-art technologies and creating a campus of beauty and hospitality to assure the University's place among the finest educational institutions in Connecticut. An expanding network of global study-abroad opportunities and overseas inter-institutional arrangements has made CCSU the state's leading public international university.

Our Mission

Central Connecticut State University is a community of learners dedicated to teaching and to scholarship. We encourage the development and application of knowledge and ideas through research and outreach activities. We prepare students to be thoughtful, responsible and successful citizens.

Central Connecticut State University is, above all else, about teaching undergraduate and graduate students. Our research endeavors improve us as teachers and expose our students to methods of inquiry. The public service expected of all members of our community benefits our society — local and global — and builds our sense of citizenship.

We value the development of knowledge and its application in an environment of intellectual integrity and open discourse. We expect that members of the University will engage in activities ranging from basic research and the creation of original works, to helping individuals and organizations achieve success in purely practical endeavors. All these activities enrich our community of learners.

As a public university, we receive support from the State of Connecticut. We have three designated Centers of Excellence and many nationally accredited programs. We take very seriously our commitment to provide access to higher education for all citizens in this State who can benefit from our offerings. Our high expectations for ourselves contribute to the fine quality and continuous improvement of our undergraduate and graduate programs. We believe that quality and access are compatible and simultaneously achievable; our objective is to provide the support needed for our students to reach their full potential.

We also believe that higher education should promote the personal and social growth of our students, as well as their intellectual achievement and professional competence. We provide various opportunities for students to engage in activities or to join organizations and clubs where they develop leadership and other social skills. We foster a welcoming environment in which all members of our diverse community receive encouragement and acquire self-confidence.

Central Connecticut State University aspires to be the premier public comprehensive university in Connecticut, with teaching as its primary focus, enhanced by the dynamic scholarship of its faculty; be highly regarded by its many constituents; be a significant resource contributing to the cultural and economic development of Connecticut; be global in its perspective and outreach; and be widely respected as a university dedicated to innovative, activity-based, life-long and learner-centered higher education.

Affirmative Action Policy

Central Connecticut State University is committed to a policy of non-discrimination, equal opportunity and affirmative action for all persons regardless of race, color, religion, sex, sexual orientation, age, national origin, marital or veteran status or disability. This policy is applicable to all employment practices, admission of students, programs and services to students, faculty, staff and the community.

The University's affirmative action policy seeks to include persons of color, women, veterans and persons with disabilities in its educational programs and in all job groups of its work force. Further information is available from the Office of University Counsel/Affirmative Action, located in Davidson Hall 104 (832-3025).

Resources

Central Connecticut State University is situated approximately two hour's driving time from Boston, New York City and southern Vermont. The campus, just 15 minutes from downtown Hartford, can be reached from state Routes 9, 71, 2 and 175, and Interstates 84 and 91. It is approximately 25 miles south of Bradley International Airport which serves Hartford and Springfield, Massachusetts.

Advising

Each student is assigned an academic adviser for consultation on course selection and approval of each semester's program of studies. The academic deans, as well as faculty advisers, assist students in a wide range of academic matters. The Office of Registrar helps resolve problems concerning transfer credits, program changes and schedule conflicts. Students who are considering changing majors should contact departmental chairs of their new majors. Undecided students should contact the Advising Center for help in making this decision. For more information on the Advising Center, see page 11.
Alumni Association
The CCSU Alumni Association sponsors programs and services for students, alumni and members of the university community, including an affinity credit card and group insurance programs. The Alumni Association also sponsors Homecoming, Alumni Day, Class Reunions and other social programs for its over 60,000 members. The Association offers its members access to the campus computing facilities (for two semesters following graduation), career and library services, discount tickets to athletic events and exciting travel opportunities.

Governed by a Board of Directors consisting of alumni who volunteer their time to enhance the Association’s programs and its relationship with the University community, the CCSU Alumni Association continues to take a leadership role in CCSU’s growth.

For more information contact the Alumni Affairs Office (832-1740).

Campus Ministry
The campus ministers are available for personal counseling and participation in class­room discussion. They also sponsor retreats and provide a variety of social, spiritual, educational and community programs. Students are encouraged to contact the Ministry Office (Seth North Hall) for further information concerning programs and services of the Protestant, Jewish, Catholic and Islamic Campus Ministries, and the religious student organizations, including Christian Students at Central (CSAC), Hillel Jewish Student Organization and Newman Club.

Copernicus Science Computing Laboratory
The Copernicus Science Computing Laboratory, located in the Francis J. Rio Interdisciplinary Science Center (Copernicus 227), serves the faculty and students in the natural and physical sciences. The Computing Lab houses 20 networked PCs and Macintoshes as well as two laser printers, two inkjet printers, a scanner and a multimedia projector.

Cultural Opportunities
Many cultural opportunities are available to students, both on campus and in the New Britain and Hartford areas.

On campus, the Samuel S. T. Chen Art Center features an array of international, national, and regional artists in exhibits of fine arts, design, and scholastic arts. The Theatre Department facilities include one of the best equipped, flexible, experimental stages in the region. Students may take advantage of concerts, theatre, choral performances, and dance presentations by student groups, faculty, and professional companies from around the world.

The Student Center Program Council Arts Committee is committed to presenting a variety of visual and performing arts. Interested students should contact the Program Council in the Student Activities Office of the Student Center.

In addition to CCSU’s newly renovated Thaddeus L. Torp Theatre, which provides a handsome stage for the performing arts, Welte Hall is “home” for The New Britain Symphony Orchestra four times per year.

Beyond campus, students will find two local, nationally known art museums, the New Britain Museum of American Art and the Wadsworth Atheneum in Hartford. Area theatres, including Hartford Stage, the New Britain Repertory Theatre, TheaterWorks, The Hole in the Wall, the Goodspeed Opera House in East Haddam, and The Bushnell in Hartford, offer a variety of music, drama, and dance. The Bushnell, in fact, is home to the Hartford Symphony Orchestra, Dance Connecticut, Connecticut Opera, Chamber Music Plus! and The Connecticut Forum.

Elihu Burritt Library
The Elihu Burritt Library holds over 650,000 volumes, subscribes to over 3,000 periodical titles and seats 1,800. Its extensive microfiche and microfilm collections provide access to periodicals, newspapers, ERIC documents, corporate annual reports and specialized research collections. The Library serves as a partial federal documents depository and houses a 17,000-volume Polish Heritage Collection, a rare book collection of 16,000 volumes and an extensive curriculum laboratory. Access to research materials is facilitated through CONSULS, the Library's on-line catalog, as well as through searching extensive on-line databases.

Information Services
Information Services (Henry Barnard Hall) coordinates computer facilities for student use in education, research and other academic pursuits.

The Microcomputer Lab (Marcus White Annex) is the primary location for student access to computers and offers more than 225 PC-compatible and Macintosh computers and numerous laser printers. All of the computers offer a wide variety of popular software packages, as well as direct access to the Internet.

Users have access to all of the available hardware and software on a first-come, first-served basis. Student ID cards and proper certification are required to use the lab. Students are certified after passing a simple PC quiz to prove adequate computer knowledge. Training classes are given at the beginning of every semester, and self-paced, computer-aided instruction is also available to supplement, or substitute for, the training classes.

Once certified, a student is issued an NT account, which allows access to all of the software in the lab, as well as to the campus e-mail system. The lab should be used only for class work and other academically related work.

The Learning Center
The Learning Center (TLC) provides a full range of academic support services for students seeking additional help with their coursework. TLC offers individual study skills tutorials, mathematics tutoring, Praxis I practice for students applying for teacher certification, the Mathematics Placement Exam, Methods of Inquiry (a six-week study skills program) and ESL academic support.

Students who wish to establish a strong grade point average are encouraged to visit The Learning Center early in their college experience for assistance with exam preparation, collegiate learning strategies and time management. TLC is located in Copernicus Hall, Room 241 (832-1900). For more information, visit our Web site at www.csu.edu/learnctr/.

The Learning Center also provides graduate assistantships and undergraduate work-study positions for students with strong academic skills who are seeking opportunities to work with other students in a stimulating and supportive environment.

The Mathematics Tutoring Center, located in Copernicus Hall, Room 242, provides drop-in tutoring for lower division mathematics courses. The tutorial schedule is posted in The Learning Center during the first week of every semester. The schedule includes both day and evening hours.

Media Center
The Media Center, located in Willard Hall, coordinates all audio-visual and television services. The Center maintains reference files on instructional materials, film rental sources, film producers and media equip-
ment. Facilities for making instructional materials are available during scheduled times. Faculty and students, with the approval of a faculty member, may request AV/TV equipment for class use.

**Multi-Media Language Learning Center**
The Multi-Media Language Learning Center (Barnard 336) provides students with appropriate technology for language study and cultural enrichment. The lab is equipped with audio, video and laser disk technology, as well as web-capable computers for interactive learning.

**Sports and Recreation**
Central Connecticut State University encourages a balanced program of sports and recreation consistent with the educational responsibilities of the student.

Harrison J. Kaiser Hall houses the Physical Education and Athletics departments, the William H. Detrick Gymnasium seating 3,800 spectators, the Jack Suydam Natatorium, and special function rooms which include a modern Nautilus and free weight training facility. Arute Field is the site of home football games. Other sports facilities include Kaiser Annex, a 37,000 sq. ft. recreational/athletic air-supported structure; tennis courts and fields for soccer, softball, baseball, touch football and recreation.

Intercollegiate athletics are a tradition at CCSU. Varsity contests are scheduled in basketball, cross country, lacrosse, golf, soccer, softball, swimming, indoor and outdoor track, tennis and volleyball for women; baseball, basketball, cross country, football, golf, soccer, swimming, indoor and outdoor track and tennis for men.

CCSU's Blue Devils have gained national recognition on the playing fields. The University is a member of the National Collegiate Athletic Association, the Eastern College Athletic Conference and the Northeast Conference, conducting its athletic programs under the rules of these organizations.

Students may also take advantage of indoor and outdoor facilities for recreational use and intramural programs.

A Title IX Coordinator works with the Athletics Department to ensure Title IX compliance. Title IX is a federal civil rights statute that prohibits gender discrimination in education programs, including athletic programs that receive or benefit from federal funding. The major athletic categories that are analyzed for compliance are: sports offerings, scholarships, and other program areas, including equipment and supplies, coaching, availability, competitive facilities, and tutoring.

**Student Activities/Leadership Development**
The Department of Student Activities/Leadership Development aids student organizations in developing many educational, recreational, social and cultural extracurricular activities. These activities are co-curricular in their goals. One of the major functions of this office is to create opportunities for student leaders to develop, using workshops, seminars, instruction and a recognition program. This office coordinates the Volunteer Assistance Service program. All students are encouraged to volunteer, either on campus or in the greater community, as part of their university experience.

The office is also responsible for advising the Program Council and for the general coordination of student activities. The Department of Student Activities/Leadership Development (832-1990) is located in Seth North Hall (during the renovation of the Student Center).

Detailed information on the Department of Student Activities/Leadership Development is available at the Student Union Web site at http://scoes.ccsu.edu/sald.

**Student Center**
The Student Center, as a student union, is the meeting place of the campus community, providing community service, student development opportunities and various services that support student life.

After over 35 years of service to our campus, the current Student Center facility is undergoing a long-needed renovation and sizable addition. To accomplish the task, the facility is closed until Spring 2002. Most of the services provided by the Student Center have been moved to other locations on campus.

- **Bookstore** – has relocated to the Marcus White basement, just below the Computer Lab.
- **Devil's Den Cafeteria** – a new cash food service called the Trattoria Market has been opened in Memorial Hall, first floor. The Grand CENTRAL Café, also in Memorial Hall, expanded its menu and hours to accommodate food service needs.
- **Information Desk** – has moved to Memorial Hall in the same location as the Trattoria Market. Periodicals, newspapers, emergency car equipment and, of course, information can be found here.
- **CENtix Box Office** – at the Information Center in the Trattoria Market.
- **Mailboxes** – Memorial Hall in the Trattoria Market.
- **Breakers Game Room** – basement of Seth North Hall
- **Lounges** – new lounge space was added to the Burritt Library, as well as small lounges in Seth North Hall. The Trattoria Market and the Grand CENTRAL Café will also be open extended hours to provide lounge and study space.
- **CyberTypos** – communication stations were relocated to Memorial Hall in the Trattoria Market and also in Seth North Hall. Web and e-mail access will be available at 10 stations throughout the day and on weekends.
- **Social Programs** – usually produced in the Ballroom and Semesters in the old Student Center, these programs are now housed in Memorial Hall, the Grand CENTRAL Café, and in the newly renovated University Theatre located in Davidson Hall.
- **Student Center Offices** – Seth North Hall
- **Student Activities/Leadership Development Offices** – Seth North Hall
- **Student Club and Organization Offices** – Seth North Hall

As always, the Student Center will continue to support student participation in its operations and provide valuable life skills and professional training through employment opportunities. The Center’s S.T.A.R. Development Program is designed to increase self-confidence and motivation, teach marketable skills and provide a forum for students to test career options and explore academic interests through employment.

Volunteer positions are also available on the Student Union Board of Governors and its committees. In these positions, students interact closely with other students, staff and administrative faculty who are involved in the Student Center’s mission of service to the campus.

Updated information of services and service locations, as well as progress on the construction of our new Student Center, is available at the Student Union Web site at http://scoes.ccsu.edu/.
Women's Center
The Ruthe Boyea Women's Center, named for its founding director, is a multi-purpose program and service center for students, staff and faculty. The center offers a variety of services for and about women, including peer education, re-entry counseling, support groups, crisis intervention, a luncheon series and programming and research on women's issues. The staff of the center also sponsors educational and cultural programs in response to the needs and interests of campus women. The Ruthe Boyea Women's Center is located on the third floor of Seth North Hall (832-1655). Both men and women are welcome.

Writing Center
The Writing Center (Willard Hall, Room 305) provides one-to-one tutorials and small-group workshops to help members of the CCSU community improve their writing in areas such as drafting compositions, preparing research papers and taking essay exams. Appointments for tutorials are available Monday through Friday from 9 a.m. to 4 p.m. by calling 832-2765.

Services
Academic Center for Student Athletes
The Academic Center for Student Athletes (ACSA) serves as a comprehensive program providing academic support for CCSU's intercollegiate student-athletes. The Center's staff assists student-athletes during team study halls and one-on-one meetings by introducing them to time management tools, learning strategies and campus resources. The Center, located in the library, is equipped with computers and provides a comfortable environment for studying. ACSA is also affiliated with the NCAA Champs Life Skills Program and offers a variety of life skills programs each year.

Advising Center
The Advising Center assists students in developing and implementing academic and career plans. For new students, the Advising Center provides pre-registration advising on University requirements. The Advising Center, in collaboration with the Dean of Arts and Sciences, coordinates the advising of all students who have not chosen a major. The Center also advises Pre-Social Work and Pre-Communication majors. For students who are uncertain about their major or their career plans, the Advising Center offers several self-assessment instruments to clarify values and to identify interests and career options. Advisers can help students select experiential learning opportunities such as internships, community service, student activities and cooperative education. If career plans involve graduate study, the Advising Center has preliminary graduate school information and also refers students to faculty advisers who can assist them further. The Advising Center serves both faculty and students as a resource center for developmental advising.

Campus Mediation Services
Campus Mediation Services recognizes that conflicts are a part of everyone's life. Its purpose is to help students responsibly and constructively solve their own conflicts. Sometimes people are unable to resolve their own conflicts by themselves, and they need someone to help.

Mediation is a voluntary, confidential and structured process of resolving disputes and conflicts with the help of a neutral third party. A mediator helps disputing parties to generate and evaluate options for reaching a mutually acceptable agreement. Often students in conflict don't have an opportunity to talk over their grievances in a neutral setting and to work together to find their own solutions. As a result, anger and frustration grow. Mediation is a workable alternative.

Campus Mediation Services is conducted on an as-needed basis. For questions regarding Campus Mediation, please call Natalie Stimpson-Byers, Assistant to the Vice President for Student Affairs; Davidson Hall, Room 106, 832-1603.

Career Services and Cooperative Education
The University Career Services Office provides a comprehensive program of career services to all students. Graduating students are provided assistance with making the transition to employment through workshops on resume writing, interviewing techniques, job search strategies and information on employment. Recruiters from major area corporations, government agencies and school systems visit the campus as a part of the year-long campus recruiting program. In addition the office maintains listings of full- and part-time jobs which can also be accessed through the Career Services/Co-op homepage (http://www.ccsu.edu/career/) and the Voice Job Line (832-1647).

Experiential education is a major focus for both undergraduate and graduate students. Career Services coordinates the University's sizable Cooperative Education Program which is described in detail on page 81 of this catalog. Through this program, students work at six-month, paid positions which are related to their major field of study and provide them with real world experience.

Career Services also helps students to access paid and unpaid internship opportunities through which students develop professional skills and test out their career goals.

Center for Caribbean/Latin American Studies
The Center for Caribbean/Latin American Studies, located in Burrritt Library, seeks to fulfill three of the University's primary goals. CCSU aims to be of service to the communities of central Connecticut, in particular, and the state in general; the University seeks a meaningful international presence in a variety of geographical areas; and CCSU is committed to nourishing efforts that foster a respect for the state's many ethnic communities.

To help achieve these goals the Center has faculty and student liaison agreements with a variety of institutions of higher learning: The Pontifical Catholic University of Puerto Rico; the University of the West Indies in Jamaica, Barbados and Trinidad; the eight branches of Interamerican University in Puerto Rico: the College of the Bahamas; and the Pontifical Catholic University, Madre y Maestra, in the Dominican Republic. The Center for Caribbean/Latin American Studies sponsors a variety of community events and also supports an active research facility.

Center for Public Policy and Practical Politics
The Center for Public Policy and Practical Politics, located in the Robert C. Vance Academic Center, has been designated as a Connecticut Higher Education Center of Excellence. The Center and the William A. O'Neill Endowed Chair in Public Policy and Practical Politics incorporate innovative and excellent academic, research and outreach programs based on a commitment to serving individuals and institutions in our state, and encouraging active participation.
in local and state affairs through thoughtful citizenship and public service. These programs include: the archiving of the papers of former Governor William A. O'Neill, and, in the future, those of other former governors of Connecticut, as well as principal legislators and General Assembly Committees; an active program of oral history; and the annual Critical Issues Symposium. The Center, working closely with the Schools and academic departments, plans to develop an interdisciplinary Connecticut Curriculum and outreach programs of informational and training assistance to Connecticut's municipalities and non-profit organizations.

China Resource Center
Building on the 30 years of success of the University's Asian Studies programs, the China Resource Center advances academic and developmental initiatives for CCSU in China. The China Resource Center, housed in the George R. Muirhead Center for International Education, works closely with all academic units within the University to initiate and promote programs involving student education, faculty development, outreach to communities, partnerships with Chinese universities and linkage to Connecticut businesses and industries. The Center sponsors lectures and workshops to educate the Connecticut public about the culture, politics and history of China. Committed to linking business and education in a dedicated effort to prepare CCSU graduates for the global economy in which they will live and work, the Center provides student internships and other exposure to the international professional arena. In addition to informational seminars and workshops on the Chinese cultural and business environment, the China Resource Center works closely with other organizations, such as the Connecticut China Council, to promote Chinese market opportunity and professional experience to CCSU students.

Early Alert Program
The Operation Early Alert early intervention program exists to intervene with students that have poor grades or attendance. Poor academic performance or attendance can often be a symptom of a deeper problem for a student. If we can meet with and help the student early in the semester, there is a better chance of facilitating academic success. Faculty, administrators, staff, and students are encouraged to refer students having difficulty in class to ensure a successful completion of course studies. For more information, contact Natalie Stimpson-Byers, Assistant to the Vice President for Student Affairs: Davidson Hall, Room 106. 832-1603.

The George R. Muirhead Center for International Education
Established by the Board of Governors for Higher Education in 1987 as a statewide Center for Excellence in International Education, the George R. Muirhead Center for International Education is the cornerstone of the University's unwavering commitment to international education. The Center contributes to the University’s mission by developing and supporting internationally focused programs, both academic and extracurricular, and providing a forum for students, faculty, staff, and alumni to pursue common interests with partner institutions around the globe. Working in partnership with the University's academic departments and programs, such as the International and Area Studies Program, the Center promotes the concept of graduating globally competent students.

Through the extensive network of university partnerships around the world, the Center makes many overseas study options available. In any given year, the Center offers programs in Europe, the Caribbean, West Africa, the Middle East, and Latin America, and new programs continue to be developed and nurtured. CCSU students are strongly encouraged to pursue overseas study as part of their academic program, whether long-term study through the Study Abroad program or short-term study through a course taught abroad. By living and learning in another culture, CCSU students are prepared for the increasingly integrated and independent world around them.

The Center also welcomes a growing number of international students to campus each semester. From the moment they are recruited until graduation and beyond, the Center advises and supports international students as they pursue their studies on our campus. Through intercultural programming, which brings students of many different cultures and origins together, the Center fosters a spirit of cross-cultural understanding, where everyone involved has the opportunity to learn about someone else's customs and values, learning about themselves in the process.

Pre-Collegiate and Access Services
The office of Pre-Collegiate and Access Services coordinates the Educational Opportunity Program, CCSU's Connecticut Collegiate Awareness and Preparation Program (ConnCAP) and the Upward Bound program at Central Connecticut State University.

The Educational Opportunity Program (EOP) is a five-week summer program designed for students who have the potential to do college-level work but do not meet CCSU's regular admissions standards. EOP students live on campus in CCSU residence halls during the summer with all expenses paid, including books, tuition, room and board.

Graduates of the summer program are admitted to CCSU as full-time students in the fall. EOP students participate in ongoing orientation and tutoring programs throughout their first year and receive support services all through their college experience. EOP alumni actively support CCSU and EOP through their contributions to student scholarship funds and mentoring activities with EOP undergraduates.

This program is limited to 50 Connecticut residents who have graduated or will be graduating from an accredited Connecticut high school or have attained their General Equivalency Diploma. Students must demonstrate a financial need. EOP is not open to transfer students.

CCSU's Connecticut Collegiate Awareness and Preparation Program and Upward Bound are college preparation programs serving 170 low income, first generation college-bound middle and high school students from New Britain and Bristol. The goal of the programs is to increase the number of students who complete high school and successfully enroll in post-secondary education. Working cooperatively with the middle and high schools in these cities, the programs provide a wide range of activities and services to strengthen academic skills, self-esteem, motivation and a love of learning. Services and activities take place year round in the middle and high schools and on CCSU's campus in the summer.

For more information on these programs, contact Avilda Reasco, Director, Pre-Collegiate and Access Services, Copernicus Hall, Room 205 (832-1902).
Prevention and Counseling Services
The mission of the University Prevention and Counseling Services is to promote the health and wellness of all members of the CCSU community through a variety of prevention programs, and to provide individual, family and group counseling services to students who may be experiencing psychological or behavioral problems. All counseling services are confidential and no fee is charged. Every effort is made to help students feel welcome and able to comfortably discuss their concerns.

Some of the prevention programs sponsored by this department include the Natural Helpers Program, alcohol education classes, prevention education programs on a range of behavioral health issues and training for student leaders, staff and faculty.

Individualized development of student internships, practicums and assistantships is also available to qualified students. The department is located in Willard Hall, Room 100 (832-1945).

Special Student Services
The Office of Special Student Services assists students with disabilities (including visual, hearing, physical, psychological and all forms of learning disabilities) in obtaining the services they need to access a quality education. A wide range of services is available, including personal counseling, academic advising, certified sign language interpreting and priority scheduling. In addition, assistance is provided in securing readers, distraction-reduced testing locations, textbooks on tape, accessible on-campus housing, elevator keys, reserved handicapped parking and classroom relocation, if inaccessibility exists.

Academically-prepared students with disabilities are encouraged to meet with Dr. George Tenney, director of the Office of Special Student Services, Willard Hall, Room 100 (832-1955), TDD (860) 832-1958, or with Ms. Natalie Stimpson-Byers, Assistant to the Vice President for Student Affairs, Davidson 106 (832-1603), for assistance in application and educational planning.

Student Judicial Programs
The Office for Student Judicial Programs administers the discipline system for all full- and part-time students. The goal of the Office for Student Judicial Programs is the resolution of discipline cases in a manner consistent with University policy and applicable state and federal laws. This office assists with the coordination of discipline referrals to counseling or alcohol and other drug education programs.

In addition, this office is responsible for the development and coordination of a variety of special activities designed to educate students, faculty, and staff concerning the student discipline system. It is also responsible for developing ways to effectively respond to incidents or issues which threaten to disrupt the learning environment. The Director for Student Judicial Programs is available to all students, faculty, and staff who may have questions or concerns regarding the University Judicial System. The department is located in Barrows Hall, Room 110 (832-1667).

Tourism and Hospitality Institute
The provision of a solid market research component in today's business world is essential. It provides data for problem solving, forecasting for proactive initiatives and an assessment of the overall health of the business. To date, the tourism industry in the State of Connecticut has enjoyed excellent growth. However, there is a lack of solid empirical data on which to base future marketing decisions, and the performance of the industry is little known and by default anecdotal in nature.

In February 2001 the CCSU Tourism and Hospitality Institute was created to rectify this deficiency and put the marketing of Connecticut tourism on a sound research base. This research institute will provide accurate and timely market research for the state's tourism industry. In the process, the Institute will involve the student body in the outreach of the University and thus provide an introduction and experience in the business world.

University Ombudsman
The University Ombudsman serves as a prompt, impartial and confidential resource designated by the University to assist members of the campus community to resolve issues of concern or dissatisfaction arising from the actions or inactions of other members of the University community. The Ombudsman also helps the University to develop, implement and maintain policies and procedures which equitably address the rights and responsibilities of everyone on campus. The University Ombudsman can be a last resort, offering help when regular channels have failed, as well as serving as an information resource, offering guidance for those who don't know where to begin. The office of the University Ombudsman is located in Barnard 104 (832-3020).

Veterans Services
The Office of Veterans Services (Davidson 117) assists eligible students to obtain tuition waivers and educational assistance benefits from the Veterans Administration. Questions concerning benefits and eligibility should be directed to the veterans services coordinator (832-1785).
Admission may be obtained from the Office waiver form is submitted by one of the following: 1) a recognized Talent Search or NTAC, 2) the College Board or 3) CONEQUivalency diploma.

First-Year Student Admissions

First-year applicants should submit the completed Application for Undergraduate Admission to their secondary school guidance counselor or principal. The guidance counselor or principal should then attach the applicant's high school record to-date, along with an estimate of the applicant's rank in the graduating class, Scholastic Assessment Test I (SAT I) scores and letters of recommendation, and submit the application packet to the Office of Admissions.

Hand-carried or student copies of credentials are not accepted as official. Alien residents should submit a copy of their green card.

Admission criteria include graduation from an accredited secondary school with college preparatory work in the following areas:

- **English** (four units) — courses should emphasize writing skills, literature and reading comprehension.
- **Mathematics** (three units) — courses should include Algebra I, Geometry and Algebra II. A fourth unit in trigonometry, analytical geometry or pre-calculus is recommended for students planning to take calculus at CCSU.
- **Science** (two units) — courses should include one unit of a laboratory science.
- **Social Sciences** (two units) — courses should include one unit of United States history.
- **Foreign Language** — three years in the same language is recommended.

Students whose preparation does not follow this pattern may still qualify for admission if in the judgement of the Director of Recruitment and Admissions there is strong evidence that they have the potential to complete a degree program or if they meet other established criteria as authorized by the University President under authority delegated by the Board of Trustees of the Connecticut State University System. Applicants who are not graduates of a secondary school should submit their secondary school transcript up to the time of withdrawal and a copy of their high school equivalency diploma and scores.

Decisions are based on the applicant's secondary school record, rank in class and scores on the SAT I. For some applicants, an interview with a representative of the Office of Admissions may be necessary. It is desirable that applicants rank in the top half of their high school graduating class, present at least a C average in each of the five college preparatory areas and obtain at least 480 on the verbal portion and 450 on the math portion of the SAT I.

The Scholastic Assessment Test I (SAT I) of the College Entrance Examination Board (CEEB) is required of all first-year student applicants. Applicants should arrange to take the test through their high school guidance counselor. Information on the test can be obtained from their high school or by contacting College Board Admissions Testing, P.O. Box 6200, Princeton, NJ 08541-6200, telephone (609) 771-7600; or on the Web at: www.collegeboard.com. Applicants should have the test results sent from CEEB to the Office of Admissions. CCSU CEEB code is 3898. In special cases, the submission of SAT I scores may be waived at the discretion of the Director of Admissions (i.e., for applicants who graduated from high school several years before applying, veterans and other adult learners).

Advanced Placement (AP): CCSU accepts for college credit, Advanced Placement (AP) courses taken in high school under the auspices of the College Entrance Examinations Board's Advanced Placement Program, provided the student scores a minimum of 3 on the test. Official scores should be submitted for consideration. When credit is awarded, it is entered on the student's college transcript, but the grade is not included in the college grade point average.

Special Students

Academically qualified students with special needs are encouraged to apply to the University early. Applicants seeking admission...
to the fall term should submit applications and supporting credentials by April 1. Applicants for the spring term should submit applications and supporting credentials by November 1.

Students with special needs are advised to register for the SAT under the program entitled "SAT Services for Students with Disabilities." Information pertaining to this program may be obtained by contacting SAT Services for Students with Disabilities, The College Board, P.O. Box 6226, Princeton, New Jersey 08541-6226. Phone: 609-771-7137; TTY: 609-882-4118; fax: 609-771-7944; e-mail: sat.ssd@ets.org.

Upon acceptance, students with special needs requesting accommodation under ADA/504 must submit relevant documentation to substantiate their disability. Students with specific learning disabilities and attention deficit disorders need to submit psycho-educational evaluations that are not more than two years old prior to the time of application.

For additional information, contact Dr. George Tenney, director of Special Student Services (Willard Hall, Room 100) at 832-1955 or 832-1957.

Courses for Qualified High School Students

When space is available, Central Connecticut State University will allow qualified high school students to enroll in college courses prior to graduation from high school. Students should be recommended by their high school principal and approved by a CCSU department chair for appropriate college course work. For information on enrollment, contact the Office of Continuing Education/Enrollment Center (832-2255).

Transfer Student Admissions

Transfer students should send applications directly to the Office of Admissions. A student wishing to transfer to Central Connecticut State from another institution of higher learning must complete an application for admission and have official transcripts sent directly from each high school and post-secondary school attended. Hand-carried transcripts and transcripts sent by students are considered unofficial, even when they carry the college seal or signatures that are placed on official records. Failure to list all institutions or to provide official transcripts may be considered sufficient reason for refusal of admission or dismissal from the University.

Transfer students who have earned a minimum of 12 credits (not including remedial course work) at other higher learning institutions need not present scores on the SAT I. To be considered for transfer admissions, an applicant must have earned a minimum of 12 credits, not including remedial work, and have a cumulative college grade point average of 2.00 or higher for all course work attempted.

Connecticut Community Technical College Transfers

All graduates from transfer programs of the Community Technical Colleges of Connecticut who have earned an associate's degree with a minimum 2.00 GPA (cumulative grade point average) are admissible to Central Connecticut State University. Transfer credits will count toward degree requirements as determined by equivalency to CCSU courses. A minimum of two additional years of full-time study is required to complete a baccalaureate degree. Qualified students may also be admitted prior to conferral of the associate's degree.

Transfer applicants holding the associate's degree from the Board of State Academic Awards (Charter Oak State College) are also admissible to CCSU.

Students considering transferring to CCSU in the second semester are advised to apply well in advance of the date on which classes begin.

International Student Admissions

International students should complete the Application for International Undergraduate Admission, which may be obtained from the Office of Admissions. A prospective student should submit the completed application, the non-refundable application fee and all required supporting credentials by the following deadlines: Fall (August – December) semester candidates should submit applications by April 1; students applying for the spring (January – May) semester should apply by November 1. All credentials submitted by the applicant become part of the student's permanent CCSU file and are not returned.

All graduates from transfer programs of the Community Technical Colleges of Connecticut who have earned an associate's degree with a minimum 2.00 GPA (cumulative grade point average) are admissible to Central Connecticut State University. In general, credits from other regionally accredited colleges and universities will transfer, provided that the courses are similar in scope and content to those offered for credit at CCSU and a grade of "C" or better was earned in the course. Specific questions concerning transfer evaluations should be addressed to the Office of Admissions. Please note, regardless of the number of credits transferred, a student must complete a minimum of 45 credits at CCSU in order to earn the University's bachelor's degree (see Academic Standards and Regulations: Residence Requirements for Degree).

Students currently enrolled in another college should have their official final transcripts submitted to the Office of Admissions after their grades have been posted so that their evaluation can be updated. Transferring students are responsible for submitting course descriptions, if requested.

Credit by Examination: A student may earn up to 30 credits at CCSU by examination. Departmentally approved Subject Examinations from the College Level Examination Program (CLEP) of the College Board, or from any other nationally recognized
standardized examination program, will be recognized by CCSU. Official results of such examinations should be submitted for consideration.

- Credit for Armed Forces: Credit may also be awarded for military service schools and/or United States Armed Forces Institute (USAFI) credit courses (taken after 1945) if validated by a certified USAFI Center. Official documents should be submitted for consideration.

- Evaluation of Work Done Outside the United States: Credit may be awarded for work completed at institutions outside the United States. Students are responsible for submitting international transcripts to an evaluating agency recognized by the National Association of Foreign Student Affairs (NAFSA). After the Office of Admissions has received the agency's evaluation, it will assess the agency's recommendations to determine accreditation and transferability of credit. A minimum grade of "C" must be earned for a course to transfer. For more information on NAFSA recommended agencies, contact the Office of Admissions.

Students who are seeking admission to the Professional Program in Education (B.S. or Post-Baccalaureate teacher certification) should have as part of their admission file an evaluation of their foreign credentials by one of the following agencies:

Center for Educational Documentation
P.O. Box 326
Boston, MA 02130
Phone: 617-522-4738
(Course-by-course evaluation fee: $90)

Educational Credential Evaluators, Inc.
P.O. Box 92970
Milwaukee, WI 53202-0970
Phone: 414-289-3400
(Course-by-course evaluation fee: $125)

Re-Entry Admissions
A student who was formerly matriculated at Central Connecticut State University and subsequently withdrew voluntarily, or at the request of the University, must request reactivation of his or her former file when seeking readmission to the University. A Reactivation Request form may be obtained from the Office of Admissions or the Enrollment Center. The student must be in good academic standing at CCSU, as outlined in this catalog, or the student must have been granted reinstatement on probation by the dean of the school the student is attempting to re-enter. Students on academic dismissal who are seeking reinstatement as a matriculated student should begin the process by meeting with a counselor from the Office of Admissions. Normally a student must wait at least one semester before being considered for reinstatement.

Students who re-enter to complete a degree after a two-or-more year absence must fulfill the requirements of the General Education Program that were in place at the time of their original matriculation unless they file a General Education Program Change Form requesting to follow the requirements for the General Education Program that are in effect on the date of re-entry. On re-entry, all students should consult with an adviser regarding this choice. Adviser assignments, as well as General Education Program Change Forms, are available through the appropriate Dean's Office and the Advising Center.

For requirements concerning a previously declared major or minor, a similar choice may be available except for requirements and curriculum changes mandated by outside accrediting and certifying agencies and additional course work required by the department or area offering the major or minor as evidence of current knowledge of the discipline. Re-entering students should consult with the department chair or a designated adviser within their major to discuss such choices and changes.

Fresh Start Policy
At the discretion of the Vice President for Academic Affairs or designee, a student whose college career has been interrupted three years or more may be considered for a "Fresh Start." Under this option, the Office of the Registrar initiates a new GPA for the student, beginning with his or her second matriculation, and uses this new figure for graduation purposes. Each case is decided on its own merits, and each decision has advantages and disadvantages. Students returning to the University for full- or part-time study after a long interval should consult the Office of Admissions.

Guidelines for the Fresh Start Program are:

- During the first semester back at CCSU, the student shall be restricted to 16 credits or less.
- Graduation requirements shall be those listed in the catalog at the time of re-entry.
- The option can be used only once.

Veterans/Reservists/National Guard
Upon acceptance to Central Connecticut State University, veterans should register with the Office of Veterans Services to apply for V.A. educational benefits. The Coordinator is located in Davidson Hall, Room 117 (832-1785). Eligibility for educational benefits lasts 10 years from the date of separation and, in some instances, depends on whether contributions were made to an educational plan while on active duty.

An original certified copy of the DD Form 214 (separation papers — copy number 4) should be submitted to the Office of Veterans Services if applying for the tuition waiver. National Guard members apply for the tuition waiver through their Guard unit.

Medical Exam
All full-time students are required to submit a medical history, current immunization record and physical examination form signed by a physician. Additionally, if the student is under 18, the parent or guardian must sign for permission for medical treatment. All part-time matriculated students are required to submit the necessary immunization requirements in keeping with the policy of the State of Connecticut Department of Health Services.

The completed health form must be returned to University Health Service one week prior to registration at the University. Failure to submit the required medical information may result in the withholding of registration schedules, grades or housing assignments until the obligations have been met. The health form is available in the University Health Service, Marcus White Annex (832-1925).
ENROLLMENT CENTER — CONTINUING EDUCATION AND SUMMER AND WINTER SESSION

Peggy Schuberth, Director of Continuing Education and the Enrollment Center
Thomas Eisenlohr, Associate Director
Drina Lynch, Associate Director
Rita Brann, Assistant to the Director
Phone: (860) 832-2255

The Enrollment Center, Willard Hall Lobby, is a centralized service center for all students (full- or part-time). Students may obtain all forms needed to initiate administrative and academic actions at the Center. The Center’s hours of operation are Monday through Thursday, 8 a.m. to 7 p.m.; Friday, 8 a.m. to 4 p.m. and Saturday morning, during the academic year, 7:45 a.m. to 12 noon.

Part-time Matriculant Program
Application for undergraduate part-time degree study is made in the Office of Admissions, Davidson Hall (832-2278). Students who choose to undertake or to complete an undergraduate or graduate degree on a part-time basis register for courses through the Enrollment Center/Office of Continuing Education, Willard Hall Lobby.

Part-time students may enroll in day or evening classes. Saturday morning classes are also available. The Continuing Education bulletin and/or registration booklet provide all the details and fees.

Persons having a high school diploma or an equivalency diploma may earn college credit by registering in university courses through the Enrollment Center/Office of Continuing Education. Others may enroll, for no credit, as auditors.

Course Load and Credits. Part-time undergraduate students may register for up to a maximum of 11 credits.

To maintain their status, PTMs must register for classes in at least one of the regular academic semesters each year.

Non-matriculated undergraduate students must apply for matriculation (acceptance into a planned program of study) before 30 credits are completed. Students will not be allowed to matriculate after completion of 30 credits without specific recommendation of an academic dean of the University.

Advisement. Undergraduates who plan to work toward a degree and need advice on course selection should consult an adviser in the Advising Center (832-1615) before registration. Undergraduate part-time matriculants are assigned an adviser in their major department.

The School of Graduate Studies. Information about graduate courses or master’s and other advanced programs may be obtained from the Graduate Catalog or from Graduate Admissions (832-2350) or the Office of Graduate Studies (832-2363).

Summer and Winter Session
All CCSU students receive a special Registration Bulletin listing Summer and Winter Session courses. Registration takes place at the Enrollment Center/Office of Continuing Education. Summer and Winter Session courses allow students to accelerate their programs, make up work or take advantage of special offerings.

Summer Session. During the summer, Central Connecticut State University operates two five-week sessions, one eight-week session and a three-week post-session. Courses, both undergraduate and graduate, are offered in the day and evening.

Summer sessions are designed to provide opportunities for 1) incoming first-year students who wish to accelerate their college work by entering the University before the beginning of the academic year, 2) students from other colleges, 3) Central Connecticut State students who wish to accelerate their studies toward a degree, 4) teachers and other graduate students who wish to pursue a master’s or other advanced degrees, 5) graduates of other colleges interested in meeting certification requirements for teaching and 6) qualified high school students seeking college-level courses.

Residence accommodations and meals are available. Commuting students may arrange for lunch and/or dinner at the University. The University Library, the Student Center and other facilities are available.

The maximum course load is seven credits during each five-week summer session and eight credits during the post-session. The eight-week session is counted as part of the first five-week session.

Winter Session. During the winter break, Central Connecticut State University operates an intensive three-week Winter Session. Over 100 credit courses are offered, allowing students to accelerate their college work. The maximum course load is four credits.
EXPENSES 2001–2002

Charles G. Wallach, Bursar
Phone: (860) 832-2010

(Fees and due dates are subject to change without notice.)

A Sickness Insurance Fee of $118 is billed to all students in the fall semester, and $164 in the spring semester. Those who already have adequate insurance may complete a waiver form available through the Bursar’s website at www.bursar.ccsu.edu or www.student-health-insurance.com.

Special fees are charged while participating in the Cooperative Education Program ($200/semester), Applied Music ($300 ½ hour, $400/1 hour), Orientation Program ($65) and specific Design courses ($65 Design Lab Fee).

Payment of Tuition and Fees
All students when first accepted for admission or re-admitted to Central Connecticut State University are assessed a non-refundable $150 confirmation deposit. The balance of tuition and fees is due July 15 for the fall and December 15 for the spring.

Room and Meals
A non-refundable $140 room deposit from those who are currently residing in the residence halls is due April 1 for the fall semester and November 1 for the spring semester. The balance is due July 15 and December 15. Room costs are $3,607 for all others.

Students assigned to residence halls following those due dates will be contacted. Failure to pay room charges by the due date indicated on the bill will cause cancellation of the student’s housing.

All students residing in residence halls are required to participate in one of several Meal Plans. The Meal Plan Fee is due when room balances are paid. Currently there are five meal plans ranging in price from $1,215–$1,380 per semester. Students cancelling their room reservation within the four weeks prior to the start of classes will be subject to a cancellation charge.

Fee Schedule and Refund Policy
Full-time students contemplating withdrawal from the University must complete a formal application with the Registrar (Davidson Hall 117). All applicable refunds are automatic upon formal withdrawal from the University.

Part-time students dropping a course must inform the Continuing Education Office in writing at the time of withdrawal. Withdrawal forms are available in the Enrollment Center. Failure to officially withdraw will result in an automatic “F” for the course.

Students (part-time and full-time) withdrawing from the University who are recipients of Title IV Student Financial Assistance (Federal Stafford Loans, Federal PLUS Loan, Federal Perkins Loan, Federal Pell Grant, Federal SEOG) are affected by a different refund schedule than outlined below. A complete text of the Title IV refund policy is available in the Financial Aid Office.

NEW STUDENTS (first-time and full-time) AND RETURNING STUDENTS (fall-time) — REFUND POLICY FOR STUDENTS NOT RECEIVING TITLE IV STUDENT FINANCIAL ASSISTANCE

Tuition and Fees
• Upon withdrawal from the University, up to and including the first day of classes, 100% of the balance paid will be refunded.
• 60% of the balance will be refunded during the first two weeks of classes;
• 40% of the balance during the third and fourth weeks of classes;
• No refund after the fourth week.

Housing Deposit, $140
• Non-refundable

Housing Fee — Less Deposit (applies to students who withdraw from University)
• Upon withdrawal from the University, up to and including the first day of classes, 100% of the balance paid less the housing deposit will be refunded;
• 60% of the balance will be refunded during the first two weeks of classes;
• 40% of the balance during the third and fourth weeks of classes;
• No refund after the fourth week.

Housing Cancellation Fee — Less Deposit (applies to students who remain enrolled but withdraw from university housing)
• No refunds will be made after the beginning of classes.
• Not withstanding this policy, a student may receive a 100% refund, up to and including the first day of classes, if room occupancy is at 100%.
• 60% of the balance will be refunded during the first two weeks of classes if room occupancy is at 100%.
• 40% of the balance during the third and fourth weeks of classes if room occupancy is at 100%.
• No refund will be made after the fourth week.

MEAL PLAN FEES

Meal Plan Fee
• Refundable, on a daily prorated basis, upon withdrawal from university housing or the University.

ALL PART-TIME STUDENTS AND SPECIAL SESSION STUDENTS (Summer and Winter) — REFUND POLICY FOR STUDENTS NOT RECEIVING TITLE IV STUDENT FINANCIAL ASSISTANCE

Registration Fee
• Non-refundable
EXPENSES 2001–2002

Course Fees
Fall and Spring Semesters:
• 100% of course fee through the first week of classes for a full semester course;
• 50% of course fee through the second and third week of classes for a full semester course;
• No refund after the third week of classes.

Courses meeting for eight weeks:
• 100% of course fee through the first week of classes;
• 50% of course fee through the second week of classes;
• No refund after the second week of classes.

For courses that meet other than the fall, spring, and summer semesters, refund policies in Continuing Education will be adjusted to the length of the individual academic program. These refund policies will be published in the registration bulletin.

Summer Session:
Courses scheduled for five weeks or longer:
• 50% of course fee through the second week of classes;
• No refund after the second week of classes.

Non-Credit Courses:
• These refund policies will be published with registration materials.

Refund checks are sent directly to students. Please allow up to four weeks. Credit card adjustments are credited to the cardholder's account.

Note: All refunds will be made automatically upon formal withdrawal from the University.

Refunds of Tuition and Fees Under Unusual Circumstances
Under circumstances beyond the control of the student or in cases where attendance has been denied by the University, the University President may authorize the refunding of fees otherwise designated as non-refundable.

Non-Refundable Fees
For all students, the application fee, admission deposit, residence hall deposit, late fee and returned check service charges are non-refundable.

Off-Campus Students Rent
Students living off-campus will pay their room rent directly to the landlord. Such students may arrange with the Office of the Cashier for participation in a University Meal Plan at the same rate as for on-campus students.

Late Fee
A late fee of $50 is assessed a student paying tuition/fees after the due date.

Returned Checks
A service charge of $25 is assessed for a check returned for any reason. The University will not accept personal checks presented in the future by persons who have previously submitted non-negotiable checks.

Certificate of Residence
Tuition and fees are determined on the basis of Connecticut or out-of-state residency.

Failure to disclose fully and accurately all facts related to residence shall be grounds for disciplinary action.

To be considered for in-state tuition, students who have been classified as “out-of-state” when first admitted should obtain a Residency Reclassification Affidavit from the Registrar in Davidson Hall, Room 117, and return it to that office with all appropriate supporting documentation.

Unpaid Obligations
The Bursar will cause appropriate administrative action which may include the following measures being imposed on individuals who have unpaid financial obligations to the University:

a. withholding of University services, course registration materials, transcripts of grades or other official papers
b. bar against re-admission
c. deny Continuing Education course registration
d. referral of the unpaid financial obligation to the University's collection service

CENTRAL Payment Plan (CPP)
The CENTRAL Payment Plan is an alternative to the standard semester payment of tuition, fees, room and meals. This plan is available to full-time students only. For the parent or student who finds it more convenient to make installment payments, the CPP is the solution. The CPP is an payment plan that allows all CCSU charges to be paid in three installments per semester. Fall semester installment payments are made monthly, beginning July 15 and ending on September 15. Spring semester installment payments begin December 15 and end on February 15.

There is an enrollment fee for this service but no interest charge. The fee is $30 per semester. Students desiring to be enrolled in the CPP may complete the Enrollment Form found on their billing statement.

All questions concerning the CENTRAL Payment Plan (CPP) should be directed to the Bursar's Office-CPP Customer Service at 832-2220, or visit www.bursar.ccsu.edu. Office hours are weekdays 7:30 a.m. to 5:00 p.m.; after hours or weekends, please leave a phone message.

Campus Debit Card (Blue Chip) Accounts
Each student at the University has the opportunity to establish a campus debit card account, called a “Blue Chip” account. This account is associated with the student's campus identification card. Photo identification cards are mandatory for all full-time students, faculty and staff; part-time students are encouraged to do so for library and computer lab services. The CCSU Card Office manages the photo ID system and Blue Chip accounts. The identification card (Blue Chip Card) is a campus debit card. A student may use funds on deposit to make purchases on campus in various cafeterias (including all Memorial Hall dining areas, Grand CENTRAL Cafe coffee shop and Trattoria) and in the campus Barnes and Noble Bookstore. Purchases may now be made using the Blue Chip Card in all campus vending machines, including campus copiers, residence hall laundry machines and at many off-campus food locations. Information on off-campus locations is available at the Card Office or on the Card Office website.

The University has an agreement with EDCONN Federal Credit Union to provide bank accounts associated with the Blue Chip Card. This allows students to have a regular bank account as well as the campus debit card account. Students will also have regular banking privileges associated with the Blue Chip Card. Students receiving financial aid may choose to have excess financial aid electronically deposited to an EDCONN bank account or to their campus debit card account. In addition, students working on campus may have their paychecks electronically deposited to the bank account. Students may use the Blue Chip Card as an ATM card.
with on- or off-campus ATM machines. EDCONN’s CCSU office is located in Barnard Hall, Room 101 (832-0139).

Questions concerning Blue Chip Cards and accounts, or the EDCONN banking program, may be directed to the Card Office, located in the Power House on the northeast corner of the Barnard parking lot. Card Office hours are Monday through Friday from 8:00 a.m. to 5:00 p.m., with extended hours during the first month of each semester. The phone number is 832-2140; or visit the website at www.cardoffice.ccsu.edu. When the Card Office is closed, lost cards should be reported to the Police Department (832-2375); a temporary ID will be issued.

Financial Aid Book Advances
Some students receiving financial aid may have difficulty purchasing books at the start of the semester since financial aid funds are normally distributed after the first three weeks of classes. Full-time students receiving financial aid, where the amount of the financial aid exceeds all CCSU charges, are eligible to receive a book advance against this excess amount beginning 10 days prior to the first day of classes. Book Advance Request forms are available at the Bursar’s Office. Such advances are deposited into the student’s Blue Chip debit account, and the student’s Blue Chip Card may be used to make book (CCSU Barnes & Noble Bookstore) or other incidental purchases on campus. The only distribution method for book advances is an electronic deposit to the Blue Chip account. No cash or checks are distributed as advances. Questions concerning book advances should be directed to the Bursar’s Office, Room 101, Davidson Hall, phone 832-2010.

Persons 62 or Older
The payment of Tuition and State University Fee is waived for any person 62 years of age or older who has been accepted for full-time admission and is enrolled in a degree-granting program. The Course Fee is waived for any person 62 years of age or older who registers part-time through the Enrollment Center/Office of Continuing Education. Special registration dates apply. Consult the Continuing Education Semester Bulletin.

New England Regional Student Program
Central Connecticut State University is a participant in the New England Higher Education Compact. This arrangement offers residents of other New England states the opportunity to enroll at CCSU for academic programs not available at public institutions in their home state at the Connecticut resident tuition and state university fee rate plus 50 percent. Other fees are also required. Similarly, Connecticut residents can avail themselves of programs offered by public schools in the other New England states that are not available here in Connecticut public institutions.

For more information about the New England Regional Student Program, contact the Office of the Regional Student Programs, The New England Board of Higher Education, 45 Temple Place, Boston, MA 02111; phone: (617) 357-9620; Web site: www.nebhe.org — or contact the Office of Recruitment and Admissions, Davidson Hall, Room 115.

Veterans/Reservists/National Guard
Educational assistance is available for veterans and members of the National Guard and Selected Reserve. The reserve components include those of the Army Reserve, Navy Reserve, Air Force Reserve, Marine Corps and Coast Guard Reserve, and the Army and the Air Force National Guard.

V.A. educational benefits are paid at the end of each month during the semester for which the veteran is enrolled. Any change in credit load and/or degree program should be reported to the Office of Veterans Services since it may affect future benefits.

The Connecticut tuition waiver is available for veterans who served on active duty (active duty for training not included) in the U.S. Armed Forces during time of war. They must have been released from active duty having served at least 90 days under honorable conditions. A copy of the DD Form 214 is required. Periods of conflict eligible for waivers include the Vietnam Era (12/22/61 – 7/1/75), Korean Hostilities (6/27/50 – 1/31/55), World War II (12/7/41 – 12/31/46) or Operation Desert Shield and Operation Desert Storm (8/2/90 – 6/30/94).

Also eligible are veterans who engaged in combat or in a combat-support role in the Grenada Invasion (10/25/83 – 12/15/83), Lebanon Peace-Keeping Mission (9/29/82 – 3/30/84) or Invasion of Panama (12/20/89 – 1/31/90).

The 100% tuition waiver for full-time students and the 50% of course fees waiver for part-time matriculant students are available for veterans if they are residents of the state of Connecticut when accepted for admission to CCSU. National Guard and tuition waiver students should contact the Office of Veterans Services, Davidson Hall, Room 117 (832-1785).
Sources of Financial Aid

Assistance

Financial Aid is assistance to students who are unable to meet educational expenses entirely with their own resources. Financial Aid comes in three basic forms:

Grants and Scholarships

Connecticut State University Grants (CSUG) and Connecticut Aid for Public College Student Grant Program (CAPS) — Eligibility is based on financial need. Amount is determined by the Financial Aid Office.

Federal PELL Grant (FPPELL) — Eligibility is based on financial need. Award amount is dependent upon qualification for federal funds. Only those students who have not earned a bachelor's degree are eligible.

Federal Supplemental Educational Opportunity Grant (FSEOG) — Eligibility is based on exceptional demonstration of need. Pell Grant recipients have priority. Award amount is dependent upon allocation of federal funds. Only those students who have not earned a bachelor's degree are eligible.

Employment

Federal Work Study Program (FWSP) — Eligibility is based on financial need with priority given to early applicants. Payment is based upon the number of hours worked and rate of pay.

Loans

Federal Perkins Loan — Available to undergraduate and graduate students who meet the financial need requirements. Interest rate of 5% is applied nine months after the student terminates college study. Priority is given to early applicants. Award amount is dependent upon allocation of funds available from federal sources.

Federal Direct Stafford Loan — Subsidized (need-based) or Unsubsidized (no need) Loan with a variable interest rate loan maximum of 8.25% (adjusted each July 1) for Subsidized Loans. Interest is applied six months after the student terminates college studies. For Unsubsidized Loans, interest is applied the day the check is disbursed. Students are responsible for the interest during their enrollment in school.

Federal Direct PLUS Loan (parent loan) — Parents of dependent students apply for loan. Eligibility is not need-based and a good credit history is necessary. Repayment begins 60 days after disbursement of funds. Variable interest rate not to exceed 9%, adjusted each July 1. Parents may borrow cost of education minus other aid.

Additional Unsubsidized Federal Direct Stafford Loan — Available to independent undergraduate students and dependent students whose parents have been denied a PLUS loan. Not need-based. Interest and repayment terms similar to Federal Direct Unsubsidized Stafford Loan.

Basic Eligibility Criteria

A student must:

1. be a U.S. citizen or eligible noncitizen
2. be registered with Selective Service (if required)
3. be matriculated (formally accepted by the Office of Admissions)
4. be making satisfactory academic progress
5. not owe a refund on a Federal Grant or be in default on a Federal educational loan

Satisfactory Academic Progress Policy

Students receiving financial assistance under the federally-supported Title IV programs must comply with the following set of standards to be eligible for such assistance.

A. Quality of academic performance: Students must be matriculated and must maintain that quality of academic performance required to remain a matriculated undergraduate or graduate student in the University.

B. Speed of completion of the bachelor's degree objective, i.e., satisfactory progress:
1. For full-time undergraduate students, satisfactory progress is defined as the successful completion of a minimum of 24 credits of academic work per academic year for students who enroll in the fall and 6 credits for those initially enrolling in the spring or enrolling only for the fall or summer term. An academic year runs from the beginning of the fall term to the end of the spring term. Non-credit developmental courses recommended by the student's academic adviser shall count on a semester-hour equivalent basis (determined by the University) as part of the 12 or 6 credits specified above. Failed courses or audited courses will not be counted. Students will not be eligible for financial assistance for more than 10 semesters of full-time attendance or until the student is certified for graduation by the University, whichever comes first.
2. For part-time undergraduate students, satisfactory progress is defined as the successful completion of a minimum of 12 credits of academic work per academic year for students who enroll in the fall and 6 credits for those initially enrolling in the spring or enrolling only for the fall or summer term. An academic year runs from the beginning of the fall term to the end of the spring term. Non-credit developmental courses recommended by the student's academic adviser shall count on a semester-hour equivalent basis (determined by the University) as part of the 12 or 6 credits specified above. Failed courses or audited courses will not be counted. Students will not be eligible for assistance for more than 20 semesters of part-time attendance or until the student is certified for graduation by the University, whichever comes first.

The Satisfactory Academic Progress Policy will be implemented as follows.

A. For the purposes of this policy, Satisfactory Academic Progress will be measured against credits earned during the prior academic year (September through May).

B. The number of credits required are as follows:
   - Full-time: 12 credits per semester
   - Part-time: 6 credits per semester

C. Students who do not attain the appropriate levels of satisfactory progress may complete the needed credits during the
Elizabeth Walden Scholarship — awarded to active participants in a University select choral ensemble

H. G. Peter Wallach Scholarship — awarded to an undergraduate with 30 or more credits who has demonstrated an understanding of current issues in civil liberties and constitutional law, or who will be engaging in study in Germany

Stella Willins Scholarship — awarded to a business education student of outstanding merit

Michael J. Witty Scholarship Fund — given to students in the School of Business majoring in accounting, with preference given to a student who demonstrates special ability and interest in taxation

WKND Scholarship Initiative — Book scholarships to first-time, first year, full-time undergraduates from an accredited high school in Hartford, East Hartford, Bloomfield and Windsor

Alvin B. Wood Scholarship Fund — awarded to a minority student with a minimum of 24 credits completed and demonstrated leadership and service to the University

John Zubretsky Scholarship — awarded to students enrolled in an academic program leading to public school science teacher certification

University Scholarships
For information about the following scholarships, please contact the departments noted.

Anna-Bubser-Judd Trust Scholarship — granted annually to minority students from Hartford who graduate from approved high school programs (Contact Office of Admissions)

CCSU Accounting Society Scholarship — awarded to an accounting major who has earned a minimum of 72 credits and has displayed academic merit and club involvement, contingent on availability of funds (Contact Accounting Department)

Jack Arute Scholarship — awarded annually to an outstanding graduate from a New Britain area high school, i.e. New Britain High School (Contact Office of Recruitment and Admissions)

Class of 1971 Scholarship — established for members or the children of members of the Class of 1971 (Contact Professor G. B. Miller, Mathematical Sciences)

Herbert D. Welte Scholarship Fund — established for students in international studies who need financial assistance (Contact the George R. Muirhead Center for International Education)
Cancellation of Classes Due to Inclement Weather

At the discretion of the University, classes may be cancelled or delayed because of inclement weather conditions. The decision to cancel or delay day classes is usually made by 6 a.m. The most accurate delay and cancellation information for Central Connecticut State University will be made available in the following locations:

- The Snow Phone: (860) 832-3333
- On the Web: www.ccsu.edu, click Cancellation & Delay Info
- Outlook Inclement Weather Announcements folder (accessible through the Public Folders) at www.mail.ccsu.edu

In addition, the University will notify WTIC-1080AM, WFSB-TV 3, WVIT-TV 30 and WTNH-TV 8 with cancellation or delay information. Cancellation of evening classes will normally be decided by 2 p.m. Evening classes are not automatically cancelled when day classes have been cancelled.

Childcare

The Early Learning Program, Inc., a state-licensed child care facility, is available on campus for toilet-trained children from ages 3–5. The program operates during the academic year (September through June), with a summer session pending enrollment. Hours of operation are Monday through Friday, 7:45 a.m. to 5 p.m. Attendance options include nursery school, part-time care and full-time care. For information, call Catherine Pezze at 832-3760.

Identification Cards

All students are required to obtain a photo identification card after payment of tuition and fees. Access to the Library and Microcomputer Lab requires a Blue Chip ID card.

The ID card, known as the Blue Chip Card, can be used as a debit card to make purchases from vending machines and at public-use copiers, as well as at dining locations in the Student Center and Memorial Hall. There are many off-campus locations that accept the Blue Chip Card: additional information is available at the Card Office or on the Card Office Web site.

There is a charge for laser printing at the Microcomputer Lab. This must be paid with the Blue Chip Card, or by purchasing a Guest Card at a Card Value Center. There will be no cash transactions.

In order to use the card as a debit card, money can easily be deposited to a debit account. The Card Office and Cashier's Office accept cash and checks. Credit card transactions can be made by calling the Cashier's Office (832-2020) or through the Card Office web site at www.cardoffice.ccsu.edu. For money to be deposited instantly to a debit account, visit any of the four Card Value Centers, located at the Library (main floor), Microcomputer Lab, Memorial Hall and the Police Station, which is open 24 hours.

The Card Office is located in the Power House on the northeast corner of the Barnard parking lot. Card Office hours are Monday through Friday from 8:00 a.m. to 5:00 p.m., with extended hours during the first month of each semester. The phone number is 832-2140. After Card Office hours, lost cards should be reported to the Police Department (832-2375); a temporary ID will be issued, as well as a "hold" placed to deactivate the account.

Parking

All full- and part-time students must obtain decals for student parking from the University Police. Students may park in any campus lot or parking garage except those designated for administration, faculty or staff. Vehicles without decals or improperly parked vehicles may be ticketed or towed at the owner's expense. You are urged to learn and follow the campus parking regulations. Additional information regarding parking regulations is available on the University Police Web page. Accessible through the University Web page (www.ccsu.edu), or in the Parking Guide available at the CCSU Police Department, One Pikiell Lane.

Permission for Photos of Students

Several offices of the University, principally those of Institutional Advancement, provide information to news organizations about CCSU's students' accomplishments and activities while they are at the University and at the time of graduation. Additionally, CCSU supplies photographs and other visual images of students and corollary text in response to requests from news organizations. As a regular practice, photographs of students, faculty, staff, and visitors to campus are used in publications produced by the University for recruitment and general information. Any student who does not wish to appear in any photos used for these purposes must notify the Office of Institutional Advancement immediately upon matriculation. It is, however, not possible to practice these restraints with respect to the use of photograpy (where groups of students appear) of scenes, events, or classes in session.

Pet Policy

With the exception of animals used to aid persons with disabilities, animals used in University laboratories and fish in residence hall rooms, animals are prohibited in campus buildings.

Public Safety

Campus Security Report: CCSU offers one of the safest campuses in the state. To learn more about safety at CCSU, you may request a copy of our annual security report from: Police Department, P.O. Box 4010, Central Connecticut State University, New Britain, CT 06050-4010, or you may view it online at http://www.ccsu.edu/police/.

Police: CCSU has maintained its own police department since 1976. In 1999 the CCSU Police Department received international recognition through its accreditation by the Commission on Accreditation for Law Enforcement Agencies. The CCSU Police Department was the first university police department in Connecticut — and the second in New England — to receive this endorsement.

With the same statutory mandate and authority conferred upon municipal police departments, the approximately 25 officers of the University Police Department provide the campus community with a full range of protective and investigative police services around the clock. The Police Department is also a member of a regional mutual aid compact that ensures the availability of additional public safety resources to meet unusual needs.

State-of-the-art emergency telephones, strategically located throughout the campus, are connected to the dispatch center at the headquarters of the CCSU Police Department. This center not only dispatches police officers but also monitors the Universities growing system of security technology, including electronic access control systems and CCTV to monitor areas of the campus. Additionally, E-911 service is now available...
through the City of New Britain Public Safety Dispatch Center. While routing police calls to the University Police, the dispatch center can direct fire and emergency medical services to any emergency on campus.

**Escorts:** Police officers or other employees of the CCSU Police Department provide either a ride or a walking escort for students.

### Residence Life

Information on University housing is forwarded shortly after official notification of acceptance from the Office of Admissions. Applications for rooms, on the forms provided by the University, are considered in the order of acceptance. Because of the demand for on-campus housing, students are urged to return housing applications and pay housing fees promptly.

The Office of Residence Life (832-1660), in Mildred Barrows Hall, assists students in University housing matters. Limited information on off-campus housing is also available. The Living Guide brochure details residence hall policies.

### Student Government

The full-time undergraduate students of CCSU make up the membership of the Student Government Association (SGA). The SGA Senate is the representative body of the SGA. Its members, the Executive Officers and Senators of the SGA, are democratically elected by the full-time undergraduates of CCSU.

The SGA Senate is responsible for acting as the voice of the student body. It promotes student participation in various projects, committees and organizations at the university and at state and national levels that help shape the university and education in Connecticut. The SGA Senate allocates the SGA portion of the Student Activity Fee which is paid by all full-time undergraduate students and used to promote and fund student clubs, activities, services and issues which benefit students and their educational opportunities.

The SGA office is located in the Student Center (832-3740). The SGA will be located on the first floor of North Hall during the construction of the Student Center.

### Student Organizations

Clubs and organizations provide students with opportunities for social interaction, recreation, leadership training and enhancement of academic interests. For most students, involvement in organizations is an important aspect of their education. Information about clubs can be obtained at the Club Drive or through assigned student organization mailboxes on the first floor of the Student Center.

Participation in a club or organization can be included in a student’s personal transcript through the Experiential Transcript Program. For more information on this or other aspects of student organizations contact the Department of Student Activities/Leadership Development or Advising Services. The following is a list of organizations.

### Academic and Special Interest

### Fraternities and Sororities

- Chi Upsilon Sigma National Latin Sorority, Inc.; Kappa Alpha Psi Fraternity, Nu Psi Chapter; Lambda Theta Phi Fraternity; Phi Delta Theta Fraternity

### Governmental

- Graduate Student Association, Inter-Residence Council, Program Council, Senior Week Committee, Student Government Association, Student Union Board of Governors

### Honors and Professional

- Alpha Mu Gamma, Foreign Language*
- American Choral Directors Association
- American Society of Civil Engineers
- American Society of Safety Engineers
- Associated General Contractors
- Beta Beta Beta, Biological Sciences*
- Delta Mu Delta, Business*
- Epsilon Pi Tau, Ind. Arts & Voc-Ind. Ed.*
- Eta Kappa Nu, Engineering*
- Gamma Theta Upsilon, Geography*
- Golden Key Honor Society
- Kappa Delta Pi, Education*
- Omicron Delta Epsilon, Economics*
- Phi Alpha Theta, History*
- Pi Sigma Alpha, Political Science*
- Psi Chi, Psychology*
- Society of Manufacturing Engineers
- Technology Education Collegiate Association
- Upsilon Pi Epsilon, Computer Science*

### International, Cultural and Language

- African Studies Association
- Black Student Union
- Chinese Student Association
- Cultural Diversity Society
- French Club (Le Cercle Francais)
- German Cultural Club
- International Relations Club
- Italian Club (Il Circolo Italiano)
- Latin American Student Organization
- MiColage: Assoc. de Espanol (Spanish Club)
- Muslim Student Association
- NAACP — CCSU Chapter
- Polish Club
- Portuguese Club
- PRIDE (gay, lesbian, bisexual student organization)
- United Caribbean Club
- Vietnamese Student Organization

### Media and Publications

- EMPTY, Helix (literary magazine), Media Board, The Recorder, WFCS FM-107.7 Radio

### Performing

- Cheerleaders, COLADA (Central Organization of Latin American Dance Awareness), DanCentral, Ebony Choral Ensemble, Pep Band, Pep Squad, Theatre Unlimited

### Religious

- Christian Students at Central
- Hillel Jewish Student Organization
- Revival, Newman Club
- Upside Down Club

### Sports and Recreation

- Central Car Club, Chess Club, Crew Club, Flying Club, Gaming Club, Hang Gliding Club, Ice Hockey Club, In-Line Hockey Club, Karate Club, Lacrosse Club, Lady Hooligans Women's Rugby Club, Men's Rugby Club, Men's Soccer Club, Men's Volleyball Club, Mountain Biking Club, Outing Club, Paintball Club, Photography Club, Rifle and Cycling Club, SCUBA Club
- Ski Club, Solar Electric Research Team

*These organizations are adjunct to University departments.

### University Health Service

The University Health Service (UHS) provides medical services by appointment for the maintenance of health and the evaluation and treatment of illnesses and injuries to all students.

Many services are provided at no cost to patients. These include, but are not limited to, the following:
STUDENT INFORMATION

- Evaluation and treatment of illnesses and injuries, including referrals to appropriate specialty consultants as needed
- Daytime in-patient care for observation and treatment as needed
- Certain laboratory tests for blood sugar or urine evaluations
- Evaluation of sexually transmitted diseases
- A health education resource center for information on medical issues and concerns

Treatments requiring a nominal fee include:
- Additional laboratory and diagnostic evaluations
- Allergy clinic
- Pregnancy testing and referral
- Immunizations required for school, employment or travel
- Low cost prescriptions — in-house pharmacy for medications ordered by the physician

Full-time students are required to submit a completed health form (medical history, physical exam and up-to-date immunization record) one week prior to registration at the University. Part-time students are required by the University to have up-to-date immunization records for measles and rubella consistent with State of Connecticut Department of Health Service guidelines. Failure to submit the required medical information may result in the withholding of registration schedules, grades or housing assignments until the obligations have been met. The health form is available in the University Health Service, Marcus White Annex (832-1925).

Students do not need to have elected the University insurance plan to be seen as a patient in the University Health Service.

The University Health Service is open Monday–Thursday from 8 a.m.–3:45 p.m. and on Friday from 9 a.m.–3:45 p.m. (Closed daily from 12–1 p.m.) These hours are subject to change. UHS is staffed by a full-time physician and two full-time nurses.

Health Insurance
Health insurance coverage (accident and sickness) is mandatory for all full-time students. Students can purchase the sickness insurance plan through the University or elect alternative coverage through an outside carrier. The University provides accident insurance coverage for all full-time students; the premium is included in the general fee on the tuition bill. This accident coverage is not the primary insurance carrier unless there is no other insurance held by the student. A combined sickness/accident policy is available for part-time students, as well as their dependents, through the Office of Continuing Education. For information regarding the details of the policy please check the web site at www.student-health-insurance.com.

Medical Excuse Policy
The University Health Service will forward a medical excuse to the Office of Student Affairs only in those cases in which a student was seen in UHS and the medical recovery or contagiousness of the patient/student warrants an absence from classes.

Those students who are out of class for more than 5 days and who have not been seen as a patient in the University Health Service for the evaluation of the illness should direct the notification of their absence from their physician to the Office of Student Affairs. The verification of their absence will be relayed to the appropriate professors.

Voter Registration
Students can register to vote or change their registration at the Reference Desk in the Elihu Burritt Library. Regardless of which town in Connecticut is the place of residence, voter registration can be done on campus. Out-of-state registration can also be done using the federal universal voter registration form available at the Library. Students with special needs may register as voters at the Special Student Services Office in Willard 100. All students are urged to take advantage of this convenient service and exercise their rights and duties as citizens by becoming registered voters.
ACADEMIC STANDARDS AND REGULATIONS

Susan Petrosino, Registrar
Lynn Bonesio, Associate Registrar
Maria Alvarez, Assistant Registrar
Linda Thompson, Assistant Registrar
Anita Sparrow, Degree Auditor
Phone: (860) 832-2236

Typical Program
A typical study program for a Central Connecticut State University student in good standing is considered to be 15 to 17 credits of academic work per semester, depending on classification and major.

A full-time student must carry a minimum of 12 credits per semester. Exceptions to this policy are permitted only with approval of the student's academic dean.

Undergraduate students are expected to invest a minimum of four hours per week per credit hour, including class time, for courses which meet for a full semester. For courses which meet for a shorter duration, a corresponding increase in the time invested is expected.

Classification
Membership in a class is determined solely by total earned credits as follows:
- First-year: 0–25 credits
- Sophomore: 26–53 credits
- Junior: 54–85 credits
- Senior: 86+ credits

Grading System
Central Connecticut State University uses the letter grading system as follows: A, superior; B, above average; C, average; D, passing but below average; and F, failure. A grade of incomplete (INC) may be recorded, at the discretion of the instructor, for a course in which a student, because of circumstances beyond his or her control, has not completed certain work or has been absent from the final examination. For undergraduate students, an INC not changed to another grade by the instructor within the first eight weeks of the subsequent major semester will be changed to an F. Responsibility for removing an INC within this time limit rests with the student.

Grade-Point Average—For computing grade-point average, grades are evaluated as follows for each semester hour of credit:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
<td>C-</td>
<td>1.7</td>
</tr>
<tr>
<td>A+</td>
<td>3.3</td>
<td>D+</td>
<td>1.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
<td>D-</td>
<td>0.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.3</td>
<td>F</td>
<td>0.0</td>
</tr>
</tbody>
</table>

For example, a student receives an A in two courses, one carrying 3 credits and one carrying 1 credit; a B in a 3-credit course; a B- in a 2-credit course; a C- in a 2-credit course; and an F in a 2-credit course. The grade-point average is computed as follows.

A or 4 quality points per hour x 4 credits = 16 quality points
B or 3 quality points per hour x 3 credits = 9 quality points
B- or 2.7 quality points per hour x 2 credits = 8.1 quality points
C- or 1.7 quality points per hour x 2 credits = 3.4 quality points
D or 1 quality point per hour x 2 credits = 3 quality points
F or 0 quality points per hour x 2 credits = 0 quality points
17 credits for a total of 39.5 quality points

To calculate this student’s semester grade-point average, the quality point total is divided by the total number of credits taken: 39.5 / 17 = 2.32.

The cumulative grade-point average (CGPA) for a student's record is determined by adding the credits attempted and dividing this total into the total number of quality points. The cumulative grade-point average indicates the academic record of the student for the time enrolled at the University.

Good Standing Policy — All students are expected to maintain a cumulative GPA of 2.00 or higher to be in Good Standing. All students who fall below a 2.00 will receive notification of either an academic warning or pending dismissal from the Registrar’s Office.

Academic Warning — Those students who fall below a 2.00, but within the Academic Warning range appropriate to their accumulated credit hours, will be required to meet with a designated representative of their dean's office to determine an appropriate course of action. Students failing to meet this requirement or who fail to pursue the recommended strategies over the course of the next regular semester may be subject to academic dismissal.

Students with fewer than 19 total credit hours will not receive a pending dismissal notice, regardless of their grade point average. Such students with a GPA below 2.00 will be notified of Academic Warning and will follow the procedures for students in this category as described above.

Dismissal Hearing — Students who fall below the Academic Warning range appropriate to their accumulated credit hours will receive notice of pending dismissal. These students may petition for academic probation by contacting the office of their academic dean. Students who fail to apply for probation or who are denied probation will be dismissed. Following dismissal, a student must normally wait at least one semester before being considered for reinstatement.

From 70 credit hours onward, failure to maintain a GPA of 2.00 or above will result in a dismissal notice.

Total Credit Hours * Academic Warning
1–18 credits below 2.00 GPA
19–36 credits 1.60 to 1.99 GPA
37–53 credits 1.80 to 1.99 GPA
54–69 credits 1.90 to 1.99 GPA

Total Credit Hours * Dismissal Hearing
19–36 credits below 1.60 GPA
37–53 credits below 1.80 GPA
54–69 credits below 1.90 GPA
70+ credits below 2.00 GPA

* Completed at and transferred to CCSU

Only courses taken at Central Connecticut State University, including summer session and winter session courses, are included in calculating the student’s cumulative GPA. Courses taken at other institutions are not included in the student’s Central Connecticut State University GPA. However, transfer credits will count toward the total number of credits attempted for purposes of academic standing.

An academically dismissed student may enroll through the Enrollment Center/Office of Continuing Education as a non-matriculated student and seek to bring the cumulative grade-point average back to the good-standing level. Also, an academically

dismissed student may petition the academic dean of their major for reinstatement.

After re-attaining good standing, as a result of work as a non-matriculated student, a student may request readmission to Central Connecticut State University as a matriculated student. Consultation with the Office of Admissions concerning deadlines for reactivation is advised.

Students concerned about their academic progress should consult their academic adviser.

Honor Requirements

Graduation Honors for Baccalaureate Degree

Graduation honors, which appear on both the diploma and the transcript, will be awarded only to students who complete their graduation requirements with a minimum of 62 credits in residence at Central Connecticut State University and a cumulative earned grade-point average of at least 3.50. The residency requirement for honors may not be waived. Students with questions regarding academic honors should consult the Academic Dean of their major.

Graduation Standards

For graduation a student must maintain a minimum cumulative grade-point average of 2.00 and receive grades of C- or better in all courses required for the major and minor, with a minimum cumulative grade-point average of 2.00 in the major and minor, and complete a minimum of 122 or 130 credits depending on one's major. The School of Education and Professional Studies may have different requirements. See page 61 of the catalog.

Residence Requirements for Degree — A minimum of 45 credits "in residence" is required for a bachelor's degree. Students transferring from any college are required to take at least 15 credits in their major field and 9 credits in their minor field at Central Connecticut State University. Major and minor minimums are included in the 45-credit residence requirement. "In residence" means attending classes conducted on campus or under supervision of Central Connecticut State University.

Programs in the School of Business — Graduation students must complete a "Second Major" form, available at the Registrar's Office, which requires the declaration of the primary major, the student's degree program, and the requested second major. Students seeking teaching certification must earn a B.S.Ed. degree and list their teacher education subject matter as their primary major.

Second Degree Policy

A student who has already completed a bachelor's degree may be admitted to Central Connecticut State University for a second undergraduate degree or a second undergraduate major within the student's original degree program.

A transfer student (whose earlier degree is not from CCSU) must satisfy all degree, major, minor, general education and residence requirements. Transfer students are required to have a minimum of 45 credits at CCSU in order to receive a bachelor's degree.
A student who already holds a bachelor's degree from CCSU may complete a second major within the original degree program. Although there is no minimum credit hour requirement for a second major, all curriculum requirements in effect at the time of re-admission must be completed. Upon completion the student will receive only an additional notation on the transcript; additional diplomas will not be printed, and students will not participate in commencement ceremonies. Students in this category should inform the Office of Registrar of their intentions soon after re-admission.

A student who already holds a bachelor's degree from CCSU and wishes to complete a second degree, may do so by completing all curriculum requirements in effect at the time of re-admission, with a minimum of 30 new credits. If all curriculum requirements are met, and the 30-credit minimum has not been attained, the remaining credits shall consist of additional directed electives chosen by the department. When these new degree requirements are met, the student will be issued another diploma and will be entitled to participate in commencement ceremonies.

**Registration**

**Prerequisites** — It is the students' responsibility to determine whether they have met prerequisites for a course. Students found to be lacking the prerequisites for a course may be administratively removed from a class at the request of the instructor. Course prerequisites are defined in the course description section of this catalog.

**Adding a Course** — Students may add courses on a space-available basis during the first four days of the semester.

**Dropping a Course** — Dropping courses will be allowed up to the chronological mid-point in the course, with the exception that full-time undergraduate students must maintain a minimum credit load of 12 credits. Courses dropped by the deadline do not appear on the student's transcript. Forms are available in the Registrar's Office, Davidson Hall, or the Enrollment Center/Office of Continuing Education, Willard Hall.

Undergraduate full-time students for whom dropping a course would reduce their credit load to fewer than 12 credits must APPLY for withdrawal from that course. (Students must follow the same procedure as for withdrawal from courses described below.)

**WARNING**: Failure to carry a minimum of 12 credits may affect Satisfactory Academic Progress (SAP) and receipt of certain federal, state and other benefits, including but not limited to various financial aid programs, Veterans benefits and Social Security benefits. Students dropping below 12 credits are ineligible for participation in intercollegiate athletics.

**Withdrawal from Courses** — Withdrawals are initiated with the student's academic dean and require the signatures of the instructor, the chair of the department offering the course and the dean of the school offering the course. After the deadline for dropping courses has passed (mid-term), withdrawal from a course may be granted and recorded on the student's permanent record as "W" if extenuating circumstances are found to justify withdrawal. Poor academic performance is not considered an extenuating circumstance. A "W" does not affect the student's grade-point average.

If a student stops attending and fails to officially withdraw from a course, a grade of "F" will be recorded on the student's record.

**Pass-Fail Option** — A limited pass-fail option in courses not required for the major, minor or general education program is available at the University. To be eligible for the pass/fail option, the student must have completed at least 24 earned hours (including transfer hours) and must be a matriculated undergraduate in good standing. Up to two (2) pass/fail courses may be selected in one semester, but no more than four (4) pass/fail courses may be selected throughout the entire undergraduate career. If a student changes majors to a discipline in which pass/fail credit has been earned, the grade(s) earned in such a pass/fail course(s) shall be retrieved and recorded on permanent record in place of the pass/fail grade. Intent to take a course pass/fail must be filed in the Office of Registrar within the first three weeks of the semester. Contact the Office of Registrar for more information.

**Audit Option** — Full-time undergraduate students are permitted to audit courses, provided they are taking a minimum of 12 credits in addition to the courses audited. Part-time students need not meet this minimum requirement. Intent to audit a course requires the written approval of the instructor and must be filed in the Office of Registrar in the first three weeks of the semester. Failure to meet the instructor's requirements for auditing may result in the student being withdrawn from the course. Courses taken on an audit basis do not affect grade point average and do not apply toward any graduation requirement. The Office of Registrar has details.

**Eligibility for Extra Courses** — A full-time student may take 12 to 18 semester credits without special permission. A student who wishes to register for more than the customary semester program of academic work should apply in writing to the appropriate academic dean at least one week prior to registration for the semester in which the additional course is to be taken. Credit overload forms are available in the Office of Registrar. Students wishing to take 16-week courses along with student teaching must complete the credit overload form.

In general, the only applications approved are from students whose cumulative grade-point average is 2.50 or above, or whose average for the preceding semester is at least 3.00. No student will be permitted to take more than the normal program of study in the first semester.

**Graduate Courses** — Undergraduate students who desire to enroll in graduate courses are required to have a 2.70 GPA and senior standing. Students are also required to obtain the written permission of their adviser, chair of the department offering the course and the Associate Vice President of Academic Affairs/Coordinator of Graduate Studies prior to registration. Priority is given to graduate students; undergraduates who meet criteria are enrolled on a space-available basis. The necessary form is available in the Registrar's Office, the Enrollment Center/Office of Continuing Education, and the Graduate Studies Office.

**Course Repeat Policy** — A course in which a grade of C- or lower has been received may be repeated, although no course may be repeated more than once without approval of the chair of the department offering the course. The most recent course grade and credit will be applied to the GPA and degree requirements. All grades will appear on the student's transcript. This policy applies just to courses taken at CCSU and only to courses repeated beginning with the Fall 1994 semester. (This policy is applicable only to undergraduate students.)

Note: Repeating courses taken in a previous semester may affect certain federal and state benefits, various financial aid programs, loans, scholarships and social security benefits, in addition to athletic eligibility and veteran's benefits. Satisfactory Academic Progress requirements must be met for continued financial aid eligibility. See catalog for explanation of Satisfactory Academic Progress Policy.
Academic grading reflects careful and deliberate judgment of a faculty member instructing a course. Academic evaluation of student performance requires expert consideration of cumulative information. Such decision-making by its nature is judgmental and evaluative. The evaluative process is not and should not be likened to the adversarial process involved in disciplinary matters, for academic grade determination is unadaptable to the methods of judicial or administrative decision-making. The education process, moreover, is not by nature adversarial, but rather centers upon a continuing relationship between faculty and student. Administrative interposition, except in the most extreme instances, is to be avoided.

The University recognizes that in rare instances there may be errors, or "palpable injustice(s)" in determination of a final grade. A student alleging such error or palpable injustice, i.e., a clear showing of arbitrary or capricious action, may appeal as provided below:

1. A student who believes a grade involved an error or a palpable injustice shall first confer with the instructor who awarded the grade no later than the end of the fourth week of the following regular semester.

2. If the student is not satisfied with the outcome, the student may next present the case to the appropriate department chairperson, who may effect a settlement upon written agreement of the instructor.

3. Further appeal by the student shall be in writing to the dean of the school concerned. A grade change shall be made only with the written consent of the instructor and the department chairperson.

4. If the instructor is deceased or cannot be contacted by the student and department chairperson by the end of the fourth week of the following regular semester, the student may confer with the chairperson. Upon evidence of error, the chairperson may make the appropriate grade change after consultation with and approval of the dean of the school. The instructor shall be notified of the change if notice subsequently can be delivered. If the chairperson finds evidence of palpable injustice, then the case shall be referred to the Grade Appeals Review Board for action as described in Step 6 below.

5. When an appeal for grade change is made at the end of student's final semester and if the instructor is deceased or cannot be contacted by the student and the department chairperson, the student may appeal to the department chairperson.

If the instructor cannot be contacted before the grade deadline for graduation and where there is evidence of error, the chairperson may make the appropriate grade change after consultation with and approval by the dean of the school. The instructor shall be notified of the change if notice subsequently can be delivered. If the chairperson finds evidence of a palpable injustice, then the case shall be referred to the Grade Appeals Review Board for action as described in Step 6 below.

6. Any appeal after the completion of the steps above shall be made to the Grade Appeals Review Board, which functions under the aegis of the Academic Standards Committee, in written form and with a statement of justification. Following an investigation, the Grade Appeals Review Board may deny the appeal, in which case the matter shall be closed.

If the Grade Appeals Review Board makes a finding that the grading involved a palpable injustice, then the case shall be remanded to the instructor and the dean of the instructor's school for reconsideration. The instructor may make the appropriate change in the grade with the written agreement of the dean. If the instructor disagrees or if the instructor's whereabouts are unknown, the Grade Appeals Review Board may recommend a change to the Vice President for Academic Affairs. The Vice President may make the appropriate grade change or issue a "W" (withdrawal) with the written agreement of the dean. The instructor and the department chairperson shall be notified in writing of such change. In no case shall a grade be lowered as a result of the appeal to the Grade Appeals Review Board.

Acceptance of Non-Traditional Credit

Central Connecticut State recognizes that many valid learning experiences occur outside the traditional classroom. CCSU accepts from matriculated students the following types of non-traditional credit, up to a maximum of 30 credits of credit except for established special programs. When such credit is awarded, it is entered on the transcript but the grade is not included in the University grade-point average. Students should be aware that in all instances described below, the rules for granting of credit for non-traditional learning may vary among academic schools and departments at CCSU, depending on the rules of external accrediting agencies and in accordance with departmental standards. Students should direct questions to the department chair.

Advanced Placement — The University accepts for college credit advanced placement courses taken in high school under the auspices of the College Entrance Examination Board's Advanced Placement Test Program provided the student achieves a minimum score of 3 on the test. Official score reports are requested by the Office of Admissions.

Credit for Standardized Examinations — Central Connecticut State students may earn up to 30 credits by examination from the College Level Examination Program of the College Entrance Examination Board (CLEP and DANTES) or any nationally-standardized examination. A student is permitted one trial for each examination and must achieve a score equal to, or higher than, the national norm for that particular examination to receive credit. Information about which examinations are approved for departmental credit and minimum score requirements is available from the Office of Admissions or the Enrollment Center/Office of Continuing Education. Official score reports are required by the Office of Admissions.
Credit for non-collegiate training programs — Many businesses and industries, and other non-accredited institutions, provide formal training for which some academic credit may be awarded. Central Connecticut State University will follow ACE recommendations on the acceptance of this credit as published in The National Guide to Educational Credit for Training Programs. CCSU also accepts credit for programs conducted by non-collegiate organizations not evaluated by ACE, according to specific local agreements which comply with Board of Governors for Higher Education regulations. Application of credit as it relates to the student's CCSU degree requirements will be determined by the student's major department. Official transcripts, diplomas or certificates are required. If there is not an ACE recommendation or existing local agreement for the training program, refer to "Credit for life or work experience" below.

Credit for life or work experience — While Central Connecticut State University itself does not evaluate life or work experience, the University will accept such credit as awarded by other regionally-accredited colleges and universities, to the extent that it is applicable to the student's degree program and providing it does not exceed 30 credits. Matriculated students who believe they are eligible for such credit are encouraged to contact Charter Oak State College.

Placement Testing and Remedial Courses
All entering first-time students are required to take placement examinations in English, mathematics and foreign language prior to registration in order to determine their eligibility for ENG 110 (English Composition) and appropriate mathematics and foreign language courses. The English placement exam is not required of students who have a SAT verbal score of 450 or who have successfully completed ENG 099 or ENG 109. The foreign language placement exam is not required of students who have successfully completed three years of a single language in high school. (The high school transcript must be received by the Office of Admissions.)

Beginning in the fall semester 1992, remedial programs, 099 classes in Math and English, will be counted in determining full-time load status for students enrolled in those sections. In the computation of the credit load, each hour of instruction would be counted as one hour of credit. No remedial course will be counted for academic credit towards graduation.

The University reserves the right to deny enrollment in any course to students who do not possess the appropriate skills or knowledge.

Transfer students also are required to take the placement tests unless they meet the following conditions.

• Students who transfer credit for ENG 110
• Students receiving transfer credit for MATH 099, MATH 101, 115, 121, 122, 125 or a 200-level calculus course need not take the Mathematics Accuplacer exam. Students with transfer credit for MATH 113, STAT 104 and/or MATH 105, ONLY, must take the Accuplacer. Students receiving credit for a "math elective," or any other mathematics course, should contact the Mathematical Sciences Department about the need for the Accuplacer.

The foreign language requirement did not apply to transfer students until fall 1992.

Students planning to study French, Italian or Spanish must also take a placement examination in order to identify appropriate level course.

Placement testing dates are published on a regular schedule, and notices are sent to admitted students. Students transferring from other campuses of CSU should request forwarding of their Mathematics Placement Exam to Central Connecticut University's Mathematical Sciences Department.

Mathematics Placement Examination (MPE) — The Mathematics Accuplacer exam is administered to all entering and transfer (when appropriate) students, both full- and part-time. There is no passing or failing grade on this examination; its only purpose is to determine the student's background, for placement purposes, in mathematics. It is given on a continuous basis. Since the purpose of the exam is initial placement, once a student has started his/her mathematics course sequence, he/she is no longer eligible to take the exam. While the results of the exam are deemed to be valid for the career of the student while at Central Connecticut State University, practi­cal experience indicates that the mathematics sequence/courses should be started as soon as possible after taking the MPE. A student, under extenuating circumstances, may retake the MPE only after obtaining permission from the Mathematical Sciences Department chair or MPE coordinator. The examination is provided free of charge as part of the department's commitment to the quality of its course offerings.

State University Student Interchange — Full-time students at Central Connecticut State University may take courses not available on campus at one of the other Connecticut State Universities, with grades for these courses being treated as though earned at Central Connecticut State University.

Advance approval to take such courses during the academic year is required. Such students will continue to be registered at Central Connecticut State University, to which all tuition and fees will be paid.

Full-time students who may wish to take courses at other Greater Hartford area institutions should check with the Registrar about the Hartford Consortium Cross-Registration Program.

Attending Other Institutions — Students enrolled at Central Connecticut State University who wish to take courses at other accredited institutions should complete the Request for Transfer Credit form with the Office of Admissions. Students who wish to apply transfer credits to specific degree requirements should seek advice from the appropriate department chair or academic dean as to how the credit may be applied. Only courses carrying a grade of C- or better will be accepted in transfer. The School of Education and Professional Studies may have different requirements. See page 61 of the catalog for more information.

Declaration of Major
A student should select a major after consultation with an adviser. Forms to declare the major are available in the Office of Registrar or the Enrollment Center/Office of Continuing Education. See requirements for majors under separate departmental listings.

Change of Major or Degree Objective — To change or declare a degree program, major or minor, a student must initiate a Major and Program Change Form in the Office of Registrar or the Enrollment Center/Office of Continuing Education, obtain the necessary signatures and return it to the Office of Registrar.

Admission to the Professional Education Program — See School of Education and Professional Studies.

Course Substitution — Departmental chairs may approve the substitution of one course for another within the major or minor. The student should obtain the appropriate form from the Office of Registrar or the Enrollment Center/Office of Continuing Education, have it signed by the chairs involved and submit the completed
form to the student’s academic dean who then forwards it to the Registrar’s Office.

Withdrawal from the University
A full-time student wishing to withdraw from the University must confer with the Registrar (Davidson Hall 117) and have the appropriate forms completed and approved by that office no later than four weeks before the last day of the final examination period. The Registrar will assist in filling the form necessary for withdrawal.

Withdrawals after this date will be permitted only under extenuating circumstances and will require consultation and approval of the Academic Dean and the Registrar.

Readmission is contingent upon the student’s academic standing at the time of re-entry. The student must complete a reactivation form with the Office of Admissions to initiate readmission.

Change of Status
Change of status from full-time to part-time may be requested at any time prior to the first day of classes and through the third week of a semester. No change of status is permitted after the third week. Contact the Registrar (Davidson Hall, Room 117, 832-1786).

Other Regulations
Attendance — Regular class attendance is expected by the University. The following attendance regulations are in effect.

• A student is responsible for class attendance although each instructor should establish his/her policy and inform the class.
• A student absent from class for five consecutive days or less should, upon return, explain the absence to the instructor.
• A student, absent for more than five consecutive days for medical reasons, should notify the University Health Service in advance of return. On return, the student obtains a form from the University Health Service to show the instructor. If absent for non-medical reasons, the students notifies the Student Affairs Office, which notifies the instructor.
• Absences for official University trips to conferences, intercollegiate athletic events, musical performances and other events are authorized in advance by the Student Affairs Office.
• Make-up work is the responsibility of the student.

Eligibility for Extra-Curricular Activity — A full-time undergraduate student is eligible for participation in, election and/or appointment to committees and recognized Central Connecticut State student organizations, and for participation in extracurricular activities, such as intercollegiate athletics, band and theatre, provided the student is matriculated and is not under disciplinary sanction prohibiting same.

This is a minimum requirement for the University and does not replace any conditions established by individual organizations.

Transcript Policy — A University transcript is a complete, unabridged academic record, without deletions or omissions, which includes the signature of an authorized official and bears the legal seal of the University. Central Connecticut State issues only official transcripts.

Transcripts may be obtained from the Office of Registrar, Davidson Hall. The cost, which is subject to change, is $3. All requests for transcripts must be in writing and include payment in advance.

Change of Address — A student must notify the Office of Registrar in writing of a change of address. Students living off campus and not at their permanent addresses should register their local address with the Office of Registrar.

Cancellation of Courses — The University reserves the right to cancel courses which have insufficient registration, and to change the schedule of courses or instruction as necessary.

Academic Honesty — At Central Connecticut State University we value personal integrity as fundamental to our interactions with each other. We place special weight on academic honesty in all of our intellectual pursuits because it is a value that is fundamental to academic life and scholarly practice. All members of the University community are obligated to uphold high standards of academic honesty in their scholarship and learning. Therefore, we expect students to take personal responsibility for their intellectual work and to respect and acknowledge the ideas of others. Academic honesty means doing one’s own work and giving proper credit to others whose work and thought one may draw upon. It is the responsibility of each student to become familiar with what constitutes academic dishonesty and plagiarism and to avoid all forms of cheating and plagiarism.

Public Access to Student Records
In accordance with appropriate federal and state laws, the University has designated certain types of student information as public or “directory” information. While the University respects the student’s right to privacy and will do its best to protect that privacy, such information may be disclosed. The following is directory information: student’s name, address, phone number, dates of attendance, class standing, academic major and degree(s) earned. Additional information is also deemed directory information, including participation in officially recognized activities and sports, weight and height of members of athletic teams and awards received.

Currently enrolled students have the right to request that the University not release address and phone information to individuals or organizations outside the University (although we are required to provide information to organizations which have provided the student any type of financial aid, including loans). A student who wishes to have his/her address and phone number restricted should contact the Office of Registrar. Such protection is provided for currently enrolled students only.

The University assumes that failure on the part of any student to specifically request withholding of certain directory information indicates approval of disclosure.

Graduation Rates
Students may request information on completion and graduation rates from the office of Planning and Institutional Research (832-1780).
The University offers undergraduate programs in liberal arts, teacher education, nursing, technology and business administration leading to degrees in Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Science, Bachelor of Science in Nursing, Bachelor of Science in Engineering Technology, Bachelor of Science in Education, and Bachelor of Science in Industrial Technology. A summary of these programs appears on the following pages of this section.

The University offers graduate programs leading to the degrees Master of Science, Master of Arts, Master of Business Administration, and to the Sixth-Year Certificate in Reading and in Educational Leadership. Non-degree graduate-level planned programs leading to teacher certification and for professional enhancement are also available. Consult the School of Graduate Studies catalog for more information.

These academic programs are offered in the University's five schools: 'The School of Arts and Sciences, the School of Business, the School of Education and Professional Studies, the School of Technology. Courses applicable to most degree programs are also offered through the Enrollment Center and the Summer Session.

Certain new or complex courses of study are listed elsewhere under the heading "Special Programs."

Requirements for Bachelor's Degree Programs

A total of 44–46 credits of General Education studies, not including the foreign language requirement, must be completed as part of all baccalaureate degree programs. Nine credits must be taken in Study Area I, nine credits in Study Area II, six credits in Study Area III, six–seven credits in Study Area IV, six credits in Skill Area I, six credits in Skill Area II, up to six credits in Skill Area III, and two–three credits in Skill Area IV. See the General Education section following. (NOTE: All first-year students starting before Fall 1998, and all other students entering before Fall 1999, are covered by an earlier General Education program. Please see page 91 for details.)

A major, or primary field of study, is required of all students. Certain majors, leading to the B.S. degree, are certifiable for teaching by the Connecticut State Department of Education. Other B.S. programs are not certifiable. B.A. majors in the liberal arts program are not certifiable for teaching. Requirements for the majors are listed individually under the appropriate schools. Students who change their major or declare a new major should consult with the chair of the department of the new major or an assigned adviser within that department regarding major requirements. Students are required to complete the major requirements that are in place as of the date of their declaration.

A minor — a secondary field of study (between 18 and 24 credits) — is required for certain majors. Although minor requirements and exceptions to that requirement are specifically noted in the individual program listing, students should consult with their advisers regarding the requirement of a minor. When taken in conjunction with a major area of study as part of the Bachelor of Science in Education, students completing certain minors may be eligible for an additional certification endorsement in that content area. The minimum number of credit hours required to qualify for an additional certification endorsement in the minor area of study is based on Connecticut State Department of Education Certification Regulations and may exceed University credit hour minimums.

In addition to these requirements, most bachelor's degree candidates are able to include a number of free elective courses in their programs.

Business Credit Towards Non-Business Degrees — No more than 30 credits of business courses may be applied to a degree program other than a business degree.

Bachelor's degree candidates must complete the following total number of credits:

<table>

Official Certificate Programs

Official Certificate Programs (OCPs) are defined as academic programs of study that have been through a complete university curricular review and approval process, but which do not lead directly to a formal degree. These programs are designed for people interested in developing expertise in a particular field of study, but who do not wish to complete formal degree requirements. The advantages to these programs are that, as formal programs of study, students may be matriculated, pursue their studies on a full-time basis, and may be eligible for financial aid. Most importantly, these programs are coordinated by faculty closely tied to the area of interest who are committed to advising students enrolled in these programs, ensuring that the student is best able to achieve his or her educational goals.

General Education

In addition to offering baccalaureate degrees, the University aims to provide students with the basic foundations for lifelong learning as rational members of society, to awaken the pleasures of intellectual exploration and to elevate aesthetic sensibilities. This commitment to personal development depends on the acquisition and expansion of knowledge, intellectual processes and techniques. The General Education program seeks to realize the following objectives:

- To develop and enhance global awareness, civic responsibility, personal reflection and appreciation of cultural diversity.
- To develop critical thinking skills.
- To strengthen writing and communication skills.
- To strengthen quantitative skills.
- To develop and enhance appreciation for the arts and humanities and an understanding of the range of human knowledge.
- To develop scientific understanding of the natural and social worlds.
- To develop computer literacy.
- To foster personal health and fitness.

General Education Program

A total of 44–46 credits of General Education studies, not including the foreign language requirement, must be completed as part of all baccalaureate degrees. Credits must be taken in each of four study areas and four skill areas as follows:

<table>
<thead>
<tr>
<th>Study Area</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Arts and Humanities</td>
<td>9</td>
</tr>
<tr>
<td>Physical Education</td>
<td>9</td>

<tr>
<td>Social Science</td>
<td>9</td>
</tr>
<tr>
<td>Natural Science</td>
<td>9</td>
</tr>
</tbody>
</table>

At least 3 credits required in literature (see page 89 for [L] designation), and no more than 6 credits from any one discipline. Courses that focus on creative expression and interpretations of human experience, or the appreciation and development of thought and ideas. (In this Study Area, stu-
d) Successful completion of a foreign-language course at a level higher than the second-semester level.

e) Demonstration of native proficiency in a language other than English (requires evaluation of skill level by an appropriate faculty member and/or official documentation, and approval by the Chair of the Department of Modern Languages).

IV. University Requirement 2–3 credits Courses designed to foster personal well being and the development of academic skills essential for the successful pursuit of a university education. PE 244 (Fitness/Wellness Ventures) will be required of all students who enter with fewer than 15 credits. Those entering with 15 credits or more may complete this requirement with 2–3 additional credits in the Skill Areas above or with other Skill Area IV courses. Remedial courses, MATH 101 and elementary language courses (111 or 112) will not fulfill this requirement.

A list of courses applicable to each Study Area will appear at the start of the Course section of this catalog. Where appropriate, courses will also bear current, as well as previous, General Education classifications in the description.

A maximum of 6 credits in the Study Area portion of the General Education program may be fulfilled by major or minor courses that are also designated as applicable to General Education.

Note: First-year students starting before Fall 1998 and all students entering prior to Fall 1999 should refer to the requirements for the previous General Education program which are listed on page 91 of this catalog.

International Requirement. In view of the increasing relevance of the global context to the future of our students, and their need for greater understanding of the world around them, each student must complete 6 credits in courses designated as "International" [I]. Such courses shall be defined as ones: 1) dealing with a country or region other than the United States; 2) involving the comparative study of two or more countries or regions, one of which may be the United States; 3) that focus upon global themes; or 4) any foreign language course at the 112 level or higher. International courses [I] are listed with all other General Education courses.

First-Year Experience. Required for all students with fewer than 15 credits and to be taken in the student’s first semester. This requirement may be completed by either a First-Year Experience (FYE) section of ENG 110 or an FYE introductory course to a discipline in the Study Areas section of the General Education program. Those students who withdraw or fail to be enrolled in an FYE course in their first semester will be required to take an FYE course in their second semester.

*Education programs for business education, remedial reading, reading and language arts consultant, school administration and leadership, and for Teachers of English for Speakers of Other Languages (TESOL) are offered at the graduate level, although some preparation may be possible in business education and TESOL while students are undergraduates.

**See departmental listing for specializations/minors within the major.

***May not minor in a business discipline.

****Not open to new students at this time.
The School of Arts and Sciences offers programs leading to the bachelor of arts degree, the bachelor of science degree, the bachelor of fine arts degree and the Bachelor's degree in Social Work. These programs are designed to provide a broad liberal education: the subject matter background for specific careers, including teaching; and the preparation for graduate work in a number of academic fields and professions, including law and medicine.

The programs in the School of Arts and Sciences include the fine arts, the humanities, mathematics, computer science, the natural sciences and the behavioral and social sciences. Some programs are designated "certifiable for teaching." These programs all have additional requirements which are found in the catalog descriptions listed under the School of Education and Professional Studies.

When planning for majors and minors, students must consult with department chairs or program directors and be assigned a faculty adviser.

Anthropology

D. A. Kideckel, Chair; A. E. Adams, K. L. Feder, M. A. Park, W. Perry, E. N. Phillips (Dept. phone 832-2610, 2611 or 2966)

Anthropology means "the study of people." It assumes that generalizing about human life takes an integrated study of human biology and culture, past and present, and simple and complex lifeways. Anthropology is comprised of four sub-fields. Cultural anthropology describes and explains variation in human cultural and social types. Biological anthropology explains the physical nature and development of humankind. Archaeology considers past human life and how societies grow, change and become extinct. Linguistics examines human communication processes.

The Anthropology major at the University provides students with a broad social and behavioral science background and prepares the student for a range of careers, from public service to marketing and international management. The department also offers minors in cultural anthropology, archaeology, practicing anthropology and biological anthropology. These programs give the student a holistic and cross-cultural perspective to complement most majors.

The Anthropology Department has a number of special programs and resources. An annual summer archaeological field school provides experience in archaeological excavation and analysis. The microfiche and on-line Human Relations Area Files in the Burritt Library Serials Department is an easy-to-use system for cross-cultural research. There is also an extensive collection of human skeletal materials and fossil casts for education in biological anthropology. Extensive internship opportunities and summer field schools in cultural anthropology are also available.

Major in Anthropology, B.A.
39 credits in Anthropology, including ANTH 150, 160, 170, 375, 430, 465; one course from ANTH 300, 320, 316, 318, 330, 422, 424, 426, 428; one course from ANTH 329, 345, 370, 374, 450, 451, 470; one course from ANTH 433, 437: three or four additional courses in Anthropology, including one in Archaeology, one in Biological Anthropology and one in Cultural Anthropology. ANTH 433 or 437 are to be taken for 3 to 6 credits subsequent to ANTH 375, 430, 465. When taken for 3 credits, a fourth Anthropology elective should be selected.

Minor in Anthropology
18 credits, including ANTH 140 and 15 credits in Anthropology. Individual programs will differ according to the particular needs of the student and must be developed jointly with the student's adviser.

Minor in Archaeology
24 credits, including ANTH 150, 215, 324, 450 and 12 credits from ANTH 210, 316, 318, 320, 322, 323, 329 and 330. For students majoring in anthropology, six credits of this minor may be applied to the major.

Minor in Biological Anthropology
18 credits including ANTH 160, 265, 345, 365 and 465, and three credits of minor-related electives. For students majoring in Anthropology, three credits of this minor may be applied to the major.

Minor in Cross-Cultural Analysis
18 credits including ANTH 170, 200, 430. Two courses from ANTH 352, 422, 424, 426, 428 or 475 (if devoted to a specific world area). One additional course approved by an adviser. For students also majoring in Anthropology, three credits of this minor may be applied to the major.

Minor in Practicing Anthropology
18 credits, including ANTH 170, 200, 370, 374, 437 and either 300 or 470. For students majoring in anthropology, three credits of this minor may be applied to the major.

Art

The Art Department's undergraduate degree program offers a wide range of art specializations, including painting, printmaking, illustration, sculpture, ceramics, graphic design, media arts and art history. Both concepts and technical excellence are stressed within a curriculum that encourages all forms of creative explorations via a developing professional exchange with faculty. All majors must complete a successful portfolio review of at least 10 works to become eligible for upper division courses. Study plans for students are developed on an individual basis consistent with the goals identified by the student and the adviser. The Department houses, within the Samuel S. T. Chen Fine Arts Center, a gallery that offers regular shows for professional exhibits, including the works of internationally known artists Sol LeWitt, Cleve Gray and Robert Cottingham. Opportunities abound for internships with community-based organizations, design firms, museums, galleries and schools.

Major in Art, B.A.
60 credits as follows:
Core (18 credits): ART 112, 113, 120, 124, 130 and 230.

Specialization (21 cr.): either

Area 1, Art History: ART 210, 215, 218, 411, 412, 414, 416

Area 2, Ceramics: ART 260, 360, 414, 416, 460, 465, 468

Area 3, Graphic Design: ART 224, 431; DES 222, 247, 322, 436, 438

Area 4, Illustration: ART 224, 324, 416, 424, 431, 432; DES 222

Area 5, Media Arts: ART 247, 347, 348, 349, 420, 448, 449

Area 6, Painting: ART 252, 352, 353, 414, 416, 431, 465

Area 7, Printmaking: ART 240, 341, 343, 414, 416, 465

Area 8, Sculpture: ART 261, 361, 362, 414, 416, 431*, 465

Directed Electives (18 cr.):
Major-related electives, selected in consultation with adviser

Capstone (3 cr.):
ART 499

* Approval pending

Major in Art Education, B.S. (Certifiable for N-12 teaching)
45 credits, as follows:

Core (36 cr.):
ART 112, 113, 120, 124, 130, 240, 252, 261, 263, 260, 491, and one 400-level Art History course

Studio Specialization Area (9 credits in one media area are required. 3 credits from the required studio core can be used as a beginning studio specialization course.):

Area 1, Ceramics: ART 260, 360, 460, 468

Area 2, Crafts: ART 263, 264, 366, 464, 466

Area 3, Drawing: ART 130, 230, 430, 431, 432

Area 4, Graphic Design: DES 126, 222, 322, 436; ART 247

Area 5, Illustration: ART 224, 324, 424

Area 6, Media Arts: ART 247, 347, 348, 349, 420, 448, 449

Area 7, Painting: ART 250, 252, 352, 353, 450

Area 8, Printmaking: ART 240, 341, 343, 441, 443

Area 9, Sculpture: ART 261, 361, 362

Directed Electives (3 cr.):
Chosen in consultation with adviser

No minor is required for B.S. in Art Education students.

Portfolio Requirement
All Art majors (B.A. and B.S. candidates, including transfer and teaching certification students) must submit a portfolio of at least 10 works for consideration by the Art faculty. Students whose portfolios do not meet standards will be required to take supplemental courses. No student will be allowed to proceed on to a 300-level Art course without a successful portfolio review. Courses that require a portfolio review are marked with an asterisk in the Course Description section of this catalog.

Minor in Art
18 credits in Art are required, grouped according to the recommendations of the Art Department. Students choosing to minor in Art must consult the department chair for the assignment of an adviser.

Biological Sciences

The Biological Sciences Department has full-time faculty representing the major specializations within the broad field of biological sciences. Copernicus Hall houses 13 laboratories for introductory and advanced undergraduate and graduate courses and research in biology.

The department has a wide range of modern research equipment in laboratories designed for class and/or individual research studies. Specialized facilities, available for faculty and student instruction and research, include a greenhouse, herbarium, protein purification facility, photosynthesis research laboratory, molecular genetics research laboratory, controlled environment room, computer laboratory, cell culture facilities, mouse and rat colonies, darkrooms, experimental gardens and growth chambers.

Through the academic and extracurricular opportunities which the department offers, students are prepared to understand the living world and to enter various careers in biology.

Major in Biology, B.S. (Non-Teaching)
Core (17–19 credits): BIO 121, 122, 201, 202 and either 390 or 391, and ONE of the following Advanced Components.

(a) General Biology (32 total credits in Biology required)
Core, plus 13–15 credits of any other 300- and 400-level Biology courses. In addition, MATH 124, or MATH 125 and 115; CHEM 121, 122, 311, 312; and PHYS 121, 122 are also required.

This program includes consideration of all the major concepts and areas of biology. Students are encouraged to see connections in biological processes from the standpoint of all sciences. Students may select different courses to build on the knowledge gained in their first and second years of study and design a biology curriculum that suits their interests. With this degree, students may enter a variety of careers in research, health-related fields, industry or graduate study.

(b) Specialization in Cell, Molecular and Physiological Biology (32 total credits in Biology required)
Core, plus 13–15 credits as follows: BIO 306, 311 or 316; BIO 410 or 412 or 449; and any advanced courses in the C/M/P Group (see list below). In addition, MATH 124, or MATH 125 and 115; CHEM 121, 122, 311, 312; and PHYS 121, 122 are also required.

This specialization offers a curricular focus on molecular and cellular mechanisms that is integrated with organismal physiology and emphasizes the principles and practice of biological research. It is designed to prepare students for careers that use the concepts and techniques of molecular and cellular biology, advanced training or careers in the health sciences or graduate study in fields such as genetics, microbiology, molecular biology, cell physiology or biochemistry.

(c) Specialization in Ecology, Biodiversity and Evolutionary Biology (32 total credits in Biology required)

Core, plus 13–15 credits as follows: One of BIO 405, 434, 440, 480; one of BIO 316, 321, 322, 326, 327, 420, 425, 444; any advanced courses in the E/B/E Group (see list below). In addition, MATH 124, or MATH 125 and 115; CHEM 121, 122, 311, 312; and PHYS 121, 122 are also required.

This specialization emphasizes ecological and evolutionary processes integrated with study of organismal diversity. Students will develop an understanding of the processes that influence relationships among organisms and interactions with their environments through selected courses and individual research projects. This program will prepare students for careers with government agencies (e.g., conservation, fisheries and wildlife management, forestry), nongovernmental organizations, environmental education groups and the environmental industry. In addition, students will be prepared for graduate studies in fields such as ecology, evolution, animal behavior, natural resources management or marine and aquatic biology.

(d) Specialization in Environmental Science (31–35 total credits in Biology required)

Core, plus 14–16 credits as follows: Either BIO 436 or 438; one of BIO 316, 321, 322, 326, 327, 420, 425, 444; one of BIO 311, 410, 412/413, 449/450; either BIO 405 or 434. In addition, MATH 124, or MATH 125 and 115; CHEM 121, 122, 301, 311, 312, 406; either ESCI 121/123 or 450; and PHYS 121, 122 are also required.

This specialization offers students a strong biology core curriculum and added multidisciplinary strengths in environmental science. The program provides students with a foundation in organismal biology, ecology, environmental chemistry, earth science and environmental management in order to give an understanding of environmental issues from a multidisciplinary perspective. The program has particular strengths in plant and animal organismal biology and aquatic (freshwater and estuarine) ecology. The specialization prepares students for careers in environmental science and natural resource management with government agencies, nongovernmental organization and the environmental industry, or for graduate studies in these areas.

E/B/E Group Course Credits
BIO 321 Invertebrate Zoology 4
BIO 322 Vertebrate Zoology 4

Major in Biology, B.S. (Certifiable for teaching grades 7–12)
37 credits in Biology as follows: BIO 121, 122, 201, 202; one of BIO 321, 322, 420, 481; one of BIO 326, 327, 425, 444; either BIO 306 or 316; either BIO 405 or 311; one of BIO 318, 319, 410, 412/413, 449/450; BIO 390. In addition, MATH 124, or MATH 125 and 115; CHEM 121, 122, 250; PHYS 121, 122; and Professional Education courses EDTE 315, EDF 415, SPED 315, EDSC 425, 435, SCI 416, 417, 419 and RDG 440 are required.

This specialization is designed for students who wish to teach biology at the secondary level. The program includes consideration of all major concepts and areas of biology. Within some of the areas, students may select different courses to build on knowledge gained in their first and second years of study. Students are continuously encouraged to see connections in biological events from the standpoint of all sciences. The specialization also includes a professional education component. Because of the breadth of required courses, it is also possible for students in secondary education to enter a variety of other career options in research, health and industry, as well as graduate study.

A student who majors in biology is not required to complete a minor but is urged to minor in one of the other laboratory sciences or General Science.

Portfolio Requirement

All majors in the Department of Biological Sciences are required to complete a Student Portfolio. Minimally, the Student Portfolio must include a current resume, a current Student Graduation Evaluation (available from the Biological Sciences Department) or transcript, a narrative describing the student’s goals for undergraduate education and graduate educational or career plans, and writing samples from one or more upper-level courses in the major. To fulfill the Portfolio Requirement in Biological Sciences, the Student Portfolio must be reviewed with one or more faculty members in Biological Sciences — as a course requirement in BIO 201 and 202, as a required component of BIO 390, 391, 491 and all independent studies and internships, and prior to application for graduation, as evidenced by submission of a “Portfolio Requirement Completed” form (available from the Biological Sciences Department and signed by the major adviser) to the Biology Chair.

Major in Medical Technology, B.S.
52 credits in sciences, including BIO 121, 122, 201, 202, 316, 318, 416 and 417; CHEM 121, 122, 311 and 312; PHYS 121 and 122. In addition, the student must take
MATH 124, or MATH 125 and 115, and complete, as a senior, a year of clinical training and courses in Medical Technology in an approved hospital, for which 30 credits will be awarded. A minor is not required.

The listing of clinical courses and their descriptions is in the Course Description section of this catalog under Medical Technology.

Those applicants who qualify for clinical placement should note that eligibility does not imply automatic acceptance. Hospitals expect a GPA of 2.50 or above.

Students interested in this program must consult Professor Peter Osei, coordinator, Medical Technology Program, Department of Biological Sciences, Copernicus Hall 339 (832-2657).

The University currently has affiliation agreements with the following school:

- St. Mary's Hospital, Waterbury, CT: William Frederick, M.D., Medical Director, School of Medical Technology, and Joseph Vaccarelli, M.S., MT (ASCP), Program Director.

For other possible affiliations, e.g. Danbury Hospital, please consult Dr. Osei.

**Minor in Biology** (Certifiable for secondary teaching)

20 credits required (for those with a major in Chemistry, Physics or Earth Sciences) as follows. BIO 121, 122, 201, 202 and any 4-credit course at the 300 or 400 level. In addition, SCI 416, 417, 419; MATH 125 and CHEM 121 are required. Those with a minor in any other discipline should consult with the department chair about the specific requirements for the minor.

**Major in Interdisciplinary Sciences with Specialization in Environmental Interpretation, B.S.**

53–57 credits. For course listing, see major in Interdisciplinary Sciences, page 51.

**Minor in Biology** (Non-Teaching)

20 credits in Biology, including BIO 121, 122, 201, 202 and 4 credits of Biology electives at the 300 or 400 level.

This certificate program is designed for undergraduates wishing to develop proficient laboratory skills and demonstrate specialized knowledge in the area of modern molecular biotechnology. This formal program offers students the extra biotechnology experience they may desire without removing any of the breadth required in their major program in Biological Sciences. This certificate program also allows students majoring in other disciplines to develop and demonstrate a mastery of modern molecular biotechnology knowledge beyond the minor in Biology but without the breadth requirements of the Biological Sciences major.

The C/M/P Coordinator in Biological Sciences will serve as the point-of-contact for interested students and will assign each a committee of three advisers who work with students to develop a planned program to best serve individual needs and goals.

To be eligible for a Certificate in Biotechnology, a student must be in good standing. Courses taken to satisfy major requirements may be counted to satisfy certificate requirements as well, provided the student has earned a B or better in such courses. Award of the Certificate will require portfolio compilation and review (see page 39 for a description of the portfolio requirement). The portfolio must include a detailed description of the research experience and a narrative explaining how the planned program developed the student's knowledge and competence in the area of biotechnology.

The Certificate in Biotechnology requires 17–18 credits from the list below, including at least 3 credits of laboratory instruction and at least 2 credits of independent laboratory research.

Research Component (2 cr.):

BIO 390 and BIO 491

**Laboratory Science Component (12 cr.):**

Three four-credit courses (with lab) chosen from the following: BIO 306, 311, 316, 416/417, 449/450, 490, 495, 496/497

**Molecular Biology Elective (3–4 cr.):**

Three-four additional credits elected from any of the above or from the following: BIO 416, 449, 490, 496, 562, 570; CHEM 454, 456

Note: Course prerequisites must be met. Undergraduate students who wish to enroll in graduate courses are required to have a 2.70 CGPA and senior standing. Students are also required to obtain the written permission of their adviser, chair of the department offering the course and the Associate Vice President of Academic Affairs and Coordinator of Graduate Studies prior to registration.

**Chemistry**

T. D. Shine, Chair; J. V. Arena,
T. Burkholder, G. Grundwell,
N. M. Glagovich, C. A. Jones,
M. LaFontaine, R. Troy, B. L. Westcott, Jr. (Dept. phone 832-2675)

The Chemistry Department offers B.S. degrees in chemistry which include specializations in business, computer science, biological chemistry and environmental science, or are designed for those wishing to teach chemistry at the high school level. In addition, the Department offers a B.S. degree which is approved by the American Chemical Society.

The Chemistry Department provides undergraduate and graduate courses in the five major areas of chemistry (analytical chemistry, biochemistry, inorganic chemistry, organic chemistry and physical chemistry). The Department facilities are located in Copernicus Hall and include six major instructional laboratories and two major instrument rooms, as well as two research laboratories. In addition, the Department shares a state-of-the-art computer laboratory, also in Copernicus Hall, with two other departments.

Chemistry students at the undergraduate and graduate level are encouraged to perform research under the mentorship of a faculty member. Chemistry students have the opportunity to work on all of the Department's chemical instrumentation.
These include a gas chromatograph/mass spectrometer, a Fourier transform nuclear magnetic resonance spectrophotometer, two Fourier transform infrared spectrometers, two UV/visible spectrophotometers, two high-performance liquid chromatographs, an atomic absorption spectrophotometer, a spectrofluorometer, a BAS 100A electrochemical analyzer, a petrographic microscope, three stand alone gas chromatographs and other assorted pieces of instrumentation. The Department also has a variety of computer workstations for computer-based molecular modeling and investigations.

**Major in Chemistry, B.S. (Non-Teaching)**

**(a) General Program**

This program is designed for students wishing to go on to graduate-level studies in chemistry, or those who expect to enter professional chemistry at the bachelor’s level.

47–48 credits, as follows: CHEM 121, 122, 301, 311, 312, 313, 316, 321, 322, 323, 324, 432, 454, 460, 461 and 462; PHYS 125 and 126; and MATH 121 (or 119), 122, 221. The student must also complete 8 credits from the following approved list: BIO 121 or higher, PHYS 220 or higher, ESCI 121 or higher, or MATH 222 or higher. Computer literacy and experience in the use of chemical literature are recommended. For students contemplating graduate study, a year of German or Russian is recommended. A minor is not required.

**(b) Chemistry-Business Specialization**

This program is designed for students wishing to apply their chemistry background to the business management or marketing facet of the chemical industry.

40 credits in Chemistry, as follows: CHEM 121, 122, 301, 311, 312, 313, 316, 321, 322, 323, 402, 432, 460 and 462. In addition, students must take PHYS 125, 126 and MATH 121 (or 119), 122, 221. In place of a minor, the following courses are required: ECON 200, AC 211 and either the Marketing or Management sequence. Students in the Marketing sequence must take MKT 295, 296, 307, 311 and 413. Students in the Management sequence must take MGT 295, 305, 403 and 431.

**(c) Chemistry-Computer Science Specialization**

A strong background in computer science has become increasingly important in chemical work. This program affords the student a measure of this needed background.

40 credits in Chemistry, as follows: CHEM 121, 122, 301, 311, 312, 313, 316, 321, 322, 323, 402, 432, 460 and 462. In addition, students must take PHYS 125, 126 and MATH 121 (or 119), 122, 221. In place of a minor, the following courses are required: CS 151, 152, 254 and one elective in Computer Science approved by the Department of Computer Science. Experience in the use of chemical literature is recommended.

**(d) Chemistry-Biological Chemistry Specialization**

This program is designed for students who desire a broad background in chemistry and biology or who are considering a health-related field upon graduation.

58–59 credits, as follows: CHEM 121, 122, 301, 311, 312, 320, 402, 454, 455, 459; BIO 121, 122, 201, 306; and 7–8 elective credits from BIO 316, 318, 319, 416, 495 and CHEM 456. Additionally, students must take PHYS 125 and 126 and MATH 122 and 221.

**(e) Chemistry-Environmental Science Specialization**

This program is designed for students wishing to go on to graduate level studies in chemistry or environmental science, or for those who expect to enter professional fields of chemistry or environmental science at the bachelor’s level.

57 credits in Chemistry and Biology as follows: CHEM 121, 122, 301, 311, 312, 313, 316, 321, 322, 323, 402, 406, 432, 456 and 460; BIO 121, 122, 434 (or 405). In addition, students must take MATH 122 and 221 and PHYS 125, 126. ESCI 121 is recommended. No minor is required.

**Minor in Chemistry**

18 credits in Chemistry if the student’s major is Biology, Physics or Earth Science, including CHEM 121, 122, 301, 311 and one Chemistry elective from courses numbered 300 and above. In addition, students must take PHYS 121, 122; BIO 121; SCI 417 and MATH 121 (or 119). For other majors, a certifiable minor in Chemistry requires 30 credits planned with the approval of the chair of the Chemistry Department.

**Minor in Chemistry**

21 credits in Chemistry, including CHEM 121, 122, 301, 311 and two Chemistry electives selected from courses numbered 300 or above.

---

The Department of Communication offers courses leading to the Bachelor of Arts degree which are designed to challenge students interested in the study of human communication. Communication, broadly conceived, is the purposeful exchange of symbolic information. Communication viewed as human behavior can be examined both in terms of its process and its outcomes and effects. The program of study defines a range of communication problems, determines the appropriate method of inquiry and searches for answers to the important questions involving the role of communication in individual relationships, in societal settings, in corporate structures and in global interdependence.

The major in Communication (B.A.) consists of 39 credits in the department and related courses, including 21 credits of departmental electives and 18 credits of core requirements: COMM 140, 215, 230, 245, 301 or 302 or 303, and 400. As part of their
39 credit major, students must take a total of 21 credits from 300/400-level courses, with a minimum of 9 credits from 400-level courses. Students should see the Department of Communication to obtain a Curriculum Guide Sheet to determine the appropriate departmental electives for their program.

Communication majors can also complete two capstone experiences on an optional basis as part of their graduation requirements. The first option is a colloquium presentation in which the student discusses a piece of their work (research paper, video production, internship, etc.) which was done while completing the requirements for the major. The presentation will be made to a group of faculty and students from the Department of Communication. The second capstone option pertains to a student portfolio that the major prepares and submits to the department prior to graduation. The student portfolio should contain several pieces of work that the student selects to demonstrate his or her accomplishments while completing the program. Upon admission to the major, the student should obtain a set of guidelines for preparing the colloquium and student portfolio from the Department of Communication.

Courses are grouped according to certain emphases within the broad field of Communication, allowing the student the choice of an emphasis that is compatible with his or her aims and interests. These emphases are: (1) mass media for students interested in careers in radio, television or film; (2) promotion/public relations for students who wish to develop communication skills for commercial, as well as non-commercial, employment in publicity, promotions, sales and corporate communication and community services; (3) political communication for students interested in developing communication skills necessary for working in state or local government; (4) organizational communication for students interested in pursuing consulting or in serving as managers for private and public institutions; and (5) for students with specialized needs, an adviser-based program is another option. In addition to these educational and occupational opportunities, a student might choose to pursue directions which could lead to an advanced degree in Communication.

The Department of Communication maintains a policy for admission to the major. To be admitted to the Communication major, students must complete 30 credits (15 credits for transfer students with 45 or more credits transferred to CCSU) of general education or courses in their minor and obtain a 2.00 GPA or better. Also, students must complete four required Communication core courses at CCSU: COMM 140, COMM 215, COMM 230 and COMM 245, and achieve a 2.50 minimum overall GPA for the four courses, with no grade lower than a C- in any course. Students who have taken one or more of these courses at another institution should see the department chair for a substitute(s).

Students should not take any Communication courses beyond five of the six core courses (COMM 140, 215, 230, 245 — and for transfer students COMM 301 and/or 302 and/or 303) until they have been admitted to the major. The sixth core course — COMM 400 — must be taken before graduation. Students who have been denied admission to the major may apply courses they have taken in the core to a minor in Communication provided there is no grade lower than a C-. Alternatively, they may repeat courses in which they received a C- or lower in order to raise their GPA.

Students in the process of completing the admission requirements to the Communication major are considered Pre-Communication majors. They should go to the Advising Center located in Willard 100 for academic advising, until their admission to the Communication major. Pre-Communication majors, when enrolled in the last Communication course needed for admission to the major, should go to the Communication department office and complete a Major and Program Change Form. The chair will sign this form, after evaluating the student’s transcript to determine if he or she meets the admission requirements. Upon being assigned to the major, the student will be assigned a Communication Department faculty member as an adviser. The Registrar’s Office will also be notified that the student’s major has been changed from Pre-Communication to Communication.

Curriculum Guide Sheets listing required and recommended courses for each emphasis are available in the department. A maximum of 6 credits in related courses from outside the department (also listed on Curriculum Guide Sheets) may be counted toward the major. The student may also request to use up to six credits of related coursework outside of the major that were not listed on the Curriculum Guide Sheets. In such cases, students should obtain permission from their adviser and department chair as well as complete a course substitution form. Furthermore, completion of a minor in a related field of study in another department at the University is required. Students should complete a Program Change Form as soon as possible to declare their minor.

Note: Some courses offered by the Department are open to majors only. See course descriptions for information.

Minor in Communication
21 credits in Communication, including COMM 115 or 140, 215, 230, and 12 credits in Communication courses, 6 of which must be numbered 300 or 400.

Computer Science

The Department of Computer Science offers an honors and an alternative program of study leading to a bachelor of science degree in Computer Science, as well as an interdisciplinary program with Computer Science core. The Computer Science major is one of the first such programs offered in New England, and the honors program is fully accredited by the Computer Science Accreditation Board (CSAB). Accredited programs must meet or exceed CSAB criteria for faculty, curriculum, laboratory and computing resources, students and institutional support. Central Connecticut State’s Computer Science honors program is the first in the state to receive CSAB accreditation.

All Computer Science (CS) majors take courses covering program design, data structures, assembly language programming, digital design and systems programming. Topics courses, including database design and applications, networking, graphics and visualization, and Web-centric computing, allow the department’s offerings to keep pace with the rapid advancement of computer technology, and are offered for elective credit on a regular basis.

In addition to the regular course work, CS majors may participate in the Cooperative Education program. This program, open to juniors and seniors, allows the student to put her/his skills to use in a real-life setting, receiving academic credit.
for work in a real-world environment. The interdisciplinary program provides a grounding in Computer Science, Mathematics and Natural Science, and allows the students to cap their program in any of these fields.

State-of-the-art computing facilities and university networking infrastructure provide students access to on-campus specialized software packages and streaming video capabilities, as well as Web-based remote accessibility for on-line teaching and learning.

Major in Computer Science, B.S. (Honors) (Non-Teaching) (CSAB-accredited)

Mathematics and statistics (15 credits): MATH 122, 221, 218 and STAT 315.
Science and quantitative methods (14 credits): One of the following sequences: BIO 121 and 122 or CHEM 121 and 122 or ESCI 121, 122 and 123 or PHYS 125 and 126. An additional 6 credits in science and/or courses with a strong emphasis on qualitative methods, selected in consultation with an adviser, is required. Majors must also take PHIL 245.

Computer Science honors program majors are not required to complete a minor.

Major in Computer Science, B.S. (Alternative) (Non-Teaching)
38 credits as follows: 30 credits of Computer Science courses, including CS 151, 152, 161, 253 and 254, and 15 elective credits selected in consultation with an adviser. No other CS course numbered below 210 can be counted for this major. 8 credits in mathematics: MATH 122 and 218. This alternative major may be completed in as few as four semesters and allows the student to complete requirements for a minor.

Minor in Computer Science
18 credits as follows: CS 151, 152, 253, 254 and 4 credits of Computer Science electives which are applicable to the B.S. degree in Computer Science.

Interdisciplinary Major — Sciences with Core in Computer Science, B.A.
39 credits as follows: 18-24 credits of Computer Science consisting of CS 151, 152, 253 and 254, plus 4-10 credits in electives chosen from CS courses numbered above 300. 9-15 credits in mathematics chosen from MATH 121, 122, 218, 221, 222, 228, 366 and 477. 3-9 credits in physics or earth science and 3-9 credits in chemistry or biology. Science courses must be laboratory courses.

Criminology and Criminal Justice
S. Pease, Chair; S. Cox, R. Fernandez, J. Hedlund, D. Stanley, R. Tafrate (Dept. phone: 832-3005)

Major in Criminology, B.A.
39 credits as follows: CRM 110, 222, 231, 233, 337, 338, 435 and 18 credits of Criminal Justice electives, selected in consultation with an adviser.

The academic field of criminal justice is interdisciplinary and involves the study of the definition of crime, the causes and control of criminal behavior and the operation of the criminal justice system (i.e., police, courts and corrections). The study of criminal justice is both theoretical and practical in nature and emphasizes theory, policy, planning and evaluation. Through classroom and field experience students are prepared for responsible positions of service in law enforcement, the courts, corrections and youth service agencies. Graduates have taken positions in federal, state and municipal law enforcement, federal and state prisons, halfway house staff and management, federal and state probation, private security and public and private investigation.

Minor in Criminal Justice
18 credits, CRM 110, 231 or PS 332, CRM 233, 337, 338 and 3 credits of Criminal Justice electives. Students minoring in Criminal Justice are urged to consult an adviser in the Criminology and Criminal Justice Department.

Note: Students with a major in Political Science and a minor in Criminal Justice, may count the Criminal Justice and Political Science courses in either the major or the minor, but not in both.

Design (Graphic/Information)
S. G. Vial, Chair; E. Asturiza, J. Calvert, E. Thornton, B. Tyson (Dept. phone 832-2557)

Major in Graphic/Information Design, B.A.
33 credits as follows: DES 222, 322, 325, 326, 419, 436, 438, 499; MKT 306; either COMM 330 or 336; CS 495. Additionally, ART 110, 130, 224; COMM 230; MKT 295 and MIS 201 are required.

Note: Students must complete a standard minor or 18 credits of major-related courses as approved by adviser.

The Bachelor of Arts Degree in Graphic/Information Design provides professional training in the areas of Graphic Design, Web Site Design, Interactive Multimedia Design, Information Design and Digital Imaging.

The Department provides an academic structure for the advancement of Graphic and Information Design training and degrees at both the undergraduate and graduate level. The Department of Design (Graphic/Information) is separate from the Department of Art and Industrial Technology. The faculty and staff are comprised of members with academic background and professional experience in graphic design, fine art, advertising, illustration, information design, communications, marketing, computer science, web site design and interactive multimedia design. The Department maintains a state-of-the-art print center and laboratories. Upper-level students may be selected (by portfolio) for participation in the following:

1. Design Internship experience with graphic design, advertising, publishing, web site or multimedia design companies.
2. Central Design, student operated full service graphic design studio.

Graduates of the Department are highly successful, working as designers and art directors with nationally known graphic design firms, advertising agencies, corporate design and communication.
departments, broadcasters, publishers, and web site design houses, as well as multimedia/animation studios.

**Admission Requirements:**
To be admitted to the Graphic/Information Design major program, candidates must successfully complete DES 222, Graphic/Information Design I, with a grade of B or better. Students with a lower grade may appeal for admission by portfolio presentation to a design faculty committee. Candidates may apply for admission to the program after having completed 9 credits of course work.

Note: Students enrolled in the following courses will be assessed a $65 Design Lab Fee: DES 222, 322, 325, 326, 436, 438, 439, 465, 498, 499, 503, 504, 598, 599. Contact the Department for additional information.

**Economics**

**Minor in Economics**
18 credits as follows: ECON 200, 201 and 12 credits of electives in Economics. GEOG 244, HIST 430 or HIST 465 may be credited toward the minor for students completing elementary and secondary certificates.

**Economics**

**General Prerequisite:** ENG 110 is a prerequisite for all other English courses, except ENG 099, 108, 109.

**Major in English, B.A.**
39 credits in English, as follows: ENG 205, 206, 210, 211 and one course from the following: ENG 200, 230, 400, 430, 431. In addition, 24 credits on the 300-400 level as follows: four courses (12 credits) in British literature, one each in the following areas — I. 700-1600 A.D.; II. 1660-1900; III. 1900-Present; IV. Major figure (Chaucer, Shakespeare, Milton); three courses (9 credits) in American literature — one in a period preceding 1865, one in a period following 1865 and ENG 449; and one course (3 credits) in world literature.

**Major in English, B.S.** (Appropriate for certification in secondary education)
43 credits in English, as follows: ENG 200 or 400, 205, 206, 210, 211, 402, 420, 435 (to be taken concurrently with ENG 420 and EDSC 435) and 492. In addition, 18 credits on the 300-400 level as follows: four courses (12 credits) in British literature, one in each of the following areas — I. 700-1600 A.D.; II. 1660-1900; III. 1900-Present; IV. Major figure (Chaucer, Shakespeare, Milton); two courses (6 credits) in American literature, including ENG 449. Also, RDG 440, SPED 315, EDTE 315, EDSC 425, EDSC 435 and EDF 415 are required for certification.

*There is one exception to this statement that the remaining credits must be on the 300-400 level. ENG 220 may be taken as fulfillment of the appropriate area requirement. Also, if a student takes two major figure courses, the second may count as an area fulfillment: Chaucer or Shakespeare for Area I, Milton for Area II. Further substitutions within area requirements are permitted only with prior approval of the adviser and the department chair.*
in a genre other than the selected sequence). No repetition of courses allowed. Consultation with a Creative Writing faculty member is required for the program and selection of all courses.

Minor in Descriptive Linguistics
21–23 credits as follows: ENG 200, 230, 400, 430 (or an approved substitution), 431 and either a) 6 credits of a foreign language at the intermediate level; or b) CS 151 and 152; or c) SL 420 and either ED 498 or ENG 490 (for independent study in manual sign systems).

Minor in TESOL
(For students completing elementary or secondary certificates)
21 credits as follows: ENG 230, 200 or 400, 496, 497 and either a) 6 credits of foreign language at the intermediate level plus one of the following courses, or b) (for the student who is already competent in a foreign language) three of the following courses: ANTH 170, ENG 430, 431, 596, HUM 490, SOC 322.

Complementary Subject Matter Area in English/Linguistics:
18 credits. as follows: ENG 200, 230, 300, 430 and 431; either an approved elective or a second topic under ENG 430.

Complementary Subject Matter Area in English/Writing:
18 credits. as follows: ENG 202, 401 and 403; 9 credits in either Journalism (ENG 235, 236, 380, 381, 382, 416 or 418) or in Creative Writing (ENG 371, 372, 373, 374, 376, 377 or 378).

*Please consult with the School of Education and Professional Studies concerning additional requirements for dual subject programs and interdisciplinary majors.

Geography

The Geography Department is concerned with the science of location. Geography faculty teach students to use maps, air photos, computers and information about places to understand how people use the land they live on and what makes that land different from other areas. Geography students learn about the nature of places, human impacts on environment and the proper use of the land. Career opportunities include travel and tourism, environmental protection, urban, regional and transportation planning, map making, area studies and computer applications. The department also provides internships for students in a variety of town, regional, state and private agencies and offers consulting services, workshops and short courses as part of its outreach program.

Major in Geography, B.A. or B.S.
36 or 39 credits in Geography, as follows: A 21-credit basic core including GEOG 110 or 120, 3 credits in physical geography, 3 credits in cultural geography, 3 credits in geographic techniques, 3 credits in planning and 6 credits in regional geography courses. Also, completion of one of four programs as follows:

Environmental: 9 credits in physical geography, 9 credits in geographic techniques and 9 credits from GEOG 430, 433, 445, 472 and 473, plus any 300- or 400-level Geography course. 9 credits of this program may be used to fulfill the requirements of the core.

Techniques: GEOG 256, 266, 276, 378, 379, 430 or other course selected in consultation with faculty adviser, and 6 credits from other Geographic Techniques courses. 3 credits of this program may be used to fulfill requirements of the core.

Tourism: 15 credits from GEOG 290, 291, 450, 451, 453, 454 or 455; two courses in regional geography at the 300- or 400-level; GEOG 425 or GEOG 430 or a substitute course; and one elective geography course. 9 credits of this program may be used to fulfill requirements of the core (39 credits total).

General/Regional: 18 credits of Geography electives, at least nine of which must be at the 400-level. All elementary education students selecting this program will take GEOG 414 as one of their Geography electives in geography.

Geography Course Groups.

Geography Course Groups.

Acceptable substitutes for GEOG 425 or 430 will be jointly determined by student and adviser. When approved in advance by the student's adviser, up to 6 credits of cognate courses in one or two other disciplines may be applied toward the major in Geography.

For certification in elementary education: Students are advised to follow the General/Regional program in the Geography major. All elementary education students selecting geography as their single subject matter area will take GEOG 414, with this course counting as a geography elective. Please consult with the School of Education and Professional Studies concerning additional education requirements.

Completion of a minor in another discipline is required, except for elementary education students. Certain minors are especially recommended by the department, depending on the career track chosen by the student. We also encourage participation in CCSU's Cooperative Education program.

Major in Geography with a Specialization in Planning, B.A.
39 credits as follows: GEOG 110, 241 and 441: 15 credits in geographic techniques; 9 credits from GEOG 439, 440, 445, 450 or 483; 3 credits from GEOG 244, 272, 275, or 490; and GEOG 420. A minor in another discipline acceptable to the student's adviser is required. STAT 104 or 215 (Skill Area 2) is also required.

Minor in Geography with a Specialization in Planning
18 credits in Geography as follows: GEOG 110, 241, 441; 6 credits from GEOG 272 and/or any geographic techniques course; 3 credits from any 400-level planning course (see Geography Course Groups above).

Minor in Geography
18 credits in Geography as follows: GEOG 110 or 120; and 15 credits of Geography electives. We recommend these electives include one course from each group listed in the Geography Course Groups.

Minor in Tourism
18 credits in Geography as follows: GEOG 110 or 120, 290; 3 credits from any regional Geography course and 9 credits selected from these courses: GEOG 291, 450, 451, 453, 454, 455. Courses used to satisfy this minor may not be used to satisfy the requirements of any major in Geography. Students selecting this minor must consult with the department chair.
Major in Social Science with Minor in Geography, B.S. (Acceptable for secondary certification in social studies.)

56 credits distributed as follows:

18 credits in History, to include: HIST 121 and 122 or HIST 142 and 143; HIST 261 and 262; and 6 elective credits, three of which must be in non-western history.

18 credits from six of the following courses (must be spread among three social sciences): ANTH 140; ECON 200, 201; PS 104, 110; PSY 112; SOC 110.

26 credits from EDTE 315, SPED 315, EDSC 425, EDSC 435, EDF 415, EDT 315, RDG 440. In addition, students must take SSCI 415, 421 and PSY 236.

18 credits in Geography, as specified by the requirements for the minor in Geography.

Note: Please consult with the School of Education and Professional Studies concerning additional requirements.

Note: Geography is not a certifiable subject in Connecticut. Those who wish to teach the subject at the secondary level in the state should complete this major. Those who wish to teach geography or social studies at the middle level should complete the following:

For certification in elementary or middle level education, Complementary Subject Matter Area in Geography:

Complements Primary Subject Matter Area in English at the elementary level, and English, General Science or Mathematics at the middle level. 18 credits, as follows: GEOG 120, 220, 330; one of GEOG 272, 374, 275 or 433; and six credits in geography electives (at least three of which must be at 400 level). All education students selecting geography as a complementary subject matter area will also enroll in GEOG 414; Elementary-level (1–6) students will enroll for 3 credits and may use the course as one of the two geography electives. Middle-level (4–8) students will enroll for 2 credits in addition to the 18 hours specified above, using GEOG 414 as their complementary methods course. Please consult with the School of Education and Professional Studies concerning additional requirements for dual subject programs and interdisciplinary majors.

History

b. 18 credits in Social Science consisting of PS 104 or 110; ECON 200 or 201; GEOG 110 or 120; PSY 112; either ANTH 140 or SOC 110 and a social science elective.

In addition, students must complete SSCI 415, SSCI 421, EDTE 315, EDT 315, RDG 440, EDF 415, EDSC 425, EDSC 435, SPED 315.

No minor is required of students in this major.

Major in History, B.S. (Certifiable for elementary education)

39 credits in History as specified under the major in History, B.A. For additional course requirements in Education consult with the School of Education and Professional Studies.

Minor in History

18 credits of History, including HIST 121 or 142, 122 or 143, and 301 or 310. 6 credits must be taken in 400-level courses at Central Connecticut State.

For certification in elementary or middle level education, Primary Subject Matter Area in History:

24 credits, as follows: HIST 261 and 262; HIST 301 or 310; 6 credits from one of the following sequences: HIST 341/342, HIST 351/352, HIST 375/376, HIST 381/382, HIST 442/443/444; 6 credits of American history from the following: HIST 423, 424, 425, 426, 427, 428; and 3 credits of history electives. Please consult with the School of Education and Professional Studies concerning additional requirements for dual subject programs and interdisciplinary majors.

Mathematical Sciences

Major in Mathematics, B.A.

38 credits in Mathematics and related courses including: MATH 122, 218, 221, 222, 228 and 366. The remaining 15 credits may be selected from MATH 300, 320,
Major in Mathematics with Specialization in Actuarial Science, B.A.
58 credits in Mathematics and related courses as follows.

- Core (46 credits): MATH 122, 218, 221, 222, 228, 315, 316, 416; ACTL 300, 453, 456, 481.
- Electives (12 credits) as approved by adviser.

Note: CS 151 is strongly recommended.

Major in Mathematics with Specialization in Data Mining, B.S.
58 credits in Mathematics and related courses as follows.

- Core (46 credits): MATH 122, 218, 221, 222, 228, 315, 316, 416; STAT 314, 453, 456, 465, 476; ACTL 465, 480, 481, 482.
- Electives (12 credits) as approved by adviser.

Note: CS 151 is strongly recommended.

Major in Mathematics with Specialization in Statistics, B.A.
58 credits in Mathematics, Statistics and related courses as follows:

- Core (46 credits): MATH 122, 218, 221, 222, 228, 315, 316, 416; STAT 300, 453, 456, 465, 476; one course chosen from MATH 113, 121, 122, 124 or 125. Please consult with the School of Education and Professional Studies concerning additional education requirements.

Note: Majors should consult with the School of Education and Professional Studies concerning additional education requirements.

Minor in Mathematics (For B.S. Physics Majors)
18–19 credits in Mathematics as follows:
MATH 218, 221, 222, 463 and either MATH 228 or 491.

Minor in Statistics
21 credits, including STAT 215, 216, CS 151; three courses chosen from MATH 110, 470, STAT 440, 455, 456, 465, 476; one course chosen from the courses listed above or CS 473; BIO 405; ECON 460, 485; GEOG 476; PSY 222, 351.

Note: At most, one course may be used in both the student's major program and the minor in Statistics.

Minor in Mathematics (For special education majors)
18 credits including MATH 113, 213, 412 and 9 credits from MATH 305, 306, 446, 449.

Minor in Mathematics/Reading (For special education majors)
18 credits including RDG 315, 412, 440 and 8 credits from MATH 113, 121, 213, 412, 446, 449.

Official Certificate Program: Certificate in Data Mining (OCP 102)
Admission criteria: Approval of the Department of Mathematical Sciences.

Required courses (12 cr): STAT 321, 322, 323 and CS 290.
Prospective students to the Certificate in Data Mining program are expected to have completed, or be in the process of completing, MATH 122 and 218; CS 151; and either STAT 201, 216, 416 or 453. These prerequisite courses will be offered regularly in the classroom, and some may be offered online, for students who are missing one or more of these courses.

Note: New students may take the first course in the program while working on the prerequisites for the more advanced courses. The program will be made available both in the classroom and online.

For certification in elementary, early childhood or middle level education, Primary Subject Matter Area in Mathematics:
24-26 credits, as follows: MATH 113, 213, 305, 306, 409 and STAT 215; and any two courses from the following: MATH 115, 119, 121, 122, 124 or 125. Please consult with the School of Education and
**Modern Languages**

**Major in French, German, Italian, B.A.**
30 credits as follows: FR, GER, ITAL 125, 126, 225, 226, 305 (FR 302), 315, 316, 360 (FR 301, ITAL 304) and 6 credits of directed electives.

**Major in Spanish, B.A.**
30 credits as follows: SPAN 125, 126, 225 and 226 for non-native speakers or SPAN 190, 191, 290 and 291 for native speakers; 15 credits from SPAN 300, 304 or 305, 315, 316, 375 or 376; and 3 credits of directed electives, selected in consultation with adviser. For students with advanced preparation, appropriate substitutions will be made.

**Major in French, German, Italian, B.S.** (Certifiable for secondary teaching)
36 credits as follows: FR, GER, ITAL 125, 126, 225, 226, 305 (FR 302), 315, 316, 335, 336; and 6 credits of directed electives. In addition, students must take EDTE 315, EDF 415, SPED 315, EDSC 425, EDSC 435, ML 429, ML 440, EDT 315 and RDG 440. For students with advanced preparation, appropriate substitutions will be made. No minor required.

**Major in Spanish, B.S.** (Certifiable for secondary teaching)
36 credits as follows: SPAN 125, 126, 225, 226 for non-native speakers or SPAN 190, 191, 290 and 291 for native speakers; SPAN 305, 315, 316, 335, 356, 376; and 6 credits of directed electives. In addition, students must take EDTE 315, EDF 415, SPED 315, EDSC 425, EDSC 435, ML 429, ML 440, EDT 315 and RDG 440. For students with advanced preparation, appropriate substitutions will be made. No minor required.

**International Studies Major with focus on Russian Studies, B.A.**
In consultation with the program adviser, students may pursue a program focusing on Russian Studies within the framework of the International Studies major. For additional information, see International and Area Studies: Slavic/East European Studies.

**Minor in Modern Language**
18 credits as follows: FR, GER, ITAL, RUS or SPAN 125, 126, 225, 226 (SPAN 125, 126, 225, 226 for non-native speakers or SPAN 190, 191, 290, 291 for native speakers) and 6 credits of directed electives.

In Chinese, the requirement is CHIN 111, 112, 125, 126 and 6 credits of directed electives.

In Japanese, students must take JAPN 125, 126, 225, 226; and 6 credits from JAPN 335, 336; HIST 454; GEOG 435.

**LANGUAGE PLACEMENT EXAMINATION**
Every student must demonstrate proficiency in a foreign language equivalent to completion of one year of college-level study as part of General Education.

The Department of Modern Languages tests achievement levels in French, German, Italian and Spanish on specified registration dates. Students with skills in languages other than those listed above should arrange with the Department of Modern Languages for verification of their level of proficiency. These examinations serve both for exemption and placement. All students, including native speakers, with two years or less of previous foreign language study must take the exams.

Students with three or more years of successful secondary language study in one language are automatically exempt from further testing. Students with deficiencies in theory and/or practice selected in consultation with adviser.

**Music**

P. Perry, Chair; D’Addio, R. Glarnar, C. Knox, L. Laurent, H. Myers, C. Parr, J. RICHINSKY (Dept. phone 832-2912; fax: 832-2902)

Adjunct faculty specializations include bass, bassoon, clarinet, composition, computer technology, flute, guitar, harp, horn, oboe, organ, piano, trombone, tuba, violin, voice.

To enroll as a Music major, all students must apply separately to the Music Department. Call the Department for an application. Entrance auditions, along with a theory placement test, will be administered by members of the Music faculty. Students with deficiencies in theory and/or piano may be required to take remedial courses which would not be credited toward the degree.

**Major in Music, B.A.**
60 credits as follows:

Core (24 cr.): MUS 115, 116, 121, 122, 211, 215, 216, 221, 222, 235, 236, 335.

Specialization (36 cr.): either
1. Performance: MUS 178, 278, 378, 478 (14 cr.); MUS 140/141/142/143 (10 cr.); MUS 367/368, 380/403, 400, 404
2. Theory and Composition: MUS 177/178, 278, 378 (12 cr.); MUS 140/141/142/143 (6 cr.); MUS 367/368, 380, 390, 395, 400, 405/495, and one elective selected in consultation with adviser.
3. History: MUS 177 (5 cr.); MUS 140/141/142/143 (6 cr.); MUS 400, 403/405 (9 cr.); HIST 142/143 or ART 112/113 (6 cr.); PHIL 248; and one elective selected in consultation with adviser.

**Major in Music Education, B.S.**
(Certifiable for K-12 teaching)
66 credits in music including: MUS 114, 115, 116, 121, 122; 6 credits in either MUS 141, 142 or 143; MUS 211, 215, 216, 221, 222, 235, 236, 259, 261, 262, 263, 264, 267, 268; MUS 335, 367 and 368, and 7 semesters of MUS 178, 278, 378, 478.

Also required are 30 credits in Professional Education including: MUS 101, 310, 315, 316, 402; EDSC 375, EDF 415; EDSC 420, 421; EDT 315 and SPED 315.

Students in this program must take the following as part of their General Education requirements: HIST 261 or 262 in Study Area II, PSY 236 in Study Area III, PHYS...
113 in Study Area IV, and ENG 110 in Skill Area I.

Note: This major does not require a minor.

Note: Students enrolled in MUS 177 must pay an extra fee of $200 each semester. Students enrolled in MUS 178, 278, 378 or 478 must pay an extra fee of $400 each semester. This fee is non-refundable and subject to change. All students enrolled in MUS 178, 278, 378 or 478 must perform in one student recital per year.

Music degree students are encouraged to enroll in the appropriate major ensemble (MUS 141, 142, 143) during every semester of enrollment, with the exception of the semester of student teaching. (See specific degree programs for ensemble requirements.) Instrumental students will be assigned to either orchestra or band for their major ensemble as needed.

All music majors are required to enroll in MUS 090 every semester except while enrolled in either EDSC 420/421 or student teaching. (See specific semester. This fee is non-refundable and subject to change. All students enrolled in MUS 178, 278, 378 or 478 must perform in one student recital per year.

Music degree students are encouraged to enroll in the appropriate major ensemble (MUS 141, 142, 143) during every semester of enrollment, with the exception of the semester of student teaching. (See specific degree programs for ensemble requirements.) Instrumental students will be assigned to either orchestra or band for their major ensemble as needed.

All music majors are required to enroll in MUS 090 every semester except while enrolled in either EDSC 420/421 or MUS 400.

All music majors (B.A. and B.S. candidates) must successfully complete all portions of the Sophomore Review, which includes a writing sample, written theory test, sight-singing and piano proficiency. No student will be allowed to proceed to a 300-level music course until the Sophomore Review has been successfully completed.

The piano proficiency exam may be taken a total of four times, and students must demonstrate a minimum of proficiency in each category to pass. Most students should begin taking this exam during their sophomore year. Three categories of the exam must be passed before acceptance into the Professional Program. All of the exam must be passed before beginning student teaching.

The piano proficiency exam consists of the following:
1. playing major and harmonic minor scales (up to 4 sharps and flats), two octaves, hands together
2. playing three intermediate-level pieces from the recommended list, including a chorale and a memorized piece
3. harmonizing a simple melody
4. transposing the same melody up or down a major/minor second
5. sight-reading a simple piano piece and an accompaniment

**Minor in Music**

Students planning to minor in Music must consult the department chair for assignment of an adviser.

18 credits in Music, as follows:

**Area I**:
- 9 credits from MUS 110, 111, 112, 115, 116, 121, 122, 221

**Area II**:
- 5 credits from MUS 250, 251, 264, 350, 351, 363, 364, 380

**Area III**:
- 4 credits from MUS 140, 141, 142, 143, 177

**Philosophy**

Philosophy is a critical, self-critical, comprehensive inquiry about knowledge, reasoning, reality, norms and values. It deals with corresponding problems arising in science, morality, art, literature, religion and the social and natural worlds. Accordingly, engaging in philosophy can both address curiosity about matters of lasting significance and help us develop skills for dealing intelligently and sensitively with life.

The Department of Philosophy offers undergraduate major and minor programs with a broad spectrum of courses reflecting the diversity of Western and non-Western thought. Majors select two specializations and minors select one specialization from among the following:

(a) History of Philosophy: PHIL 230, 232, 330, 332, 368
(b) African, African-American and Asian Philosophy: AFAM 110, PHIL 250, 260, 275, 360
(c) Logic and Philosophy of Science: PHIL 135, 235, 320, 335
(d) Continental Philosophy: PHIL 222, 248, 332, 366, 368
(e) Theoretical and Practical Ethics: PHIL 240, 241, 242, 346, 349, 440; HHSP 246, 341, 342
(f) Philosophy of Religion and Religious Studies: REL 105 or 110, 257, 361, PHIL 232, 250, 255, 376, and courses listed under the minor in Religious Studies

Note: If PHIL 400 is taken more than once, the additional credit will be counted in a specialization.

Note: Any specialization course(s) taken to fulfill the Core Curriculum will be replaced by directed elective(s) selected in consultation with adviser.

Note: PHIL 382, 441 or 492 may be included in a specialization if approved by the faculty adviser.

**Minor in Philosophy**

Eighteen (18) credits as follows:

- PHIL 112, 220, 300, either 230 or 330, and 6 credits of PHIL or REL electives listed in the specializations for philosophy majors (at least 3 credits of 300-level or higher).

**Physics and Earth Sciences**

Located in Copernicus Hall, the facilities of the Physics and Earth Sciences Department include numerous introductory and inter-
Major in Physics, B.S.
225, 250, 305, 320, 331, 350, 425, 450

Note: A minor is not required except for
secondary teaching.

Note: A year of French, German or
Russian is recommended if graduate study
or GEOG 374.

Major in Earth Sciences, B.S.
330, 342, 421, 424, 430, 431, 442, 450, 462

Wherever possible, students enrolled in
the programs listed below are encouraged to
join with the faculty in ongoing studies in
these and other areas.

Credit is not given toward a major or
minor in this department for PHYS 111,
113, 115 or ESCI 110, 111, 117 or 118.

Major in Physics, B.S. (non-teaching)
39 credits in Physics, including: PHYS 125,
126, 220, 225, 250, 305, 320, 331, 350,
425, 450, 460, 470 and 471. In addition, the
student must take CHEM 121 and 122 and
MATH 122, 221 and 222. Completion of a
minor is required, and for students planning
graduate work a year of French, German or
Russian should be taken.

Major in Earth Sciences, B.S. (non-teaching)
30 credits in the Earth Sciences are
required. Including ESCI 121, 122, 123,
129, 178 or 179, and 460. The remaining 13
hours of Earth Science shall be elected from
the following: ESCI 218, 221, 222, 278,
330, 342, 421, 424, 430, 431, 442, 450, 462
or GEOG 374.

In addition, CHEM 121, 122; PHYS
121, 122; and MATH 122, 221 are required.

Note: A minor is not required except for
those in the general (i.e., non-specific
track) program.

Note: A year of French, German or
Russian is recommended if graduate study
is being contemplated.

Major in Physics, B.S. (Certifiable for sec-
ondary teaching)
33 credits in Physics: PHYS 125, 126, 220,
225, 250, 305, 320, 331, 350, 425, 450
and 470. In addition, the student must take
BIO 121; CHEM 121 and 122; EDTE:
315; EDF 415; SPED 315; EDSC 425,
435; RDG 440; SCI 416, 417, 419;
MATH 122, 221 and 222.

Minor in Physics (Certifiable for secondary
teaching) Subject to change.
18 credits in Physics, including: PHYS 125,
126, 220 and 250, and 6 credits of Physics
electives. In addition, a student must take
CHEM 121 and 122, MATH 122, 221,
222 and SCI 417.

Minor in Earth Sciences, B.S. (Certifiable for
secondary teaching)
30 credits in Earth Sciences, including
ESCI 121, 122, 123, 129, 178 or 179, 430,
and other electives as approved by faculty
adviser. In addition, the student must take
CHEM 121, 122; PHYS 121, 122: BIO
121, 122; EDTE 315; EDF 415; SPED
315; EDSC 425, 435; RDG 440; SCI 416,
417, 419; and MATH 122, 221.

Minor in Earth Sciences (Certifiable for
secondary teaching) Subject to change.
20 credits in Earth Sciences, including
ESCI 121, 122, 123, 129, 178 or 179, and
other electives as approved by faculty
adviser. In addition, a student must take
SCI 416, 417, 419; MATH 122, 221; and
PHYS 121, 122.

Interdisciplinary Major — Sciences with
Specialization in Earth Sciences, B.S.
(Acceptable for certification in elementary
education)
39 credits. For course listing, see major in
Interdisciplinary Sciences, page 51.

Minor in Physics
18 credits in Physics, including: PHYS 125,
126 and 220. The remaining Physics courses
will be selected after consultation with the
student's Physics Department adviser. In
addition, the student must take MATH 122,
221 and 222.

Minor in Meteorology
18 credits in Earth Sciences and related fields
including: ESCI 129, 461 and 462. The
remaining 8 credits will be chosen from ESCI
342, 430, 442, GEOG 374. In addition, the
student must take MATH 122, 221.

Minor in Geology
18 credits in Earth Sciences, including:
ESCI 121, 122, 123, 221, 222 and one
course from ESCI 421, 424 and 450.

SCHOOL OF ARTS AND SCIENCES

Minor in Astronomy
18 credits in Astronomy and related fields,
including ESCI 178, 179, 278 and 330.
The remaining course will be selected from
PHYS 220, 225 or 425 after consultation
with an Earth Sciences Department adviser.
In addition, the student must take MATH
122, 221 and PHYS 121, 122.

For certification in elementary or middle
level education, Complementary Subject
Major Area in Earth Sciences:
18/19 credits, as follows: ESCI 111, 121,
123 and 129; two courses from the follow-
ing, one or which must be either ESCI 178
or 179: ESCI 122, 178, 179, 222, 278 or
424. Please consult with the School of
Education and Professional Studies concern-
ing additional requirements for dual subject
programs and interdisciplinary majors.

Political Science

G. El-Eid, Chair; W. Brown Foster,
J. Duquette, A. C. Moran, P. Petterson,
A. G. Smith, M. A. Triebwasser (Dept.
phone 832-2960)

Major in Political Science, B.A.
36 credits in Political Science, as follows:
PS 104 or 110 and one course in each of
the following areas— Political Theory;
Comparative Government; International
Relations and Organization; Public Law,
Methodology and Organizational Behavior.
COMM 360 may be applied to the 36-
credit Political Science requirement, as well
as 6 credits from the fields of history, sociol-
ogy, psychology, economics, geography,
mathematics and statistics, when approved
in advance by the departmental chair.

Major in Political Science with Special-
ization in Public Administration, B.A.
36 credits in Political Science, as follows:
PS 110, 230, 260, 344, 446, 450; 6 credits
from PS 480/481 or 482/483 or 490/491,
or approved 400-level courses in Political
Science or other fields. 12 credits of electives
from Political Science, or from fields directly
related to Public Administration, with prior
approval of the department adviser.
Particularly appropriate electives are PS 315,
330, 331 or 332, 335, 430 and 431.
Students must also complete a minor in an
area relevant to Public Administration.
Minor in Political Science
18 credits, of which at least 15 must be in Political Science; the remaining credits may be earned in a discipline relevant to Political Science.

Minor in Political Science (For students completing secondary certification)
18 credits, including PS 104 or 110. Credit for not more than 6 credits towards a Political Science minor may be granted, with approval of the department chair, from those areas listed as options under the major.

Note: Credit will be given for COMM 360 in any of the above programs.

Psychology

The Department of Psychology offers courses leading to the bachelor of arts degree. The Psychology curriculum provides students with a broad view of the field, its methods of study and the various specialties of modern psychology.

Many psychology majors may wish to continue their studies in graduate or professional schools of psychology. Others enroll in non-psychology professional programs such as law, education or social work. Still others study psychology to gain an understanding of people, for later use in management, teaching or other business-related careers. Many students enter directly into psychology-related positions in such areas as rehabilitation or human services. Psychology provides a vehicle for personal development and an avenue for pursuing a liberal arts education. The study of psychology will broaden one’s knowledge of people and their behavior and teach one how to study behavior in a scientific way.

The Department places emphasis on quality teaching and supports and encourages student research and scholarship. For students interested in experimental psychology, laboratory and computer facilities are available. For those interested in developmental issues, excellent opportunities exist for observing and interacting with children. Faculty resources are always available for student consultation.

Upon completion of a data sheet in the department office, students wishing to major in Psychology will be assigned advisers to guide their program choices. Curriculum sheets and advisory materials are also available from the department office.

Major in Psychology, B.A.
37 credits in Psychology, including the following required courses: PSY 112, 113, 221, 222, 236, 330 and 490. One course is required from each of the following categories: Social/Personality, PSY 372 or 470; Biological, PSY 342 or 450; Experimental, PSY 200, 281 or 440; and 9 credits of Psychology electives.

Note: STAT 215 (C or higher) is a prerequisite for PSY 221.

Minor in Psychology
18 credits, including PSY 112, and 15 credits of Psychology electives.

Minor in Psychology, Special Education
18 credits, as follows: PSY 112, 200 and 236; any three courses from PSY 281, 330, 362, 363, 365, 372, 380, 446, 454, 470.

Minor in Gerontology
18 credits as follows: HHSP 342; PSY 428, 458; one three-hour practicum chosen from PHIL 440, PSY 496, PE 450 or 470, BIO 390; and 6 credits of electives chosen from HHSP 490, PE 215, PSY 380, SOC 340, SOC 440, BIO 401.

Human Growth and Development Program for Early Childhood (N-3) Certification
18 credits as follows: PSY 112, 200, 239, 365, 462 and SOC 233. Please consult with the School of Education and Professional Studies for additional requirements.

Science and Science Education

Interdepartmental Staff
S. Burns, Science and Science Education Coordinator; Advisers — M. Bednarski, L. Carluccio, J. Jarrett

Major in Interdisciplinary Sciences, B.S.
(a) Specialization in Integrated Science (Certifiable for secondary teaching)
56–59 credits as follows:
1. Science and Mathematics Core (46 credits): BIO 121, 122; CHEM 121, 122; ESCI 121, 123, 129, 178 or 179; PHYS 121, 122; MATH 121, 122; SCI 420
2. Track (10–13 credits), one of the following:
   - Physics: PHYS 125, 126, 220, 225, 305, 320 or 331, MATH 221, 222
   - Earth Sciences: ESCI 122, 221 or 278 or 342, 430
   - Chemistry: CHEM 238 or 301, 311, 312
   - Biology: BIO 201, 202, one BIO course at 300 or 400 level
In addition, students must take EDTE 315; EDF 415; SPED 315; EDSC 425, 435; SCI 416, 417, 419; RDG 440.

(b) Specialization in Physical Sciences
54 credits in science, including CHEM 121, 122; PHYS 125, 126; ESCI 121, 123, 129,178 or 179; BIO 121, 122. The remaining 18 credits are selected from courses in Physics, Chemistry and the Earth Sciences which are approved for majors and minors in those fields. MATH 121, 122, 221 are also required. A minor is not required.

(c) Specialization in Environmental Interpretation
53–57 credits in the Natural Sciences, or in approved areas, including the following:
1. BIO 121, 122; 202: STAT 104 or CS 113; ESCI 121, 123.
2. Structured elective component — Earth and Planetary Sciences. Four courses from the following or from other courses in Earth Science approved by the chair of the Physics/Earth Sciences Department: ESCI 129, 178, 179, 424, 450.
3. Structured elective component — Life Sciences. Two courses from the following: BIO 120, 150, 201, 321, 322, 326, 327, 405, 420, 425, 444, 480, selected in consultation with an adviser.
4. Electives. In lieu of a minor at least 15 credits, with the adviser’s approval, from the following courses or from any of the Natural Sciences: ART 490; GEOG 256, 272, 276, 433, 442; ANTH 150, 151, 325, 422; SCI 418.

At least 9 credits of the elective component must be from courses in Biology, Chemistry, Physics and the Earth Sciences, and must be completed at the 300 level or
above. 3 credits of Internship (SCI 453) are also required.

Note: S. Burns, J. Jarrett and L. Carlucio are members of the advisory committee for this program.

(d) Specialization in Biology or Earth Sciences (Acceptable major for certification programs in elementary education) 39–42 credits. Core: 24-32 credits. Required: Physics (6-8 credits), PHYS 111/113 or 121/122 or 125/126; Chemistry (6-8 credits), CHEM 102, 111 or CHEM 121, 122; Biology (6-8 credits), BIO 111, 211, 132 or 121/122; Earth Science (6-8 credits), ESCI 111/117 or 121/122/123.

Specialization — A minimum of 18 credits in a specialization including 6-8 credits in the core of the specialization:

Biology — Requires BIO 121, 122 as core courses. 10–15 credits including BIO 201, 202 and elective(s) at the 300 or 400 level selected in consultation with an adviser.

Earth Science — Requires ESCI 121, 122, 123 as core courses. A minimum of 10 credits from the following electives: ESCI 129, 221, 222, 450. Other electives as approved by adviser.

Minor in Science

24 credits as follows: 12–16 credits from BIO 121, CHEM 121, ESCI 121, 123 or PHYS 121 (or 125), the remaining from BIO 122, CHEM 122, or ESCI 178 or 179, and PHYS 122 (or 126). The student should take at least one course in each discipline, and the 8-credit sequence in any one discipline may be credited toward a major as well.

Minor in General Science (Certifiable for secondary teaching)

Restricted to students with a major in Biology, Chemistry, Earth Science or Physics. 32 credits in science, as follows: BIO 121 and 122; CHEM 121 and 122; PHYS 121 and 122; ESCI 121 and 123; and one of the following courses: BIO 318, CHEM 311 or PHYS 225. SCI 416, 417 and 419 are required.

Social Sciences

Contact the Chair of the History Dept. or V. Geraci, Program Coordinator (832-2808).

Major in Social Sciences, B.S. (Certifiable for secondary teaching)

54 credits as follows: 18 credits in History: HIST 121 or 142 and 122 or 143 and 261, 262 and 6 elective credits, three of which must be in non-western history.

18 credits in one Social Science discipline (Anthropology, Economics, Geography, Political Science or Sociology) as required by that department for a minor for secondary certificate students.

18 credits from six of the following courses (not to be duplicative of the second category above and must be in a minimum of three additional Social Science disciplines): SOC 110 or ANTH 140, ECON 200, 201; GEOG 110, 120; PS 104, 110; PSY 112.

In addition, students must complete SSCI 415, SSCI 421, SPED 315, EDTE 315, EDT 315, RDG 440, EDF 415, EDCS 425 and EDSC 435, as well as PSY 236. No minor is required.

Social Work

B. A. Candales, Director; C. R. Baratta, P. Hensley (Dept. phone 832-3143)

Major in Social Work, B.A.

General Program:

51 credits as follows: 42 credits in Social Work core courses including SW 226, 227, 360, 361, 362, 368, 374, 426, 450, 451, 452, 453; 6 credits of social work electives; and 9 credits of related courses including SOC 110 or ANTH 140; SOC 111, 233. Social Work majors are also required to complete the following as part of their general education requirements: BIO 111; PS 110 or 230; ECON 200 and STAT 215.

Note: This major does not require a minor.

The Social Work Program is accredited at the undergraduate level by the Council on Social Work Education. The purpose of the Social Work major is to prepare students for beginning generalist social work practice. Social Work is a field that deals extensively with sensitive social issues and people's personal well-being; therefore, students will be carefully evaluated not only academically but for professional skill. Students must apply and be accepted into the Social Work major when they have completed SW 226 and 227. Applications from all students will be taken October 1 and March 1. Acceptance into the University does not guarantee acceptance into the Social Work program.

Social Work is a field that deals extensively with sensitive social issues and peoples personal well-being; therefore, students will be carefully evaluated not only academically but for professional skill. Students must apply and be accepted into the Social Work major when they have completed SW 226 and 227. Applications from all students will be taken October 1 and March 1. Acceptance into the University does not guarantee acceptance into the Social Work program.

Students admitted to the Social Work major must maintain an average of 2.50 or better in all Social Work courses. Potential for professional skill must be demonstrated in field experiences which are required in all Social Work courses. The faculty will evaluate the field experience, along with the academic achievement, of the student each semester. Ideally, students entering the University as Pre-Social Work majors take the beginning courses with the expectation of continuing into the Social Work major. However, it is possible that the student and/or instructor conclude that a student is not fully motivated toward an understanding of the professional, as well as the academic, responsibilities this major requires. If a student does not meet academic or professional standards (as a Pre-Social Work or Social Work major), he or she will be placed on provisional status. Written notification will be given and conditions for full completion of the major discussed with the student. Students will be given the opportunity to correct the problem(s); however, if the student does not demonstrate improvement, he or she will not be allowed to complete the major.

The Social Work Program is a member of Phi Alpha Honor Society. The chapter name is Chi Upsilon.

Note: This program may have revisions to comply with national accreditation standards. Students should check with the program director regarding the possibility of new requirements.

Sociology

J. Mitrano, Chair; S. Adair, B. Day, M. Ertel, J. Greenbaum, T. Hogan, R. White (Dept. Phone: 832-3135)

Sociology is the study of how our personal, everyday experiences affect and are affected by the larger society in which we live. The Department of Sociology and Social Work provides students with a firm understanding of the complex social structures and processes which connect their private lives and experiences to their present society. Our goal is to prepare students to become thoughtful and engaged citizens in a complex and interdependent world. Specifically, the mission of the Department is to foster logical and analytical reasoning, the development of a socio/historical consciousness, an understanding of values and needs and
their relationship to a variety of life situations, and the understanding of social scientific inquiry.

**Major in Sociology, B.A.**

The major in Sociology requires 39 credits in Sociology, including six required "core" courses that enable students to acquire fundamental analytical research skills and theoretical perspectives of the discipline.

The core courses are SOC 110, 210, 212, 300, 310, and either 410 or 412. Students additionally select 21 credits of Sociology electives, 12 of which must be at the 300- and/or 400-level, and no more than 6 credits at the 100-level. Students are also required to take STAT 215. Substantive areas of study should be developed in conjunction with the student's departmental adviser. Independent studies and internship opportunities are available to qualified majors.

The Department of Sociology and Social Work's curriculum prepares its majors for responsible positions in a wide variety of careers. Many graduates have taken positions in market research firms, social work and social service agencies and human resources departments, as well as in numerous non- and for-profit businesses and organizations. Some graduates have chosen to pursue graduate degrees in fields such as law, business, social work and sociology.

Students wishing to major in Sociology are required to meet with the Department Chair to pick up introductory materials and information, as well as to be assigned a faculty adviser.

Students should note that the "core" courses build skills and concepts, and majors need to take the core courses in proper sequence. Successful completion of the core requires a minimum of three semesters, and potential majors should plan accordingly.

Students are also encouraged to participate in the Sociology Club and Alpha Kappa Delta, the International Sociology Honor Society.

**Minor in Sociology**

Students are required to take 18 credits of course work in Sociology, including SOC 110. A. Core: 22 credits including

J. Perlstein, J. Strzemien (Dept. phone 832-3150)

**Major in Theatre, B.F.A.**

54-60 credits completed in one of the following programs:

A. **Acting.** 54 credits in Theatre, including 44 credits required as follows: TH 099 (repeated eight times), 111 or 121, 126, 135, 145, 235, 236, 338, 246, 275, 327, 347, 373, 447, 456, 483, 484; 10 credits of Theatre electives.

B. **Design and Technical Theatre.** 60 credits as follows:

Core (49 credits): TH 111, 115, 117, 121, 126, 211, 212, 213, 214, 217, 222, 251, 316, 318, 327, 330, 332, 373, 374; 3 credits from TH 481, 482, 486, 487

Directed Electives (11 credits):

Chosen from other theatre courses or courses in related fields in consultation with adviser.

C. **General Theatre.** 60 credits in Theatre, including 29 credits required as follows: TH 099 (repeated eight times), 110, 111, 117, 121, 126, 145, 253, 373, 374, 489; 17 credits of Theatre electives and 14 credits of Theatre or related fields courses approved by the student's adviser.

D. **General Theatre/Dance Emphasis.** 60 credits in Theatre including 26 credits required as follows: TH 099 (repeated eight times), 110, 111, 115, 121, 126, 222, 235, 236, 238, 246, 347; 18 credits of Theatre electives and 16 credits of related fields courses as follows: DAN 151, 152, 153, 157, 158, 377, TH 235, 236, 480 and MUS 109.

In addition to course requirements, B.F.A. Theatre majors must register for TH 099 each semester of their four years. Majors should consult advisers for specific production requirements for each program, as well as on selection of General Education courses appropriate to program.

Note: Majors are urged to complete at least 6 credits in TH 490. A minor is not required with this major.

**Major in Theatre, B.A.**

34 credits as follows:

A. **Core:** 22 credits including

1. TH 099 (minimum of four times), 111, 115, 117, 121, 135, 143, 253
2. 3 credits from TH 373, 374, 489

In addition to course requirements, B.A. Theatre majors must register for TH 099 each semester of their four years. Majors should consult advisers for specific production requirements for each program, as well as on selection of General Education courses appropriate to program.

**School of Arts and Sciences Centers**

The Center for Social Research (DiLoreto 207) is maintained as an affordable resource for communities locally, regionally, nationally and internationally who need assistance with survey research, program evaluation and project development. Among these resources are expert faculty and capable students from the Schools of Arts and Sciences, Business, Education and Professional Studies, and Technology. The Center offers students and faculty the opportunity to apply their academic experience to real-world environments.

The Copernican Planetarium and Observatory (Copernicus Hall) includes a full-function, optical planetarium which seats 108 people and is used for classes and pro-
grams for the community. The observatory, located on the roof of Copernicus Hall, is used for astronomical instruction for Physics/Earth Sciences classes. It also supports student research in astronomical photography and observation using a modern 16-inch Cassegrain reflector and other telescopes.

The Institute for Science Education, coordinated by the Department of Biological Sciences, offers summer courses for elementary, middle, junior high and high school science teachers. Hands-on activities that can be transferred to the classroom are emphasized. Topics have included the environment, the aquatic world, coastal ecology, science and the citizen, field biology and plants in the laboratory.

The Polish Studies Center (DiLoreto 208-23) was established to foster within both the Polish-American and the American communities an awareness of Poland’s culture, history and civilization. In 1997 Connecticut’s first, and New England’s second, Endowed Chair in Polish and Polish-American Studies was established at CCSU. The Center offers courses in Polish history, politics, culture and civilization, language and the Polish community in America. The Center’s other resources include the Polish Heritage Book Collection, the Connecticut Polish American Archive, the Annual Fiedorczyk Lecture in Polish American Studies, the Milewski Polish Studies lecture, the Golewski Evening of Polish Culture, educational materials for teachers, movies, exhibits, scholarship aid for Polish-American students and for students pursuing Polish Studies, and the Martin and Sophie Grzyb Prize for Excellence in Polish Studies.

The Weather Center (Copernicus 538) is a fully-functional weather forecasting facility, including a satellite downlink to the National Weather Service, computer data retrieval capability, color weather radar and satellite access. It supports forecasting for the University community as well as faculty and student research in the atmospheric sciences.

Connecticut community-technical college will receive transfer credit for the courses and may apply 18–24 credits of the specialization to a minor in a B.A. or B.S. (non-teaching) degree program offered by the School of Arts and Sciences. No residency credits at Central will be required for such a minor. Students are expected to complete a major (non-teaching) in the School of Arts and Sciences and to fulfill all other university requirements. The agreement includes, but is not limited to, programs in Corrections and in Drug and Alcohol Rehabilitation. For information, contact the office of the Dean of Arts and Sciences, DiLoreto Hall 112.

Engineering Transfer Program

This program provides the first-year and sophomore core courses needed for a wide variety of engineering fields. Constructed in consultation with the School of Engineering at the University of Connecticut, it enables a limited number of students to transfer to that school after the sophomore year to complete the Bachelor of Science degree in either Chemical, Civil, Electrical or Mechanical Engineering in approximately two additional years.

The program at Central Connecticut State includes laboratory courses in Chemistry and Physics, Mathematics, Computer Science, CAD, freshman English and various electives in Social Sciences and Humanities.

The Engineering Advisory Committee will assist students with transfer procedures to the School of Engineering at the University of Connecticut and to other schools of engineering.

Students planning to enroll should consult with the committee chair at the earliest opportunity. Inquiries should be addressed to the Engineering Transfer Program, Department of Physics and Earth Sciences, Central Connecticut State University, New Britain, CT 06050 (832-2932; 832-2930).

Cooperative Programs

Community-Technical College Transfer Minors

By agreement between the School of Arts and Sciences and the Connecticut Community-Technical College system, students who complete an associate’s degree in a professional or technical program at a (PS 445, 446, 447 and 448) may be credited toward the MPA. Non-matriculated students, who have completed the B.A., may take up to three CCSU courses in the MPA program before applying for admission. Students may register from their home institution. Detailed information may be obtained from the chair of the Political Science Department, or from the director of the UConn Master of Public Affairs program.

UConn/CCSU Joint Program in Public Affairs

There is a cooperative program between Central Connecticut State University and the University of Connecticut for the Master of Public Administration degree. An undergraduate student may enroll in up to four approved graduate-level courses and later apply these courses toward the MPA. Approved Central Connecticut State courses
Admission to the School of Business

Students may apply for admittance to the School of Business as part of their application for admission to the University and choose any of the above business majors at the lower division level.

Upper Division Status: Upper division is defined as the junior and senior level coursework in the student’s major. Students must apply for upper division status when they have completed or are currently enrolled in the courses that complete the lower division business requirements. This step is necessary for enrolling in the 300 and 400 level upper division business courses. Upper division status will be granted to students whose academic progress indicates likely success in completing their chosen major in business. Additionally, students accepted into the School of Business upper division must maintain a minimum 2.00 grade point average. Students whose grade point average falls below the 2.00 cumulative grade point average will be subject to dismissal from the School of Business.

Each department may set separate requirements for admission to a major. The departments are seeking evidence that a student has the verbal and mathematical abilities to successfully complete the desired program.

Further information and applications for admission for both upper and lower division status may be obtained in the Assistant Dean’s office in 216 Robert C. Vance Academic Center, along with names and locations of faculty advisers in the student’s major.

Transfer Students

Transfer students must meet the same course requirements, applications procedures and cumulative grade point average as CCSU students.

Transfer students are required to complete a minimum of 45 credits “in residence” at CCSU. A student must complete a minimum of 30 credits in residence in courses offered by the School of Business and, of those 30 credits, take a minimum of 18 credits in residence in upper-division courses approved for the chosen major in the School.

Student Advising Program

Student advising and intervention are an integral and vital component of the School of Business students’ experience. The Student Advising Program for business majors consists of the following components:

Initial Advising. Upon entry to CCSU, new and transfer students are encouraged to schedule an individual appointment in the Dean’s Office to acquaint them with the academic standards and procedures. This orientation includes an overview of the School of Business, its majors and the requirements of the curriculum, and an explanation of vital offices and University departments at CCSU.

Intervention. Each semester during their lower division status, students meet with a School of Business counselor in the Dean’s Office to review their course selection, to discuss grade point average requirements and to complete the admission process into the School of Business. This careful monitoring of students’ academic progress, after the completion of each semester, ensures that the students are progressing satisfactorily. If an academic problem occurs, the adviser will intervene with future course selection and facilitate an academic support program for the student.

Finally, once a student has completed 90 college credits, the student must have advance permission from the office of the Dean of the School of Business to take any additional credits at other colleges or universities and count such courses towards a major in business.

School of Business Curriculum

All School of Business majors must complete General Education requirements comprised of study and skill areas, courses in the Common Business core, courses in the chosen major and free electives. These must be taken at Central or transferred according to the Regulations for Transfer Students.

Credits

General Education 44–46
Non-Business Electives 19–21
Total Business Requirements 57
Business Core Requirements 24
Major Course Requirements 30
(Major requirements are listed under the appropriate departments)
Upper Division Capstone (MGT 450, MKT 450 or MIS 450) 3

Total Degree Requirements 122

All General Education requirements are described elsewhere in this catalog, however, the General Education courses required specifically for Business majors as part of the lower division requirements are the following:

Study Area II
ECON 200 Principles of Economics I*
ECON 201 Principles of Economics II*

Skill Area I
ENG 110 Freshman Composition*
Business Education

W. E. Tracey, Jr., Chair, Management Dept. (Phone 832-3275)

The Entrepreneurship program prepares students for entrepreneurial careers in a new venture creation or managing family-owned or other small business enterprises. The program provides a basic foundation in the knowledge necessary to search for and evaluate new venture opportunities, and to finance, operate and manage new or growing businesses. Students are required to complete a field study experience.

Students must complete the School of Business 27-credit Common Business Core (see column 1 on this page) plus the following 30 credits.

George F. Claffey, Chair (phone 832-3210); F. Cohen, M. J. D’Onofrio, M. Gendron, A. Jarmoszko, O. Petkova (Dept. phone 832-3290)

The Management Information Systems (MIS) program prepares graduates for advanced graduate study and careers in organizations as information systems specialists focusing in the areas of application programming, data base administration, information systems management and systems analysis and design.

The program emphasizes the importance of information as an organizational resource to be managed for the generation of timely, quality information for business decision making. The use of information to make decisions in the areas of accounting, finance, management and marketing of an enterprise is stressed.

Students must complete the 27-credit Common Business Core (see column 1 on page 56) requirements plus the following 30 credits:

Directed Management Information Systems Electives

The Management Information Systems (MIS) program requires completion of 9 credits selected from the following list of courses. Consultation with an adviser is recommended if the student wishes to pursue a specific specialization and career goal.

**Credits**

- MIS 210 Application Program Development I 3
- MIS 311 Application Program Development II 3
- MIS 400 Business Decision Analysis Using Knowledge Bases 3
- MIS 450 Enterprise Strategies and Transformations 3
- MIS 460 Emerging Technologies for Business 3
- MIS 494 Practicum in MIS 3
- MIS 496 Practicum in Management Information Systems 3
- MIS 498 Information and Decision Sciences Seminar 3

**Total** 9

**Business Electives**

Students must complete 6 credits of 300- or 400-level courses offered or suggested by the School of Business (if prerequisites are met) — only to be determined in consultation with adviser in the student’s major.

**Business Electives total** 6

### Marketing

R. A. DeCormier, Chair; E. Astarita, A. Jackson, K. Mead, D. Scherban (Dept. Phone 832-3305; e-mail: decormier@ccsu.edu)

The Department of Marketing offers courses leading to a Bachelor of Science degree in Business Administration. Students choosing to major in Marketing have the opportunity to develop their own Custom Tailored Marketing Program (CTMP). Non-Marketing students, choosing to minor in Marketing, may select courses that complement their major.

The Marketing Department's program provides a basic foundation in Marketing theory and practices. It prepares students for entry-level positions leading to sophisticated careers dealing with real world problems. It also provides one an opportunity to continue on to graduate study.

Marketing is a field that offers ambitious students exciting career opportunities. In fact, about a third of all employees work in a marketing related activity ranging from marketing research to customer service. Marketing professionals learn about effects on business due to changing demographics, social evolution of markets and dramatic advances in technology. They also learn about threats and opportunities presented to them by the globalization of the world economy.

The 30-credit program starts with a 6-credit marketing core covering the primary areas of Marketing. Additionally, the Marketing Department strives for quality and flexibility in their programs. To facilitate this, the Department implemented a Custom Tailored Marketing Program (CTMP). This approach is designed to allow students the opportunity to focus their education by selecting courses that best fit their interests and needs. CTMP’s can be tailored for such areas as advertising, hospitality, business-to-business, international and a host of other marketing fields. Graduates can expect to pursue careers in such diverse professions as advertising, sales, research, distribution, product development, marketing management and more.

Our faculty is constantly striving to help our majors excel. As part of this endeavor, they partner with students through internships and independent studies designed to help them expand their educational experiences.

Finally, the Department places a significant emphasis on quality teaching and strongly encourages both students and faculty to do individual research and scholarship.

**Business Electives (9 credits)**

Students must complete 9 credits of 300- or 400-level courses offered or suggested by the School of Business (providing prerequisites are met) — to be determined only in consultation with advisers in the students’ major. The Department considers MKT 494, 496 and 497 as business electives and offers these courses only during Winter and Summer Session.

### Minors for Business Majors in Subjects Other Than Business

A student may choose a minor (at least 18 credits) in a subject from the School of Arts and Sciences or the School of Technology. A student selecting this option will have to take more than the 122 credits to graduate.
The appropriate department determines the requirements for this minor.

Minors in Business for Non-Business Majors

Minors in Business require 18 credits of Business courses and may be taken by students pursuing majors other than business. Students should consult with the chair of their major department to determine if a minor is required for their program.

Minors in Business focus upon specific functional areas of business, such as accounting, finance, management, MIS or marketing. Selection of specific courses is made in consultation with a faculty adviser or chair of the appropriate department. The 18-credit minor is structured as follows:

**Lower-division business core (9 credits)**
Any three courses from the following: AC 211, AC 212, MC 207, MIS 201, LAW 250, FIN 200, MGT 295 or MKT 295

**Upper-division functional area (9 credits)**
Three courses, taken in residence, from a specific functional area: i.e., Accounting, Finance, Management, MIS or Marketing. “Capstone” and some special project courses, such as Independent Study, may be excluded. (Prerequisites must be taken as shown for course listings given elsewhere in this catalog.)

Student Organizations

A variety of student honorary and professional organizations have been organized in the School of Business to reflect the interests of students in a professional school. Experience and leadership gained from participation in these organizations provide students with important lifetime skills. The following is a list of student organizations:
Accounting Society, Dean’s Student Advisory Board, Delta Mu Delta, Delta Pi Epsilon, Finance Club, Management Club and Sales Club.
The School of Education and Professional Studies (SEPS) offers programs leading to the Bachelors of Science Degree in Education, Nursing, Health Fitness and Athletic Training. In addition, the School has a variety of programs that lead to teaching certification in the State of Connecticut. Currently, the School of Education and Professional Studies is organized into six academic departments:

- Health and Human Service Professions
- Educational Leadership
- Nursing
- Physical Education and Health Fitness Studies
- Reading and Language Arts
- Special Education
- Teacher Education

The Departments of Educational Leadership, Health and Human Service Professions, and Reading and Language Arts do not offer undergraduate programs. Information about these departments and their graduate programs can be found in the Graduate Catalog.

The aim of programs in the School of Education and Professional Studies is to prepare individuals who are both liberally educated and in command of the requisite professional knowledge to be able to provide exemplary practice in their chosen field. Programs and curricula in professional schools draw their content from theoretical foundations in the arts and sciences, as well as models of best practice based on current research and effective pedagogy.

Degree Programs and Certification

To fully understand the programs in the School of Education and Professional Studies, the distinction between obtaining a degree from Central Connecticut State University and obtaining a teaching certificate from the State of Connecticut must be made. Also, it requires an understanding of the differences between completing a subject-matter major and completing a degree in education.

Central Connecticut State University has the authority to grant a bachelor's degree to any student who successfully completes all the requirements of a particular program of study. A degree, however, does not automatically lead to a teaching certificate.

The State of Connecticut grants the teaching certificate after a candidate completes a bachelor's degree and an approved program of professional study, passes required tests for teachers and is recommended by the Office of the Dean of the School of Education and Professional Studies.

Every elementary, early childhood, middle level, secondary and special subject school teacher in the State of Connecticut is required to have a major in a particular subject field. This is referred to as the subject-matter major. The various subject matter majors are listed elsewhere in this catalog under elementary, early childhood, secondary and special subjects education.

Teacher candidates at Central Connecticut State University, in addition to acquiring a subject matter major, are required to fulfill professional course work and fieldwork experiences in education which lead to a degree in education and to certification.

Title II Reporting

In response to the accountability measure mandated by Congress through its passage of Title II of the Higher Education Act of 1998, beginning April 9, 2001, all institutions of higher education in the United States enrolling students who receive assistance and have teacher preparation programs must report their teacher certification test pass rates in school catalogs and other promotional materials. Any institution that has been identified as "low performing" by the State, must also report this designation to the public.

The undergraduate teacher candidates who complete all programs at CCSU are eligible to graduate with a B.S. degree. To receive a teacher certification in Connecticut, program completers must pass Praxis II. Undergraduate teacher candidates or post-baccalaureate students who complete general education, subject-matter major and a planned Professional Program of study in teacher education are considered "program completers." Of the 270 1999–2000 program completers who took the Praxis II exam, a summary score of 93% was attained for all individual assessments, comparable to the state-wide rate of 95%.

The students who formed the 1999–2000 group of program completers finished a rigorous program of study that is widely recognized for its quality and is nationally accredited by the National Council for Accreditation of Teacher Education (NCATE). They spent many hours in PK–12 schools where they learned how to assess the diverse needs of students. They know the subjects they will teach; they know how to teach those subjects; and they have demonstrated this through multiple assessment measures. CCSU is confident that these students are prepared to be leaders in the learning communities of Connecticut.

Undergraduate Degree Programs Leading to Teacher Certification

The following programs lead to a Bachelor of Science degree and prepare a student for teacher certification in the State of Connecticut:

- Early Childhood Education
- Elementary Education
- Middle Level Education (program is currently closed to new students)
- Secondary Education in the following subjects: Biology, Chemistry, Earth Science, English, French, Integrated Science, German, Italian, Mathematics, Physics, Social Studies, Spanish
- All level subjects: Art, Music, Physical Education, Technology Education

The Business Education faculty offers programs to prepare students to teach business subjects in secondary schools. Students may complete some of their subject matter requirements while they are undergraduates. Teacher preparation coursework, however, is done at the graduate level. Students who plan to seek teacher certification should complete an undergraduate major in business. Please contact the Coordinator for Business Education to learn more about this program (832-3210).

Students who are interested in becoming special education teachers must complete teacher certification at the graduate level. Contact the Special Education Department (832-2400), or refer to the CCSU Graduate Catalog for further information.
Although requirements vary from program to program, in general each undergraduate teacher preparation program has the following characteristics and procedures:

**General Education.** All teacher candidates are expected to satisfy the University's general education program. Most of this work is completed during the student's first three years at CCSU, or through transfer credit.

**Subject Matter Majors.** All teacher candidates are required to complete a subject matter major. These requirements vary from subject to subject and are described in the Arts and Science and Technology sections of this catalog.

**Selective Admission to a Teacher Preparation Professional Program.** The State of Connecticut requires that students be admitted to teacher preparation programs only after they have met admission criteria. These criteria and the admission process are described below. Admission as an undergraduate student to CCSU does not automatically guarantee admission to a Professional Program. The selective admission process requires considerable advanced planning.

**Restricted Professional Course Work.** Most courses offered in particular teacher preparation programs are open only to students who have been formally admitted to a Professional Program. Students who have not been admitted to a Professional Program may not enroll in restricted courses.

**Retention Criteria.** Once admitted to a teacher education Professional Program, a teacher candidate is expected to maintain a cumulative 2.70 grade-point average for all coursework completed at CCSU and elsewhere. If a candidate's GPA drops below this level, he or she may be denied enrollment to restricted courses and student teaching until the GPA reaches the approved level. Students must receive grades of C or better in all professional education courses required by the School of Education and Professional Studies. Students may not proceed to the next sequence of courses unless courses are repeated and professional program courses may not be repeated without the consent of the chair of the Teacher Education Department.

**Performance Assessment**

The School of Education and Professional Studies may require students to complete a departmental performance assessment in order to qualify for student teaching and to complete the Professional Program.

Students must maintain good standing in the program in order to qualify for student teaching and a recommendation from CCSU for State of Connecticut certification. In addition to academic good standing, students must demonstrate the following:

- Personal attitudes and attributes that affect her or his performance as a teacher;
- Conduct that demonstrates professional behavior appropriate to the context and shows realization that actions reflect directly upon the status and substance of the profession;
- Confidentiality of all information concerning colleagues and students obtained in the educational process;
- Integrity and honesty in written and verbal communication, documentation and coursework related to the Professional Program for teacher certification.

**Admission to a Teacher Preparation Professional Program**

Many of the criteria and procedures for admitting students to a Professional Program leading to teacher certification are governed by State of Connecticut regulations. Admission in a timely fashion requires a degree of advanced planning on the part of teacher candidates. The procedures described below do not apply to programs in athletic training, health fitness or nursing. These programs have their own admission procedures which are described elsewhere in this catalog. For any aspect of the admission process that requires clarification, please contact the Office of the Dean of Education.

**The Admission Process**

**Phase I: Pre-application.** When students first enter the University, they select a program and subject matter major and pursue (under the guidance of an adviser in the department where the major is housed) course work in general education and in the major. Toward the end of the second or in the third year of study, most full-time students are ready to apply for admission to a Professional Program. Prior to this application, students are required to:

- Complete 45 credits, of which 15 have been earned at Central Connecticut State University (with the exception of Elementary Education and Early Childhood Education). Graduates of Connecticut community colleges may have this requirement waived; contact the Office of the Dean of Education and Professional Studies for details.

- Pass the Praxis I Computer Based Tests (CBT) (basic skills tests in reading, writing and mathematics) or be qualified to have this test waived. This must be done at least one semester before application can be made to the Professional Program. Praxis I (CBT) may be waived if:
  1. SAT Waiver: A total score of 1,000 on the SAT, with neither the mathematics nor the verbal subtest scores below 400 points from any test administration on or prior to March 31, 1995, or a combined score of 1,100 or more with no less than 450 on either the verbal or the mathematics subtests from test administrations on or after April 1, 1995.
  2. ACT Waiver: No less than 22 on the English subtest and no less than 19 on the mathematics subtest on the American College Testing (ACT) program assessment from test administrations on or after October 1989, or the equivalent ACT scores of no less than 20 on the English and 17 on the mathematics, from test administrations prior to October 1989.
  3. a student has a Prueba de Aptitud Academica (PAA) score equivalent to a SAT score of 1,000, with neither the math nor verbal subtest scores below the equivalent of 400.

Registration booklets and information are available outside the Office of the Dean (HB 248). Praxis I (CBT) waiver applications are also available.

- Have a minimum of a cumulative 2.70 grade point average at Central Connecticut State University and elsewhere. Student's may appeal for a waiver of the GPA requirement based on demonstrated academic ability and intervening life experience.

- Complete courses for specific departmental programs as prerequisites for application to a teacher education program. Consult with the chair of the department or your adviser for specifics.

- Fulfill certain fieldwork requirements involving working with children for Elementary and Early Childhood programs in the Department of Teacher Education. Details are available from
the Department of Teacher Education and are listed on the Professional Program application packet as well.

Phase II: Application. Students should note the following information regarding application to a teacher preparation Professional Program, which is conducted twice a year.

- Applications are due September 10 or February 10 (or the next regular day of classes if the date falls on a weekend or holiday) and are submitted to the Office of the Dean (HB 248).

- Application packets are available in the information racks outside the Dean's Office (HB 248).

- Once the application packet is submitted, it will be reviewed by the Office of the Dean. Fulfillment of Praxis I and a cumulative grade point average of 2.70 or better for all attempted college work will be verified. Students who fulfill these admission requirements will have their applications forwarded to the respective department.

- The Office of the Dean forwards the application to the appropriate department for evaluation and scheduling of an interview. Once the department completes their review, it then recommends to the Office of the Dean, the admission status for each applicant.

Phase III: Admittance. Students will receive a letter from the Office of the Dean sometime before the end of the semester they apply indicating whether the student has been admitted, deferred until certain requirements have been fulfilled, or rejected. Only officially admitted students may register for professional courses in education.

Revocation of Admission to the Professional Program
The Dean of the School of Education and Professional Studies may revoke admission to the professional if the student has:

- A cumulative grade-point average below 2.7;
- Demonstrated unprofessional behavior or an inability to respond appropriately in various contexts which affects her or his performance as a teacher;
- Falsified or misrepresented any documentation or information provided for programmatic, academic or professional qualification/competency purposes;
- Unacceptable performance in student teaching;
- Achieves an unacceptable standard on the performance assessments required by the School of Education and Professional Studies
- Been convicted in a court of law of a crime involving moral turpitude or of any crime of such nature that in the opinion of the university would impair the standing of the School of Education and Professional Studies professional program; or
- Other due and sufficient cause.

Post-Baccalaureate Programs Leading to Teacher Certification

For students seeking certification in Art, Music, Physical Education and Technology Education, a “Program of Study” is determined and filed with the chair of the department that offers their program. The “Program of Study” (that must be approved by the Graduate Office) ensures that all certification requirements are satisfied and becomes a contract between the student and his or her adviser.

Post-baccalaureate students must meet the following general education requirements: at least 39 credits of liberal arts course work including a U.S. history survey course, and two courses in each of the following areas: English, mathematics, natural sciences and social sciences, and one course in foreign language or fine arts. Coursework in developmental or life span psychology is a prerequisite for the Professional Program.

For information regarding requirements and admission to the Professional Program, refer to page 62 of this catalog, under the section titled Admission to a Teacher Preparation Professional Program.

Undergraduate Degree Programs Without Teacher Certification
Three programs are offered which lead to a Bachelor of Science degree, but do not include any type of teacher certification.

The Department of Physical Education and Health Fitness Studies offers a major in Athletic Training and in Health Fitness. The Department of Health and Human Services Professions offers a major in Nursing.

Repeat Policy
An exception to the course repeat policy (see page 30) exists in the Department of Teacher Education which requires that departmental permission be granted to repeat any Professional Program course. Students must submit the request for permission to repeat any of these courses to the chair of Teacher Education before adding the course to their schedule for a second time. Once students have the chair’s approval, the School of Education and Professional Studies will utilize the most recent CCSU GPA in its calculations of the 2.70 minimum total GPA requirement for continuation in the Professional Program.
Appeals Process for All Students and Programs

Students who have been denied admission because of the GPA requirement may write a letter of appeal to the Dean of Education for a waiver of the GPA requirement presenting compelling evidence of both of the following:

1) Demonstrated academic ability in recent coursework with an exemplary GPA showing a different pattern of performance from prior undergraduate coursework; and
2) Intervening life experience, e.g., working with children or in a profession/vocation that has contributed to their growth and maturity as a prospective teacher.

The appeal will be reviewed and approved by the Assistant Dean, Coordinator of Teacher Education, Dean of Education and Professional Studies, an academic department chair/faculty and representatives of the SEPS Governance Council. The dean or designee may call a meeting with the applicant to discuss the appeal in person. The decision regarding the appeal of the GPA requirement will be communicated in writing to the student by the Dean of Education and Professional Studies or designee and the department.

Students who are denied admission to the Professional Program for reasons other than GPA may meet with the Assistant Dean. Issues concerning the application or admission process may be referred to the SEPS Governance Council Appeals Committee.

Connecticut Certification Procedures

To be eligible for Connecticut certification, a teacher candidate must be recommended by the Office of the Dean of the School of Education and Professional Studies. Although teacher candidates must complete a Bachelor of Science (B.S.) degree in an approved program and pass the Praxis II test applicable to the certification endorsement area they are seeking*, teacher candidates must apply for certification at the beginning of the last semester of enrollment.

To apply for certification, undergraduate teacher candidates must:
1. Obtain, complete and submit the following two forms at the Office of the Registrar:
   A. a certification application form
   B. application for graduation
2. Submit a copy of the Praxis II score report to the Office of the Dean (HB 248) after successfully completing the appropriate exam.
3. Mail the application and a certified bank check or money order in the appropriate amount to the Bureau of Teacher Certification and Professional Development after receiving the approved certification application and the CCSU transcript from the Office of the Dean.
4. Receive the Initial Educator Certificate in the mail from the Connecticut State Department of Education Bureau of Certification. When registering for the Praxis II test, candidates must request their report be sent to:
   1. Central Connecticut State University (Score Recipient Code Number R3898).
   2. Connecticut State Department of Education (Score Recipient Code Number R7050).

Out-of-State Certification Procedures for CCSU Graduates

Information about out-of-state certification is available in the Office of Career Services. Any application or portion of an application that requires an institution recommendation or attestation concerning the completion of an "approved program" should be referred to the Office of the Dean. Students must provide full information about the graduate's name at the time of completion of CCSU's program, date of program completion, social security number, current name and address and any particulars concerning the other state's information requirements.

Reading and Language Arts

H. Abadiano, Chair; B. Davies, C. Kurkjian, P. L. O'Brien, B. Steele, J. Turner (Dept. phone 832-2175)

The Department of Reading and Language Arts offers both undergraduate and graduate courses in teaching reading and language arts.

At the undergraduate level, required courses and elective courses are provided for students preparing to become teachers. At the graduate level, the department offers a master's degree and a sixth-year certificate program leading toward certification as a reading and language arts consultant.

Special Education

E. Pancsofar, Chair; J. Foshay, J. Walker, M. Williams (Dept. phone 832-2400)

The Department of Special Education prepare teachers to work with learners who have special needs. At the undergraduate level, the Department offers courses about exceptionalities that are required for certification of regular education teachers. Prospective majors should note that the undergraduate major in Special Education is being phased out as a result of changes in the State of Connecticut certification requirements. No further students will be admitted, and all currently admitted students must complete their program requirements, graduate and be eligible for certification in special education prior to June 1, 2003. Students who are interested in becoming special education teachers are encouraged to pursue teacher certification at the undergraduate level in elementary or secondary education, and then seek cross endorsement in special education at the graduate level. Contact the Special Education Department, or refer to the CCSU Graduate Catalog for further information.

Note: The special education major described below is available only to students who (1) have been admitted to the
Professional Program in Special Education and (2) will complete all requirements, graduate and be eligible for special education certification prior to June 1, 2003. Special education majors who have been admitted to the Professional Program are urged to stay in close contact with their advisers to assure that they meet all applicable requirements.

Criteria for Acceptance
Requirements for Special Education certification include:

1. Formal acceptance into the Professional Program
2. Assignment of an adviser in Special Education to create a planned program of study
3. Documentation of 30 hours direct experience with regular education students and 10 hours with special education students

Program Requirements for Special Education Majors (150 credits)
General Education.
Requirements as follows: ENG 110, MATH 101, MATH 113, HIST 261 or 262.

Professional Education. (20 credits)*
Courses are taken in clusters as follows:

EDTE 210 Education and Teacher Leadership in Diverse Learning Communities
EDT 210 Introduction to Educational Technology

Enrollment in the following courses requires acceptance to the Professional Program in Teacher Education.

RDG 315 Introduction to Literacy
EDTE 315 Principles of Learning
SPED 315 Introduction to Educating Learners with Exceptionalities

and one of the following:

MATH 213 Probability and Geometry
MATH 412 Elementary Mathematical Methods
RDG 412 Literacy in the Elementary School
RDG 414 Literacy Across the Middle Level Curriculum
RDG 440 Literacy in the Secondary School

SPED 430 Specialization Requirements (36 credits)
SPED 430 Characteristics and Education of Individuals with Behavioral/Emotional Disorders
SPED 431 Behavior Management and Social Skills Development
SPED 432 Characteristics and Education of Individuals with Learning Disabilities
SPED 433 Educational Assessment for Exceptional Learners
SPED 434 Characteristics and Education of Individuals with Developmental Disabilities
SPED 435 Curriculum Adaptations and Teaching Strategies for Learners with Exceptionalities
SPED 436 Language Arts for Learners with Exceptionalities
SPED 437 Integrative Seminar for Beginning Special Educators
SPED 438 Student Teaching with Exceptional Learners I
SPED 439 Student Teaching with Exceptional Learners II

Students majoring in Special Education may select a minor from a variety of academic disciplines outside of the School of Education and Professional Studies. The following minors are recommended: mathematics, mathematics and reading, psychology, and Spanish. Students should consult the catalog and their Special Education adviser.

Notes:
1. It is the student's responsibility to see his/her adviser on a regular basis, as program policies and procedures are subject to change.
2. Students must maintain a 2.70 overall grade point average in Special Education courses in the major to be recommended for certification.
3. Students must earn a minimum of 2.00 in each Special Education course, and in each Professional Education course.
4. Students are required to comply with all policies and requirements in force at the time they are admitted into the Special Education Professional Program.

* Revision subject to Connecticut State Department of Education approval.

Teacher Education

N. Hoffman, Chair; E. Aaronsohn, A. Ayalon, R. Casella, G. Cueto, B. Dey-Chakraborty, M. Howell, L. Klein, D. Lawrence, D. Mulcahy, K. Riem, S. Seider, C. Shuster (Dept. phone 832-2415)

Teacher education at CCSU has a general integrating theme of Developing leaders for learning communities. The mission of teacher education at CCSU is to prepare teachers who have the leadership capacity and knowledge base to develop positive and nurturing learning communities in classrooms that are diverse and inclusive. In addition, our mission includes preparing teachers who are able to contribute to the development of learning communities that exist outside of their classrooms; namely in schools, communities that surround schools, and the professional community of education. Teacher candidates, upon graduation from CCSU, will have (1) the capacity to understand and use the knowledge base of teaching; (2) a repertoire of best practice at their command; (3) the ability to reflect and use critical judgment on their own teaching processes; and (4) the ability to contribute their leadership to efforts to improve education in a democratic society.

The Department of Teacher Education is committed to the preparation and continuing professional education of students involved in early childhood, elementary, all-level and secondary education teaching programs.

The Department offers certification at the following levels.

Early Childhood Education
Elementary Education
Secondary Education
All-Level

Note: For information on admission to the Professional Program, see page 62.

EARLY CHILDHOOD EDUCATION
Coordinator: C. Shuster (832-2430)

This program complies with the new Connecticut teacher certification requirements which go into effect on June 30, 2003. Any student planning to graduate in Spring 2003 or earlier should consult with her/her adviser. Any student who will not be certified prior to June 30, 2003, must complete the following program.
Program Requirements (130 credits)

General Education.
Requirements as follows: ENG 110, MATH 113, MATH 213 and BIO 211 or other biology course with a laboratory (or ISM 211 and 213), HIST 261 or 262, and PSY 236 and 462.

Subject Matter Major. (42-43 credits)
Students must complete a dual subject matter major including a 24-25 credit primary subject area and an 18 credit complementary subject area of Human Growth and Development. Students may choose a primary subject area in either English, Mathematics, or General Science. (See Arts and Science sections for specific course requirements.) The required Human Growth and Development courses are: PSY 112, PSY 200, PSY 239, PSY 365, PSY 462 and SOC 233.

Professional Education. (42 credits)
Courses are taken in clusters as follows:

EDTE 210 Education and Teacher Leadership in Diverse Learning Communities
EDT 210 Introduction to Educational Technology

Enrollment in the following courses requires acceptance to the Professional Program in the School of Education and Professional Studies. Applications are accepted in the second week of the fall and spring semesters.

EDEC 413 Principles of Early Childhood Education
RDG 315 Introduction to Literacy
EDDEC 423 Methods and Curriculum for Early Childhood
RDG 423 Literacy for Early Childhood
SPED 423 Assessment, Instruction and Curricular Adaptations for Preschoolers
EDT 310 Early Childhood Field Experience Practicum

SCI 456 Teaching Science to Young Children
EDT 415 Developing Instructional Materials
EDF 415 Educational Foundations
EDT 420 Practicum in Elementary Education II
MATH 410 Early Childhood Mathematics Methods
RDG 316 Comprehensive Reading Instruction II
EDEC 426 Integrated Curriculum for Early Childhood
EDEC 430 Early Childhood Student Teaching
EDT 430 Topic Seminar in Leadership and Learning Communities

The completion of a minor is not required.

ELEMENTARY EDUCATION
Coordinator: To be named (832-2428)

This program complies with the new Connecticut teacher certification requirements which go into effect on June 30, 2003. Any student planning to graduate in Spring 2003 or earlier should consult with his/her adviser. Any student who will not be certified prior to June 30, 2003, must complete the following program.

Program Requirements (130 credits)

General Education requirements as follows: ENG 110, MATH 113, MATH 213 and BIO 211 (or ISM 211 and 213), HIST 261 or 262, PSY 236, ESCI 111 or any other ESCI course, and choice of one of the following: PSY 362, 363, 365, 462 (preferably PSY 362).

Subject Matter Major. (33-43 credits)
Students must choose either a single subject matter major (33-39 credits) or an interdisciplinary subject matter major (42-43 credits). Single subject matter majors include English, Geography, History, Mathematics, Interdisciplinary Science with a specialization in Biology, or Interdisciplinary Science with a specialization in Earth Science. Dual Subject Matter Majors require completion of a 24-25 credit primary area and a 18 credit complementary area. Dual Subject Matter Majors prepare students to eventually obtain a second certification at the middle level in addition to the initial elementary certification. Dual Subject Matter Majors include:

- English with a complementary area of Geography
- History with a complementary area of English/Linguistics or English/Writing
- Mathematics with a complementary area of Biology or Earth Science

The completion of a minor is not required.

SECONDARY EDUCATION and SPECIAL SUBJECT FIELDS (all levels)
Coordinator: A. Ayalon (832-2415)

This program complies with the new Connecticut teacher certification requirements which go into effect on June 30, 2003. Any student planning to graduate in Spring 2003 or earlier should consult with
his/her adviser. Any student who will not be certified prior to June 30, 2003, must complete the following program.

Program Requirements (130 credits)

General Education.

Requirements for secondary programs are as follows: 6 credits in English (ENG 110 is required), HIST 261 or 262, PSY 236, 6 credits of Science, and 6 credits in Mathematics (either MATH 105 or STAT 104 is required). For all-level program requirements, students should consult the chair of their department to determine the recommended General Education courses.

Major. (36-57 credits)

Students in Secondary Education programs can be certified to teach in specific areas of specialization as follows:

Secondary: Biology, Chemistry, Earth Science, English, French, German, Integrated Science, Italian, Mathematics, Physics, Social Studies, Spanish

All levels: Art, Music, Physical Education, Technology Education

See Arts and Science or Technology sections for specific course requirements.

Minor. (18-24 credits)

The completion of a minor or a certifiable minor is required unless specifically noted in the individual major. Options for certifiable minors for science majors include Biology, Chemistry, Earth Science, and General Science. Specific course requirements for minors can be found in the Arts and Science sections.

Professional Education. (24-34 credits)

Enrollment in the following courses requires acceptance to the Professional Program in the School of Education and Professional Studies.

RDG 440 Literacy in the Secondary School
EDTE 315 Principles of Learning
SPED 315 Introduction to Educating Learners with Exceptionalities
EDSC 375 Principles and Evaluation in Education (All levels)
or
EDSC 425 Principles of Secondary Education
EDF 400 Philosophy of Education
or
EDF 415 Educational Foundations
EDSC* Student Teaching

Major Methods Course in conjunction with the major academic department

*Course numbers vary based on certification field.

Additional professional education course work is required in the academic discipline to be taught.

FIELD EXPERIENCES AND STUDENT TEACHING

Director: To be named (832-2420)

All students in Early Childhood, Elementary, Secondary Education and All Level programs are required to complete student teaching. Prospective student teachers must complete a student teaching application form which is available in the Office of Field Experiences. To student teach in the fall semester, applications must be submitted by March 1. Applications to student teach in the spring semester must be submitted by October 1.

Students should have received a passing grade on the PRAXIS 1 (CBT) examination (or waiver) and been accepted to the Professional Program of the School of Education and Professional Studies prior to applying for student teaching. The letter of acceptance from the Assistant Dean of the School of Education must be included with the application for student teaching.

Withdrawal from Student Teaching:

Students may withdraw from student teaching (EDEC 430, EDEL 430, EDSC 412, 414, 415, 417, 419, 420, 421, 428, 429, 435) with the consent of the university supervisor and the Director of Field Experiences by filing a "Request to Withdraw from Courses" form with requisite signatures. Students who withdraw from student teaching after the placement has commenced may not be eligible for a second student teaching placement. Furthermore, a request to repeat student teaching in another school setting may be granted at the discretion and consent of the chair of the Department of Teacher Education, the Director of Field Experiences and the academic department related to the certification area sought and will be based on the reasons for the withdrawal from the original student teaching placement and the timing and availability of alternative student teaching placements.

Health and Human Service Professions

J. Malley, Chair; R. Cohen, H. J. Fried, A. James, J. Rosenberg, D. Wiener (Dept. phone 832-2154)

The department offers specializations to students seeking a Master of Science degree in Counseling, leading to initial certification as a school counselor, and study in the areas of Counseling in Higher Education, Rehabilitation Counseling, Mental Health Counseling, Substance Abuse Counseling and Marriage and Family Counseling. See the graduate catalog for more information.

Nursing

M.J. Williams, Chair; L. Barile, M. Lewis, C.G. Williams (Dept. phone 832-2154)

The Department offers a baccalaureate program, the Bachelor of Science in Nursing (B.S.N.), designed to prepare a liberal arts person to function as a professional nurse in a variety of roles and health care settings. The program requires 125 credits.

Upon completion of this program, graduates are expected to be professionally competent generalists in nursing, recognize the need for continued personal and professional development throughout life and possess the educational background for post-baccalaureate study in nursing.

Major in Nursing, B.S.N.

Admission

In addition to meeting all requirements established for admission to Central Connecticut State,* the applicant must:

• be licensed currently as a registered nurse in Connecticut**
• carry and provide documentation of adequate malpractice and health insurance
• have completed a minimum of 45 undergraduate credits from an accredited college or university
• have advisement by nursing faculty
• be CPR certified
• meet specific immunization and OSHA requirements
• successfully complete a nursing validation examination or qualify for the state articulation agreement (30 credits of nursing transferred from associate
degree or diploma school program if the examination is passed) prior to enrolling in NRSE 303
• start clinical courses within one year of passing the validation examination
• complete the B.S.N. program within five years of taking NRSE 303

*Admission to the University does not guarantee advancement to upper division nursing courses.
**Applicants in their final year of a diploma or associate degree may be accepted on a provisional basis.

Requirements
125 credits including validation examination (lower division nursing credits) of 31 credits and NRSE 300, 301, 303, 410, 412, 414. In addition, BIO 412, 413; PS 448; PSY 428; and MGT 295 are required. Degree program totals 125 credits.

Physical Education and Health Fitness Studies

The Department of Physical Education and Health Fitness Studies offers an undergraduate major in Physical Education for teacher certification, a non-teacher certification option in Exercise Science and Health Promotion and a non-teacher certifiable major in Athletic Training.

Physical Education: The Physical Education teacher preparation program prepares future teachers for public and private schools in the State of Connecticut. Those students who successfully complete the program are eligible for certification in nursery/Kindergarten through grade 12 physical education.

Exercise Science and Health Promotion: A non-teacher certifiable program which prepares students for employment at fitness/wellness centers in corporate, non-profit, clinical, and sport settings. Students are given the necessary cognitive and practical experiences for pursuing certification by the American College of Sports Medicine (ACSM) and the National Strength and Conditioning Association (NSCA). Exercise prescription and implementing individualized fitness programs are emphasized.

Physical Education and Health Fitness Studies

A non-teacher certifiable program that prepares students for employment as certified athletic trainers in schools, colleges/universities, professional sports and sports medicine settings. Students in this program are given the necessary cognitive and psychomotor skills required for certification by the National Athletic Trainers Association Board of Certification (NATABOC). The program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). Students who complete this program meet the requirements for eligibility to take the written, practical and written simulation examinations administered by the NATABOC for certification as an athletic trainer.

Major in Physical Education, B.S. Ed.
57–58 credits in Physical Education skill and lecture courses as follows.

Skill Courses (12–13 credits)
PE 272 Movement Fundamentals
PE 273 Tumbling and Gymnastics
PE 277 Outdoor Adventure Activities
PE 350 Racquet Sports
PE 375 Training for Fitness
DAN 377 Modern Dance & Theory
Choose one from the following, selected in consultation with adviser: REC 232, REC 233, PE 271.

Lecture Courses (45 credits)
PE 111 Orientation to Physical Education
PE 210 Personal and Community Health
PE 213 Anatomy in Physical Education
PE 214 Physiology in Physical Education
PE 216 Kinesiology
PE 300 Developmental Movement
PE 304 Secondary Methods in Physical Education
PE 305 Evaluation in Physical Education
PE 402 Organization and Administration of Physical Education
PE 405 Elementary Methods in Physical Education
PE 406 Adapted Physical Education
PE 408 The Curriculum Process in K-12 Physical Education
PE 409 Psycho-Social Aspects of Physical Education
PE 410 Exercise Physiology
PE 420 Perceptual and Motor Development
PE 422 Motor Learning

The following additional courses are also required.

Professional Education Courses (23 credits)
EDT 315 Educational Technology in the Secondary School Classroom
EDTE 315 Principles of Learning
EDSC 375 Principles and Evaluation in Education (K–12)
EDF 400 Philosophy of Education
EDF 415 Educational Foundations
EDSC 417 Student Teaching (Elementary P. E.)
EDSC 419 Student Teaching (Secondary School P. E.)

*Require admission to the Professional Program prior to enrollment

Required General Education courses:
BIO 111, CHEM 111, ENG 110, HIST 261, HIST 262, STAT 104, PHYS 111, PSY 236 and COMM 115

Note: No minor is required with this major.

SCHOOL OF EDUCATION AND PROFESSIONAL STUDIES

PROGRAMS NOT CERTIFIABLE FOR TEACHING

Major in Physical Education: Exercise Science and Health Promotion Option, B.S.
62 credits in Physical Education as follows.

Lecture Courses (56 credits)
PE 110 Concepts in Physical Fitness
PE 111 Orientation to Physical Education
PE 210 Personal and Community Health
PE 213 Anatomy in Physical Education
PE 214 Physiology in Physical Education
PE 215 Physiological Aspects of the Human Performance of the Aging
SCHOOL OF EDUCATION AND PROFESSIONAL STUDIES

PE 403  Methods in Physical Activity for the Aging
PE 216  Kinesiology
PE 217  Care and Treatment of Athletic Injuries
PE 307  Human Nutrition
PE 311  Stress Management
PE 380  Leadership in Exercise and Wellness
PE 410  Exercise Physiology
PE 411* Organization and Management of Health Promotion Programs
PE 412  Application of Tort Law to Physical Activity
PE 415* Fitness Assessment and Exercise Prescription
PE 421* Pharmacology in Sports Medicine and Special Populations
PE 425* Implementation and Evaluation of Health Promotion Programs
PE 450* Practicum in Exercise Science
PE 470* Internship in Exercise Science and Health Promotion

Skill Courses (6 credits)
PE 201  Teaching Aerobics: Dance, Step and Aqua
PE 375  Training for Fitness
REC 232  Lifeguard Training
or
REC 233  Water Safety Instructor

Department of Physical Education and Health Fitness Studies, Kaiser Hall, Room 114.

Requirements for Admission

The following are departmental requirements for admission to the Exercise Science and Health Promotion Program.

1. Completion of application to the Professional Program for Exercise Science and Health Promotion
2. Completion of 45 credits of academic work
3. Successful completion of 5 credits of required physical education lecture courses including PE 213 and 2 credits of required skill courses
4. University Grade-Point Average of 2.50
5. Departmental Grade-Point Average of 2.50
6. Two letters of recommendation (from persons who can best assess the candidate's potential)
7. The presentation of an essay demonstrating command of the English language, setting out the reasons for wanting to enroll in the program
8. An interview with the Personnel Committee of the Department of Physical Education and Health Fitness Studies

Retention Policy

The following requirements must be maintained in order to remain in good standing within the Exercise Science and Health Promotion Program.

1. Students must maintain a University Grade-Point Average of 2.50.
2. Students must maintain a Departmental Grade-Point Average of 2.50.

Note: Internship assignments require the student to be in good standing by having both a University and a major GPA of 2.50.

Major in Athletic Training, B.S.

62 credits as follows,

Lecture Courses (48 credits)
PE 110  Concepts in Fitness
PE 112  Introduction to Athletic Training
PE 210  Personal and Community Health
PE 213  Anatomy in Physical Education
PE 214  Physiology in Physical Education
PE 216  Kinesiology
PE 217  Care and Treatment of Athletic Injuries
PE 218  Scientific Basis for Athletic Training
PE 307  Human Nutrition
PE 317  Therapeutics in Athletic Training
PE 332  Psychological Aspects of Sport
PE 410  Exercise Physiology
PE 413* Organization and Administration in Athletic Training
PE 415* Fitness Assessment and Exercise Prescription
PE 421* Pharmacology in Sports Medicine and Special Populations
PE 440  Therapeutic Modalities in Exercise Science
IT 380  Emergency Medical Technician

* Require admission to the Professional Program prior to enrollment.

Clinical Experience

All students in the Athletic Training Education Program are required to complete four semesters of clinical experience in Central's Athletic Training facility and a fifth semester in an off-campus affiliation. The student will be under the direct supervision of a certified athletic trainer while obtaining the minimum of 800-clock hours required by the NATABOC to become eligible to sit for the certification exam. While the program maintains the minimum standard of 800-clock hours of clinical experience under the direct supervision of a NATABOC certified athletic trainer, emphasis is placed on mastery of the educational competencies over the five semesters of clinical experience.

Note: NATABOC approved clinical hours will begin upon acceptance in the Athletic Training Education Program.

Applying for Admission into the Athletic Training Education Program

Undergraduate applicants seeking admission to the Athletic Training Education Program are required to submit a file of materials for review by the Department of Physical
Education and Health Fitness Studies. The applicant’s completed file should be submitted prior to September 21 for fall candidates and February 21 for spring candidates of the second semester sophomore year. Applications for admission may be obtained in the Department of Physical Education and Health Fitness Studies, Kaiser Hall, Room 114.

Requirements for Admission
The following are departmental requirements for admission to the Athletic Training Education Program. Acceptance into the Professional Program should be completed by the second semester sophomore year. Students not meeting this deadline must meet with the program director to continue in the Professional Program.

1. Completion of application to the Professional Program for athletic training
2. Successful completion of 200 hours in the clinical aspect of athletic training at CCSU
3. Completion of 45 credits of academic work at CCSU
4. Successful completion of PE 112, PE 213 (at CCSU) and PE 217 (at CCSU), with a grade of C- or better in all courses
5. Successful completion of IT 380
6. University Grade Point Average of 2.50
7. Departmental Grade Point Average of 2.50
8. Two letters of recommendation (from persons who can best assess the candidates potential)
9. The presentation of an essay demonstrating command of the English language, setting out the reasons for wanting to enroll in the program, and emphasizing experiences related to Athletic Training (500–750 words)
10. An interview with the Personnel Committee of the Department of Physical Education and Health Fitness Studies, including at least one clinical supervisor

Note: Please refer to the student athletic training manual for additional technical standards.

Retention Policy
The following requirements must be maintained in order to remain in good standing within the Athletic Training Education Program.

1. Students must maintain a Departmental Grade-Point Average of 2.50.
2. Students must successfully progress in completing the skills competency checklists.

Note: NATABOC-approved clinical hours will begin upon acceptance into the Athletic Training Education Program. Internship assignments require the student to be in good standing by having both a university and a major GPA of 2.50 in addition to successful completion of all practicum courses and EMT Certification.

Transfer Students Policy
Transfer students must meet the same course requirements and application process as CCSU students. Transfer students are required to complete a minimum of 45 total credits “in residence” at CCSU. The 45 credits for transfer students may be in General Education and/or within the Athletic Training Education Program and must include PE 112, PE 213 and PE 217. Currently, all requests for transfer into the Athletic Training Education Program, either by students from other universities or by CCSU students looking to change majors, are handled on a case-by-case basis. The number of students accepted in this manner depends on the number of openings available in that year.

School of Education and Professional Studies Centers

The Literacy Center (Barnard 234) provides a setting for reading and language arts teachers to help children develop reading and language arts skills. Faculty of the Department of Reading and Language Arts direct the operations of the Center and supervise the activities of students working in the clinic.

The Center for Multicultural Research and Education (Barnard Hall 260) provides a variety of professional development programs and opportunities for K–12 and university faculty that support development of education that is multicultural. Additional goals of the Center include serving as a resource center in the dissemination of research information, articles and curriculum materials, and supporting efforts to recruit students representing diverse cultural backgrounds to the teacher preparation and Professional Programs.

The Center for Innovation in Teaching and Technology (CITT), located in Barnard Hall 333, provides faculty and students with opportunities to create learning outcomes through using state-of-the-art technology in multi-media, computer-based instruction and other technological delivery systems.
The School of Technology prepares graduates in professional technological fields. It consists of four departments: Computer Electronics and Graphics Technology, Engineering Technology, Manufacturing and Construction Management, and Technology Education. The School offers Industrial Technology and Engineering Technology degrees leading to technical careers in industrial management and engineering technology. In conjunction with the School of Education, the bachelor of science degree (in education) prepares individuals for teaching careers in technology education.

The School provides students with an opportunity to develop an understanding of tools, materials and instrumentation; how industry changes the forms of materials, energy and information to increase their value in society; how industry develops products and distributes and services products; and industrial organization and management.

Designated as a "Center of Excellence" by the State of Connecticut, CCSU's School of Technology has taken great pride in its ability to offer a broad range of curriculum options that provide students with a careful balance of classroom theory and practical application.

Computer Electronics and Graphics Technology

To be named, Chair: M.C. Haase, O. Odesina, Raja Raviravarma V, S.E. Rich, K.C. Tracey, D. Zanella (Dept. phone 832-1830; Fax 832-1806; Web site: www.technology.ccsu.edu)

The Computer Electronics and Graphics Technology Department offers the following undergraduate (Bachelor of Science degree) and graduate (Master of Science degree) programs:

- BSIT: Electronics Technology
- BSIT: Networking Technology
- BSIT: Graphics Design Management
- BSIT: Graphic Arts
- MS Computer Information Technology

The Computer Electronics and Graphics Technology Department offers programs designed to prepare students for technology-oriented supervisory, middle management and leadership positions. The programs respond to an increasing industry demand for highly qualified personnel who have a combination of technical and managerial skills. Therefore, this study includes a comprehensive knowledge of industrial processes and applied technologies, in addition to a background in general education. Providing a broad range of educational and career enhancement opportunities, the Department prepares graduates for careers in rapidly changing technical fields.

PLANS OF STUDY

Students interested in Technology programs may attend Central Connecticut State University full- or part-time. Part-time study permits a student to keep a full-time day job and enroll in courses in the late afternoon or evening. Full-time students may complete the 122-credit program in four years.

INDUSTRIAL TECHNOLOGY MAJOR, B.S. (63 credits)

Accredited by NAIT

Industrial Technology majors, regardless of the program selected, are required to complete a common core of 24 credits in technical and management courses as part of their program. Courses included within these common requirements are as follows:

<table>
<thead>
<tr>
<th>Industrial Technology Core Courses</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>IT 190 Introduction to Quality Assurance</td>
<td>3</td>
</tr>
<tr>
<td>IT 362 Leadership Skills for Supervisors</td>
<td>3</td>

<td>MKT 295 Fundamentals of Marketing</td>
<td>3</td>
</tr>
</tbody>
</table>

General Education Requirements

A total of 44-46 credits in General Education studies must be completed as part of all baccalaureate degree programs.

Industrial Technology majors are required to complete the following 3-credit courses as part of their General Education:

Skill Area I — ENG 110, COMM 140; Skill Area II — STAT 104, MATH 115; Study Area II — ECON 201; Study Area IV — CHEM 111 with lab, PHYS 111 with lab.

TECHNOLOGY SPECIALIZATION PROGRAMS

Each student should identify a program based on individual interests and goals. Four undergraduate programs are available; each is shown with its course requirements.

Electronics Technology

Adviser: D. Zanella (832-1841)

The specialization prepares students to work as a member of an engineering team in applied design, product development, manufacturing, maintenance or technical support/services in the electrical and electronic industries which include telecommunications, control systems, manufacturing of electromechanical devices and computer services.

</table>
This track of the Graphic Arts specialization is designed to provide the student with knowledge of the various techniques used in the printing industry: composition, photo mechanicals, press work and bindery. The training will be broad in scope, with an emphasis on wide background rather than mechanical skills, and will equip students to work in management as supervisors, estimators, salespersons or production controllers.

**Networking Technology**

Advisors: V. Rajaravivarma (832-1830), K. Tracey (832-1842)

The Networking Technology program prepares individuals to enter into the evolving world of Information Technology, dealing with computer hardware and software, as well as the peripheral devices closely associated with computer-based systems. The curriculum focuses on local and wide area network design, administration and internet technologies. Analytically based mathematics, computer science, electronics and business courses round out the program.

**Minor in Networking Technology**

18 credits as follows: TC 229, 339, 349, 363, 449, 453, 479.

**Engineering Technology**

J. Bean, P.E., Chair (832-1825); G. D. Alunghe, P.E.; A. Gates, P.E.; L. Lema, CMfgE; E.J. Maydock; J. McEnery, P.E.; O.A. Powell, P.E.; Z. Prusak; and E. Sarisley, P.E. (Dept. phone 832-1815; Fax 832-1811; Web site: www.technology.ccsu.edu)

The Department of Engineering Technology offers the Bachelor of Science degree in Engineering Technology (B.S.E.T.).

The Department has five technical specializations designed to prepare students to become active partners with engineers and to be team members of the total technological enterprise that extends from planning and production to construction and/or service.

Students who have chosen a specific track in Engineering Technology will be able to apply scientific, mathematical and basic engineering knowledge and methods, combined with technical skills, in support of engineering activities. The four-year planned course of study includes science, mathematics, computer graphics, communications and mechanics, along with laboratory courses in the technical specialization.

The civil, manufacturing and mechanical engineering technology programs are accredited by the Technology Accreditation Commission of Accreditation Board for Engineering and Technology, Inc. (TAC of ABET), 111 Market Place, Suite 1050, Baltimore, Maryland 21202. Phone: (410) 347-7700.

Students of senior standing within an accredited program are eligible to take the Fundamentals of Engineering (FE) examination as the first step towards obtaining their Professional Engineer (PE) licensure. Application materials may be requested from the Department of Consumer Protection, 165 Capitol Avenue, Hartford, CT 06106-1630; phone: (860) 713-6145. Additional information about the examination may be obtained from the National Council of Examiners for Engineering and Surveying (NCEES) Web site at http://www.ncees.org.
SCHOOL OF TECHNOLOGY

PLANS OF STUDY

Those students enrolled in the Department of Engineering Technology may attend the University as full- or part-time students. Courses offered in the late afternoons or evenings allow part-time students to maintain full-time employment. Full-time students may complete their 130-credit program in four years. The engineering technology major does not require a minor. A Co-op experience is suggested for all students.

ENGINEERING TECHNOLOGY MAJOR, B.S.

General Education Requirements

Engineering Technology majors are required to complete 40 or 41 credits of the following courses as part of their General Education requirements.

<table>
<thead>
<tr>
<th>Study Area I—Arts &amp; Humanities</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 credits of Literature and 6 credits of Literature, Philosophy or Fine Arts. More than six credits from any one discipline.</td>
<td>9</td>
</tr>
<tr>
<td>Study Area II—Social Sciences</td>
<td>6</td>
</tr>
<tr>
<td>3 credits of History and 3 credits of Economics, Geography, History or Political Science</td>
<td></td>
</tr>
<tr>

<td>2–3</td>
</tr>
<tr>
<td>PE 244 or ET 150 (for transfer students)</td>
<td></td>
</tr>
</tbody>
</table>

* Placement exam may be required before enrolling in English or Mathematics courses.
** Recommended

A minimum grade of C- is required in all courses in the major, all additional course requirements and courses in Study Area IV, Skill Area I and Skill Area II.

Students are required to obtain an account and computer certification from the campus Microcomputer Lab Office in their first semester of registration.

Engineering Technology Specializations

The Department currently offers the following five specializations: (i) civil, (ii) composites & polymer materials, (iii) industrial systems, (iv) manufacturing and (v) mechanical. Each Engineering Technology student should choose one of the specializations based on individual interests and goals. Course requirements for each of the specializations are presented below.

(i) Civil Engineering Technology

This specialization provides students with a background in design support, construction and maintenance of the infrastructure. Graduates may work in consulting firms, construction organizations, testing laboratories, municipal governments and utility companies. Emphasis is on the areas of surveying, materials, structures and use of the computer in the civil and construction industries.

Specialization Requirements

Fifty-one (51) credits as follows:

<table>

</tr>
</tbody>
</table>

(ii) Composites & Polymer Materials Technology

Advisers: L. Lema, CMfgE (832-1821) and E. Maydock (832-1818)

This specialization is designed to prepare students for careers involved with the applications of design, development, analysis and manufacture of products made of composites and polymer materials. Graduates of the program will be able to work in areas of research and development, testing and analysis, and/or design of products, tooling and processes for the medical, biotechnology, aerospace and durable goods manufacturing industries.

Specialization Requirements

MATH 121 Pre-Calculus Mathematics 3
STAT 104 Elementary Statistics 3
CS 213 Applications of Computer Programming 3
ENG 403 Technical Writing 3

Directed technical elective selected in consultation with an adviser 3

Specialization Requirements

Thirty-four (34) credits as follows:

ET 150 Introduction to Engineering Technology 3
ET 251 Applied Mechanics I — Statics 3
ET 252 Applied Mechanics II — Dynamics 3
ET 260 Computer Aided Design and Integrated Manufacturing 3
ET 300 Human Factors Engineering (Ergonomics) 3
ET 356 Material Analysis 3
ET 360 Computer Aided Planning (CAP) 3
ET 497 Engineering Economy 3
ET 498 Engineering Technology Senior Project (Capstone) 3

Directed technical electives selected in consultation with an academic adviser 7

Additionally, the following courses (56 credits) are required.

TC 113 Introduction to Information Processing 3
TC 121 Technical Drafting and CAD 3
TC 233 Advanced Electrical Circuits 3
IT 464 Continuous Process Improvement 3
CHEM 121 General Chemistry I 4
CHEM 122 General Chemistry II 4
CHEM 311 Organic Chemistry I 4
MATH 119 Pre-calculus with Trigonometry 4

or

MATH 121 Pre-Calculus Mathematics 3
STAT 104 Elementary Statistics 3
CS 213 Applications of Computer Programming 3
ENG 403 Technical Writing 3

Directed technical elective selected in consultation with an adviser 3

(iii) Industrial Systems Engineering Technology

Adviser: E. J. Maydock (832-1818)

This specialization combines Industrial Engineering principles with computer applications to increase and improve the quality of a professional's performance. Graduates support both line and staff management personnel. Responsibilities would include scheduling and allocation of human and/or material resources involving sales force, office and plant personnel.

Specialization Requirements

Thirty-four (34) credits as follows:

ET 150 Introduction to Engineering Technology 3
ET 251 Applied Mechanics I — Statics 3
ET 252 Applied Mechanics II — Dynamics 3
ET 260 Computer Aided Design and Integrated Manufacturing 3
ET 300 Human Factors Engineering (Ergonomics) 3
ET 356 Material Analysis 3
ET 360 Computer Aided Planning (CAP) 3
ET 497 Engineering Economy 3
ET 498 Engineering Technology Senior Project (Capstone) 3

Additionally, the following courses (56 credits) are required.

TC 113 Introduction to Information Processing 3
TC 121 Technical Drafting and CAD 3
TC 233 Advanced Electrical Circuits 3
IT 464 Continuous Process Improvement 3
CHEM 121 General Chemistry I 4
CHEM 122 General Chemistry II 4
CHEM 311 Organic Chemistry I 4
MATH 119 Pre-calculus with Trigonometry 4

or

MATH 121 Pre-Calculus Mathematics 3
STAT 104 Elementary Statistics 3
CS 213 Applications of Computer Programming 3
ENG 403 Technical Writing 3

Directed technical elective selected in consultation with an adviser 3

(iv) Manufacturing Engineering Technology

Advisers: L. Lema, CMfgE (832-1821) and Z. Prusak (832-1826)

This specialization develops concepts employed by manufacturing industries to increase productivity, reduce cost and efficiently use tools and machinery. Emphasis is on the areas of manufacturing, process planning, CAD/CAM, production techniques and the application of mathematics and computers.

Specialization Requirements

Forty-four (44) credits as follows:

ET 150 Introduction to Engineering Technology 3
ET 251 Applied Mechanics I — Statics 3
ET 252 Applied Mechanics II — Dynamics 3
ET 260 Computer Aided Design and Integrated Manufacturing 3
ET 340 Geometric Dimensioning and Tolerancing 3
ET 356 Material Analysis 3
ET 357 Strength of Materials 3
ET 360 Computer Aided Planning (CAP) 3
ET 461 Composites and Plastics Manufacturing Processes 3
ET 462 Manufacturing Process Planning and Estimating 3
ET 466 Design for Manufacture 3
ET 497 Engineering Economy 3
ET 498 Engineering Technology Senior Project (Capstone) 3

Directed technical electives selected in consultation with an academic adviser 5

Additionally, the following courses (46 credits) are required.

TC 113 Introduction to Information Processing 3
TC 121 Technical Drafting and CAD 3
TC 233 Advanced Electrical Circuits 3
IT 464 Continuous Process Improvement 3
CHEM 121 General Chemistry I 4
CHEM 122 General Chemistry II 4
CHEM 311 Organic Chemistry I 4
MATH 119 Pre-calculus with Trigonometry 4

or

MATH 121 Pre-Calculus Mathematics 3
STAT 104 Elementary Statistics 3
CS 213 Applications of Computer Programming 3
ENG 403 Technical Writing 3

Directed technical elective selected in consultation with an adviser 3

Advisers: L. Lema, CMfgE (832-1821) and Z. Prusak (832-1826)
Manufacturing and Construction Management

P. J. Resetarits, Chair; S.R. Bennett; W.W. Davison; J. A. DeLaura, CMfgE; D.C. Dowry; G. C. Ku; J. P. Kovel; R.J. Perreault; P.J. Vernesoni; M.C. Vincenti (Dept. phone 832-1830; Fax 832-1806; e-mail: Resetarits@ccsu.edu; Web site: www.technology.ccsu.edu)

The Manufacturing and Construction Management Department offers the following undergraduate (Bachelor of Science degree) and graduate (Master of Science degree) programs:

- BSIT: Construction Management
- BSIT: Manufacturing
- BSIT: Environmental and Occupational Safety
- BSIT: Electro-Mechanical Technology
- BSIT: Technology Management
- BSIT: Quality Management
- MS Technology Management

The Manufacturing and Construction Management Department offers programs designed to prepare students for technology-oriented supervisory, middle management and leadership positions. The programs respond to an increasing industry demand for highly qualified personnel who have a combination of technical and managerial skills. Therefore, this study includes a comprehensive knowledge of industrial processes and applied technologies, in addition to a background in general education. Providing broad range of educational and career enhancement opportunities, the Department prepares graduates for careers in rapidly changing technical fields.

PLANS OF STUDY

Students interested in the Technology programs may attend Central Connecticut State University full- or part-time. Part-time study permits a student to keep a full-time day job and enroll in courses in the late afternoon or evening. Full-time students may complete the 122-credit program in four years.

INDUSTRIAL TECHNOLOGY MAJOR, B.S. (63 credits)

Accredited by NAIT

Industrial Technology majors, regardless of the program selected, are required to complete a common core of 24 credits in technical and management courses as part of their program. Courses included within these common requirements are as follows:

**Industrial Technology Core Courses**

<table>

*Requirements are different for Construction Management Specializations.
General Education Requirements
A total of 44-46 credits in General Education studies must be completed as part of all baccalaureate degree programs.

Industrial Technology majors are required to complete the following 3-credit courses as part of their General Education:
- Skill Area I — ENG 110, COMM 140; Skill Area II — STAT 104, MATH 115; Study Area IV — ECON 201; Study Area IV — CHEM 111 with lab.

TECHNOLOGY SPECIALIZATION PROGRAMS
Each student should identify a program based on individual interests and goals. Six undergraduate programs are available; each is shown with its course requirements.

Construction Management
Advisers: S. R. Bennett (832-1835), J. Kovel (832-1830), R. J. Perreault (832-1836)

This sequence of courses is designed to supply the student with knowledge and experiences which will enable him/her to operate effectively in a supervisory position in the construction industries. The emphasis is not on specialized skills, but rather on a broad spectrum of subjects pertinent to the field of Construction Management.

Environmental and Occupational Safety
Adviser: G. Ku (832-1852)

The Occupational Safety and Health Act of 1970, by requiring employers to provide safe and healthful working conditions, has increased the need for trained safety personnel. This specialization in Environmental and Occupational Safety will prepare students for management positions as safety professionals in private industry and federal, state and local government.

Electro-Mechanical Technology
Adviser: W. W. Davison (832-1831)

This specialization provides the student with knowledge of the various techniques used in the power transmission industry. Training will be provided in the electromechanical areas and will provide students with the background to become supervisors, managers and salespeople in the field of power transmission. This program provides transferability from community colleges and state technical colleges for students enrolled in automotive-related technology programs. Credits are selected from the following, or from automotive courses transferred from community and/or technical colleges.

CM 435 Construction
Superintendency 3

Manufacturing
Advisers: J. A. DeLaura, CMfgE (832-1840); M. C. Vincenti (832-1838)

This specialization is designed to train students primarily for middle management and supervisory positions that are production-oriented. Industrial areas involved include production control, methods and work standards, production supervision, cost estimating and quality control. (Related job titles include industrial engineer, production foreman and quality control supervisor.)

Credits 39

Note: A minor is not required for this major.

Technology Management
Adviser: P. Resetarits (832-1834)

This specialization has been developed to allow students to develop a custom plan of study utilizing various existing technical and management courses. Students transferring credits in from other institutions of higher education can use those credits in this specialization. The Technology Management specialization requires the student to complete the 24 credits in the Industrial Technology core courses plus 39 credits of Technical and Management Electives.

Specialization Requirements  Credits
Technical and Management Electives  39

Courses selected in consultation with, and approved by, adviser. At least one half of the elective credits must be at the 300 or 400 level.

Note: A minor is not required for this major.

Quality Management
Adviser: Paul Resetarits (832-1834)

This specialization is designed to prepare students for a variety of Quality Management positions in manufacturing and service industries. Graduates will have a solid background in the various quality system standards in use today. They will have expertise in the use of numerous quality control tools and techniques. They will possess the knowledge required to lead and implement quality improvement efforts in a broad spectrum of business environments.

Technology Education

M. J. Williams, Chair (832-1853).
J. C. Larkin, P. Foster, P. A. Rodrigues (Dept. phone 832-1850; Fax 832-1811; Website: www.technology.ccsu.edu)

The Department of Technology Education offers the following programs of instruction:
- Bachelor of science degree in Technology Education
- Post Baccalaureate Certification Program in Technology Education
- Master of science degree programs in Technology Education
- Planned post master's—no certificate or degree

Specific requirements for the planned fifth year, master of science degree program and post master's programs in Technology Education are stated in the graduate catalog.

TECHNOLOGY EDUCATION

The Technology Education curriculum prepares individuals for teacher certification, grades K-12. Emphasis is placed on designing, developing and utilizing technological systems; open-ended problem-based design activities; cognitive, manipulative and affective learning strategies; and applying technological knowledge and processes to real-world experiences utilizing up-to-date resources.

Technology Education majors complete a core of technology courses involving classroom and laboratory experiences with the materials, machines, systems and concepts related to technology. In General Education, technology majors experience courses in the humanities, social and behavioral sciences, mathematics, natural sciences, fine arts and physical education. Preparation as a technology educator culminates with a core of professional education courses involving teaching strategies, evaluation, curriculum development and student teaching.

Individuals who already have a bachelor's degree who desire to meet certification requirements for teaching Technology Education in Connecticut should contact Mr. Peter Rodrigues (832-1857).

TECHNOLOGY EDUCATION MAJOR, B.S.

General Education Requirements
A total of 44-46 credits in General Education studies must be completed as part of all baccalaureate degree programs. See the General Education section in this catalog.

Technology Education students are required to take ENG 110, HIST 261, PSY 236, TE 110, PHYS 111, CHEM 111 and MATH 115. These courses count toward the overall General Education requirements.

Note: This major does not require a minor.

Technology Education Professional Requirements
Students are required to take TE 199, 399, 400 and 428. All of these courses may not be available each semester and are seldom available during the summer sessions; refer to the course description section of this catalog for information.

Technology Education Technical Requirements
Technology Education majors are required to take TC 113, 114, 118, 121, 212, 213, 214, 215, 445 and TE 410, 420, 430, 450. Students may take additional technical courses, indicated by the TC prefix, approved by their Technology Education adviser to fulfill their General Education requirements. Each major in Technology Education must complete at least 6 credits in each of the following areas: communication, production and transportation.
Professional Education Requirements
Technology Education majors are required to take SPED 315, EDSC 375, EDF 400 or 415, EDTE 315, EDSC 414 and 415, and RDG 440.

Admission to the Professional Program
Students must make formal application for admission to the Professional Program of Technology Education after completion of 45 credits in course work. At least 15 of these credits must be in TC or TE courses. Applications are available from the Dean of Education and Professional Studies, Barnard Hall, and must be filed prior to September 21 or February 21. Acceptance is prerequisite to taking TE 400, EDSC 375, 414 and 415, EDF 400 or 415, EDTE 315 and SPED 315. Students must maintain a minimum 2.50 grade point average in all technology courses. See School of Education and Professional Studies, Admission to Professional Program for additional information.

VOCATIONAL-TECHNICAL EDUCATION
Coordinator: M. Furtado-Holloway (832-1807)

The certification curriculum in Vocational-Technical Education is designed to prepare teachers of occupational subjects (skilled trades) and trade-related subjects for Connecticut's vocational-technical schools, teachers of trade and industrial occupational subjects for Comprehensive High Schools and health occupation educators. Students planning to qualify for vocational teaching positions within Connecticut’s public schools are normally required to meet the following:

Work-Related Experience:
Trade and Industrial Occupational Subjects Teachers (Comprehensive High Schools) — 3 years of appropriate work experience
Trade-Related Subjects Teachers (CT Vocational-Technical Schools) — 3 years of appropriate work experience
Occupational Subjects (CT Vocational-Technical Schools) — 8 years of appropriate work experience

Certification Requirements:
18 credits in VTE and 12 credits in Professional Education

Initial Educator Certificate

**Prereq.: Holds or is eligible for secondary-level certification. One year work experience, three years teaching experience required.

Institute for Industrial and Engineering Technology
The Institute, located in downtown New Britain at 185 Main Street, is an outreach function of the University. The Institute provides the business and industrial communities with economic development services through four centers. The Technical Training Center assists companies in technical updating, ranging from quality assurance to engineering design and analysis. The Manufacturing Applications Center is designed to help small manufacturers make the transition to advanced technology in their manufacturing processes. The Procurement and Technical Assistance Center assists small- and medium-sized companies in the bidding process for government procurement. Programs range from basic business skills to advanced computer training. The Institute also has a Conference Center and houses the New Britain Industrial Museum.

Cooperative Technology Programs

College of Technology
Public Act 92-126 created the "Connecticut College of Technology," a unique pathway curriculum which allows individuals to begin their studies at a community technical college and transfer directly to CCSU's School of Technology.
The Technology Pathway for entry into CCSU's School of Technology consists of core courses that will serve as the foundation of the bachelor of science degree in Engineering Technology, Industrial Technology and Technology Education. Continuation at Central will require a minimum course grade of C and completion of the following college credits.

THE ENGINEERING TECHNOLOGY PATHWAY/DEGREE PROGRAM

The Engineering Technology Pathway prepares students for entry into the Engineering Technology department in CCSU's School of Technology. After completion of two years of initial study at a Community College and another two years at Central, the student will receive a Bachelor of Science in Engineering Technology (BSET) degree with specialization in any one of the five programs listed below. The civil, manufacturing and mechanical engineering technology programs are accredited by TAC of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202; phone: 410/347-7700. A minimum grade of "C" in the courses listed below will transfer into any of the five Engineering Technology programs currently offered at Central.

Engineering Technology Programs:
- Civil
- Composite/Polymer
- Industrial Systems
- Manufacturing
- Mechanical

Engineering Technology Curriculum

Arts/Humanities/Social Science/Behavioral Science/Communication:
- English Language (Freshman Composition) 3
- Technical Writing 3
- Public Speaking 3
- English Literature 3
- Philosophy, Fine Arts or English Literature 6
- History 3
- Economics, Geography, Political Science or History 3
- Anthropology, Psychology or Sociology 3
- Subtotal (maximum) 27

Natural Science/Mathematics:
- General Chemistry I with Laboratory 4
- General or University Physics I with Lab 4
- General or University Physics II with Lab 4
- Statistics 3
- Pre-calculus or Pre-calculus with Trigonometry 3 or 4
- Calculus I or Applied Calculus I 4 or 3
- Calculus II or Applied Calculus II 4 or 3
- Subtotal (minimum) 24

Engineering Technology/Engineering Science:
- Applied Mechanics I (Statics) 3
- Applied Mechanics II (Dynamics) 3
- CAD: AutoCAD (Civil only) 3
- CAD: CADkey (Other ET Programs) 3
- Introduction to Computers 3
- Computer Programming 3
- Introduction to ET or Engineering 3
- Subtotal (minimum) 18

Total credits 69

TECHNOLOGY PATHWAY/DEGREE PROGRAM

The Technology Pathway, for entry into CCSU's School of Technology or Charter Oak State College, consists of courses which provide for a bachelor of science degree from Charter Oak State College, with a minor in technology, or from Central in one more of the fields listed below. A minimum course grade of "C" and the hours of credit described below are required for continuing at CCSU's School of Technology or at Charter Oak.

Industrial Technology
- Construction Management
- Environmental/Occupational Safety
- Electronics Technology
- Graphic Arts/Design
- Manufacturing
- Technology Management
- Quality Management
- Computer Networking
- Electro-Mechanical

Industrial Technology Curriculum

Arts/Humanities/Social Science/Behavioral Science/Communication:
- English Language (Freshman Composition) 3
- Public Speaking 3
- English Literature 3
- Philosophy, Fine Arts or English Literature 6
- Intro. to Physics 3
- Intro. to Chemistry 3
- Intro. to Energy Processing 3
- Intro. to Material Processing 3
- Electrical Energy 3
- Mechanical Energy 3
- Graphic Arts Industries 3
- Directed Elective 3
- Subtotal 24

Total Credits 63

Technology Education

Program leading to certification to teach technology education in grades K–12 in the public schools of Connecticut. In addition to careers in public school teaching, technology education graduates may also function as instructors or supervisors in private and post-secondary schools, industry, government and rehabilitation programs.

Technology Education Curriculum

Arts/Humanities/Social Science/Behavioral Science/Communication:
- English Language (Freshman Composition) 3
- Public Speaking 3
- English Literature 3
- Philosophy, Fine Arts or English Literature 6
- Intro. to Chemistry 3
- Intro. to Physics 3
- Statistics 3
- Trigonometry 3
- Subtotal 12

Natural Science/Mathematics:
- General Chemistry I with Laboratory 4
- General or University Physics I with Lab 4
- General or University Physics II with Lab 4
- Statistics 3
- Pre-calculus or Pre-calculus with Trigonometry 3 or 4
- Calculus I or Applied Calculus I 4 or 3
- Calculus II or Applied Calculus II 4 or 3
- Subtotal (minimum) 24

Total Credits 63
The College of Technology offers students:

- a clear pathway from a two-year college to a four-year university, without loss of credit or repeated course work
- the opportunity to begin their education on a full- or part-time basis at any of Connecticut's 12 community-technical colleges
- low costs by completing the first two years of study at a community-technical college
- direct admission into CCSU's School of Technology

**Technology Pathway Program**

The CSU-CCSU Technology Pathway Program is an integrated curriculum allowing individuals to begin their studies at any CSU campus (Southern, Eastern or Western) and advance directly to any program in the School of Technology at Central Connecticut State University. The Pathway Program will provide the foundation or the initial two years of a bachelor of science degree.

The School of Technology at Central Connecticut State University offers the only programs of study in Technology Education, Industrial Technology and Engineering Technology in the Connecticut State University System. Each degree program has a variety of technical specializations designed to provide students with a balance of classroom learning (theory) and activity-based laboratory (practical application) courses. In addition, the School of Technology's cooperative education program provides opportunities for students to work with major industries in a variety of technical and engineering areas. Graduates of the programs enter the workforce with the knowledge and confidence needed to compete and succeed in today's industrial and technological marketplace.

This program provides a direct entry to the School of Technology at CCSU without loss of credit or having to repeat course work. A student can complete a minimum of 30 credits or up to 60 credits at any CSU campus with at least a grade “C” in each course before continuing at Central.

The pathway coordinator has been identified at each CSU campus. For information, contact the Associate Dean of the School of Technology at CCSU.
Cooperative Education is an academic program which integrates classroom study with career-related work experiences. Co-op work experiences are paid, full-time, six-month positions related to academic and career interests. Co-op is an optional and, in most cases, non-credit program.

CCSU's program, the largest in Connecticut and one of the largest in New England, combines five months of on-campus study with six months of paid Co-op employment. Thus, students apply textbook learning to on-the-job training. The money earned often helps students finance their University education.

Co-op students are assigned to a Cooperative Education coordinator who guides their career development and develops appropriate Co-op placements. In the Co-op Career Development Seminar students receive instruction in skills that make the difference in today's job market: resume writing, interviewing techniques, career planning and job-seeking strategies.

Through participation in the Co-op program, students can graduate with up to two years of career-related work experience and, possibly, with a job offer. A sizeable number of Central Connecticut State's Co-op students are offered permanent positions with their Co-op employers upon graduation. Nationwide, graduates of Co-op programs are hired at higher salaries and promoted faster than other employees. For students unsure of a career, Co-op is a no-risk way to test job options. For those set in their goals, Co-op provides a direct route from campus to career.

How Co-op Works
- Co-op work blocks run from January through June (Group A) and from July to December (Group B).
- Students may participate in either one, two, three or four Co-op work blocks.
- Students may enroll in the Co-op program after they have completed 45 credits.
- Students must enroll in a Co-op Career Development Seminar during the semester prior to the first work experience.

Enrolling in the Co-op Program
Once enrolled at Central Connecticut State, the first step in becoming a Co-op student is to attend a Co-op Information Session. These are offered weekly in the Co-op Office, Willard Hall Room 100. The session provides details about how the program works, how to enroll and the benefits the student can expect as a Co-op student at Central Connecticut State. It gives students an opportunity to ask questions and receive current literature about the program.

After the Information Session, students meet with a coordinator to formally enroll in the program. Students should plan to enroll in the program at least one semester prior to the first planned work block. Group A students must apply no later than the third week of the fall semester; Group B students must apply no later than the third week of the spring semester. Applying a semester in advance of the work block ensures: 1) a place in the program; 2) sufficient time for the Co-op staff to develop appropriate Co-op positions; and 3) sufficient time for students to complete the Career Development Seminar prior to their work experience.

The Career Development Seminar
The Career Development Seminar is designed to teach students life-long career skills. They learn to write a résumé, interview effectively, make career decisions, explore occupations and discover where the jobs are in their field. This one-credit course is taught by the Co-op staff.

Cost and Eligibility
The Co-op program is available to all full- and part-time students in good academic standing, who have completed 45 credits. Currently, it costs $400 per year to be enrolled in the Co-op program. Students are billed $200 per semester.
CCSU offers an interdisciplinary degree program in International Studies, with specializations leading to the bachelor of arts degree for students in Arts and Sciences.

Minors in African Studies, East Asian Studies, Latin American Studies, Slavic and East European Studies and European Union/Western European Studies are also offered.

Each student planning to major in International Studies should contact the International Studies Program Director (832-2126). Students planning a minor in a region, or those interested in a region as part of the B.A. major program, should contact the coordinator of the appropriate area studies program.

International Studies

INTERNATIONAL STUDIES

MAJOR, B.A.
Fifty-seven (57) credits as follows:

Core Curriculum (12 credits)
- IS 225 The World as a Total System
- IS 475 Senior Project
and two of
- GEOG 120 World Regional Geography
- HIST 122 World Civilization II
- PS 104 The World's Political Systems

Regional Specialization (18 credits)
Courses in the language, literature and social or behavioral science of a particular world region selected in consultation with a faculty adviser.

Modern Language (18 credits)
Courses in a single modern language or demonstration of competency in reading, writing, speaking and understanding of a single modern language equal to completion of the 226 level, as determined by a CCSU instructor of the language and/or the chair of the Modern Languages Department.

Directed Electives (9 credits)
Courses in either the Regional Specialization or a related area, or those designated International, or those labeled International Studies; selected in consultation with a faculty adviser.

Structured International or Multicultural Experience
At least one semester of faculty-supervised, in-depth exposure to another way of life.

Note: Students will be encouraged to select a Regional Specialization coinciding with existing CCSU Area Studies programs, although a specialization from other world regions may be selected if desired and courses are available.

Note: The Modern Language selected must be related to the Regional Specialization.

Note: Students who complete the Modern Language component with fewer than 18 credits must take additional courses, in either the Regional Specialization and/or Directed Electives, selected in consultation with a faculty adviser.

Note: Ideally, International Studies majors will spend one academic year abroad. As an alternative, IS faculty will assist students to develop a local multicultural experience related to the student's academic track or regional specialization.

Note: A minor is not required for this major.

African Studies

C. C. Mate-Kole, Coordinator (832-3105);

Minor in African Studies
18 credits including HIST 375, 376, PS 421, 434 and 6 credits of electives as approved by the program coordinator.

Major
Students wishing to construct a major program in African Studies may do so using the framework provided by the B.A. in International Studies.

East Asian Studies

S. Tomoda, Coordinator (832-2892);
G. Altman, Y. Ju, K. H. Kim, C. S. Lien, J. McKeon, P. Petterson, X. Shen

Minor in East Asian Studies
18 credits of electives in East Asian courses, subject to approval of the coordinator. Courses used for a major may not be used to fulfill the requirements of the minor.

Major
Students wishing to construct a major program in East Asian Studies may do so using the framework provided by the B.A. in International Studies.

European Union/ West European Studies

C. Pesca, Coordinator (832-2882);

Minor in European Union/ West European Studies
18 credits, including ECON 430, GEOG 452, HIST 444, PS 336 and competency at the intermediate (126) level in a West European language. Students achieving this competency with fewer than 6 credits should take courses in language, culture or other suitable regional courses in consultation with an adviser.

Major
Students wishing to construct a major program in European Union/West European Studies may do so using the framework provided by the B.A. in International Studies.

Latin American Studies

A. Garcia-Lozada, Coordinator (832-2895);
R. Fernandez, Director of Caribbean Studies;
A. Adams, W. Brown-Foster, G. Caliendo-
Reed, A. Chavarro, S. Mendez-Mendez, A. Morales, A. Richard

A brochure describing the programs in depth is available from the coordinator.

Minor in Latin American Studies
18 credits including GEOG 434, 436; HIST 381, 382; and 6 credits from the following: ANTH 428; ECON 435; GEOG 459*; HIST 483, 484, 493*; HUM 490*; IS 240, 245, 490*; PS 235, 420; SPAN 261, 316, 376.

In addition, students will use 6 credits from the following to satisfy their General Education requirements, except when exempted: SPAN 125 and 126 or SPAN 225 and 226.

*Courses can be used to satisfy program requirements with the approval of the Program Coordinator. Courses taken as a part of this minor may not also be used to fulfill requirements of the student's major. Note prerequisites where applicable.

Minor in Caribbean Studies
18 credits including IS 240, 245, GEOG 434 and 9 credits from the following: ANTH 428. ECON 435, GEOG 459, HIST 483, PS 420, SPAN 316. Note prerequisites where applicable.

Students selecting these minors must register with the Program Coordinator.

Major
Students may specialize in Latin America within the International Studies Major.

Slavic/East European Studies

P. Karpuk, Coordinator (832-2883);
G. Altman, R. Benfield, J. Bergman,
S. Blejwas, D. Kideckel, J. Strzemien

Minor in Slavic/East European Studies
18 credits, including at least 9 selected from the following: ANTH 426, GEOG 448, HIST 348, 356, 479, PS 435. RUS 125 and 126, or study of another East European language at an equivalent level. are strongly recommended. Courses in Polish Studies may be applied to a Slavic/ East European minor (see Polish Studies Center).

Major in Russian Studies
Students wishing to construct a major program in Russian Studies may do so using the framework provided by the B.A. in International Studies. For a sample program please contact the coordinator.

Major in Slavic/East European Studies
Students wishing to construct a major program in Slavic and East European Studies may do so using the framework provided by the B.A. in International Studies. For a sample program, please contact the coordinator.

Middle Eastern Studies

A. Antar, Coordinator (832-2932);
F. Abdollahzadeh, K. Beyard, A. Cannella,
G. El-Eid, G. Emeagwali, N. Mezvinsky,
A. Papathanasis, T. Rickard, N. Sadanand

Minor in Middle Eastern Studies
18 credits including HIST 472, PS 434, 439 and 12 credits from HIST 473, 474, PS 339, 439, 491.

Major
Students wishing to construct a major program in Middle Eastern Studies may do so using the framework provided by the B.A. in International Studies.
African-American Studies

The African-American Studies minor offers a broad curriculum dedicated to the study of Black life in the Americas and the Diaspora from 1350 to the present. The African-American Studies Program develops and coordinates an interdisciplinary curriculum. Its objectives are to encourage all students and faculty to examine the African-American experience, to facilitate a cultural and intellectual atmosphere on campus that will be favorable to such studies, and to develop a program of research and community service. The program also has a "nationally recognized" African-American lecture series, featuring nationally and internationally known scholars in the field of Black Studies.

The African-American Studies Center, located in Marcus White 101, has a lending library for students and faculty. In addition to the ongoing lecture series the program also hosts the traditional celebration of Black History Month during February with rich and diverse activities such as a film series, art exhibits and student debating contests.

Minor in African-American Studies

Students completing a minor in African-American Studies must have 21 credits, including AFAM 110; HIST 369 and 469; and PHIL 360 which is required of all students. In addition, students must have fifteen credits of electives which may be selected from the following courses: HIST 497 (African History Through Film and African-American Women's History); HUM 490 (African Civilization: A Voyage into the Past and Present); REL 361 (African-American Religion); PHIL 360 (African-American Philosophy); ART 100; ENG 211, 212, 345; CRM 231; GEOG 490, PS 331, PS 332, PS 430, PS 431, SOC 322, TH 275.

American Studies

The American Studies minor gives students the opportunity to explore the diverse culture of the United States in an interdisciplinary context. In consultation with an American Studies adviser, students are encouraged to shape an individualized course of study to meet their own academic goals.

The certificate in American Studies is primarily for international students who come to the United States for an introductory program in American Studies or who wish to take such a program at a CCSU extension college abroad.

Minor in American Studies

18 credits, distributed as follows: ENG 211, HIST 262, and PS 110; 3 credits of electives selected in consultation with an American Studies adviser from each of the areas listed below.

1. ENG 210, ENG 212*, ENG 341, ENG 343, ENG 345*, ENG 448, HIST 261, HIST 330, HIST 369*, HIST 425, HIST 426, HIST 427, HIST 428, HIST 465, HIST 469*
2. ANTH 352*, ANTH 422, CRM 110, CRM 231, GEOG 241, GEOG 330*, GEOG 490, PS 331, PS 332, PS 430, PS 431, SOC 322*
3. ART 414, ART 215*, MUS 401, PHIL 382, PHIL 400*, REL 257, TH 275

Other course options may be available if they focus specifically on some aspect of American culture; consult the American Studies coordinator for current options. At least 6 credits must be on the 300-400 level, and at least 3 credits must represent diversity in American society. Courses that satisfy this requirement are indicated by an asterisk (*). Certificate in American Studies

15 credits, distributed as follows: ENG 211, HIST 262 and PS 110 and 6 credits from two of the three categories listed above.

At least 3 credits must be on the 300-400 level, and at least 3 credits must represent diversity in American society. Courses that satisfy this requirement are indicated by an asterisk (*). Other certificate options are available, including non-credit certificates. See the program coordinator for information.

1 Note prerequisites
2 Under section or topic approved by the American Studies Committee

Hospitality and Tourism Studies

K. P. Mead, Interim Director (832-3227); E. Astarita, R. Benfield, T. Rickard, D. Truly, J. Weinberger

Hospitality and Tourism involves the business of attracting, transporting, lodging, entertaining and providing food and beverages to people. It is one of the fastest growing segments in Connecticut's economy. This course of study is designed as an interdisciplinary program between the Geography Department of the School of Arts and Sciences and the Marketing Department of the School of Business, leading to a B.S. degree in Hospitality and Tourism.

Major in Hospitality and Tourism, B.S.

This 54-credit program consists of 21 credits of Foundation Courses in Business and Geography, 15 credits of Upper Division Major Courses, 18 credits in hospitality or tourism including a 3-credit internship with a hospitality/tourism organization.

Foundation Courses

AC 211 Intro. to Financial Accounting 3
MIS 201 Introduction to MIS 3
GEOG 120 World Regional Geography 3
GEOG 290 Geography of Tourism 3
FIN 200 Introduction to Finance 3
MGT 295 Fundamentals of Management and Organizational Behavior 3
MKT 295 Fundamentals of Marketing 3

21 credits

Upper Division Major Courses

MKT 308 Introduction to Hospitality 3
MKT 359 Special Events 3
GEOG 450 Tourism Planning 3
GEOG 454 Geography of Tourism Marketing 3
ENG 382 Travel Writing 3

15 credits
SPECIAL PROGRAMS

Hospitality Track
18 credits of courses approved by a faculty adviser. All courses must be taken at a state Community-Technical College. Similar courses from other institutions may be substituted with the approval of program director.

HRSM*202 Introduction to Beverage 3
HRSM 203 Food Purchasing/Preparation 3
HRSM 214 Human Resources Management 3
HRSM 231 Consumer Research and Marketing 3
HRSM 241 Hotel Management 3
HRSM 270 Cooperative Education/Internship 3

18 credits

*Not a CCSU course designator. Refers to a community-technical course.

OR

Tourism Track
Courses approved by faculty adviser.
GEOG 451 Tourism Development in Southern New England 3
GEOG 453 Recreational Planning 3
GEOG 455 New Directions in Tourism 3
GEOG 425 Internship in International Hospitality Studies or MKT 497 Marketing Internship 3
Regional Geography Courses 6
Student may choose any two courses listed below:
GEOG 330 United States and Canada
GEOG 434 Mexico, Central America, and the Caribbean
GEOG 435 Japan and Korea
GEOG 436 South America
GEOG 437 China
GEOG 439 Urban Geography
GEOG 446 Sub-Saharan Africa
GEOG 448 Russia and Neighboring Regions
GEOG 452 European Union
GEOG 490 Connecticut

18 credits

Alternative Tourism Track
Student may choose any two courses listed below:
HRSM 231 Consumer Research and Marketing 3
HRSM 241 Hotel Management 3
HRSM 270 Cooperative Education/Internship 3

18 credits

Free Electives Approximately 21 credits
Sufficient to arrive at 122 credits.

Note: In no case may a student exceed 27 business credits.

General Education and Skill Areas Approximately 47 credits

Total credits 122

Internet and Multimedia Studies

M. Triebwasser, Program Coordinator (Phone: 832-2970); S. Adair, J. Calvert, M. Gendron, J. Harmon, J. Larkin, R. McCarrthy, K. Ritzenhoff, B. Sponder

The goal of this program is to increase electronic literacy, develop sensitivity to the value implications of the technologies used in cyberspace, and lay the foundation for the future development of various areas of expertise.

A minor in IMS allows students to take courses in various departments on the technical skills needed to develop cyberspaces, such as multimedia computing and website development. It also involves them in courses in the social sciences and humanities which concentrate on the value implications of cyberspace. It is the intention of this minor to produce people who are both generally skilled technically and aware of the political and aesthetic values involved in the personal and societal application of these skills.

A major focus of this minor is a hands-on and apprenticeship approach to learning. As such, the capstone course in this minor is a Senior Project or Independent Study in which students work on a specific project, along with a mentor.

Minor in Internet and Multimedia Studies
18 credits, six of which must be at the 300 or 400 level, distributed as follows:

I. Core (6 credits):
IMS 110 and IMS 210.

II. Human Interactions in Cyberspace (3 cr.):
Student will choose one course from the following (or an approved substitute): COMM 230, CS 210, CS 495, ENG 418, PHIL 335, PS 315, SOC 478.

III. Methodologies in Internet and Multimedia Development (3 cr.):
Student will choose one course from the following (or an approved substitute): BUS 401, COMM 330, CS 110, CS 151, DES 126, EDT 490, GEOG 378, MIS 201, MUS 112, TC 113.

IV. Advanced Study (3 cr.):
A second course approved by the Program Coordinator to be chosen from the courses listed under Categories II or III (or an approved substitute) intended to augment the experience gained in the first course. This course may be an approved prerequisite to a listed course.

V. Capstone Experience (3 cr.):
Student, in consultation with the Program Coordinator, will choose one of the following: IMS 480, IMS 490 or a qualified senior project in a related department or program.

Religious Studies

J. McKeon (Philosophy), Adviser; F. Best (Philosophy), G. Gigliotti (English), A. Adams (Anthropology), N. Mezvinsky (History) (Phone 832-2915)

Minor in Religious Studies
18 credits of approved courses, including one 3-credit course from each of the four specified course areas.
1. Comparative Religion (REL 110);
2. Religious Texts (ENG 360, ENG 361);
3. Historical/Social Science (HIST 377, 378, 435, 436, 441, 469, 473; ANTH 440);

Urban Studies

J. Mitrano and B. Sommers, Coordinators (832-3145, 832-2792); A. Moran, E. Phillips, M. Triebwasser, R. White, A. Zottola

Urban Studies is an interdisciplinary field that combines theory and practice in addressing the major questions and issues of life in the city. Urban Studies explores the factors that shape the growth and development of cities as well as the city's role as an arena for human activities.

The Urban Studies minor provides students with the academic foundation necessary to understand the issues and problems confronting our urban areas. Beyond building understanding, the minor also gives students the tools necessary to engage in solutions to those problems.
Minor in Urban Studies
18 credits as follows: URS 300 and 15 credits from ANTH 300, 323, ECON 420, GEOG 439, 441, PS 230, 432, SOC 232, 332, URS 420, 430. Courses must be taken from at least three different departments.

Women’s Studies

Minor in Women’s Studies
18 credits with at least nine credits on the 300-400 level, including WS 200, and 15 credits from Theoretical (PHIL 100*, 222, 382* WS 400), Historical (ESCI 218, HIST 330, 331, 335), Cultural (ANTH 350, ART 409*, COMM 435, ENG 215, 288*, 448*, 458*, 488*, HUM 250*), Social (COMM 495*, PS 241, PSY 448, 498*, SOC 240). At least one course (three credits) must be taken from three of the four areas listed.

Note: Students whose needs are not met by available courses may take up to three credits of independent studies, pending approval of the appropriate department chair and the Women’s Studies coordinator.

*Under section or topic as approved by the Women’s Studies Advisory Committee

Special Studies Major
With the help of an academic adviser, an undergraduate student may design a major to fit his or her own interests and needs. A Special Studies major must consist of 30–40 credits if a conventional minor is taken, or 48–60 credits if no minor is taken. At least half of the program must consist of 300- or 400-level courses. A proposal for a Special Studies major will only be considered when it is clearly shown that no present major offered by the University meets the same need. The major will consist of existing courses, and all academic requirements of the University, as well as all course requirements, including prerequisites must be met. All Special Studies programs total a minimum of 122 credits.

To be eligible for such a Special Studies major leading to a B.S. or B.A. degree, the student must be in good standing. The application must be approved by a faculty adviser, chairs of departments from which there are three or more courses in the major and the dean of the school of the adviser. Applications normally should be filed prior to the completion of 60 credits. The student must have completed at least 12 credits at CCSU or have transferred at least 30 credits prior to filing.

Approval of Special Studies majors is by a majority of a committee composed of the chair of the Curriculum Committee; the chairs of the Arts and Sciences, Business, Education and Professional Studies and Technology subcommittees; and the Dean of the School of Arts and Sciences or his or her representative. Information about Special Studies programs in all four schools is available in the office of the Dean of Arts and Sciences.

Intensive English Language Program
The Intensive English Language Program (IELP) offers full-time and part-time English language and American culture instruction to international students and faculty, foreign professionals, and members of the Connecticut community.

The IELP is dedicated to ensuring that students have a positive experience. Each session's courses are tailored to meet the needs of the students enrolled at that time. Its classes are small, so teachers get to know and offer support and encouragement to each student individually. Instructors holding professional degrees provide cutting-edge multimedia technology as a means to strengthen the classroom learning experience. Activities arranged by the IELP offer students the opportunity to meet and interact with American students and local culture.

Living in another country is an exciting adventure and a challenge. The members of the IELP understand this and are here to help in every way possible. The IELP and the George R. Muirhead Center for International Education staff are always available to answer questions about visas, adjusting to American culture, academic planning and other issues. For more information, please contact the IELP in Barnard Hall, Room 138, at 860-832-3376 or IELP@ccsu.edu.

Honors Program
The Honors Program provides an interdisciplinary, team-taught approach to General Education for intellectually motivated and academically superior students. The program is open to all qualified students, regardless of major. Graduating high school students, students in their first year at the university, high school graduates returning from work or family responsibilities, and transfer students from community colleges or other universities are eligible to apply. Applicants must satisfy writing and interview requirements. Candidacy is by invitation of the Director of the Honors Program. A limited number of full or half merit scholarships are available; for more information on scholarships, please refer to the Financial Aid section of this catalog.

The Honors Program is divided into four general areas: Western Culture, Science and Society, World Cultures and the Writing and Research component. All Honors Program courses satisfy general education requirements, with modal and area restrictions where noted. Honors students are required to complete the following 36 credits of courses, which are offered over a three year period and are available only to Honors Program students.

Western Culture
HON 110 Western Culture I: Introduction to Western Culture
HON 210 Western Culture II: Topics in Western Culture
HON 250 Western/World Cultures III: Comparative Topics

Science and Society
HON 120 Science and Society I: Natural Sciences and Society
HON 220 Science and Society II: Social Sciences and Society

World Cultures
HON 130 World Cultures I: Introduction to World Cultures
HON 230 World Cultures II: Topics in World Cultures
Writing and Research
HON 140 Writing and Research I: Thinking and Persuasive Writing
HON 440 Writing and Research II: Thesis Preparation and Proposal
HON 441 Writing and Research III: Honors Thesis
HON 442 Writing and Research IV: Thesis Workshop

Successful completion of the entire Honors curriculum satisfies all the student's general education requirements, with the exception of Skill Areas II, III, IV, lab science requirement and any course requirements set by individual major programs or certifications.

Honors Program students may choose to graduate without a minor. Students who complete the Honors Program with a grade-point average of 3.20 or higher for their honors courses and for all their university courses will receive the designation "Honors Program Scholar" on their diploma. Inquiries should be addressed to Dr. Joseph McKeon, co-director of the Honors Program, Department of Philosophy, Marcus White Hall, telephone 832-2921 or e-mail McKeon@ccsu.edu or Dr. Kristine Larsen, co-director of the Honors Program, Department of Physics and Earth Sciences, Copernicus Hall, telephone 832-2938 or e-mail Larsenk@ccsu.edu.

Further information on the program is available at its Web site: http://honors.ccsu.edu.

Cooperative Programs
Also see School of Technology and School of Arts and Sciences sections.

Central-UConn Exchange Program
Under certain conditions, Central Connecticut State students may take courses at the University of Connecticut or its branches without paying additional fees. Only courses not offered at Central Connecticut State may be taken on this basis.

Admission to the courses will be on a space-available basis within pre-established class limits. To be eligible, Central Connecticut State students must have paid maximum tuition and fees for full-time study. University officials must approve the student's qualifications for taking the course in question.

Interested students may contact their academic dean for further information.

OnlineCSU
OnlineCSU is the virtual classroom of the Connecticut State University System (CSU) — Central, Eastern, Southern and Western. CSU strives to meet the academic and support needs of our learners. Responding to the emerging trends of learning-on-demand, CSU designed OnlineCSU to ensure that the education it has traditionally made available in the classroom can now be offered without regard to time, distance or circumstance.

Online learning, also known as distance education, takes place using computer technology and the Internet when the faculty and students are separated by distance, i.e., not in the same room. Within semester limits, OnlineCSU offers asynchronous learning, which means the instructor and the students need not be in the same room at the same time or on the computer at the same time. This means students may sign on at any time, 24 hours a day, seven days a week. Except where the faculty have set test dates, chat room sessions, etc., students do not need to sign on at the same time as other students or at the same time as the instructor.

OnlineCSU offers both graduate and undergraduate courses, and new courses are added every semester. CSU faculty, who design and teach the courses, are at the core of this distinctive learner-centered program. CSU campuses are fully accredited, and courses offered through OnlineCSU are approved for credit by the university offering the course. Credits earned online are eligible for credit towards a degree.

Full-time and part-time matriculated students (students who have formally applied and been admitted to a CSU university) who already have a faculty adviser should continue to consult with that adviser regarding online courses. Non-matriculated students do not need a faculty adviser to register for an online course.

For information on OnlineCSU courses, stop by the OnlineCSU site at www.OnlineCSU.ctstateu.edu.

Reserve Officers Training Corps (ROTC)
Army and Air Force ROTC programs are offered to Central Connecticut State University students at the University of Connecticut's main campus at Storrs. The introductory, one-credit Army ROTC courses are also held at Sacred Heart University in Fairfield.

Without paying extra tuition, Central Connecticut State University students may pursue commissions in the Active, Reserve or Guard forces of the Army and Air Force. The 100-level courses carry no military obligation and are open to all students. The 200-level courses require prerequisites and permission of the appropriate department head.

Scholarships are available which pay full tuition up to $17,000 a year, $250 tax free a month and $600 towards books. Additionally, each student in the 200-level courses receives the $250 a month tax free.

Interested students should contact the Army ROTC office at 860/486-6081 or Air Force ROTC office at 860/486-2224 or visit the Web site at www.armyrotc.uconn.edu.

Pre-Professional Programs

Pre-Law
Students intending to apply to law school should consult with one of the pre-law advisers early in their academic careers, and no later than the junior year.

Since law schools do not prescribe a particular academic program, students considering a career in law may select any undergraduate major. Information regarding academic planning and requirements for application to law school is available from the following pre-law advisers: Antonia Moran, Associate Professor of Political Science, and Francis Keefe, Director, Advising Center.

Pre-Health/Pre-Medical
A Pre-Health Professional Advisory Committee is available to students interested in preparing for careers in medicine, dentistry, veterinary medicine, optometry and related fields in the health sciences for which pre-professional training is required prior to admission to other institutions. The Pre-Health Professional Advisory Committee consists of faculty members from the School of Arts and Sciences.

Students interested in pre-health professional programs should consult Professor Peter Osei, Program Coordinator for the health professions, Department of Biological Sciences, Copernicus Hall 339 (832-2657). Additional information is available at http://www.prehealth.ccsu.edu.

AIR FORCE AEROSPACE STUDIES
Aerospace Studies I. Both semesters. One credit each semester. One class period and one two-hour leadership laboratory period.
A survey course designed to introduce students to the United States Air Force and Air Force Reserve Officer Training Corps. Featured topics include: mission and organization of the Air Force, officerhip and professionalism, military customs and courtesies, Air Force officer opportunities, group leadership problems and an introduction to communication skills.

Aerospace Studies II. Both semesters. One credit each semester. One class period and one two-hour leadership laboratory period.

A survey course designed to facilitate the transition from Air Force ROTC cadet to Air Force ROTC officer candidate. Featured topics include: Air Force heritage, Air Force leaders, Quality Air Force, an introduction to ethics and values, introduction to leadership, group leadership problems and continuing application of communication skills.

Aerospace Studies III. Both semesters. Three credits each semester. Three-hour class period and one two-hour leadership laboratory period. Prerequisite: Air Force Aerospace Studies I and II, or six weeks field training and consent of Professor of Aerospace Studies.

A study of leadership and quality management fundamentals, professional knowledge, leadership ethics and communication skills required of an Air Force officer. Case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied.

Aerospace Studies IV. Both semesters. Three credits each semester. Three-hour class period and one two-hour leadership laboratory period. Prerequisite: Air Force Aerospace Studies III.

Examines the national security process, regional studies, advanced leadership ethics and Air Force doctrine. Special topics of interest focus on the military as a profession, officership, military justice, civilian control of the military, preparation for active duty and current issues affecting military professionalism. Within this structure, continued emphasis is given to the refinement of communication skills.

AVIATION GROUND SCHOOL
AFR 201. Aviation Ground School. Both semesters. One credit each semester.

Designed for private pilot applicants and students interested in acquiring an understanding of the principles of flight. Provides the necessary aeronautical knowledge for students preparing for the Federal Aviation Administration written test for private pilot certification. Meets the requirements for pilot applicants who must present evidence showing completion of a course of study (required by Federal Aviation regulations). One two-hour class period per week for twelve weeks.

MILITARY SCIENCE

This introductory course focuses on the organization of the Army, values and ethical decision making, leadership doctrine and communication. There are also opportunities for experience in land navigation, physical fitness, field training exercises, and drill and ceremony. No military obligation.

MISI 132. General Military Science I-B. One credit. One class period.

This intermediate-level course focuses on operations orders, squad movement techniques, leadership doctrine, officer and NCO duties, risk assessment, and training the individual and the team. There are opportunities to participate in land navigation labs, physical fitness training, field training exercises, and drill and ceremony. No military obligation.

MISI 146. General Military Science II-B. One credit. One class period.

This intermediate-level course focuses on counseling and motivation techniques, leadership doctrine, squad tactics, resolving ethical dilemmas, land navigation, military customs and traditions, and briefing on military history. There are also opportunities for experience in land navigation, physical fitness, field training exercises, and drill and ceremony. No military obligation.

MISI 252. General Military Science III-A. Three credits. One three-hour class period, physical training sessions and leadership laboratory. One weekend field training exercise.

Leadership principles, techniques and the responsibilities of command. Military instruction techniques. Includes student class presentations. In all cases, permission of the Professor of Military Science is required.

MISI 253. General Military Science III-B. Three credits. One three-hour class period, physical training sessions and leadership laboratory. One weekend field training exercise.

Dynamics of small unit tactics and branches of the Army. In all cases, permission of the Professor of Military Science is required.

MISI 297. General Military Science IV-A. Three credits. One three-hour class period, physical training sessions and leadership laboratory. One weekend field training exercise.

Army staff organization, unit administration and management, logistics, military intelligence, leadership seminar, the international system and strategic doctrine. In all cases, permission of the Professor of Military Science is required.

MISI 298. General Military Science IV-B. Three credits. One three-hour class period, physical training sessions and leadership laboratory. One weekend field training exercise.

Military law, obligations and responsibilities of an officer, contemporary human problems and a staff ride. In all cases, permission of the Professor of Military Science is required.

Study Abroad Programs

Central Connecticut State University can place students to study for CCSU credit almost anywhere in the world through a variety of study abroad programs. International experiences may range from two weeks to one year in duration. CCSU offers two distinct types of programs — semester or academic year study abroad programs and courses abroad taught by our own faculty.

The study abroad immersion programs allow CCSU students to enroll to study at one of our international partner universities, often on an exchange basis. Exchange programs are arranged so students may pre-pay normal tuition, and in some cases housing costs, to CCSU while exchanging places with an international student. Full semester or academic year study abroad programs are currently available in the United Kingdom, Spain, France, Germany, Poland, Sweden, Ghana, Puerto Rico, Jamaica, Barbados, Japan, China, Korea, and the Turkish Republic of Northern Cyprus. Financial aid applies to all CCSU programs and scholarships are also offered on a competitive basis. With proper planning, all course work earned overseas will apply toward graduation requirements.

To plan a study abroad program, contact the Study Abroad Coordinator in the George R. Muirhead Center for International Education, Barnard Hall, Room 138 (832-2043). April 1 is the program application and scholarship deadline for all programs taking place in the upcoming academic year. Specific program information and the dates of regularly scheduled information sessions can also be found on the CIE Web site http://www.ccsu.edu/cie.

Students may also take an individual course taught abroad by a CCSU professor during the Winter or Summer Sessions. Students may choose from a dozen courses offered each year by faculty in a variety of disciplines and countries. Foreign language proficiency is generally not required. Registration for courses taught abroad in Summer or Winter Session takes place at the Enrollment Center/Office of Continuing Education, Willard Hall. Students must also declare their participation with the George R. Muirhead Center for International Education.
COURSES

Course Numbering
A summary of eligibility of students at the several levels:
001-099 Non-credit courses
100 Search course
101-199 Courses normally open to first-year students, and in general to all undergraduate students.
200-299 Courses normally open to sophomores, and in general to all undergraduate students.
300-399 Courses normally open to juniors, and in general to sophomores, juniors and seniors.
400-499 Courses normally open to seniors, and in general to juniors, seniors and graduate students. Additional work will be required for graduate credit.
500-599 Graduate courses; undergraduate students must have a 2.70 GPA and senior standing; also requires permission of adviser, chair of department offering the course, and permission of the Coordinator of Graduate Studies prior to registration. The necessary form is available in the Office of Registrar and in the School of Continuing Education.
600-699 Open to master’s and sixth-year candidates.

When Courses Are Available
The marking of courses as available in an odd year (O) or an even year (E) refers to the whole academic year. Thus, a course scheduled for (O), odd year, would be given in an odd-starting academic year, such as 1999–2000, that fall or the next spring. One marked (E), even year, would be available in an even-starting academic year, such as 2000–2001, that fall or the next spring. If unspecified, the course is offered both semesters.

Computer Usage
Courses with the letter [c] may have computer use activity in some or all sections and may require Central Connecticut State computer use certification.

International Courses
Courses with the letter [I] have been designated as fulfilling the international compo-

Literature Requirement for Study Area I
Courses with the letter [L] have been designated as fulfilling the literature component of the General Education literature requirements. See page 34.

General Education: Courses Under the Study and Skill Areas
The General Education program embraces four Study Areas and four Skill Areas. First-year students entering in Fall 1999 or later are subject to the following program. Credit requirements for each area are listed on page 34. Students entering prior to Fall 1999 should refer to page 91 for the previous General Education program.

The Study Areas are:
I. Arts and Humanities
II. Social Sciences
III. Behavioral Sciences
IV. Natural Sciences

The Skill Areas are:
I. Communication Skills
II. Mathematics
III. Foreign Language Proficiency
IV. University Requirement

STUDY AREA I
ART 100 Search in Art
ART 110 Introduction to Art History
ART 112 History of Western Art I
ART 113 History of Western Art II
ART 120 Design I
ART 124 Three-Dimensional Design
ART 130 Drawing I
ART 224 Illustration I
ART 230 Drawing II
ART 240 Printmaking I
ART 247 Photography I
ART 250 Watercolor Painting
ART 252 Painting I
ART 260 Ceramics I
ART 261 Sculpture I
ART 264 Design—Handicraft Materials and Techniques I
DES 126 Introduction to Graphic/Information Design
ENG 205 British Literature I [I] [L]
ENG 206 British Literature II [I] [L]
ENG 210 American Literature I [I] [L]
ENG 211 American Literature II [L]
ENG 212 African-American Literature [L]
ENG 215 Introduction to Women Writers [I] [L]
ENG 220 Shakespeare [I] [L]
ENG 250 Contemporary Literature [L]
ENG 260 Introduction to Poetry [L]
ENG 261 Introduction to Fiction [L]

General Education: Courses
Under the Modes
First-year students starting before Fall 1998 and all other students entering prior to Fall 1999 are subject to the eight Modes of Thought and four Areas General Education program. These students should consult prior catalogs.
AC 407  ADVANCED ACCOUNTING  3
Prereq.: AC 313. Partnership accounting, consignments and installation sales, parent and subsidiary accounting, consolidations and mergers, agencies, and branches.

AC 408  CONTEMPORARY ACCOUNTING PROBLEMS  3
Prereq.: AC 313 or permission of instructor. Advanced topics in contemporary accounting theory. Integrated review for students majoring in accounting.

AC 420  MANAGERIAL ANALYSIS & COST CONTROL  3

AC 430  ACCOUNTING FOR NON-PROFIT INSTITUTIONS  3
Prereq.: AC 212 and 311. Previously AC 330. Comprehensive survey of governmental and other non-profit institution accounting as it relates to budgeting, cost accounting and financial reporting. Statutory influences which direct and control operation funds, bonded debt, fixed assets, investments, revenue and expenditure classification, general property taxes, and inter-fund relationships are subjected to detailed study.

AC 440  ACCOUNTING INFORMATION SYSTEMS  3
Prereq.: AC 311 or permission of chair. The role of accounting in the analysis, design, and implementation of effective information systems is stressed. Methods of collecting accounting data and communicating these data to aid management's planning and control functions are examined. Developing of internal controls for organizational systems is emphasized. [c]

AC 445  AUDITING  3
Prereq.: AC 440. Duties and responsibilities of auditor, kinds of audits, review of accounting theory in its application to work of auditor, internal control and relationship to auditing procedures, auditing working papers, financial statements, and reports.

AC 455  INTERNAL AUDITING  3
Prereq.: AC 440. Duties and responsibilities of Internal Auditors within the management team of the organization are explored. Topics include the organization of the Internal Audit Department, staff qualification and development, and the elements of Internal Auditing.

AC 496  PRACTICUM IN ACCOUNTING  3
Prereq.: Permission of department chair. Students work on a real-world project under the direct supervision of a faculty adviser. Projects may be sponsored by a host organization. Student performance is monitored and evaluated in relation to conditions set forth in an approved Project Plan. May be repeated for a maximum of 6 credits. On demand.

AC 497  INDEPENDENT STUDY IN ACCOUNTING  3
Prereq.: Senior standing and permission of instructor. Research-oriented project in a special area of accounting. On demand.

ACTUARIAL SCIENCE

ACTL 335  THEORY OF INTEREST  3
Prereq.: MATH 221. Theory and applications of the theory of interest. Topics include simple and compound interest, installment buying, annuities certain, sinking funds, amortization, depreciation, bonds, and related securities. Spring. (E)

ACTL 465  ACTUARIAL MODELS I  3
Prereq.: STAT 315. Topics chosen from survival distributions and life tables, life insurance, life annuities, net premiums, premium reserves, multiple life functions, and multiple decrement models. Fall. (O)

ACTL 480  TOPICS IN ACTUARIAL SCIENCE  1 TO 3
Prereq.: Permission of instructor. Topics chosen from theory of interest, risk theory, demography, and graduation. Spring.

ACTL 481  REVIEW-SOA/CAS COURSE I  3
Review and extension of the principles of calculus and probability as related to the material on the SOA/CAS Course 1 exam. Spring.
ANTHROPOLOGY

ANTH 140  INTRODUCTION TO ANTHROPOLOGY  3
Major fields of anthropology, prehistory, and ethnology, with emphasis on the distinctive perspectives of anthropology as a cultural and human science. Cannot be used for credit toward the major in Anthropology. Mode 6/Study Area III

ANTH 150  INTRODUCTION TO ARCHAEOLOGY  3
Survey of methods used in the acquisition, analysis and interpretation of archaeological data and how those data are used in culture reconstruction. Mode 6/Study Area III

ANTH 151  LABORATORY IN INTRODUCTORY ARCHAEOLOGY  1
An introductory archaeology laboratory course to accompany, or follow, ANTH 150. During the semester four full days of field and/or lab work are required, ordinarily on weekends. Not open to students who have taken ANTH 450. Mode 6

ANTH 160  INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY  3
Introduction to the anthropological study of the human species. Course will cover humans as members of the primate order, human genetics, evolution and variation, stressing anthropological perspective of interaction of physical, environmental, and cultural factors. Mode 6/Study Area III

ANTH 170  INTRODUCTION TO CULTURAL ANTHROPOLOGY  3
Human ways of life and how to investigate them. Introduces basic skills and knowledge necessary for the description, analysis, and understanding of cultures. Mode 6/Study Area III

ANTH 200  DIMENSIONS OF DIVERSITY AND INEQUALITY  3
Cross-cultural examination of human diversity, focusing on class, race, gender, and ethnicity. Consideration of the ways that cultural differences figure in the development of social, political, and economic inequality. Mode 6/Study Area III

ANTH 210  THE ANCIENT WORLD  3
A scientific examination of the mysteries of the ancient world. Astronomical, mathematical, architectural, and medical achievements of prehistoric peoples are considered, as well as possible explanations for these, ranging from ancient astronauts to human ingenuity. Fall. Mode 6/Study Area III

ANTH 215  BEFORE HISTORY  3
The human past before the development of writing. Investigates the archaeology of the first four million years of human existence from our earliest upright ancestors to the evolution of complex civilization. Spring. Mode 6/Study Area III

ANTH 265  HUMAN EVOLUTION  3
Prereq.: ANTH 140 or 160 or permission of instructor. The story of the human species from the earliest primate to modern Homo sapiens. Includes basic genetics, evolutionary theory, and skills for studying the fossil record. Fall. Mode 6/Study Area IV

ANTH 300  CITY LIFE & CULTURE  3
Exploration of the historical and contemporary development of urban spaces in the United States and Hartford area. Development of diverse cultural identities through neighborhood, social and, religious institutions will be examined. Spring. (O) Mode 6

ANTH 316  ARCHAEOLOGY OF AFRICA  3
Explores prehistoric and early historic African life via analysis of archaeological records, oral and historical sources. Spring. (O) Mode 6

ANTH 318  NEW ENGLAND PREHISTORY  3
Prereq.: ANTH 140 or 150 or permission of instructor. An examination of the prehistoric New England through analysis of fragmentary remains of their villages, burial grounds, and trash deposits. Focus will be on sites excavated by the Anthropology Department at Central Connecticut State. Spring. (E) Mode 6

ANTH 320  AFRICAN DIASPORA ARCHAEOLOGY  3
Previously ANTH 220. Examination of early African-American life via analysis of archaeological remains. Consideration of issues such as diversity of populations, health and diet, and labor conditions. Spring. (E) Mode 6

ANTH 322  HISTORICAL ARCHAEOLOGY  3
An anthropological study of Euro-American cultural history, using documentary and artifact data to interpret changing cultural patterns in post-contact New England. Specialized techniques of document research, field excavation and artifact analysis in historical archaeology are studied. Fall. (O) Mode 6

ANTH 323  URBAN ARCHAEOLOGY  3
Cross-cultural examination of the archeology of urban life. Views the nature of urban centers and populations of the past and their relation to the social systems in which cities are located. Irregular. Mode 6

ANTH 324  ARCHAEOLOGY OF THE STATE  3
Discusses the forces leading to the emergence of the state in both the distant and more recent past. Focuses on prehistory and early history of the world's first complex civilizations. Irregular. Mode 6

ANTH 325  HUMAN ECOLOGY  3
Prereq.: 100 level anthropology course or permission of instructor. Explores the relationship between humans and their environments. How humans have changed the face of the earth and to what extent different environments have influenced human biological and cultural evolution. Spring. Mode 6

ANTH 329  EXPERIMENTAL ARCHAEOLOGY  3
Prereq.: ANTH 150 or permission of instructor. An investigation of the techniques used by archaeologists in the reconstruction of prehistoric technology. This course will include actual experiments in tool manufacture and use. Fall. Mode 6

ANTH 330  NORTH AMERICAN PREHISTORY  3
Surveys the pre-historic past of the North American continent. Begins with the archaeology of the earliest human settlement and continues until the period of European contact in the sixteenth and seventeenth centuries A.D. Fall. (O) Mode 6

ANTH 339  WORK AND CULTURE  3
A cross-cultural exploration of humanity as creator and tool user. The nature of work, innovation, invention, and the beliefs and values surrounding them in various cultures. Spring. (E) Mode 6

ANTH 345  LABORATORY IN BIOLOGICAL ANTHROPOLOGY  3
Methods, skills and techniques of biological anthropology. Includes exercises in genetics, human biological variation, pedigree analysis, adaptability, non-human primates, human skeletal anatomy and the analysis of skeletal remains for fossils and forensic studies. Fall. (O) Mode 6

ANTH 350  MEN AND WOMEN IN DIFFERENT CULTURES  3
Cross-cultural, historical overview of gender differences. Consideration of gender biases in social science research. Students will examine relations between men and women in different societies to better understand such relations in their own lives. Spring. Mode 6
ANTH 352 ETHNICITY AND ETHNIC IDENTITY 3
Examination of the processes by which ethnic groups and identities are created, maintained, or modified. Comparison of ethnic sub-cultures focusing on Connecticut groups. Spring. (E) Mode 6

ANTH 365 THE ANTHROPOLOGY OF HUMAN DIFFERENCES 3
Prereq.: 100 level Anthropology course or permission of instructor. The biological and cultural processes which have brought about the individual, sexual, and "racial" variation of the human species. Spring. Mode 6

ANTH 370 APPLYING ANTHROPOLOGY 3
Views methods and techniques to apply anthropological knowledge for practical results. Examines role of anthropology in medicine, education, social service, and the development and implementation of public policy in the U.S. and cross-culturally. Fall. Mode 6

ANTH 374 FIELD RESEARCH METHODS 3
Examines field research methods with focus on qualitative techniques such as participant-observation, applied and action research, and ethnographic interviewing. Quantitative techniques include time budget analysis and single subject design. Spring. Mode 6

ANTH 375 ANTHROPOLOGICAL DATA ANALYSIS 3
Prereq.: STAT 104 or equivalent. Investigation of techniques in numerical analysis of anthropological data. Covers statistical methods of correlation, spatial analysis, and factor analysis. Focuses on the application of various statistical methods to actual anthropological data. Spring. Anthropology majors only.

ANTH 400 THE INDIVIDUAL IN CULTURE 3
Study of differences across cultures in individual thoughts, emotions, motivations, and identities. Consideration of how culture shapes individual mentalities. Examination of research and theories about such questions in the context of contemporary anthropology. Spring. (O)

ANTH 422 NATIVE AMERICANS 3
Native American cultures, their distinct life ways and contemporary problems. Fall. Mode 6 [I]

ANTH 424 PEOPLES AND CULTURES OF AFRICA 3
Samples the diversity of African peoples, their cultures and related social relations. Primary focus on colonial and contemporary life, African liberation movements, and the influence of global political economy on life in modern Africa. Fall. (E) Mode 6 [I]

ANTH 426 PEOPLE AND CULTURES OF EASTERN EUROPE 3
A survey of culture in the nations of Eastern Europe concentrating on their contemporary aspects. Spring. (E) Mode 6 [I]

ANTH 428 CULTURES OF LATIN AMERICA 3
Prereq.: ANTH 140 or ANTH 170 or SOC 110. Introduction to modern and tribal societies in Latin America. Objectives include tracing the historical roots of social and economic relations in Latin America today, and the diverse responses Latin Americans have made and are making to rapid social change. Fall. Mode 6 [I]

ANTH 430 THEORIES OF CULTURE 3
Prereq.: ANTH 140 or 170 or permission of instructor. A historical survey of major schools of thought in socio-cultural anthropology. Includes critical analysis of Evolutionist, Historicist, Functionalist, Structuralist, Interpretive, and Marxist explanations with focus on post-1960s period. Fall. Mode 6

ANTH 433 INDEPENDENT STUDY IN ANTHROPOLOGY 3
Prereq.: Senior standing and permission of department chair. Directed study in Anthropology. On demand.

ANTH 437 INTERNSHIP IN ANTHROPOLOGY 3
Prereq.: Permission of instructor and written acceptance of sponsoring organization. Anthropologically relevant work experience in an appropriate local, national, or international venue. Includes consultation with faculty, analysis of related resources, and preparation of final report. On demand.

ANTH 440 THE SUPER natural 3
A study of the beliefs in gods and spirits, visions, rites relating to beings and powers of other realms, and the effects of religion, magic, and witchcraft on human lives. Contrasts diverse forms of spirituality with varieties of naturalistic, materialistic, and atheistic perspectives. Fall. Mode 6

ANTH 445 FOLKLORE AND MYTH 3
The characteristics, meanings, and functions of myths, legends, heroic epics, fairy tales, animal fables, proverbs, riddles, toasts, jokes, and graffiti. From the folklorist and anthropological perspectives. Spring. (O) Mode 6

ANTH 450 ARCHAEOLOGICAL FIELD SCHOOL 3 TO 6
Provides instruction in survey techniques, mapping, scientific excavation, photographic and laboratory skills and analysis. Field schools are operated in both historical and prehistorical archaeology. Enrollment is limited. Send letter of application to department. May be repeated. Summer. Mode 6

ANTH 451 FIELD SCHOOL IN CULTURAL ANTHROPOLOGY 3 TO 6
Prereq.: Permission of instructor. Development of qualitative research skills central to cultural anthropology through language study, home stays, seminars, speakers, and excursions. Normally involves travel outside the United States. Irregular. Mode 6 [I]

ANTH 456 THEORIES OF HUMAN EVOLUTION & BEHAVIOR 3
Prereq.: ANTH 140 or 160 or permission of instructor. Examination of major schools of thought in biological evolution, with special emphasis on their application to human behavior, from the pre-Darwinian period to sociobiology. Spring. (E) Mode 6

ANTH 470 ANTHROPOLOGY AND MODERN WORLD ISSUES 3
Prereq.: ANTH 140 or SOC 110 or 111, or permission of instructor. Anthropological approaches to understanding and addressing contemporary world problems, such as ecological degradation, population, underdevelopment, war and diplomacy, and cultural extinction. Fall. (E) Mode 6

ANTH 475 TOPICS IN ANTHROPOLOGY 3
Examination of selected topics in Anthropology. Irregular.

ANTH 490 SENIOR THESIS 3
Semester-long supervised research and thesis preparation, including in-class discussion and oral presentation. Fall.

ART

ART 100 SEARCH IN ART 3
Introduction to nature and structure, processes and implications of selected topics in fine and applied arts. Titles and contents may vary from section to section. Mode 4/Study Area I

ART 110 INTRODUCTION TO ART HISTORY 3
General survey of historical development of visual arts in Western architecture, painting, and sculpture. Credit not given to students who have taken ART 112 or ART 113. Mode 4/Study Area I

ART 112 HISTORY OF WESTERN ART I 3
A survey of paintings, sculpture, and architecture from prehistoric times to the Renaissance. Study Area I

ART 113 HISTORY OF WESTERN ART II 3
Prereq.: ART 112. Continuation of ART 112. A survey of paintings, sculpture, and architecture from the Renaissance to the present. Study Area I

ART 120 DESIGN I 3
Exploration of spatial division, color, aesthetic theories, and their relationships to typical design problems in two dimensions. Mode 4/Study Area I

ART 124 THREE-DIMENSIONAL DESIGN 3
Introduction to design elements of architecture, environment design, sculpture, etc. Construction of three-dimensional assemblages required. Mode 4/Study Area I

**ART 224 ILLUSTRATION I**

An investigation of the components of drawing: line quality, volume, value, space, and composition. Exercises are designed to strengthen the student's ability to see, while developing hand to eye coordination. Mode 4/Study Area I

**ART 210 GREEK ART**

Prereq.: ART 110 or 112. Previously ART 410. Historical development of painting, sculpture and architecture from the Bronze Age through the Golden Age of Greece to the end of the Hellenistic Era. Spring. Mode 4 [I]

**ART 215 THE AFRICAN DIASPORA**

Prereq.: ART 110 or 112 or 113. Previously ART415. Introduction to the fine arts contributions of African-American artists as expressed through their culture. Focus is on individual research and presentations on historical and contemporary topics. Fall.

**ART 218 RENAISSANCE ART**

Prereq.: ART 110 or 112 or 113. Previously ART 418. Historical development of European painting, sculpture, and architecture from 1400 to 1600. Spring. Mode 4 [I]

**ART 224 ILLUSTRATION I**

Prereq.: ART130 or DES 322. Introduction of a variety of illustration techniques and procedures. Emphasis upon the selection and application of illustration techniques suitable for translating written or suggested material into visual form. Study Area I

**ART 230 DRAWING II**

Prereq.: ART130. An in-depth study in drawing techniques as applied to individual expression. Mode 4/Study Area I

**ART 240 PRINTMAKING**

Prereq.: ART 120 or ART 130. Introduction to the technical processes and the aesthetic possibilities of lithography, intaglio and silkscreen. Fall. Mode 4/Study Area I

**ART 247 PHOTOGRAPHY I**

Previously ART 447. Introductory course in black-and-white photography using a 35 mm camera. Includes contact printing, printmaking and enlarging, developing of film, and laboratory techniques. Photography as an art form of aesthetic choices is emphasized. Camera required. Fall. Study Area I

**ART 250 WATERCOLOR PAINTING**

Prereq.: ART120 and 130. Styles and techniques of painting in transparent and opaque watercolors, with emphasis on individual creative expression. Mode 4/Study Area I

**ART 252 PAINTING I**

Prereq.: ART130. Exploration of techniques of painting in still life, landscape, and creative composition. Mode 4/Study Area I

**ART 260 CERAMICS I**

Functional and non-functional design in clay and glaze using various techniques. Mode 4/Study Area I

**ART 261 SCULPTURE I**

Prereq.: ART 124. Introduction to creative sculpture: modeling, carving, constructing, and assembling. Clay, firebrick, mass-produced objects, and plaster will be used to develop figurative, abstract, and non-objective sculpture. Mode 4/Study Area I

**ART 263 CRAFTS I**

Creative structuring of materials and ideas into art forms through the use of tools and processes. Open to majors only.

**ART 264 DESIGN-HANDICRAFT MATERIALS AND TECHNIQUES I**

Prereq.: ART120 or 130. Varied handcrafts and materials are included. May not be substituted for Art 263. Mode 4/Study Area I

**ART 270 MURAL PAINTING**

Prereq.: ART 252 or permission of instructor. Introductory studio course of mural painting techniques - students develop, organize and execute group and individual public works. Includes study of the history of public art and contemporary trends in mural painting.
COURSE DESCRIPTIONS

ART 361  SCULPTURE II  3
Prereq.: ART 261. A successful portfolio review is required before enrollment. Continuation of Sculpture I.

ART 362  SCULPTURE III  3
Prereq.: ART 361. A successful portfolio review is required before enrollment. Further refinement of a particular sculpture theme via materials and techniques.

ART 366  HANDWROUGHT JEWELRY  3
Prereq.: ART 120 or 130. A successful portfolio review is required before enrollment. The basic principles of handwrought jewelry construction will be explored with emphasis on use of materials, tools, and processes as they may be utilized in a simple studio setup.

ART 400  ART EDUCATION THEORY AND PRACTICE II  3
Prereq.: ART 303 or permission of instructor. Previously ART 300. Contemporary theory and methods for art teachers of children in secondary grades. Comprehensive curriculum planning, materials and processes, and evaluation of teaching methods. Field experience required. Open to Art Education majors only. [c]

ART 401  STUDENT TEACHING SEMINAR - ART  1
Prereq.: ART 400. Taken concurrently with EDSC 428 and 429. Eight-week seminar series addressing issues related to student teaching placements including classroom management, curriculum planning, organizational skills, and professional collaboration within the school and community. Open to Art Education majors only.

ART 402  PRACTICUM IN ART EDUCATION II  1
Prereq.: ART 401 must be taken concurrently with or after completion of ART 401, EDSC 428, 429. Supervisory, mentoring, evaluatory experience in addition to exhibition installation for the CCSU Children's Art Workshop. Art Education majors only. [c]

ART 403  ART EDUCATION AND TECHNOLOGY  3
Prereq.: Permission of instructor. A successful portfolio review is required before enrollment. Development of basic skills in the use and application of audiovisual equipment, video, computers, and other related technologies for integration into the art classroom as teaching tools and tools used to communicate, create, and exhibit art. [c]

ART 408  THE ART OF GREECE IN THE BRONZE AGE  3
Prereq.: ART 110 or 112 or 113. Introduction to the art of Greece in the Bronze Age. The artistic and cultural development of mainland Greece, Crete, the Aegean Islands, and Western Asia Minor from the Paleolithic to the end of the Bronze Age. Emphasis on the art of flourishing Minoan and Mycenaean civilizations. Mode 4

ART 409  STUDIES IN ART HISTORY  3
Prereq.: ART 110 or 112 or 113. Selected topics in the history of art, announced each semester. Students may not take this course under the same topic more than once. Mode 4

ART 411  ROMAN ART  3
Prereq.: ART 110 or 112. Historical development of painting, sculpture, and architecture from Romulus to Constantine. Spring. Mode 4

ART 412  ORIENTAL ART  3
Historical development of visual arts of Far Eastern societies: architecture, painting, sculpture and minor arts of China, India, Japan, and Korea. Irregular. Mode 4 [I]

ART 414  AMERICAN ART  3
Prereq.: ART 110 or 112 or 113. Historical development of painting, sculpture and architecture in America from the 17th century to the present. Mode 4

ART 416  MODERN ART  3
Prereq.: ART 110 or 112 or 113. Historical development of painting, sculpture, and architecture from the late 19th century to the present. Mode 4 [I]

ART 420  ISSUES IN CONTEMPORARY AMERICAN ART  3
Prereq.: ART 110 or 112 or 113. American art post-World War II to the present with emphasis on topics such as post modernism, public sculpture, feminist art, multiculturalism and contemporary art criticism. Includes visits to Hartford and New York galleries. (O) Mode 4

ART 424  ILLUSTRATION III  3
Prereq.: ART 324. A successful portfolio review is required before enrollment. Topics in the development of individual media techniques.

ART 430  COLOR DRAWING  3
Prereq.: ART 230 or 250 or 431. A successful portfolio review is required before enrollment. Advanced course in drawing using a painterly approach. Strengthening of individual direction through an exploration of space, composition, color, and surface in a variety of color drawing mediums. Fall.

ART 431  LIFE DRAWING I  3
Prereq.: ART 130 or 435. A successful portfolio review is required before enrollment. Structural approach to drawing the nude and clothed model with focus on gesture, proportion, and the figure in the environment. Open to majors only.

ART 432  LIFE DRAWING II  3
Prereq.: ART 431 or permission of instructor. A successful portfolio review is required before enrollment. Continuation of ART 431. Open to majors only.

ART 435  ADVANCED DRAWING  3
Prereq.: Permission of instructor. A successful portfolio review is required before enrollment. Emphasis on development of expressive use of line and value. Various materials used including ink, pencil, conte crayon, chalk, wire, charcoal, and others.

ART 441  INTAGLIO II  3
Prereq.: ART 341, graduate standing or permission of instructor. A successful portfolio review is required before enrollment. Continuation of Intaglio I. Spring.

ART 443  SILKSCREEN II  3
Prereq.: ART 343, graduate standing or permission of instructor. A successful portfolio review is required before enrollment. Continuation of SilkSCREEN I. Fall.

ART 448  VIDEO ART II  3
Prereq.: ART 348. A successful portfolio review is required before enrollment. Digital manipulation of video as a studio medium in terms of its potential for subjective expression. Creation of video art projects and examination of the aesthetics and history of the medium. Spring. [c]

ART 449  MEDIA ARTS II  3
Prereq.: ART 349. A successful portfolio review is required before enrollment. Multimedia fine arts topics selected by faculty and students to reflect their artistic preoccupation, or to provide research in particular skills, subjects, or trends in media arts. Examination of the aesthetics and history of multimedia. Spring. [c]

ART 450  ADVANCED WATERCOLOR PAINTING AND RELATED MEDIA  3
Prereq.: ART 250 or permission of instructor. A successful portfolio review is required before enrollment. This course will explore the various watercolor processes and the effects unique to each, i.e., tempera, aquarelle, water acrylics, and colored inks. Historical and contemporary examples of watercolor techniques will be discussed.

ART 460  CERAMICS III  3
Prereq.: ART 360. A successful portfolio review is required before enrollment. Advanced clay and glaze techniques.

ART 464  DESIGN-HANDCRAFT MATERIALS AND TECHNIQUES II  3
Prereq.: ART 264 or 435. Continuation and extension of ART 264. A successful portfolio review is required before enrollment. Varied handcrafts, materials, and processes are explored as modes of artistic expression.
COURSE DESCRIPTIONS

ART 465  STUDIO TOPICS  3  
Prereq.: To be stipulated at time of course offering. A successful portfolio review is required before enrollment. Selected topics in studio art, announced each semester. Students may not take this course for credit under the same topic more than once.

ART 466  JEWELRY-DESIGN  3  
Prereq.: ART 120 or 366 or 435. A successful portfolio review is required before enrollment. Course exploring possibilities of materials and equipment in jewelry and metal work, with emphasis on design. Mode 3

ART 468  CERAMICS IV  3  
Prereq.: ART 460. A successful portfolio review is required before enrollment. Thesis-clay and glaze design used to express a statement in form.

ART 490  CURATORSHIP  3  
Theory and practice in collection management, gallery and museum programming, and exhibition design. On demand.

ART 491  AESTHETIC AND CRITICAL DIALOGUE ABOUT ART  3  
Prereq.: ART 112, and 113; or permission of instructor. Investigation of art criticism and aesthetics though readings and critical discussions of art. Introduction to aesthetic and art criticism theories and issues will be explored. On demand.

ART 494  LOCATION STUDIES - ART  3  OR 6  
Direct contact with cultural resources internationally. Consideration of principles common to all arts and those unique to art and architecture. Field trips to exhibits, private collections, artist's ateliers, opera, and museums. Preparatory reading, discussion, critical analysis and concluding projects. Summer. Mode 4 [I]

ART 498  INDEPENDENT STUDY  3  
Formal application to Art Department chair following procedure approved by the Art Department faculty. Individually planned program of independent study in Art or Art Education for students who wish to pursue specialized areas not covered in regular course offerings or go beyond that provided for in the program. Must be requested three weeks before new semester.

ART 499  CAPSTONE IN ART  3  
Prereq.: Permission of adviser. A successful portfolio review is required before enrollment. Intensive exploration of the student's individual artistic direction. Emphasis on either the development of a professional-level portfolio or research project in art. On demand.

BIOLOGY

BIO 100  SEARCH IN BIOLOGY  3  
Examination of various topics, contemporary issues, and problems in biological sciences. Some sections may include two lectures and one two-hour laboratory per week. No credit given toward biology majors or minors. Irregular. Mode 8/Study Area IV

BIO 107  PLANTS AND CIVILIZATION  3  
How and when agriculture originated, when and where our most important crops became domesticated, need for conservation of germ plasm of wild relatives of crops, medicinal plants, economics, and social importance of plants. No credit given toward biology majors or minors. Spring. (O) Mode 8/Study Area IV

BIO 111  INTRODUCTORY BIOLOGY  3  
Humans and the biological world, with emphasis on structure and function of the human organism, including topics on disease, heredity and evolution. BIO 121 or 122 may be substituted for this course. Cannot be used to meet requirements for major or minor in biology. Three lectures per week. Mode 8/Study Area IV

BIO 112  INTRODUCTORY BIOLOGY LABORATORY  1  
Prereq.: BIO 111, which may be taken concurrently. Laboratory course to accompany BIO 111. Cannot be used to meet requirements for major or minor in biology. One three-hour laboratory per week. Mode 8/Study Area IV

BIO 113  LABORATORY EXPERIENCE IN BIOLOGY  1  
Prereq.: BIO 100 or 107 or 111 (may be taken concurrently), or permission of department chair. Laboratory experiences in biology, with a strong emphasis on hypothesis development, experimentation, data analysis, and written reports. One two-hour laboratory per week. Study Area IV [c]

BIO 120  PLANTS OF CONNECTICUT  3  
From sea lettuce to mountain laurel-introduction to the plants of Connecticut. Naturalistic approach dealing with common names and practical information. Field walks and plant collections required. Two lectures and one three-hour laboratory per week. Not open to Biology majors. Summer. Mode 8/Study Area IV

BIO 121  GENERAL BIOLOGY I  4  
Structural and physiological organization of cells involved in growth and inheritance of living organisms is discussed. Consideration of growth of flowering plants and comparisons of levels of specialization reached among major groups within the plant kingdom. Lecture topics are paralleled in laboratory, where living, prepared and preserved materials are used for study and dissection. Three lectures and one three-hour laboratory per week. Required for major, minor or specialization in biology, but open to anyone interested in the subject. [c] Mode 8/Study Area IV

BIO 122  GENERAL BIOLOGY II  4  
Prereq.: BIO 121. Consideration of major animal groups, emphasizing diversity of animal life and its wide distribution. Vertebrate type is used to illustrate differentiation, division of labor, and development of organ systems, stressing integration to make unified whole. Embryology, evolution, and ecology. In laboratory, living, pre­pared, and preserved materials are used for study and dissection. Three lectures and one three-hour laboratory per week. [c] Mode 8/Study Area IV

BIO 132  INTRODUCTORY ECOLOGY  3  
Introductory biology lecture course which examines the inter-relationships of plants, animals, and their environment. The biological aspects of man's place in the environment will be stressed. Three lectures per week. Cannot be used to meet requirements for major in Biology. Mode 8/Study Area IV

BIO 133  LABORATORY IN INTRODUCTORY ECOLOGY  1  
Introductory biology laboratory course in field ecology to accompany, or follow, BIO 132. One three-hour laboratory or field trip per week. Cannot be used to meet requirements for major in Biology. Mode 8/Study Area IV

BIO 150  LONG ISLAND SOUND - INTRODUCTORY ECOLOGY  4  
An introduction to the physical, chemical, geological, and biological characteristics of estuaries. Using Long Island Sound as a model, Laboratories and field trips will emphasize identifying common coastal organisms and understanding their roles in estuarine ecosystems. Lectures, laboratories, and field trips. Summer. Mode 8/Study Area IV

BIO 201  PRINCIPLES OF CELL AND MOLECULAR BIOLOGY  4  
Prereq.: BIO 122. Introduction to the major principles of cell biology including cell compartmentalization; flow of genetic information; protein structure, synthesis, and trafficking; signal transduction; and molecular responses resulting in changes in cell activity, cell division, or apoptosis. Three hours of lecture and one three-hour laboratory per week. [c]

BIO 202  PRINCIPLES OF ECOLOGY AND EVOLUTION  4  
Prereq.: BIO 122. Study of how organisms interact with each other and their physical environment, integrated with study of changes within species, speciation, and the relatedness of organisms. Life history, population biology, community ecology, population genetics, and systematics are included. Laboratories, many of which are field-oriented, will include gathering, analyzing, and interpreting data. Three hours of lecture and one three-hour laboratory per week. [c]

BIO 211  CONCEPTS IN BIOLOGY  3  
Introduction to cellular, genetic, evolutionary, and ecological principles with laboratory emphasis on application of basic concepts. Two lectures and one two-hour laboratory per week. [c] Mode 8/Study Area IV
BIO 223 INFORMATION TECHNOLOGY SKILLS FOR THE BIOSCIENCES 3
Prereq.: BIO 121 and MATH 124 or MATH 125. Introduction to current computer-based methods for data acquisition, analysis, synthesis and presentation. Preparation of a student-generated scientific report will serve as a model to learn information technology skills. Spring. Skill Area II. [c]

BIO 306 GENETICS 4
Prereq.: BIO 201 or permission of the department chair, and CHEM 121. Historical development of basic principles and modern concepts of genetics. Integrated survey of each of the major fields of genetics is presented. Three lectures and one three-hour laboratory per week. [c]

BIO 311 CELL BIOLOGY 4
Prereq.: BIO 201 or permission of the department chair, and CHEM 121. Cellular structure and function in terms of chemical composition, physicochemical, and functional organization of cells and organelles, including basic cellular metabolism. Membrane transport phenomena, excitation, contraction, trafficking, cell interactions, and other specialized cellular functions. Three hours of lecture and one three-hour laboratory per week. No credit given to students with previous credit for BIO 411. Irregular. [c]

BIO 316 MICROBIOLOGY 4
Prereq.: BIO 201 or permission of the department chair, and CHEM 121. Genetics and metabolism of bacteria, focusing on microorganisms that affect human health and the environment. Discussion areas include biochemistry, molecular genetics, immunology, biotechnology, infectious diseases, and environmental microbiology. Laboratory exercises deal with bacterial growth and control, diagnostic identification, bacterial genetics, and the roles of bacteria in humans and the world. Three hours of lecture and one three-hour laboratory per week. [c]

BIO 318 ANATOMY AND PHYSIOLOGY I 4
Prereq.: BIO 201 or permission of the department chair. Human gross morphology, histology, and physiology of the skeletal, integument, muscular, nervous, and respiratory systems, including effects of aging. Three hours of lecture and one three-hour laboratory per week. Fall. [c]

BIO 319 ANATOMY AND PHYSIOLOGY II 4
Prereq.: BIO 201 or permission of the department chair. Human gross morphology, histology, and physiology of the endocrine, cardiovascular, lymphatic, renal, digestive, and reproductive systems. Nutrition, metabolism, fetal development and aging will also be covered. Three hours of lecture and one three-hour laboratory per week. Spring. [c]

BIO 321 INVERTEBRATE ZOOLOGY 4
Prereq.: BIO 202 or permission of the department chair. Structure, activities, life histories, and evolutionary relationships of invertebrate phyla. Three lectures and one three-hour laboratory per week. No credit given to those with credit for BIO 221. Irregular. [c]

BIO 322 VERTEBRATE ZOOLOGY 4
Prereq.: BIO 202 or permission of the department chair. Vertebrate classification and life histories of representative forms. Laboratory work will emphasize identification of North American species. Three lectures and one three-hour laboratory per week. No credit given to those with credit for BIO 222. Irregular. [c]

BIO 326 NON-VASCULAR PLANTS AND FUNGI 4
Prereq.: BIO 202 or permission of the department chair. Life histories, reproductive strategies. Evolutionary relationships and significance to humans are considered for algae, fungi, slime molds, lichens, liverworts and mosses. Some field trips to local sites will be included in laboratories. Three hours of lecture and three hours of laboratory per week. No credit given to those with credit for BIO 226. Irregular. [c]

BIO 327 VASCULAR PLANTS 4
Prereq.: BIO 202 or permission of the department chair. Phyletogenetic relationships, life cycles, distribution and economic significance of vascular plants. Emphasis is placed on the seed plants. Three lectures and one three-hour laboratory per week. No credit given to those with credit for BIO 227. Irregular. [c]

BIO 390 SPECIAL PROBLEMS IN BIOLOGY 1
Prereq.: Written permission of instructor and department chair. Specific projects in various aspects of biology under the supervision of one or more department members. Written report or poster presentation, and portfolio review required. Course may be repeated with a different instructor for a maximum of two credits. On demand. [c]

BIO 391 INTERNSHIP IN BIOLOGY 1 TO 3
Prereq.: Written permission of instructor and department chair. Projects in Biology under the supervision of one or more department members. Projects generally involve work with associated organizations off campus. Written report or poster presentation, and portfolio review required. On demand. [c]

BIO 401 HUMAN NUTRITION AND METABOLISM 3
Prereq.: BIO 201 and 202, or permission of department chair: CHEM 122. Biochemical and physiological processes that affect the nourishment of humans, including newborns and the aging. Interactions among nutrients, the environment and the body resulting in perturbations affecting human health are considered. Spring. [c]

BIO 405 ECOLOGY 4
Prereq.: BIO 201 and 202, or permission of department chair. Distribution and abundance of different types of organisms and the physical, chemical, and biological features and interactions that determine survival, growth, and reproduction in changing environments. Ecological theory and quantitative analyses included in lecture and laboratory. Three hours of lecture and one three-hour laboratory per week. Fall. [c]

BIO 410 ECOLOGICAL PHYSIOLOGY 4
Prereq.: BIO 201 and 202, or permission of department chair: CHEM 250 or 311. Animal physiology in which the diversity of physiological adaptations for various habitats is stressed. Three hours of lecture and one three-hour laboratory per week. Fall. (E) [c]

BIO 412 HUMAN PHYSIOLOGY 3
Prereq.: BIO 201 and 202, or permission of department chair: CHEM 250 or 311. Study of the human body and its reactions to internal and external environmental changes. Physiology of the musculoskeletal, nervous, circulatory, respiratory, excretory and endocrine systems is considered. Integrative mechanisms of the system are emphasized. Spring. [c]

BIO 413 HUMAN PHYSIOLOGY LABORATORY 1
Prereq. or coreq.: BIO 412. Laboratory course to accompany BIO 412. One three-hour laboratory per week. Spring.

BIO 416 IMMUNOLOGY 3
Prereq.: BIO 201 and 202, or permission of department chair. Introduction to the structure of the immune system. The immunoglobulins, antigen-antibody interactions, infection immunity, lymphocytes, histocompatibility and genetic regulations. Spring. [c]

BIO 417 IMMUNOLOGY LABORATORY 1
Prereq. or coreq.: BIO 416. Introduction to the anatomy and histology of the immune system and an introduction to some immunological and immunodiagnostic laboratory techniques involving the principles of precipitation, agglutination and immunoelectrophoresis. One-hour laboratory per week. Spring.

BIO 420 ORNITHOLOGY 4
Prereq.: BIO 201 and 202, or permission of department chair. Life histories, physical and physiological adaptations. Evolution, ecology, and behavior of birds. Laboratories will include field identification and other behavioral and ecological research techniques. Three hours of lecture and one three-hour field or laboratory period per week. Spring. (E) [c]

BIO 425 AQUATIC PLANT BIOLOGY 4
Prereq.: BIO 201 and 202, or permission of department chair. Ecology and classification of macroalgae, macroalgae and vascular plants from marine, estuarine, and freshwater environments. Laboratories and field trips include collection and identification of plants from Connecticut aquatic habitats. Three hours of lecture and one three-hour laboratory per week. Some Saturday field trips required. Fall. (E) [c]
COURSE DESCRIPTIONS

BIO 434 ECOLOGY OF INLAND WATERS AND ESTUARIES 4
Prereq.: BIO 201 and 202, or permission of department chair; CHEM 122. A comparison of freshwater and estuarine environments, with emphasis on physical and chemical parameters influencing the distribution of aquatic organisms, nutrient cycling, and factors affecting aquatic productivity. Three hours of lecture and one three-hour laboratory per week. Some Saturday field trips required. Fall. (O) [c]

BIO 436 ENVIRONMENTAL RESOURCES AND MANAGEMENT 3
Prereq.: BIO 201 and 202, or permission of department chair; CHEM 122. Analysis of the interactions of human population-resource depletion-pollution at local to global scales from an environmental management/protection perspective. Emphasis upon better understanding the impacts of over-population and methods for control, significance and loss of biodiversity, aquatic pollution, and global climate change. Spring. (E) [c]

BIO 438 AQUATIC POLLUTION 4
Prereq.: BIO 201 and 202, or permission of department chair; CHEM 122. Study of the various types of aquatic pollutants, their sources and control/treatment, and the effects of water pollution upon aquatic ecosystems, as well as Federal and State water pollution regulatory programs. Laboratory will include field collection of water samples and measurement of indicators of water quality. Three hours of lecture and one three-hour laboratory per week. Spring. (O) [c]

BIO 440 EVOLUTION 3
Prereq.: BIO 201 and 202, or permission of department chair. Mechanisms of inter-generational change including mutation, selection, and drift; sexual selection; speciation; and extinction. Irregular. [c]

BIO 444 PLANT TAXONOMY 3
Prereq.: BIO 201 and 202, or permission of department chair. Scientific approach to identification and classification of locally occurring plants using taxonomic keys. Includes ferns, fern allies, conifers and flowering plants, with emphasis on the latter. Field walks and plant collections required. Two hours of lecture and one three-hour laboratory per week. Irregular. [c]

BIO 449 PLANT PHYSIOLOGY 3
Prereq.: BIO 201 and 202, or permission of department chair. Basic principles of plant function. Emphasis on the soil-plant-air continuum, phloem transport, photosynthesis and mechanisms of plant responses to the environment. Irregular. [c]

BIO 450 INVESTIGATIONS IN PLANT PHYSIOLOGY 1
Prereq. or coreq.: BIO 449 or permission of instructor. Investigative laboratory in plant physiology. Topics include water potential, transpiration, mineral nutrition, phloem transport, photosynthesis and respiratory gas exchange, photosynthetic electron transfer, plant movements, and plant hormones. One three-hour lab per week. Irregular. [c]

BIO 451 ADVANCED STUDIES IN BIOLOGY 1 TO 3
Prereq.: BIO 390, written permission of instructor and department chair. Advanced projects in biology under the supervision of one or more department members. It is expected that this research will be a continuation of, or closely related to research begun in BIO 390. Written report or poster presentation, and portfolio review required. May be repeated for a maximum of five credits. On demand. [c]

BIO 457 CAPSTONE IN MOLECULAR BIOLOGY 4
Prereq.: BIO 202 and 306 or permission of the department chair. For advanced undergraduates. Introduction to the structure and function of DNA. Emphasis on approaches currently being used to analyze the expression of genes. Examination of regulated gene expression and its relationship to cellular growth and differentiation. Three hours of lecture and one three-hour laboratory per week. Irregular. [c]

BIO 474 COMPARATIVE VERTEBRATE ANATOMY 4
Prereq.: BIO 201 and 202, or permission of department chair. Comparative anatomy and functional morphology of representative organ systems of vertebrates. Laboratories include dissection and study of preserved material of representative vertebrates. Two hours of lecture and two three-hour laboratories per week. Irregular. [c]

BIO 481 TOPICS IN BIOLOGY 3 TO 4
Prereq.: BIO 201 and 202, or permission of department chair; junior status required. For advanced undergraduates. Selected studies in the biological sciences. Lectures, seminars, discussions, independent readings, reports, and laboratory work appropriate for the topic will be utilized. Four credit hour offerings will include one three-hour laboratory per week. May be repeated with different topics. Irregular. [c]

CHEM 102 CHEMISTRY OF NUTRITION 3
An introduction to nutrition, the basic nutrients, their chemistry, and their role in health. Two lectures and one two-hour laboratory period per week. Fall. Mode B/Study Area IV
COURSE DESCRIPTIONS

CHEM 111 INTRODUCTORY CHEMISTRY
Introduction to fundamental concepts of chemistry; descriptive aspects of inorganic and organic chemistry. For Art, Technological, Elementary, and other non-science majors. Two lectures and one two-hour laboratory period per week. Mode 8/Study Area IV

CHEM 121 GENERAL CHEMISTRY I
Prereq.: CHEM 101 or math placement test. Emphasizes relationships of basic chemical principles and theories to properties of substances, their reactivity and uses. Contributions to the quality of life are introduced. Intended for science and engineering students. Three lectures of one three-hour laboratory per week. Mode 8/Study Area IV [c]

CHEM 122 GENERAL CHEMISTRY II
Prereq.: CHEM 121. Course places a greater emphasis on quantitative aspects. Three hours of lecture, one three-hour laboratory per week. Mode 8/Study Area IV [c]

CHEM 238 INTRODUCTION TO RESEARCH
Prereq.: Permission of instructor. Research experience for first-year students to juniors under faculty supervision. May be repeated for a maximum of 6 credits. On demand.

CHEM 250 BASIC ORGANIC AND BIOCHEMISTRY
Prereq.: CHEM 122. Principal family of organic compounds important in biological systems; fundamentals of biochemistry including acid-base properties, and metabolic pathways for energy production and biosynthesis of cellular components. Relevance is made to human health and everyday living. Three lectures and one two-hour laboratory per week. Spring (O). [c]

CHEM 301 ANALYTICAL CHEMISTRY
Prereq.: CHEM 122, MATH 121. Theory and practice of gravimetric and volumetric quantitative analysis, introduction to colorimetric analysis, and methods of separation. Two lectures and two three-hour laboratory periods per week. Fall. [c]

CHEM 311 ORGANIC CHEMISTRY I
Prereq.: CHEM 122. Principal classes of aliphatic and aromatic carbon compounds; compounds of industrial significance. Three lectures and one three-hour laboratory period per week. Fall. Summer.

CHEM 312 ORGANIC CHEMISTRY II
Continuation of CHEM 311, with emphasis on special classes of carbon compounds. Three lectures and one three-hour laboratory per week. Spring.

CHEM 313 ORGANIC PREPARATIONS
Coreq.: CHEM 312. Emphasis on modern procedures for preparation and isolation of organic compounds. Students are introduced to the use of chemical literature. Not open to Chemistry minors for fulfillment of program requirements except with permission of department. One three-hour laboratory period per week. Spring.

CHEM 316 SPECTROMETRIC IDENTIFICATION OF ORGANIC COMPOUNDS
Prereq.: CHEM 313 or permission of department. Previously CHEM 472. A study of physical methods of structure determination, with emphasis on infrared, ultraviolet, nuclear magnetic resonance and mass spectrometry. One or two three-hour laboratory periods per week. Fall.

CHEM 320 BIOPHYSICAL CHEMISTRY
Prereq.: CHEM 312, MATH 125 or 221, PHYS 122 or 126. Principles of physical chemistry emphasizing those areas of critical importance to the biological sciences. Topics include thermodynamics, solution equilibria, molecular transport, and enzyme kinetics. Fall. [c]

CHEM 321 PHYSICAL CHEMISTRY I
Prereq.: CHEM 301 (may be taken concurrently) CHEM 312, PHYS 126, MATH 221. In-depth examination of solid, liquid, and gas behavior, including thermodynamics and kinetics as applied to chemical processes. Fall. [c]

CHEM 322 PHYSICAL CHEMISTRY II

CHEM 323 PHYSICAL CHEMISTRY LABORATORY
Coreq.: CHEM 322. Experimental work to accompany CHEM 322. Two three-hour laboratory periods per week. Spring. [c]

CHEM 402 INSTRUMENTAL METHODS IN ANALYTICAL CHEMISTRY
Prereq.: CHEM 301, 312, 322. Theoretical and practical aspects of the most important instrumental techniques used in chemical analysis, including potentiometry, coulometry, voltammetry, UV/Visible spectrophotometry, florescence spectrophotometry, atomic spectrometry, gas chromatography, and high-performance liquid chromatography. Three hours of lecture and one four-hour laboratory per week. Fall.

CHEM 406 ENVIRONMENTAL CHEMISTRY
Prereq.: CHEM 301, 311. Nature and properties of pollutants, their interaction with each other and the environment, preventive and remedial methods of control. Laboratory concerned with sampling and analysis of pollutants. Two lectures and one two-hour laboratory per week. Spring.

CHEM 432 CHEMISTRY SEMINAR
Prereq.: CHEM 312, 321. Participants will prepare written and oral presentations on topics of current interest in various fields of chemistry. One conference per week. May be taken a maximum of three times for credit. Spring.

CHEM 435 LITERATURE OF CHEMISTRY
Prereq.: CHEM 311. Survey of English and foreign-language literature of chemistry; preparation of bibliographies and research papers. Journals are available in the University Library for reference. Two lectures per week. Spring.

CHEM 438 UNDERGRADUATE RESEARCH
Prereq.: Permission of instructor. Research participation for sophomore to senior students under faculty supervision. May be repeated for a maximum of 6 credits. On demand.

CHEM 454 BIOCHEMISTRY
Prereq.: CHEM 312. General principles of biochemistry. Chemical constituents of cells, metabolic pathways, energies, and biochemical regulators. Three lectures per week. Spring.

CHEM 455 BIOCHEMISTRY LABORATORY
Coreq.: CHEM 454. Experimental work to accompany CHEM 454. One laboratory period per week. Spring.

CHEM 456 TOXICOLOGY
Prereq.: CHEM 312 and BIO 122. Classes of toxic chemicals and their bio- transformation and mechanisms of toxicity in humans. Includes natural and man-made chemicals, methods of risk assessment, environmental, and occupational regulatory standards. Fall.

CHEM 459 BIOINORGANIC CHEMISTRY
Prereq.: CHEM 312. Principles of inorganic chemistry as applied to biology. Focuses on correlation of function, structure and activity of metals in biological systems. Spring. [c]

CHEM 460 PRINCIPLES OF INORGANIC CHEMISTRY
Prereq.: CHEM 322. Electronic structure and theories of bonding as they relate to the structures of inorganic compounds. Three lectures per week. Fall. [c]

CHEM 461 DESCRIPTIVE INORGANIC CHEMISTRY
Prereq.: CHEM 460. A study of inorganic reactions with emphasis on acid-base, substitution and oxidation-reduction reactions including those of polymeric, bioinorganic, coordination and organometallic compounds. Three lectures per week. Spring. [c]
COURSE DESCRIPTIONS

CHIN 462 INORGANIC CHEMISTRY LABORATORY 1 TO 2
Prereq.: CHIN 460. Laboratory course concerned with the synthesis and characterization of inorganic compounds. One or two three-hour laboratory periods per week. Spring[c]

CHIN 485 TOPICS IN CHEMISTRY 3
Prereq.: Permission of instructor. Advanced treatment of chemistry topics in analytical chemistry, inorganic chemistry, organic chemistry and physical chemistry. Three lectures or two lectures and one laboratory period per week depending on topic. May be repeated with different topics for a maximum of 9 credits.

CHINESE

CHIN 111 ELEMENTARY CHINESE I 3
Basic sounds and structure patterns of Mandarin Chinese are established through a direct audio-lingual approach. Not open to students with one year of high school study. Fall. Area B/Skill Area III

CHIN 112 ELEMENTARY CHINESE II 3
Prereq.: CHIN 111. Continuation of CHIN 111. No credit given to students with previous credit for more advanced course work in Chinese except by permission of the department chair. Spring. Area B/Skill Area III [I]

CHIN 125 INTERMEDIATE CHINESE I 3
Prereq.: One year of college Chinese or equivalent. Further work on the patterns of Chinese structure with readings and conversation in the language. No credit will be given to students with previous credit for more advanced course work in Chinese except by permission of the department chair. Fall. Area B/Skill Area III [I]

CHIN 126 INTERMEDIATE CHINESE II 3
Prereq.: CHIN 125. A continuation of CHIN 125. No credit will be given to students with previous credit for more advanced course work in Chinese except by permission of the department chair. Spring. Area B/Skill Area III [I]

CHIN 341 THE CHINESE HERITAGE I 3
Prereq.: CHIN 125 or equivalent. Mainstreams of Chinese cultural development. Use of Chinese texts. Fall. Study Area II [I]

CHIN 342 THE CHINESE HERITAGE II 3
Prereq.: CHIN 126 or 341 or equivalent. Continuation of CHIN 341. Spring. Study Area II [I]

CHIN 351 MODERN CHINESE LITERATURE I 3
Prereq.: CHIN 342 or equivalent. Representative selections from modern Chinese authors are studied in the original texts. Fall. [I]

CHIN 352 MODERN CHINESE LITERATURE II 3
Prereq.: CHIN 351 or equivalent. Continuation of CHIN 351. Spring. Study Area II [I]

CHIN 410 BUSINESS CHINESE I 3
Prereq.: CHIN 342 or CHIN 352 or permission of instructor. Development of oral and written skills needed for conducting business in China with business firms. Study of the cultural attitudes of Chinese business people. (E) [I]

CHIN 411 BUSINESS CHINESE II 3
Prereq.: CHIN 410 or permission of instructor. Additional practice in the oral and written skill needed for conducting business in China; emphasis on commercial translation. (E) [I]

CHIN 475 CLASSICAL CHINESE I 3
Prereq.: CHIN 342 or 352, or permission of instructor. Introduction to classical Chinese literature, with an emphasis on etymology, semantics and grammar of classical Chinese. (O)

CHIN 476 CLASSICAL CHINESE II 3
Prereq.: CHIN 475 or equivalent. Masterpieces of classical Chinese literature, with an emphasis on the moral teachings of Confucius. (O)

COMMUNICATION

COMM 115 FUNDAMENTALS OF COMMUNICATION 3
Basic course offering the student an opportunity to understand and improve communication skills. Performance, observation, and evaluation. May not be counted toward Communication major. Area A/Skill Area I

COMM 140 PUBLIC SPEAKING 3
Study of and practice in the principal forms of public address. Additional emphasis on the needs and expectations of persons preparing for business and professional careers. Area A/Skill Area I

COMM 201 RADIO PRODUCTION I 3
Introduction to radio broadcast facilities and programming. Majors only. Offered at Briarwood College. Majors only. Fall.

COMM 202 RADIO PRODUCTION II 3
Prereq.: COMM 201. Students develop programming formats and assist in program execution through a simulation of full station operation. Majors only. Offered at Briarwood College. Majors only. Spring.

COMM 215 INTRODUCTION TO INTERPERSONAL COMMUNICATION 3
Introductory survey of interpersonal communication theories and the application of these theories in dyadic, group and organizational contexts. Study Area III

COMM 230 INTRODUCTION TO MASS MEDIA 3
Study of the structure, roles and processes of the mass media. Primary emphasis is on radio, television and film. Examination of effects on society. Area C/Study Area III

COMM 231 COMMUNICATION TECHNOLOGIES 3
Prereq.: COMM 230. Examination of how selected telecommunication systems such as satellite, computer networks, and teleconferencing influence the way we receive and process information; determine national, corporate, and personal priorities and policies; allocate time; learn and are entertained. Majors only.

COMM 233 INTRODUCTION TO PUBLIC RELATIONS 3
Prereq.: COMM 230. Survey all aspects of public relations including theories of image-making, events planning, publicity, promotion, media campaigning, and crisis management. Majors only.

COMM 245 INTRODUCTION TO RHETORICAL STUDIES 3
Prereq.: COMM 215 and 230. Roots of communication as a discipline and as an intellectual and practical field. Basic principles of persuasion, rhetoric, genres and criticism.

COMM 253 INTRODUCTION TO ORGANIZATIONAL COMMUNICATION 3
Introduction to the structure, function, and process of communication in organizational life and modern society. Majors only. Fall.

COMM 280 BUSINESS AND PROFESSIONAL SPEAKING 3
Prereq.: COMM 245. Development of critical thinking skills as a basis for thoughtful and effective communication. Analysis of arguments and persuasive appeals.

COMM 295 COMMUNICATIONS AND ELEMENTS OF HUMAN RELATIONS 3
Examination of the impact of communication on the creation of social environments of mutual understanding, respect, and responsibility in different interactive contexts. Spring. Mode 6/Study Area III

COMM 301 CRITICAL THINKING 3
Prereq.: COMM 245. Development of critical thinking skills as a basis for thoughtful and effective communication. Analysis of arguments and persuasive appeals.

COMM 302 PROBLEM-SOLVING AND DECISION MAKING 3
Prereq.: COMM 245 Introduction to small group interaction processes with emphasis on fundamental forms of communication in all discussion settings. May require group meetings outside of class.
COMM 303  CONTROVERSY AND NEGOTIATION  3  
Prereq.: COMM 245. A systematic exploration of the nature of oral controversy and its impact on behavior. Fall.

COMM 315  POLITICAL COMMUNICATION  3  
Examines the symbolic nature and dimensions of American politics and the American political system. Emphasis placed on the role, processes and effects of communication in political contexts. Fall. Mode 6

COMM 320  HISTORY OF AFRICAN-AMERICAN SPEAKERS  3  
Survey of African-American speakers from the end of the 18th century to the present. Examination of the lives and texts of both the famous and lesser-known speakers and how they contributed to our nation's culture. Spring.

COMM 330  BASIC VIDEO PRODUCTION  3  
Introduction to television production as it relates to verbal and visual communication. Work on individual and crew projects is a requirement.

COMM 333  CAMPAIGN DEVELOPMENT METHODS  3  
Prereq.: COMM 233. Objectives and methods of archival, focus group and survey research, analysis of data using SPSS and report writing procedures in the context of designing an actual strategic public communication campaign. Majors only. Spring.

COMM 335  COMMUNICATION MANAGEMENT  3  
Prereq.: COMM 230, 330. Communication management in broadcast, cable, closed-circuit, or related environments. Facility planning, scheduling, personnel supervision, programming, sales, marketing strategies, and government regulations are explored. Majors only.

COMM 336  MEDIA LITERACY  3  
Prereq.: COMM 230. A review of current changes in philosophy, content, and processes in media use and application as this use affects society and its value system. Majors only.

COMM 337  MEDIA CAMPAIGNS  3  
Prereq.: COMM 230. Analysis of the media strategies utilized by ad agencies, political agencies, and corporations to promote a product, idea, or service by influencing attitudes or changing behavior. Majors only.

COMM 344  MODELS OF INTERCULTURAL COMMUNICATION  3  
Prereq.: Permission of instructor. Study and discussion of models of intercultural communication in various contexts. Spring.

COMM 345  RADIO AND TELEVISION SCRIPTING  3  
Prereq.: COMM 330 or permission of instructor. Audio and television script writing for commercial and educational uses. Terminology, formats, appeals, timing, and pacing stressed. Students will create, organize, and develop sample scripts. Majors only.

COMM 353  INTERVIEWING THEORY AND PRACTICE  3  
Study and practice of different interview formats (excluding counseling) as a unique context of communication. Special attention given to interviews for employment, appraisal, and information gathering. Area A

COMM 360  PARLIAMENTARY LAW AND POLITICS  3  
An introduction to the rules and operation of committees, assemblies, and other formal gatherings, with special attention to communication in legislative settings. Area A

COMM 400  COMMUNICATION THEORY AND PROCESS  3  
Prereq.: COMM 301 or 302 or 303. An introduction to prevalent theories of communication. Emphasis will be on human communication processes. Majors only.

COMM 427  TELEVISION PROGRAMMING AND PRODUCTION  3  
Prereq.: COMM 330 or permission of instructor. Study of broadcasting systems. Use of studio television facilities includes investigation of sound, lighting, graphics, production, and on-camera presentation. Majors only. Fall.

COMM 428  ADVANCED TV PRODUCTION  3  
Prereq.: COMM 427. A technique-centered course which focuses on combining TV studio production with field and remote components for broadcast, cable, or corporate application. Majors only. Spring.

COMM 430  COMPARATIVE MASS MEDIA SYSTEMS  3  
Prereq.: COMM 230. Philosophies and strategies of mass media operation around the world, emphasizing regional rather than national differences. Identification of basic philosophical orientations and theoretical underpinnings. Majors only. Spring.

COMM 433  PUBLIC RELATIONS STRATEGIES AND TECHNIQUES  3  
Prereq.: COMM 233. Public relations strategies and techniques through analysis and practical applications. Majors only.

COMM 435  IMAGES OF GENDER IN THE MEDIA  3  
Examines media constructions and representations of femininity and masculinity. Focus on popular forms of media including television, film, and advertising. Spring.

COMM 443  COMMUNICATION AND SOCIAL INFLUENCE  3  
Prereq.: COMM 115 or 140. Principles and processes of influencing attitudes, beliefs and behavior. Practical illustrations drawn from advertising, speeches, and other communicative settings. Spring. Mode 6

COMM 450  COMMUNICATION SKILLS FOR TRAINING AND DEVELOPMENT  3  
Prereq.: Permission of instructor. Survey and application of communication strategies for training and development in public and private corporate and institutional settings. Irregular

COMM 451  ENVIRONMENTAL COMMUNICATION  3  
Prereq.: COMM 233 or permission of instructor. Knowledge, attitude, and behavior change related exclusively to environmental and natural resource conservation issues. Coercive, incentive based, and communication based change strategies will be contrasted. Non-formal education/communication, social marketing/advocacy campaigns and corporate public relations projects will be studied. Majors only. On demand.

COMM 452  HEALTH COMMUNICATION CAMPAIGNS  3  
Explores the issues related to the development and implementation of health communication campaigns. Basic principles, theories and concepts governing them.

COMM 453  ORGANIZATIONAL COMMUNICATION  3  
Prereq.: COMM 253 or permission of instructor. Study of communication theory and processes within organizational contexts. Majors only. Spring.

COMM 454  COMMUNICATION STRATEGIES FOR SOCIAL ACTION AND COMMUNITY DEVELOPMENT  3  
Study of the relationship between communication and social change and the impact of socio-political and communication strategies on the achievement of effective community development and social change objectives. Fall. [I]

COMM 480  TELEVISION DOCUMENTARY PRODUCTION  3  
Prereq.: COMM 428 or permission of instructor. An analysis of TV documentary style, techniques and processes with opportunity to build upon TV skills learned in previous TV production courses by producing a TV documentary. Majors only.

COMM 490  INTERNSHIP STUDY  3  
Prereq.: Permission of faculty adviser and department chair. Work in approved organization. Series of consultations and assigned readings and a final paper describing practical experiences in relation to theory are required. Majors only.

COMM 491  INDEPENDENT STUDY  1 TO 3  
Prereq.: Permission of adviser and department chair. Reading and research in approved topic under guidance of a faculty member of the Communication Department. May be repeated with different topics for a maximum of 6 credits. Majors only. On demand.
COURSE DESCRIPTIONS

COMM 492 LEGISLATIVE INTERN EXPERIENCE 3 OR 6
Prereq.: Junior or senior status, permission of faculty and department chair. To be taken concurrently with COMM 490. Work in the State Legislature. In addition, a series of seminars, assigned readings, and completion of a substantial research project related to work in State Legislature are required. Majors only.

COMM 495 SPECIAL TOPICS IN COMMUNICATION 3
Prereq.: Junior or senior standing or permission of instructor. Study of selected topics in Communication. May be repeated once with a different topic. Majors only.

COMPUTER SCIENCE

CS 110 INTRODUCTION TO INTERNET PROGRAMMING AND APPLICATIONS 3
Examination of physical infrastructure of local and wide area networks, internet protocol implementation, world-wide web interface programming, interactive Java applet, and Visual Basic web programming. Skill Area II [c]

CS 113 INTRODUCTION TO COMPUTERS 3
Introduction to computer programming together with the consideration of the impact of computers on society. Emphasis on logical problem-solving and algorithms. No credit given to students with credit for CS 151. 213 or MATH 446, 471. [c] Mode 2/Skill Area II

CS 115 WORKSHOP IN COMPUTER SCIENCE 3
Prereq.: ECM 099 or placement test. Topics vary and include application-oriented languages, computer literacy-oriented software packages, and human-computer interface procedures. [c] Mode 2/Skill Area IV

CS 117 INTRODUCTION TO COMPUTERS AND APPLICATIONS 3
Prereq.: MATH 115 or placement test. This is a first course in Computer Science. The emphasis is on the analysis of classes of problems, the design of algorithms for solving them, and the use of a computer language for implementing them. No credit given to students with credit for MATH 471. [c] Mode 2/Skill Area II

CS 151 COMPUTER SCIENCE I 4
Prereq.: MATH 115 or placement test. This is a first course in Computer Science. The emphasis is on the analysis of classes of problems, the design of algorithms for solving them, and the use of a computer language for implementing them. No credit given to students with credit for MATH 471. [c] Mode 2/Skill Area II

CS 152 COMPUTER SCIENCE II 4
Prereq.: CS 151 or MATH 471 and MATH 122 or 125. Advanced programming and data structures. Emphasis on techniques and procedures appropriate to production of reliable and easily modifiable programs. Stacks, queues, lists, and tree structures. [c]

CS 161 C PROGRAMMING 1
Prereq.: CS 152. Introduction to programming for students with substantial computer science background. [c]

CS 207 INTRODUCTION TO COMPUTER GRAPHICS 3
Prereq.: ART 110, 112 or 113 and either ECM 099 or placement test. This course will use the computer facilities to produce abstract designs and images, with special emphasis on color forms, shapes, texture, and basic design. Spring. Mode 2/Skill Area II [c]

CS 210 COMPUTING AND CULTURE 3
Evolution of computing from early data processing to global networking. Examination of how society has accepted and transformed role of digital technology within its cultures and institutions. Emphasis on human-computer interaction, electronic communities, and examples of their applications. Online resources will be used. Skill Area IV [c]

CS 213 APPLICATIONS OF COMPUTER PROGRAMMING 3
Prereq.: MATH 121 or 125 or placement test. This course focuses on the use of programming techniques to solve problems encountered in the areas of mathematics, life science, physical science, engineering, education, and social science. Topics include programming, languages with emphasis on FORTRAN and either BASIC or PASCAL, the use of time-shared and batch-oriented computers, and applications of the computer. No credit given to students with credit for CS 151. [c] Mode 2/Skill Area II

CS 216 C PROGRAMMING IN THE UNIX ENVIRONMENT 3
Prereq.: CS 151 or 213. An introduction to the C language and the Unix Operating System for experienced programmers. No credit given to CS majors. Spring. [c]

CS 253 DATA AND FILE STRUCTURES 3
Prereq.: CS 152 and MATH 218. A software design course which develops concepts and techniques for structuring and manipulating data, both in the computer and on external storage devices. Topics include a review of basic data structures, balanced tree structure, graphs, sequential and direct access files, external sorting. An introduction to data base systems is also provided. [c]

CS 254 COMPUTER ORGANIZATION AND ASSEMBLY LANGUAGE PROGRAMMING 3
Prereq.: CS 151 or MATH 471. Concepts of assembler language, machine language: macro-instructions. subroutines. program checkout, interrupt structure of assemblers, and use of operating system. No credit given to students with credit for MATH 472. [c]

CS 290 TOPICS IN COMPUTER SCIENCE 1 TO 3
Prereq.: CS 151 or equivalent, and permission of instructor. This course will provide an opportunity to introduce into the curriculum elementary topics of current interest. May be repeated with different topics for up to 6 credits. [c] Irregular.

CS 300 COMPUTER SCIENCE WORK EXPERIENCE I 3
Prereq.: Permission of department. Students must go through Co-op office prior to receiving credit. A six-month employment experience relevant to the Computer Science program. No more than 6 credits of other course work may be taken concurrently. [c]

CS 301 COMPUTER SCIENCE WORK EXPERIENCE II 3
Prereq.: CS 300 and permission of department. Students must have a job which is different from their CS 300 job. Students must go through the Co-op office prior to receiving credit. A six-month employment experience relevant to the Computer Science program. No more than 6 credits of other course work may be taken concurrently. [c]

CS 354 DIGITAL SYSTEMS DESIGN 3
Prereq.: CS 254 and MATH 218. PHYS 338 must be taken concurrently by those students whose program requires PHYS 338. An introduction to the analysis and design of digital systems in terms of logical and sequential networks. Various minimization techniques are studied. [c]

CS 355 INTRODUCTION TO SYSTEMS PROGRAMMING 3
Prereq.: CS 161, 253 and 254 or MATH 472. Introduction to the design of systems software. Topics include comparative machine organizations, the design of assemblers and loaders, an introduction to operating systems and an introduction to compiler design. [c]

CS 385 COMPUTER ARCHITECTURE 3
Prereq.: CS 354. The architecture of the computer is explored by studying its various levels: physical level, operating system level, conventional machine level and higher levels. An introduction to microprogramming and computer networking is provided. Spring. [c]

CS 398 INDEPENDENT STUDY IN COMPUTER SCIENCE 1 TO 3
Prereq.: CS 152 and 254. Special independent work to meet individual interest in areas not covered by regular curriculum. Work will be under the supervision of a faculty member and in an area and for an amount of credit agreed upon prior to registration for the course. On demand. [c]

CS 407 ADVANCED TOPICS IN COMPUTER SCIENCE 3
Prereq.: CS 152 and 254 and permission of instructor. This course provides an opportunity to introduce into the curriculum topics of interest and new courses on an experimental basis. May be repeated with different topics for up to 6 credits. [c]
CS 410 INTRODUCTION TO SOFTWARE ENGINEERING 3
Prereq.: CS 355. An examination of the software development process from the initial requirement analysis to the operation and maintenance of the final system. The scope of the course includes the organization of software development projects, the verification and validation of systems, the problems of security and privacy, and the legal aspects of software development, including software protection and software liability. Irregular. [c]

CS 423 COMPUTER GRAPHICS 3
Prereq.: CS 253. Wire frame and solid graphics in two and three dimensions, data structure for computer graphics, geometrical transformations in computer graphics, raster, and vector display devices. Fall. [c]

CS 460 DATABASE CONCEPTS 3
Prereq.: CS 253. Data base systems are considered from both the designer's and user's point of view. Physical implementation and data access techniques are studied. Irregular. [c]

CS 462 ARTIFICIAL INTELLIGENCE 3
Prereq.: CS 253. Presentation of artificial intelligence as a coherent body of ideas and methods to acquaint the student with the classic programs in the field and their underlying theory. Students will explore this through problem-solving paradigms, logic and theorem proving, language and image understanding, search and control methods, and learning. Spring. [c]

CS 463 ALGORITHMS 3
Prereq.: CS 253. Topics include algorithms in combinatorics, integer and real arithmetic, pattern matching, list processing, and artificial intelligence. Algorithmic analysis and domain-independent techniques are also considered. Irregular. [c]

CS 464 PROGRAMMING LANGUAGES 3
Prereq.: CS 253. Emphasis on programming languages as one of many tools in the software development effort. Comparison of different language usages of data types, information hiding, control structures, block structure, subprograms, re-entrance, and recursion. Irregular. [c]

CS 465 COMPILER DESIGN 3
Prereq.: CS 355. Current techniques of compiler writing. Introduction to formal grammar and parsing techniques is given. Problems of semantic phase are discussed and some solutions are given. Optimization techniques are discussed. Fall. [c]

CS 473 SIMULATION TECHNIQUES 3
Prereq.: CS 152 or 213, and STAT 315. Basic principles of simulation methods using digital computers. Topics covered include random number generators, stochastic variate generators, computer models, and simulation languages. Irregular. [c]

CS 481 OPERATING SYSTEMS DESIGN 3
Prereq.: CS 355. Theory and design of computer operating systems. Topics include machine and interrupt structure, memory, processor, device, and information management. Spring. [c]

CS 483 THEORY OF COMPUTATION 3
Prereq.: MATH 218 and CS 463. The concept of algorithm, correctness and efficiency of algorithm, decidable vs. undecidable problems, recursion, halting problem, formal languages, context free and context-sensitive grammars, and introduction to automata and parallel algorithms. Irregular. [c]

CS 485 MICROPROCESSORS 3
Prereq.: CS 354. Acquaints students with the basic techniques in the design and use of microprocessor software and hardware. Topics include microprocessors, differences and similarities, instructions, software and hardware components, applications, and future uses. Irregular. [c]

CS 490 COMPUTER COMMUNICATIONS NETWORKS & DISTRIBUTED PROCESSING 3
Prereq.: CS 253 and 254. Study of networks of interacting computers. The problems, rationale, and possible solution for both distributed processing and distributed data bases will be examined. Irregular. [c]

CS 495 LEGAL, SOCIAL, ETHICAL, AND ECONOMIC ISSUES IN COMPUTING 3
Prereq.: Permission of instructor. Topics include privacy, security, law of torts in computing, and legal protection of software. Spring. [c]

CS 498 SENIOR PROJECT 1 TO 3
Prereq.: senior standing, 21 credits toward major including one advanced course. Opportunity for student to participate in design and implementation of large problem with small group of people. Problem will be chosen in consultation with instructor. Majors only. [c]

CS 499 SEMINAR IN COMPUTER SCIENCE 3
Opportunity for student to explore topics of current interest not covered in normal curriculum. Majors only. Irregular. [c]

CONSTRUCTION MANAGEMENT

CM 125 CONSTRUCTION GRAPHICS 3
Formerly IT 125. Interpretation of civil, architectural, structural, mechanical, and electrical drawings for building and highway construction projects. Emphasis on systems analysis and code compliance. Fall.

CM 135 CONSTRUCTION QUANTITY SURVEYING 3
Examination of the role of the quantity surveyor. Emphasis on analysis of architectural and structural drawings. Quantity surveys will be conducted for site work, concrete, masonry, steel, and rough carpentry.

CM 235 BUILDING CONSTRUCTION SYSTEMS 3
Introduces basic body of knowledge of construction, including job identification, terminology, and the use of equipment as used in light and heavy construction. Area C.

CM 245 HEAVY/HIGHWAY CONSTRUCTION SYSTEMS 3
Prereq.: CM 125. Formerly IT 245. Introduction to heavy and highway construction practices. Emphasis on construction equipment, labor, materials, and methods as they relate to field operations.

CM 255 CONSTRUCTION BUSINESS PRINCIPLES 3
Prereq.: CM 155. Examination of the roles of the owner of a construction company. Emphasis on ethical, organizational, financial, legal, managerial, and personnel issues. Spring.

CM 335 CONSTRUCTION SAFETY 3
A study of safety problems in the construction environment with emphasis on the day-to-day activities of the construction safety coordinator. Spring.

CM 435 CONSTRUCTION SUPERINTENDENCY 3
Prereq.: senior standing. Formerly IT 457. Examination of the role of the construction supervisor. Emphasis on personnel scheduling, time keeping, trade unions, superintendents, and the duties of the project manager.

CM 465 CONSTRUCTION INTERNSHIP 3
Introduction to the construction workplace. Emphasis on field operations and management applications as they apply to building and heavy/highway construction projects. On demand.

CONSTRUCTION MANAGEMENT LABORATORY

CML 155 CONSTRUCTION DOCUMENTS 3
Formerly TC 155. Examination of the role of the construction project administrator. Emphasis on interpretation of construction documents and administration of project-related documents and reports associated with the construction process.
COURSE DESCRIPTIONS

CML 325  BUILDING CONSTRUCTION ESTIMATING  3
Formerly TC 351. Prereq.: CM 235 and CM 135. Examination of the role of the construction estimator. Emphasis on pricing labor, material, and equipment costs in the areas of sitework, concrete, masonry, steel, and carpentry.

CML 345  HEAVY/HIGHWAY CONSTRUCTION ESTIMATING  3
Formerly TC 345. Prereq.: CM 245. Examination of the role of the heavy and highway construction estimator. Emphasis on pricing labor, material, and equipment costs as they relate to civil construction projects. Spring. [c]

CML 355  CONSTRUCTION PLANNING  3
Formerly TC 355. Prereq.: CML 325. Examination of the role of the construction planner/scheduler. Emphasis on CPM scheduling using arrow and precedence diagram techniques. Procedures associated with determining project completion dates, progress, schedule updating, and project time reduction.

CML 455  CONSTRUCTION PROJECT MANAGEMENT  3
Formerly TC 455. Prereq.: CML 355 Examination of the role of the construction project manager. Emphasis on administrative procedures, quality control, time and cost control, resource management, field office practices, construction processing, job site meetings, and correspondence.

COUNSELING

CNSL 299  HUMAN SERVICE IN THE RESIDENCE HALLS  3
Prereq.: Appointment to the staff (Department of Residence Life) and/or permission of instructor. Topics include competencies in personal development, student development theory and multi-cultural issues. Area C

CRIMINAL JUSTICE/COUNSELING

CRCN 490  CASE/CARE MANAGEMENT  3
Prereq.: Admission to the Criminal Justice or Counseling program or permission of either chair. Emphasis on practice models, organizational structure and service delivery issues, and emerging public policy concerns as they are reflected in a variety of settings. Spring.

CRCN 495  SUBSTANCE ABUSE AND ADDICTION  3
Prereq.: Permission of instructor. Theories of substance abuse and addiction, prevention strategies, treatment modalities and legal issues related to addictions such as substance abuse, gambling, shopping, and sexual activity. Irregular.

CRIMINOLOGY AND CRIMINAL JUSTICE

CRM 110  INTRODUCTION TO THE CRIMINAL JUSTICE SYSTEM  3
Introduction to the structure and operation of the criminal justice system in the United States. Attention will be focused on the individual and institutional levels. Topics include entrance into the criminal justice system, differential treatment of offenders, and the enforcement, judicial, and penal subsystems. Fall. Mode 6/Study Area II

CRM 220  IDEOLOGY & VIOLENCE  3
Examination of the causes and consequences of politically-motivated violent crime. Irregular. Mode 6/Study Area III

CRM 222  RESEARCH METHODS IN CRIMINAL JUSTICE  3
Techniques for systematic analysis of the criminal justice system, offenders' behavior, crime trends, and program effectiveness. Requires computer applications for data coding and analysis. [c]

CRM 231  CRIMINAL PROCEDURE AND THE COURTS  3
Prereq.: CRM 110. Organization and function of American courts, trial procedures, pre- and post-trial motions; legal procedures regarding arrest, interrogation, search and seizure; constitutional protections for the accused. Spring.

CRM 233  LAW ENFORCEMENT AND SOCIETY  3
Prereq.: CRM 110. Comprehensive examination of the function of law enforcement in society. Emphasis is placed on such areas as police operations, discretion, police community relations, due process, use of deadly force, and police corruption and deviance. Fall. Study Area III

CRM 239  JUVENILE DELINQUENCY  3
Prereq.: CRM 110 or SOC 110 or PSY 112. Previously CRM 439. Multi-disciplinary approach to understanding the extent, nature, and origins of juvenile delinquency. The evolution of the juvenile justice process, legal issues, and methods of identifying, treating, and preventing delinquency are examined. Mode 6

CRM 245  DIVERSITY AND CRIMINAL JUSTICE  3
Prereq.: CRM 110. Impact of race, ethnicity, and/or gender on the commission of criminal offenses, the likelihood of criminal victimization, and the treatment of criminal offenders. Also examined is the impact of race, ethnicity, and/or gender on those working in the criminal justice system. Mode 6/Study Area III

CRM 325  VICTIMOGRAPHY  3
Current theory and research regarding the victims of crime. Topics include victim vulnerability and culpability, restitution, mediation, treatment, and compensation. Irregular.

CRM 330  DOMESTIC VIOLENCE  3
Theory, research, and current policy on domestic violence; patterns and trends. Multi-disciplined theoretical explanations, historic and contemporary criminal justice response to domestic violence are critically analyzed. Irregular.

CRM 337  CRIMINOLOGY  3
Prereq.: CRM 110 or SOC 110, or permission of instructor. Historical and contemporary overview of the nature of crime and causes of criminal behavior. Examination of the relationship between criminological theory and criminal justice policy and practice. Mode 6

CRM 338  CORRECTIONAL THEORY AND PRACTICE  3
Prereq.: CRM 110 or permission of instructor. Overview of corrections in America to include sentencing, probation, classification, incarceration, community corrections, and parole. Critical analysis of goals of sentencing, correctional organization and management, alternatives to incarceration, and theories of behavioral change. Irregular. Mode 6

CRM 340  CRIME AND CAPITALISM  3
Prereq.: CRM 110, 337. Examines the extent, causes, and consequences of white collar, corporate, transnational, and government crime. Topics include U.S. government's role in drug trafficking. Irregular

CRM 420  CURRENT ISSUES IN CRIMINAL JUSTICE POLICY  3
Prereq.: CRM 110, 231, 233, 338. Major issues and ethical considerations related to criminal justice policy and practices. Topics may include gun control, mandatory sentencing, death penalty, drug legalization and privatization. Irregular

CRM 433  INDEPENDENT STUDY IN CRIMINAL JUSTICE I TO 3
Prereq.: Permission of instructor. Readings and research in selected areas of criminal justice. Student must present a written study proposal to the instructor directing the research prior to registering for the course. May be repeated for a maximum of 3 credits. On demand.

CRM 435  SUPERVISED FIELD STUDIES IN CRIMINAL JUSTICE I  3
Prereq.: CRM 110, 231, 233, 337, 338, PS 232; or permission of instructor. Individual or group projects or internships under faculty direction, undertaken in an organization or program related to the criminal justice system.

CRM 436  SUPERVISED FIELD STUDY IN CRIMINAL JUSTICE III  3
Prereq.: CRM 435 and permission of instructor. Students will complete hours with agency, write, and present a major research paper related to their agency experience as the capstone experience.
DESIGN (GRAPHIC INFORMATION)

Note: Students enrolled in the following courses will be assessed a $65 Design Lab Fee: DES 222, 322, 325, 326, 436, 438, 439, 465, 498, 499. Contact the Department at 832-2557 for additional information.

DES 126 INTRODUCTION TO GRAPHIC/INFORMATION DESIGN
Overview of the principles, practices, and purposes of the field of graphic/information design. Mode 4/Study Area I

DES 222 GRAPHIC/INFORMATION DESIGN I
Prereq.: ART 130. Introductory techniques for the professional practice of graphic/information design. Includes instruction in appropriate computer applications. Explores issues relating to typographic, symbolic, and three-dimensional design. [c] Open to majors only.

DES 224 GRAPHIC/INFORMATION DESIGN II
Prereq.: DES 222 and either ART 230 or 224. Continuation of DES 222. Advanced techniques for the professional practice of graphic/information design. Includes instruction in appropriate computer applications. Typographic and series design solutions will be stressed. [c] Open to majors only.

DES 325 DIGITAL IMAGING FOR DESIGN I
Prereq.: DES 322. Admission to the Graphic/Information Design Program or permission of instructor. Computer processing of image for design (graphic/information) using a variety of programs. Image enhancement, manipulation, and derivation techniques will be explored. [c] Open to majors only.

DES 326 DIGITAL IMAGING FOR DESIGN II
Prereq.: DES 325. Advanced computer processing of image for design (graphic/information) using a variety of programs. Additional image enhancement, manipulation, and derivation techniques will be explored. [c] Open to majors only.

DES 419 HISTORY OF DESIGN
Prereq.: ART 110 or 112 or 113. History and philosophy of design function and aesthetics. Topics include graphic design, industrial design, and architectural design. [I]

DES 436 GRAPHIC/INFORMATION DESIGN III
Prereq.: ART 224 and DES 322. Continuation of DES 322. Additional advanced techniques for the professional practice of graphic/information design. Includes instruction in appropriate computer applications. Campaign and expansive design solutions will be stressed. [c] Open to majors only.

DES 437 DESIGN INTERNSHIP
Prereq.: DES 322 and permission of instructor. Internship with professional graphic/information design organization. [c] Open to majors only.

DES 438 GRAPHIC/INFORMATION DESIGN IV
Prereq.: DES 436. Continuation of DES 436. Additional advanced techniques for the professional practice of graphic/information design. Includes instruction in appropriate computer applications. Features real project and production situations with simulation of a "real world" graphic/information design atmosphere. Open to majors only. [c]

DES 439 CENTRAL DESIGN
Prereq.: DES 322, successful Central Design portfolio review and permission of instructor. Graphic/information design practice. Features real project and production situations with simulation of a "real world" graphic/information design atmosphere. Open to majors only. [c]

DES 465 TOPICS IN GRAPHIC/INFORMATION DESIGN
Prereq.: Permission of instructor. Selected topics in graphic/information design. May be repeated with different topics for a maximum of six credits. Open to majors only. [c]

DES 498 INDEPENDENT STUDY IN GRAPHIC/INFORMATION DESIGN
1 TO 3
Prereq.: Permission of instructor. Special independent work to meet individual interest in areas not covered by regular curriculum. Includes interdisciplinary information design projects. May be repeated with different topics for a maximum of 6 credits. On demand. Open to majors only. [c]

DES 499 COMPUTER APPLICATIONS FOR GRAPHIC/INFORMATION DESIGN
Prereq.: DES 325 or permission of instructor. Study of the relationship of computer application in contemporary graphic/information design practice. Laboratory exploration of relevant software and its application in the field. Open to majors only. [c]
ESCI 110  INTRODUCTION TO THE EARTH  3
A descriptive introduction to the astronomical, geological, and meteorological studies of the earth that allow an understanding of the earth as a physical environment. No credit given to students with credit in ESCI 111, or to students with 6 credits in Earth Science. Mode 8/Study Area IV

ESCI 111  ELEMENTARY EARTH SCIENCE  3
Introduction to the study of earth science. Selected topics in geology, meteorology, and astronomy. Two lecture hours per week and one two-hour laboratory. Open only to Elementary Education students. No credit given to students with credit for ESCI 110. Mode 8/Study Area IV

ESCI 117  INTRODUCTION TO THE SOLAR SYSTEM  3
Prereq.: ECM 099 or equivalent. An introductory course in descriptive astronomy focusing on the solar system, including coordinate systems, the Earth-Moon system, light and telescopes, and the structure of the solar system. No credit will be given to Physics or Earth Sciences majors or to students with credit for ESCI 178. Mode 8/Study Area IV

ESCI 118  INTRODUCTION TO STARS AND GALAXIES  3
Prereq.: ECM 099 or equivalent. An introductory course in descriptive astronomy focusing on stars and galaxies, including stellar evolution, galaxies, and the origin and fate of the universe. No credit given to Physics or Earth Sciences majors or to students with credit for ESCI 179. Mode 8/Study Area IV

ESCI 121  PHYSICAL GEOLOGY  3
Basic principles of development of the earth, earth materials, and agents responsible for existing surface features. Mode 8/Study Area IV

ESCI 122  HISTORICAL GEOLOGY  4
Prereq.: ESCI 121. Earth history, emphasizing earth’s changing geographic pattern through time, history and development of life, climates of past as revealed by study of stratified rocks of earth’s crust. Three lectures and one three-hour laboratory period per week. Spring. Mode 8/Study Area IV

ESCI 123  GEOLOGY LABORATORY  1
Prereq.: ESCI 121 (may be taken concurrently). Laboratory experiences that broaden the understanding of concepts and relationships presented in ESCI 121. One two-hour lab per week. There may be one or more field trips. Mode 8/Study Area IV

ESCI 129  INTRODUCTION TO METEOROLOGY  4
Prereq.: ECM 099 or placement exam. Introductory course dealing with atmospheric composition, structure, and basic motions. The nature of high and low pressure systems, severe weather, how the National Weather Service works. Three lectures and one two-hour laboratory per week. Mode 8/Study Area IV

ESCI 178  PLANETARY ASTRONOMY  4
Prereq.: MATH 101 or placement exam. Study of the members of the solar system, their motions, and compositions. Topics will include physical laws of motion and radiation, comparative planetology, the origin and structure of the solar system. Three lectures and one two-hour laboratory per week. No credit given to students with credit for ESCI 117. Fall. Mode 8/Study Area IV

ESCI 179  STELLAR ASTRONOMY  4
Prereq.: MATH 101 or placement Exam. Study of stars as separate bodies and members of clusters and galaxies. Topics will include properties of stars, stellar evolution, galaxies, and cosmology. Emphasis will be placed on methods astronomers use to study stars. Three lectures and one two-hour laboratory per week. No credit given to students with credit for ESCI 118. Spring. Mode 8/Study Area IV

ESCI 218  WOMEN’S CONTRIBUTIONS TO STELLAR AND GALACTIC ASTRONOMY  3
Prereq.: ESCI 118 or 179 or permission of instructor. Exploration of the astronomical discoveries made by women astronomers, including their methodology, consequences, and the social constraints placed upon them. Two lectures and one two-hour laboratory period per week. On demand. Mode 8/Study Area IV
COURSE DESCRIPTIONS

ECON 310 MATHEMATICAL ECONOMICS I
Prereq.: ECON 200, 201, MATH 125 or MATH 122, or permission of instructor. Applications in economics of functions, differential calculus, maxima and minima, Lagrange multipliers, matrices, and determinants. Fall.

ECON 311 MATHEMATICAL ECONOMICS II
Prereq.: ECON 310. A continuation of ECON 310. Examination of economic problems in a dynamic framework. The use of integrals, differential equations, and difference equations will be discussed as applied to economics. A brief introduction to linear programming and game theory is included.

ECON 398 TOPICS IN ECONOMICS
Prereq.: Permission of instructor. Examination of selected topics in economics which are not otherwise offered as part of the department's regular courses. Course may be repeated for different topics for a total of 3 credits.

ECON 420 URBAN ECONOMICS
Prereq.: ECON 200, 201. Economic analysis of metropolitan and regional entities with special focus on land use, location decision-making, the provision and role of public services. Transportation, public finance, human resources, and social welfare.

ECON 430 INTERNATIONAL ECONOMICS
Prereq.: ECON 200, 201. Principles of international trade and finance and application to modern world, theory of comparative advantage, exchange rates, monetary standards, international financial institutions, tariffs, commercial policy, and aid to underdeveloped countries. [I]

ECON 435 ECONOMIC DEVELOPMENT
Prereq.: ECON 200. Problems of accelerating development in developing countries and maintaining development in prosperous countries. From viewpoints of theory, history, and policy, this course attempts to explain forces that lead to economic development. Mode 7 [I]

ECON 440 COMPARATIVE ECONOMIC SYSTEMS
Prereq.: ECON 200, 201. Economic systems, both theoretical and actual. Topics include the economy as a system, classification of economic systems, bases or criteria for comparison of systems, market economies, market socialism, and command economies.

ECON 445 LABOR ECONOMICS
Prereq.: ECON 200, 201. Economic analysis of human resources as a factor of production. Special attention is devoted to demographics, labor market structures, wage determination, career decision-making, training, and the roles of employee organizations.

ECON 450 MONEY, CREDIT, AND BANKING
Prereq.: ECON 200. Money and its functions, including structure of the American banking system, with emphasis on monetary theory and policy. Mode 7

ECON 455 PUBLIC FINANCE
Prereq.: ECON 200, 201. Analysis of federal revenues and expenditures, including an examination of federal budget concepts, fiscal policy, cost-effectiveness analysis, tax efficiency and equity, and debt management problems.

ECON 460 ECONOMIC FORECASTING
Prereq.: ECON 200, 201 and STAT 104 or equivalent. The theory and use of such forecasting techniques as simple and multiple regression, seasonal adjustment, economic indicators, input-output and macroeconomic models. Emphasis will be given to economic applications and the use of the computer.

ECON 462 INDUSTRIAL ORGANIZATION
Prereq.: ECON 201. Study of the structure, conduct, and performance of selected U.S. industries. The effects of concentration on prices, outputs, profits, and technological change will be analyzed. Mode 7

ECON 465 GOVERNMENT AND BUSINESS
Prereq.: ECON 201. Role of government in the mixed economy, with special emphasis on antitrust laws, regulation and deregulation, social legislation, and public enterprise. Mode 7

ECON 470 MANAGERIAL ECONOMICS
Prereq.: ECON 201. Application of economic theory and quantitative methods to managerial decision-making problems. Topics include decision analysis, forecasting, demand analysis, production and cost analysis, linear programming, break-even analysis, and capital theory and budgeting. Mode 7

ECON 475 HISTORY OF ECONOMIC THOUGHT
Prereq.: ECON 200, 201. Evolution of economic thought from Ancient Greece to current doctrines.
EDUCATION — EARLY CHILDHOOD

EDEC 413 PRINCIPLES OF EARLY CHILDHOOD EDUCATION

EDEC 413 PRINCIPLES OF EARLY CHILDHOOD EDUCATION
First offering: Fall 2002 (fall only). Prereq.: Admission to the Professional Program. Theoretical principles of developmentally appropriate programs for young children. Implications for practice in inclusive classrooms. Organizing and managing the environment. Facilitating play and active learning. Roles of child, teacher, and family. Field experience required. Taken concurrently with RDG 315. 3 credits.

EDEC 423 METHODS AND CURRICULUM FOR THE EARLY YEARS

EDEC 423 METHODS AND CURRICULUM FOR EARLY CHILDHOOD
First offering: Spring 2003 (spring only). Prereq.: Admission to the Professional Program and EDEC 413 (may be taken concurrently). Integrated curriculum in early childhood classrooms. Investigating learning through play and exploration in inclusive environments. Examining individualized planning, implementation, and evaluation. Studying collaboration with families and other professionals. Field experience required. Taken concurrently with EDTE 310, SPED 423, and RDG 423. 3 credits.

EDEC 426 INTEGRATED CURRICULUM FOR EARLY CHILDHOOD

EDEC 426 INTEGRATED CURRICULUM FOR EARLY CHILDHOOD

EDEC 430 EARLY CHILDHOOD STUDENT TEACHING
Effective Spring 2004 (spring only). Prereq.: Permission of the Director of the Office of Field Experiences. Student teachers in early childhood placements are expected to work with teachers and children in professional activities. Placement culminates with student teachers assuming responsibility for planning and implementing units of instruction and developing leadership. Full semester of field-based work required. Taken concurrently with EDTE 430. 9 credits.

EDUCATION — ELEMENTARY

EDEL 322 EFFECTIVE ELEMENTARY TEACHING
First offering: Fall 2002. Prereq.: Admission to the Professional Program of Teacher Education. EDTE 315. Taken concurrently with EDTE 320. Emphasis on use of standards, development and alignment of objectives, daily and long-range plans, instructional strategies, assessment strategies and reflection on practice. Students develop and implement lessons. 3 credits.

EDEL 415 ELEMENTARY SOCIAL STUDIES METHODS
First offering: Spring 2003. Prereq.: Admission to the Professional Program of Teacher Education. EDTE 320. Taken concurrently with EDTE 420. Introduction to content and process of elementary social studies. Students examine curricular goals and materials, research and construct integrative, developmentally appropriate social studies lessons, and implement lesson in field setting. 1 credit.

EDEL 422 ELEMENTARY EDUCATION GENERAL METHODS
Last offering: Spring 2003. Prereq.: Admission to the Professional Program, EDTE 315 and 420. Methods and models of best practice for teaching content, concepts, and skills in elementary schools, including curriculum, lesson and unit planning, assessment, and resources appropriate for elementary education. Classroom management in learning communities. Taken concurrently with student teaching. 3 credits.

EDEL 430 ELEMENTARY EDUCATION STUDENT TEACHING
Prereq.: Permission of the Director of the Office of Field Experiences. Student teachers in elementary schools work with teachers and children in professional activities. Placement culminates with student teachers assuming responsibility for planning and implementing units of instruction and developing classroom leadership. Full semester of field-based work required. 9 credits.

EDEL 485 APPROACHES TO DISCIPLINE IN ELEMENTARY SCHOOL (K-8)
Examination of the purposes, processes, and strategies of varied approaches to discipline in elementary education. Kindergarten through grade eight. Spring. 3 credits.

EDUCATION — SECONDARY

Note: Student teaching courses (EDSC 412, 414, 415, 417, 419, 420, 421, 428, 429, 435) may not be repeated without the permission of the director of the Office of Field Experiences, as well as the chair of the student's major department and of Teacher Education.
EDSC 412 **STUDENT TEACHING, TESOL, ALL LEVELS** 12 Prereq.: ENG 496; admission to the Professional Program and permission of the Director of the Office of Field Experiences. Full semester of student teaching in TESOL, K-12. One half of the semester is spent at the elementary school level, and one half at the secondary school level. On demand.

EDSC 414 **PRELIMINARY STUDENT TEACHING (TECHNOLOGY EDUCATION)** 6 Prereq.: Admission to the Professional Program in Teacher Education and permission of the Director of the Office of Field Experiences. In accordance with the public school schedule, Technology Education students spend approximately an eight-week period in the first semester of the senior year in a public middle school. The Technology Education major demonstrates his or her ability to organize and conduct school learning activities and to work effectively with adolescent youth in a program of technology education. Emphasis on Connecticut teaching competencies in both classroom and laboratory situations.

EDSC 415 **STUDENT TEACHING (TECHNOLOGY EDUCATION)** 6 Prereq.: Admission to the Professional Program in Teacher Education and permission of the Director of the Office of Field Experiences. In accordance with the public school schedule, Technology Education students spend approximately an eight-week period in the first semester of the senior year in a public high school. The Technology Education major demonstrates his or her ability to organize and conduct school learning activities and to work effectively with adolescent youth in a program of technology education. Emphasis on Connecticut teaching competencies in both classroom and laboratory situations.

EDSC 417 **STUDENT TEACHING (ELEMENTARY P.E.)** 6 Prereq.: Admission to the Professional Program in Teacher Education and permission of the Director of the Office of Field Experiences. An eight-week period of the senior year is spent in a physical education department of a public elementary school where the student demonstrates the ability to conduct activity classes and to work effectively with children.

EDSC 419 **STUDENT TEACHING (SECONDARY SCHOOL P.E.)** 6 Prereq.: Admission to the Professional Program in Teacher Education and permission of the Director of the Office of Field Experiences. An eight-week period of the senior year is spent in a physical education department of a public secondary school where the student demonstrates his or her ability to conduct activity classes and to work effectively with youth.

EDSC 420 **STUDENT TEACHING - ELEMENTARY MUSIC EDUCATION** 5 Prereq.: Admission to the Professional Program for Teacher Education and permission of the Director of the Office of Field Experiences. Eight-week period in the last semester spent in a music education department of a public elementary school where the student demonstrates the ability to conduct learning activities in music and to work effectively with children.

EDSC 421 **STUDENT TEACHING - SECONDARY MUSIC EDUCATION** 5 Prereq.: Admission to the Professional Program for Teacher Education and permission of the Director of the Office of Field Experiences. Eight-week period in the last semester spent in a music education department of a public secondary school where the student demonstrates the ability to conduct learning activities in music and to work effectively with youth.

EDSC 425 **PRINCIPLES OF SECONDARY EDUCATION** 3 Prereq.: EDSC 256 or EDTE 315; admission to the Professional Program in Teacher Education. General methods of instruction in the middle and high school classroom, including curriculum planning, evaluation, and the responsibilities of the teacher in the 7-12 classroom.

EDSC 428 **STUDENT TEACHING - ELEMENTARY ART** 5 Prereq.: Admission to the Professional Program of Teacher Education and permission of Director of the Office of Field Experiences. Eight-week student teaching where student demonstrates ability to conduct learning activities and to work effectively with pupils and teachers in an elementary program of art education. [c]

EDSC 429 **STUDENT TEACHING - SECONDARY ART** 5 Prereq.: Admission to the Professional Program of Teacher Education and permission of Director of the Office of Field Experiences. Eight-week student teaching where student demonstrates ability to conduct learning activities and to work effectively with pupils and teachers in a secondary program of art education. [c]

EDSC 435 **SECONDARY EDUCATION STUDENT TEACHING** 9 Prereq.: Admission to the Professional Program in Teacher Education and permission of the Director of the Office of Field Experiences. Experiences in classrooms of public secondary schools where the student demonstrates the ability to conduct secondary school learning activities and to work effectively with adolescent youth.

**EDUCATION — TEACHER EDUCATION**

**EDTE 210** **EDUCATION AND TEACHER LEADERSHIP IN DIVERSE LEARNING COMMUNITIES** 4 Exploration of teaching, diversity, and the roles teachers play as leaders in diverse educational learning communities. Inquiry-based approach includes participant observation, case analysis, examination of beliefs and research on learning and teaching. Field experience required. Taken concurrently with ED 210. Area C [c]

**EDTE 310** **EARLY CHILDHOOD FIELD EXPERIENCE PRACTICUM** 1 First offering: Spring 2003 (spring only). Prereq.: Admission to the Professional Program of Teacher Education. Taken concurrently with EDEC 423. On-site experience including early childhood classroom observations and teaching experience with children and teachers in an early childhood setting.

**EDTE 315** **PRINCIPLES OF LEARNING** 4 Prereq.: Admission to the Professional Program. Examination of principles pertinent to teaching and learning. Emphasizes the use of educational theory and research findings applicable to classroom practices, learning communities, and learners' developmental levels. 30 hours of certification specific field experience required. In Elementary Education, taken concurrently with SPED 315 and RDG 315.

**EDTE 320** **PRACTICUM IN ELEMENTARY EDUCATION I** 1 First offering: Spring 2002. Prereq.: Admission to the Professional Program of Teacher Education, EDTE 315. Taken concurrently with EDEL 322 and RDG 316. Forty-five hours of on-site experience (two visits per week during regular school hours). Emphasizes classroom observation and teaching experience in an assigned public school setting appropriate to certification level. Includes related seminar. May be repeated for a maximum of two credits with permission of department chair.

**EDTE 420** **FIELD EXPERIENCE PRACTICUM** 1 TO 3 Last offering: Fall 2002. Prereq.: Admission to the Professional Program and EDTE 315. On-site experience, including classroom observations and teaching experience with faculty and students in a public school setting appropriate to certification level. May be repeated for a maximum of three credits.
COURSE DESCRIPTIONS

EDTE 420  PRACTICUM IN ELEMENTARY EDUCATION II  1
First offering: Spring 2003. Prereq.: Admission to the Professional Program of Teacher Education; EDTE 320. Taken concurrently with RDG 316 and MATH 410 in early childhood education. Forty-five to 60 hours of on-site experience (two visits per week during regular school hours). Emphasizes teaching experience in an assigned public school setting appropriate to certification level. Includes related seminar. May be repeated for a maximum of two credits with permission of department chair.

EDTE 420  PRACTICUM IN EARLY CHILDHOOD EDUCATION II  2
First offering: Fall 2003 (fall only). Prereq.: Admission to the Professional Program of Teacher Education; EDTE 310. Taken concurrently with EDEL 415 and RDG 412 in elementary education. Forty-five to 60 hours of on-site experience (two visits per week during regular school hours). Emphasizes teaching experience in an assigned public school setting appropriate to certification level. Includes related seminar. May be repeated for a maximum of four credits with permission of department chair.

EDTE 430  TOPIC SEMINAR IN LEADERSHIP AND LEARNING COMMUNITIES  1
Prereq.: Admission to the Professional Program. Taken concurrently with student teaching. Previously ED 430. Examination of current research and theory pertaining to teacher leadership and the development of learning communities in classrooms and schools. Topics include educational reform, professional ethics, diversity, collegiality and continuous professional development. Not available for credit.

EDUCATIONAL FOUNDATIONS

EDF 400  PHILOSOPHY OF EDUCATION  3
Prereq.: Admission to the Professional Program in Teacher Education or permission of the department chair. Some major philosophies and their implications for education in the United States. Not for credit in graduate degree programs.

EDF 415  EDUCATIONAL FOUNDATIONS  3
Prereq.: Admission to the Professional Program or permission of department chair. Social and moral contexts of schooling, purposes of education in American society, contemporary educational policy, politics of the policy-making process and the role of teachers as leaders. Not for credit in graduate degree programs.

EDUCATIONAL TECHNOLOGY

EDT 210  INTRODUCTION TO EDUCATIONAL TECHNOLOGY  1
Systematic examination and application of software programs, applications and hardware (computer, network, internet) in the context of integrating technology into lesson planning. Taken concurrently with EDT 210. [c]

EDT 315  EDUCATIONAL TECHNOLOGY IN THE SECONDARY SCHOOL CLASSROOM  1
Prereq.: Admission to the Professional Program in Teacher Education. Examination and use of software applications and hardware in the context of integrating educational technology into lesson planning in the 7-12 classroom. [c]

EDT 415  DEVELOPING INSTRUCTIONAL MATERIALS  1
Prereq.: EDT 210. Development of lesson plans, as part of integrated unit planning and teaching of specific content areas, to demonstrate utilization skills, design capabilities, production techniques, and evaluation strategies in education. [c]

EDT 490  INSTRUCTIONAL COMPUTING  3
Examination and application of computers and other related technologies to various teaching situations with emphasis on developing skills in evaluating instructional software programs. [c]

ENGINEERING TECHNOLOGY

ET 150  INTRODUCTION TO ENGINEERING TECHNOLOGY  3
Introduction to engineering technology problem-solving techniques unique to areas of the technical world, including chemical, civil, construction, nuclear, manufacturing, mechanical, and electrical disciplines. Problem solving is presented in both English and International Units (SI). Area C [c]

ET 233  ELECTRICAL CIRCUIT ANALYSIS  3
Prereq.: PHYS 122, MATH 122 or 125. Analysis of electrical circuits incorporating passive and active elements. Topics include laws and theorems applied to DC, AC, three-phase, diodes and operational amplifier circuits; transient and steady state response; phasors; frequency response, and resonance. Spring.

ET 251  APPLIED MECHANICS I - STATICS  3
Prereq.: MATH 125, ET 150, PHYS 121. The fundamentals of statics, including the resolution and composition of forces, the equilibrium of force systems. The analysis of forces acting on structures and machines, centroids, moments of inertia. Vector methods are used.

ET 252  APPLIED MECHANICS II - DYNAMICS  3
Prereq.: ET 251. Introduction to kinematics of motion and kinetics of particles and rigid bodies. [c]

ET 256  MATERIALS SCIENCE  3
Prereq.: MATH 115 or 119 or 121 and CHEM 111 or 121. Analysis of the structure of and engineering properties of ceramic, metallic, polymeric, elastomeric, and composite materials with relation to design and processing. Fall.

ET 260  COMPUTER AIDED DESIGN AND INTEGRATED MANUFACTURING CAD/CAM/CIM  3
Prereq.: TC 121 or permission of instructor. Introduction to solid modeling for design, drawing, assembly, mass property analysis and manufacturing operations on a CAD/CAM/CIM system. Emphasis is on computer hardware utilization for designing products. Lecture/Laboratory. Fall, Spring, Summer.

ET 300  HUMAN FACTORS ENGINEERING (ERGONOMICS)  3
Prereq.: TC 121, PSY 112. A study of the man/machine relationship necessary to achieve maximum productivity and job satisfaction. Emphasis will be placed on the physical work environment with considerations given to health and safety criteria.

ET 323  MECHATRONICS  3
Prereq.: TC 303, 323. Application of embedded microprocessor control systems in machines and mechanical devices. Topics include feedback control systems and electrical/electronic interface with mechanical devices. Experiences with laboratory examples and applications. Spring.

ET 340  GEOMETRIC DIMENSIONING AND TOLERANCING  3
Interpretation, application, and verification of GDT aspects of engineering designs per the latest ANSI Y14.5. Calculations with tolerated dimensions. Concepts of datums, material condition modifiers, functional gaging, fits, true position, combined tolerances, and runout.

ET 354  APPLIED FLUID MECHANICS  3
Prereq.: ET 251. Application of fluid mechanics principles to systems. Study of fluid statics and dynamics including Bernoulli equation, momentum, energy, laminar and turbulent flow, pipe and open channel flow, pumping systems, and dimensional similarity. Lecture/Lab required. Fall. [c]

ET 356  MATERIALS ANALYSIS  3
Prereq.: ET 251 or permission of instructor. Study of composition, properties, and characteristics of metallic and non-metallic materials. Structure of materials, phase diagrams, and effects of environment on materials. Laboratory includes use of standard apparatus for materials testing. Fall. Area C

ET 357  STRENGTH OF MATERIALS  3
Prereq.: ET 251, PHYS 121. The study of simple and combined stress, torsion, flexure, and deflection of beams, continuous and restrained beams, combines axial and bending loads, and columns. Computer applications. [c]
ET 358 APPLIED THERMODYNAMICS 3
Prereq.: ET 251 and PHYS 122. Application of heat transfer, thermodynamics, and fluid mechanic principles to thermal system design based on engineering fundamentals of conduction, convection, and radiation heat transfer properties. Spring.

ET 360 COMPUTER AIDED PLANNING (CAP) 3
Prereq.: TC 113. STAT 104; or permission of instructor. Analysis of production and design problems using computers. Optimization of resources utilization, forecasting, scheduling and sequencing of activities, experience-based planning, inventory and maintenance planning for JIT environment, automated production, and project planning and analysis. [c]

ET 367 MACHINE DESIGN 3
Prereq.: ET 252. 357. Study of kinematics of gear trains and three-dimensional stress analysis of power transmission elements. Topics include fasteners, bearings, springs, permanent connection, stress concentrations, notch sensitivity, and failure prevention. Fall.

ET 397 STRUCTURAL ANALYSIS 3
Prereq.: ET 357. Analysis of statically determined structures: influence lines, deflection analysis of trusses, beams and frames; introduction to indeterminate structural analysis using consistent deformation principles and moment distribution: computer applications. [c]

ET 405 APPLIED STRUCTURAL SYSTEMS 3
Prereq.: ET 251, TC 356; or permission of instructor. Introduction to strength of materials, structural analysis and the structural design process for the construction manager or architect. Includes review of current structural steel and reinforced concrete design specifications and building code requirements. Cannot be used for credit in ET programs. Spring.

ET 422 COMPUTER SYSTEMS AND INTEGRATION 3
Prereq.: TC 113 or permission of instructor. Laboratory-based program solving course on the installation, configuration, and diagnostics of computer hardware and software, including operating systems, networks, hardware components, and integration. Emphasis on installing and trouble shooting computer systems. Irregular. [c]

ET 423 APPLIED FEEDBACK CONTROL SYSTEMS 3
Prereq.: ET 323, MATH 463. Applied study of dynamic mechatronic feedback control systems. Topics include modeling of dynamic systems, dynamic response, feedback mechanisms, digital control, and design methods. Spring.

ET 441 ADVANCED GEOMETRIC DIMENSIONING AND TOLERANCING 3
Prereq.: STAT 104, ET 340; or permission of instructor. Advanced concepts and applications of ANSI and ISO GD&T standards. Analysis and calculations of tolerance distribution, fits, part interchangeability, combined tolerances, gage tolerances, measurement uncertainty budget, geometrical deviations measurements, statistical tolerancing, and the six-sigma design concept. Irregular.

ET 451 SOIL MECHANICS & FOUNDATIONS 3
Prereq.: ET 357. Fundamentals of soil behavior and its use as a construction material. Principles of effective stress, permeability, shear strength, and consolidation. Application to construction problems in shallow and deep foundations, slope stability, retaining structures and excavation drainage. Lecture/lab required. Fall.

ET 454 INTRODUCTION TO TRANSPORTATION ENGINEERING 3
Prereq.: TC 353. Study of the planning, design, environmental concerns addressing, construction and maintenance of transportation projects using new and rehabilitated highway and bridge projects as focus points for lecture and laboratory work. Lecture/lab required. Fall. Area C

ET 457 ADVANCED SURVEYING 3
Prereq.: TC 353, MATH 125. Advanced topics in surveying including horizontal and vertical curve layout, traversing earthwork, and laser leveling. Computer applications and effective total station usage is stressed. Lecture/lab required. [c]

ET 458 GPS MAPPING FOR GIS 3
Prereq.: TC 353 or GEOG 378 or permission of instructor. Use of the Global Positioning System (GPS) to collect information for use in a Geographic Information System (GIS). Includes integration of vector and raster data sets with GPS data. Hands-on use of equipment is emphasized. [c]

ET 460 COMPUTER AIDED DESIGN AND MANUFACTURING (CAD/CAM) 3
Prereq.: ET 260 or permission of instructor. Applied parametric solid modeling for design, drawing, assembly, mass property analysis, and manufacturing tool path simulation utilizing integrated CAD/CAM software. Emphasis on the design and manufacture of products. Lecture/Laboratory. Fall. [c]

ET 461 COMPOSITES AND PLASTICS MANUFACTURING PROCESSES 3
Prereq.: ET 256 or ET 356 or CHEM 111 or CHEM 121, or permission of instructor. Analytical study of thermoplastic, thermostet, and polymer matrix composite materials, and the manufacturing processes utilized in the plastics and composites molding and fabrication industry. Lecture/Laboratory. Spring.

ET 462 MANUFACTURING PROCESS PLANNING AND ESTIMATING 3

ET 463 PLASTICS AND COMPOSITE TOOL DESIGN 3
Prereq.: ET 256, 260 and 461. Principles for design of molds and tooling for the production of plastic and composite products. Fall. [c]

ET 464 CAD SOLID MODELING AND DESIGN 3
Prereq.: ET 260 and 340; or permission of instructor. Computer-aided design and analysis of solid surface, and sheet metal models emphasizing product design. Uses computer software for design, detailing, mass property analysis, dimensional standards, and family tables. Two hours of lecture and one two-hour laboratory per week. Spring. [c]

ET 466 DESIGN FOR MANUFACTURE 3

ET 467 CAE APPLIED FINITE ELEMENT ANALYSIS 3
Prereq.: ET 357 or permission of instructor. Application of the finite element method to structural engineering problems. Study of plane stress, plane strain, shell and continuum finite elements, mesh generation, proper element density and element interfacing, and composite modeling problems. Fall. [c]

ET 468 COMPOSITE DESIGN & ANALYSIS 3
Prereq.: ET 467 and ET 256 or ET 356; or permission of instructor. Study of the design and analysis of composite structures using classical composite theory coupled with the finite element method. New methods of structural redesign using composite materials. Fall. [c]

ET 470 STRUCTURAL STEEL DESIGN 3

ET 471 REINFORCED CONCRETE STRUCTURES 3
Prereq.: ET 357, 397. Applications of design and construction in reinforced concrete and timber structures. Topics on beams, columns, slabs, footings, retaining walls, form work, and prestressed concrete fundamentals. Spring.
ET 472  TIMBER STRUCTURES  3
Prereq.: ET 397. A study of the physical properties of wood used in structures and architecture. Influence on strength of moisture content, species, and preservation treatments are emphasized. Design and construction applications in bridges and buildings. Spring.

ET 475  HYDROLOGY & STORM DRAINAGE  3
Prereq.: TC 122, ET 252 and 354; or permission of instructor. Engineering topics pertaining to the hydrological cycle. Computational techniques and the use of application software for analysis of rainfall and runoff. Design skills for stormwater mitigation will be applied to course project. Lecture/lab required. Spring. [c]

ET 476  ENVIRONMENTAL TECHNOLOGY  3
Prereq.: CHEM 111 or 121, MATH 115. Environmental effects on air, water, and land from construction activities. Case studies with discussion of corrective action. Fall.

ET 495  TOPICS IN ENGINEERING TECHNOLOGY  3
Prereq.: ET 150 and permission of instructor. Provides an opportunity to present topics of interest not currently covered in the engineering technology curricula. [c]

ET 497  ENGINEERING ECONOMY  3
Prereq.: MATH 125, senior standing. Technical and engineering aspects of financing the construction of infrastructure facilities, determination of costs and justification of improvements. Mode 7 or Area C [c] Fall, spring, summer.

ET 498  ENGINEERING TECHNOLOGY SENIOR PROJECT (CAPSTONE)  3
Prereq.: Permission of instructor. Team work project to study, design, and/or research a project as engineering technology professionals. Final reports submitted to the department for archival, and oral presentations are required. Project may originate from student, instructor, and/or industrial partner. [c]

ENG 099  REMEDIAL ENGLISH  3
Focus on improvement of basic writing skills, in order to meet entrance requirements for ENG 110. After review of grammar and punctuation, the course emphasizes sentence and paragraph formation and the development of the coherent essay. Students who are required to take ENG 099 must pass the course with a C- or better before successful completion 30 hours of coursework. NOTE: Letter grade will affect GPA as if ENG 099 were a three credit course, but these credits will not count toward the number of credits required for graduation. Fall, Spring, Summer.

ENG 108  ESL WRITING I  3
Intermediate to advanced writing in English for students whose native language is not English. Transition to academic writing. Grammar review. Area A/Skill Area I

ENG 109  ESL WRITING II  3
Advanced writing in English for students whose native language is not English. Academic writing. Area A/Skill Area I

ENG 110  FRESHMAN COMPOSITION  3
Introductory course in expository writing designed to develop the student’s ability to write clearly, logically and effectively. Emphasis on the composing process, organization, coherence, sentence and paragraph structure, and usage. An acceptable Central Connecticut equivalent is required for ENG 110. See skills testing and remediation policy, page 32. Students who have not completed their ENG 110 requirement prior to achieving 61 credits are required to take both ENG 110 and 202. Area A/Skill Area I

ENG 111  INTRODUCTION TO LITERATURE  3
Study of fiction, drama and poetry. Not recommended for English majors. No credit given to students with credit for either ENG 260 or 261 or 262. Irregular. Mode 3

ENG 200  INTRODUCTION TO LINGUISTICS  3
The structure and system of language with English as the subject of analysis: history, phonology, morphology, syntax, semantics, usage. Mode 6/Study Area III

ENG 201  ADVANCED STUDY IN ENGLISH AS A SECOND LANGUAGE  3
Prereq.: ENG 110 or permission of instructor. Selected aspects of advanced English for learners of English as a second language. May be repeated with different topics for a maximum of 6 credits. Irregular. Skill Area I

ENG 202  INTERMEDIATE COMPOSITION  3
Prereq.: ENG 110 or permission of department chair. Intermediate course in expository writing designed to expand the student’s writing skills. Emphasis on academic and career-oriented writing in the student’s major field or area of interest, including research skills and papers, professional reports, and resumes. Area A/Skill Area I

ENG 205  BRITISH LITERATURE I  3
Major British writers from the beginnings through the 18th century. Not a Prerequisite for ENG 206. Mode 3/Study Area I [I] [L]

ENG 206  BRITISH LITERATURE II  3
Major British writers from the late 18th century to the present. ENG 205 is not a Prerequisite. Mode 3/Study Area I [I] [L]

ENG 210  AMERICAN LITERATURE I  3
American literature from the Colonial Period to the Civil War. Not a Prerequisite for ENG 211. Mode 3/Study Area I [L]

ENG 211  AMERICAN LITERATURE II  3
American literature from the Civil War to the present. ENG 210 is not a Prerequisite. Mode 3/Study Area I [L]

ENG 212  AFRICAN-AMERICAN LITERATURE  3
Survey of African-American writers from the eighteenth through twentieth centuries. Mode 3/Study Area I [L]

ENG 215  INTRODUCTION TO WOMEN WRITERS  3
Introduction to women writers of the world, primarily in the eighteenth, nineteenth, and twentieth centuries. Mode 3/Study Area I [I] [L]

ENG 220  SHAKESPEARE  3
Selected tragedies, comedies, and history plays. Mode 3/Study Area I [I] [L]

ENG 230  THE STUDY OF LANGUAGE  3
General concepts of language as it evolved in thought, society, literature, and scientific analysis, with emphasis on universal characteristics and relevance to contemporary English. Mode 6/Study Area III

ENG 235  JOURNALISM I  3
The fundamentals of reporting and writing news and feature stories. Covers the basics of news-gathering, newsroom practices, and ethics and responsibilities of the journalist. Area A/Skill Area I

ENG 236  JOURNALISM II  3
Prereq.: ENG 235 or permission of instructor. This course builds on ENG 235, emphasizing news-gathering procedures and the challenges of writing on government, the law, and other areas of journalistic specialization. Area A/Skill Area I

ENG 250  CONTEMPORARY LITERATURE  3
Modern fiction, plays, and poetry in relation to modern life. Mode 3/Study Area I [L]
COURSE DESCRIPTIONS

ENG 260 INTRODUCTION TO POETRY 3
A close analysis of poetry: prosody, diction, figurative language, structure, tone, and theme. Selections read from entire range of English and American poetry. No credit given to students with credit for ENG 111. Mode 3/Study Area I [L]

ENG 261 INTRODUCTION TO FICTION 3
A close analysis of the elements, structure, and technique of short stories and novels. No credit given to students with credit for ENG 111. Mode 3/Study Area I [L]

ENG 262 INTRODUCTION TO DRAMA 3
A close analysis of plays, representing major and minor genres of drama (tragedy, comedy, tragi-comedy, melodrama, farce, etc.), relationship of genre, structure, and statement. No credit given to students with credit for ENG 111. Mode 3/Study Area I [L]

ENG 270 DRAMATIC ENACTMENT 3
Introduction to the theory and applications of creative drama as an interpretive tool and a response to literature. (E)

ENG 274 STORYTELLING 3
Study of the history, art, and technique of storytelling. Discussion of the skills involved in order to develop the student's competency in this oral tradition. Designed to enable the student to build a personal repertoire of stories for performance. (O)

ENG 288 STUDIES IN LITERATURE 3
Selected topics to be announced each semester. Students may not take this course under the same topic more than once. Mode 3/Study Area I [L]

ENG 300 LANGUAGE ACQUISITION 3
Prereq.: ENG 110, 200. Study of how we acquire our first language; child language, regional and social dialect, register, style, and idiolect. Mode 6

ENG 312 INTRODUCTION TO SYNTAX 3

ENG 313 INTRODUCTION TO PHONETICS AND PHONOLOGY 3

ENG 332 MEDIEVAL ENGLISH LITERATURE 3
Old English and Middle English literature, exclusive of Chaucer, from the eighth through the 14th centuries. Most materials read in translation. Mode 3

ENG 333 THE ENGLISH RENAISSANCE 3
Emphasis on British poetry and prose of the 16th and early 17th centuries, including such writers as More, Erasmus, Sidney, Spenser, Marlowe, Shakespeare, and Jonson. Mode 3

ENG 334 SEVENTEENTH-CENTURY POETRY & PROSE 3
British poetry and prose of the earlier 17th century, including Donne, Herbert, Marvell, Bacon, Burton, and Browne. Mode 3

ENG 335 RESTORATION & EIGHTEENTH-CENTURY LITERATURE 3
British poetry, prose and drama from 1660 to 1798, including such writers as Dryden, Congreve, Addison, Swift, Pope, Fielding, Gay, Johnson, Goldsmith, and Sheridan. Mode 3

ENG 336 THE ROMANTIC AGE 3
British literature from Blake to 1832, including Wordsworth, Coleridge, Byron, Shelley, and Keats. Mode 3 [I]

ENG 337 THE VICTORIAN AGE 3
Poetry and non-fiction prose from 1832 to 1900, including poetry of Tennyson, Browning and Arnold and prose of Carlyle, Mill, Newman, and Ruskin. Mode 3 [I]

ENG 339 MODERN BRITISH LITERATURE 3
Prose and poetry from 1900 to the present, including such writers as Hopkins, Sitwell, Eliot, Yeats, Joyce, Woolf, Forster, Auden, MacNiece, Spender, Graves, Thomas, and Orwell. Mode 3 [I]

ENG 340 EARLY AMERICAN LITERATURE 3
Early writers of the country through approximately the first third of the 19th century, with emphasis on the ideological and social influences which shaped their art. Mode 3

ENG 341 THE AMERICAN RENAISSANCE 3
Prose and poetry of American romantic authors in the 19th century. Special emphasis on Poe, Hawthorne, Melville, Thoreau, Emerson, Whitman; contemporary ideologies. Mode 3

ENG 342 AMERICAN REALISM & NATURALISM 3
Study of the period after the Civil War to about 1915, including such writers as Dickinson, Twain, James, Wharton, Crane, and Dreiser. Mode 3

ENG 343 MODERN AMERICAN LITERATURE 3
Major American writers in the period between World War I and World War II; the ideological and social influences which shaped their art. Mode 3

ENG 345 MODERN AFRICAN-AMERICAN LITERATURE 3
Study of selected writers, beginning with the Harlem Renaissance. Mode 3

ENG 346 THE BIBLE AS LITERATURE: THE OLD TESTAMENT 3
Major books of Old Testament important to literature, their literary qualities, and their historical and cultural backgrounds. (E) Mode 3

ENG 361 THE BIBLE AS LITERATURE: THE NEW TESTAMENT 3
Major books of New Testament important to literature, their literary qualities and their historical and cultural backgrounds. Part of Apocrypha. (E) Mode 3

ENG 362 GREEK AND ROMAN LITERATURE 3
Such major Greek and Roman writers as Homer, the Greek dramatists, Plato, Thucydides, Lucretius, and Virgil. Mode 3

ENG 365 THE MODERN EUROPEAN NOVEL 3
Representative works by such writers as Flaubert, Tolstoy, Dostoyevsky, Proust, Kafka, and Camus. Mode 3 [I]

ENG 370 CREATIVE WRITING: CREATIVE NONFICTION 3
Prereq.: ENG 202 or permission of instructor. Prose works that combine the authority of literature and fact. Subject matter may be drawn from popular culture, science, technology, nature or personal experience. Students will research or investigate potential topics, participate in workshops, and study various authors. Irregular

ENG 371 CREATIVE WRITING: FICTION I 3
Prereq.: ENG 261 or permission of instructor. Introduction to the art and craft of literary fiction with emphasis on developing fiction writing ability and critical reading skills. Students will actively participate in workshop sessions. Irregular

ENG 372 CREATIVE WRITING: FICTION II 3
Prereq.: ENG 261 or permission of instructor. Presupposes proficiency in vocabulary, basic techniques, and workshop method of short fiction writing. Students are expected to have already written a considerable body of work and to be prepared to submit stories at the semester's start. Irregular

ENG 373 CREATIVE WRITING: POETRY I 3
Prereq.: ENG 260 or permission of instructor. Introduction to the art and craft of writing poetry, emphasizing both poetry writing ability and critical reading. Students are expected to fully participate in the workshop method of critique and revision in class. Irregular
ENG 374  CREATIVE WRITING: POETRY II 3  
Prereq.: ENG 373 or permission of instructor. Presupposes proficiency in vocabulary, poetry writing techniques, workshop methods. Students must already have a considerable body of work, and generate new work. Irregular.

ENG 375  CREATIVE WRITING: AUTOBIOGRAPHY 3  
Prereq.: ENG 202 or permission of instructor. Workshop style course in writing about the transformation of one's life experience into literary art. Includes study of autobiography, discussion of readings, topic and development strategy sessions, and critiques of work-in-progress. Irregular.

ENG 376  CREATIVE WRITING: ESSAY 3  
Prereq.: ENG 202 or permission of instructor. Writing the familiar essay. Primarily a writing course, but also an introduction to the familiar essay as a form in the tradition of Montaigne, Hazlitt, Lamb, E.V. Lucas, E.B. White, and Thoreau. Area A

ENG 377  CREATIVE WRITING: PLAYWRITING 3  
Prereq.: ENG 262 or permission of instructor. Introduction to art and craft of playwriting, emphasizing writing ability and critical reading skills. Students are expected to actively participate in workshop sessions. Irregular.

ENG 378  CREATIVE WRITING: SPECIAL TOPICS 3  
Prereq.: One 300 level creative writing course or permission of instructor. Specific creative writing genres taught on a rotating basis. May be repeated with different topics for a maximum of 6 credits. Area A

ENG 380  FEATURE WRITING 3  
Prereq.: ENG 235 or 236 or permission of instructor. Writing and analysis of human interest articles; exploration of the newspaper and magazine markets. (E) Area A

ENG 381  EDITORIAL WRITING 3  
Prereq.: ENG 235 or 236 or permission of instructor. The study, evaluation, and writing of newspaper opinion pieces. (O) Area A

ENG 382  TRAVEL WRITING 3  
Prereq.: ENG 235 or 256 (or 202 for creative writing minor) or permission of instructor. Prereq.: ENG 235 or 236 or permission of instructor. Introduction to the art and craft of travel writing beginning with an overview of the genre and exploration of contemporary works. Students will write essays and articles. Area A

ENG 386  THE LANGUAGE OF FILM 3  
Development of visual terminology analogous to literary terminology in order to understand better the intentions of the author of the film. The qualities of picture, movement, and editing are discussed in an effort to develop critical interpretation and judgment. Attendance at film screenings required. Of ENG 386 and 486, only one may be used to satisfy major or minor requirements. Mode 4

ENG 400  LINGUISTIC ANALYSIS 3  
Intensive analysis (syntactic, morphological, phonological) of selected data from English and other languages. Particular emphasis on developing analytical skills. Mode 6

ENG 401  ADVANCED COMPOSITION 3  
Advanced course in expository writing designed for competent writers who wish to refine their skills. Emphasis on vividness, precision, and impact. With attention to audience and style. Area A

ENG 402  ADVANCED COMPOSITION & TECHNOLOGY IN THE ENGLISH CLASSROOM 3  
Prereq.: ENG 110 and acceptance in the Professional Program of Teacher Education; or permission of instructor. Advanced writing for the refinement of writing skills. Explores ways to teach writing. Addresses the use of technology in secondary English classrooms in regard to instruction, data management, and classroom management. [c]

ENG 403  TECHNICAL WRITING 3  
A course designed to assist students in planning, researching, structuring, writing, revising and editing technical materials. Emphasis on various types of writing drawn from an industrial/professional context: reports, correspondence, directories, manuals, technical articles. Area A

ENG 412  EDITING 3  
Prereq.: ENG 235 or 236 or permission of instructor. Emphasis on copy editing, headline writing, news judgment, photo handling, newspaper layout, and electronic desktop publishing. Irregular.

ENG 416  MAGAZINE WRITING 3  
Prereq.: ENG 235 or 236 or permission of instructor. The process of researching, interviewing for, and writing magazine articles; preparation for selling freelance articles. Irregular. Area A

ENG 418  STUDIES IN JOURNALISM 3  
Prereq.: ENG 235 or 236 or permission of instructor. Selected topics in journalism. Students may take this course under different topics for a maximum of 6 credits. Irregular. Area A

ENG 420  TEACHING ENGLISH IN SECONDARY SCHOOLS 4  
Prereq.: ENG 402 and acceptance into the Professional Program of Teacher Education. Methods and materials for teaching English language and literature. Includes 30 hours of guided observations in middle and high school classrooms.

ENG 424  METHODS & MATERIALS FOR TEACHING THE ENGLISH LANGUAGE ARTS AT THE MIDDLE LEVEL 2 OR 3  
Prereq.: RDG 315 and admission to the Professional Program. Required for middle-level certification. Explores various methods and examines a variety of materials for teaching the English language arts to middle-level students.

ENG 430  STUDIES IN LINGUISTICS & THE ENGLISH LANGUAGE 3  
Selected topics in linguistics. Students may take this course under different topics for a maximum of 6 credits. Mode 6 (May be used for Mode 7 credit by those with a complementary subject matter program in linguistics.) Irregular.

ENG 431  THE HISTORY OF THE ENGLISH LANGUAGE 3  
History, growth, and structure of the English language. Irregular. Mode 6

ENG 433  INTRODUCTION TO COMPUTATIONAL LINGUISTICS 3  
Prereq.: ENG 312 and 313. Investigation of computational models of natural language processing for both parsing and production of lexical, phonological, and syntactic units, including text to speech. The relationship between linguistic theories and the algorithms that can implement them. Irregular. On demand.

ENG 434  SPEECH AND NATURAL LANGUAGES PROCESSING 3  
Prereq.: ENG 312 and 313. Exploration of techniques and methods of human-computer dialogues with primary focus on how computers recognize, parse, and produce syntactic, semantic, pragmatic, and other discourse-theoretic aspects of human languages such as English. Irregular. On demand.

ENG 435  STUDENT TEACHING SEMINAR 1  
Prereq.: ENG 420. EDSC 435 (taken concurrently). Discussion of issues that arise in the student teaching placements. Emphasis on improving individual classroom practices.

ENG 445  AMERICAN DRAMA 3  
Development of American drama and its contribution to literature. Irregular. Mode 3

ENG 448  STUDIES IN AMERICAN LITERATURE 3  
Selected topics in American literature. Students may take this course under different topics for a maximum of 6 credits. Mode 3
COURSE DESCRIPTIONS

ENG 449  MAJOR AMERICAN AUTHORS  3
Intensive study of the writings, life, influence, and historical milieu of a major
American author. Authors will vary each year. May be repeated under different
author subjects for a maximum of six credits. Mode 3

ENG 450  CHAUCER  3
Readings in Chaucer, with special emphasis on The Canterbury Tales and Troilus
and Criseyde. Irregular. Mode 3

ENG 451  MILTON  3
Readings in Milton's prose and poetry, with emphasis upon Paradise Lost and
Samson Agonistes. Irregular. Mode 3

ENG 458  STUDIES IN BRITISH LITERATURE  3
Selected topics in British literature. Students may take this course under different
topics for a maximum of 6 credits. Mode 3

ENG 461  SHAKESPEARE: MAJOR COMEDIES  3
Close analysis of major comedies and pertinent critical problems. Irregular. Mode 3

ENG 462  SHAKESPEARE: MAJOR TRAGEDIES  3
Close analysis of major tragedies and pertinent critical problems. Irregular. Mode 3

ENG 463  ELIZABETHAN & JACOBEAN DRAMA  3
Major dramatists from Kyd to Ford, excluding Shakespeare. Irregular. Mode 3

ENG 464  RESTORATION & EIGHTEENTH-CENTURY DRAMA  3
English drama from 1660 to 1800, primarily comedy. Readings from the works of
such dramatists as Wycherly, Etherege, Dryden, Congreve, Vanbrugh, Farquhar,
Gay, and Sheridan. Irregular. Mode 3

ENG 467  THE VICTORIAN NOVEL  3
Representative Victorian novelists with special emphasis on Trollope, Eliot,
Dickens, Thackeray, and Hardy. Irregular. Mode 3

ENG 470  CONTEMPORARY AMERICAN NOVEL  3
American novels which have come to prominence since World War II and the
changing cultural environment which they reflect. Irregular. Mode 3

ENG 475  THE BRITISH NOVEL TO 1832  3
Form and content of the novel with readings selected from Behn, DeFoe,
Richardson, Fielding, Sterne, Smollett, Johnson, Burney, Walpole, Austen, and
Scott. Mode 3

ENG 476  THE MODERN BRITISH NOVEL  3
Form and content of the novel with readings selected from Joyce, Woolf, Ford,
Conrad, Lawrence, Huxley, Forster, Greene, Waugh, and others. Irregular.
Mode 3

ENG 477  MODERN BRITISH POETRY  3
Major works of Hardy, Hopkins, Yeats, D.H. Lawrence, Owen, Sassoon, Auden,
Dylan Thomas, Larkin, Hughes, and others. Irregular. Mode 3

ENG 478  MODERN AMERICAN POETRY  3
The study of important American poets from Dickinson to the present. Irregular. Mode 3

ENG 480  MODERN IRISH LITERATURE  3
Study of the major themes and traditions in Irish writers of the 20th century.
Included will be works by Yeats, Joyce, Synge, O'Casey, O'Connor, and others.
Irregular. Mode 3

ENG 484  ADVANCED FICTION WORKSHOP  3
Prereq.: ENG 372 or permission of instructor. Presupposes mastery of the
vocabulary and basic techniques of writing literary fiction and the workshop
method. Students are expected to have a considerable body of work, and gener­
ate new work. Addresses creative process, preparation of manuscripts, publishing,
and academic and career options in creative writing. Irregular

ENG 485  ADVANCED POETRY WORKSHOP  3
Prereq.: ENG 374 or permission of instructor. Presupposes mastery of the
vocabulary and basic techniques of writing poetry, and the workshop method.
Students are expected to have a considerable body of work, and generate new work. Addresses creative process, preparing poetry manuscripts, publishing, and academic and career options in creative writing. Irregular

ENG 486  LITERATURE & FILM  3
Study of films adapted from novels and plays. The course investigates the nature of the relationship of these forms. Attention will be paid to the theory of film with comparison to the aesthetics of the printed word and the live performance. Attendance at screenings required. Of ENG 386 and 486, only one may be used to satisfy major or minor requirements. Spring. Mode 3

ENG 487  TWENTIETH-CENTURY BRITISH DRAMA  3
Study of major British playwrights of the twentieth century. Selections may be from
the works of Shaw, Coward, Maugham, O'Casey, Eliot, Beckett, Osborne, Pinter, Shaffer, Ayckbourn, Churchill, Gray, Hare, Stoppard, and others. Irregular. Mode 3

ENG 488  STUDIES IN WORLD LITERATURE  3
Selected topics in world literature. Students may take this course under different
topics for a maximum of 6 credits. Mode 3

ENG 489  INDIVIDUAL GUIDED READING  1 TO 3
Prereq.: Permission of chair. A conference course for English majors in their senior
year who have a GPA of at least 3.00 or better and who wish to follow a
planned program of guided reading.

ENG 490  LITERATURE FOR YOUNG ADULTS  3
Balanced selection of the best literature available to children. Traditional forms
of fables, legends, myths, epics, fairy tales, and folk tales of the world; examination
of how these represent the universal needs and aspirations of all cultures.
Major authors and illustrators included.

ENG 491  LITERATURE FOR YOUNG ADULTS  3
Through extensive reading this course examines trends and issues, forms and content,
and authors and topics of contemporary books read by and written expressly
for adolescents. Recommended for secondary teachers and reading specialists.

ENG 492  LITERATURE FOR YOUNG ADULTS  3
Through extensive reading this course examines trends and issues, forms and content,
and authors and topics of contemporary books read by and written expressly
for adolescents. Recommended for secondary teachers and reading specialists.

ENG 494  CREATIVE WRITING: INDEPENDENT STUDY  1 TO 6
Prereq.: Permission of department chair. A senior conference course for students wishing to follow a planned program of writing/study. Typically, this course is for students wishing to prepare a publishing manuscript or a portfolio of their work for application to graduate programs in creative writing. Irregular.

ENG 495  INTERNSHIP  1 TO 6
Prereq.: Permission of faculty adviser and department chair. Intern projects under
the guidance of an English faculty adviser or the department chair. This course can help fulfill requirements for minors in writing, journalism, TESOL, and descriptive linguistics. It cannot be used to help fulfill requirements for an English major or minor.

ENG 496  TESOL METHODS  3
Principles, methods, and materials for teaching English to non-English speaking
students at all levels. Acquisition and practice of basic language teaching skills.
Intercultural communication in the ESOL classroom. Fall.

ENG 497  SECOND LANGUAGE ACQUISITION  3
Major theories of language acquisition and their potential application to lan­
guage learning. The theoretical bases of second language instruction. Spring.
ENTREPRENEURSHIP

Note: Enrollment in 300- and 400-level Business courses requires admission to the School of Business or permission of the Assistant to the Dean.

ENT 301 ENTREPRENEURSHIP AND NEW VENTURE CREATION
Focuses on how businesses are started. Includes recognizing opportunities and risks, gathering resources to convert opportunities into businesses. Develops the skills to evaluate and formulate a business plan. Open only to Business majors.

ENT 305 FINANCING ENTREPRENEURIAL VENTURES
Prereq.: ENT 301 and FIN 295. Combines the analysis and evaluation of methods used to fund entrepreneurial ventures with the creation of a business plan for a new enterprise.

ENT 320 MANAGING A GROWING BUSINESS
Prereq.: ENT 301 and FIN 295. Focuses on management decisions in resource allocation, human resource management, marketing policies and control mechanisms that contribute to growth and value creation in business. Case studies and exercises concentrate on opportunities and problems unique to growing firms.

ENT 499 FIELD STUDIES IN ENTREPRENEURSHIP
Provides students with a working knowledge of actual firms by working closely with individual entrepreneurs to develop business plans.

FINANCE

Note: Enrollment in 300- and 400-level Business courses requires admission to the School of Business or permission of the Assistant to the Dean.

FIN 200 INTRODUCTION TO FINANCE
Prereq.: STAT 200 and AC 211. This course provides a basic understanding of fundamental topics in finance, i.e., interest rates, time value, the relationship of risk to return and financial management. Quantitative aspects of the study of finance will be minimized. Non-business majors may take this course and use it to fulfill the finance requirement in a business minor. Business majors may take this course only as a free elective, and prior to taking FIN 300. Area C

FIN 210 PERSONAL FINANCIAL PLANNING AND INVESTING
Overview of the personal financial planning process. Examines personal incomes and budgets, home and consumer financing, insurance of personal assets, personal investing, and retirement planning. Open only to non-Business majors. Business majors may only receive free elective credits for this course. Summer. Area C

FIN 295 MANAGERIAL FINANCE
Prereq.: AC 211 and STAT 200. Basic course in business finance. Topics include the financial environment, analysis of financial statement, valuation of corporate stocks and bonds, and capital investment decisions.

FIN 301 INTERMEDIATE MANAGERIAL FINANCE
Prereq.: FIN 295. Designed to develop a fundamental understanding of the following major topics in finance: the capital investment decision, capital structure and dividend policy, fund sources, working capital management, international financial management, and corporate restructuring. [c]

FIN 310 PRINCIPLES OF INVESTMENTS
Prereq.: FIN 295. A study of investment. Types of securities, sources of investment information, the securities markets, and valuation of different assets. Attention is directed to the investment of funds by individual and institutional investors. [c]

FIN 320 FINANCIAL MARKETS AND INSTITUTIONS
Prereq.: FIN 295. The role, functions, and operations of capital markets, banks, and other financial intermediaries in modern, global economies. [c]

FIN 400 ADVANCED MANAGERIAL FINANCE
Prereq.: FIN 301, 310 and 320. An advanced course in financial management of the business firm. Utilizes a case study approach to stress the application of financial management theories. Topics include asset management, investment decisions, and financial structure of the firm. Fall. [c]

FIN 410 SECURITIES ANALYSIS
Prereq.: FIN 301, 310 and 320. An advanced course in investments with emphasis on security analysis and portfolio management practices. Topics include financial statement analysis, use of derivatives, and special techniques employed in forecasting, timing, and the development of investment strategies. [c]

FIN 420 BANK MANAGEMENT
Prereq.: FIN 301, 310 and 320. An in-depth examination of bank management issues including deposit account funding costs and stability, creditworthiness determination, loan pricing, loan portfolio management, interest rate risk management, liquidity management, foreign exchange management, and strategic planning. Spring.

FIN 421 INSURANCE
Prereq.: FIN 301, 310 and 320. Nature and organization of insurers, analysis of insurance contracts, types of insurance products, introduction to actuarial and underwriting processes, insurer portfolio management, and insurer profitability. [c]

FIN 425 FINANCIAL DERIVATIVES
Prereq.: FIN 295 and 310, or permission of instructor. Valuation of financial derivatives, including options and futures, applications to portfolio, and corporate risk management. Fall.

FIN 430 INTERNATIONAL FINANCIAL MANAGEMENT
Prereq.: FIN 295. A study of the principles and practices of corporate finance in an international setting. Explores the primary elements of international monetary economics with emphasis on exchange rate analysis. Major topics of study include exchange and credit risks in international trade, capital budgeting process of the multi-national corporation, and the international financial markets. [c] [I]

FIN 490 INDEPENDENT STUDY IN FINANCE
Prereq.: FIN 301, 310 and 320. Individualized readings and/or research by individual under the direction of a Finance faculty member. Topics will vary. May be repeated up to a total of 3 credits. On demand. [c]

FIN 496 PRACTICUM IN FINANCE
Prereq.: Permission of instructor. Students work on a real world project under the direct supervision of a faculty adviser. Projects may be sponsored by a host organization. Student performance is monitored and evaluated in relation to conditions set forth in an approved Project Plan. May be repeated for a maximum of 6 credits. Cannot be used as a Finance directed elective. On demand.

FIN 498 FINANCE SEMINAR
Prereq.: Permission of instructor. Course content varies. Fall.

FIN 499 CFA SEMINAR
Prereq.: FIN 295, 310, 410 or permission of instructor. Focuses on the advanced investment concepts which are the foundation of Chartered Financial Analyst (CFA) professional designation. Topics include ethical and professional standards, quantitative methods, global markets and instruments, analysis of stock and bond investments, and portfolio management. Spring.

FINE ARTS

FA 296 INTERNSHIP IN COMMUNITY-BASED FINE ARTS
Prereq.: Permission of department chair in Art, Music or Theatre. Research and instruction in unified arts directed towards community-based arts activities and programs.
FA 412  FINE ARTS ACROSS THE CURRICULUM  3
Last offering: Fall 2002. Prereq.: Admission to the Professional Program. Taken concurrently with MATH 410/412 and SCI 412. Exploration of the role of arts education in today's school curriculum. Fundamental theories and practices for incorporating creative dramatics, movement, music and the visual arts in the early childhood and elementary curricula will be addressed.

FA 412  FINE ARTS ACROSS THE CURRICULUM  3
First offering: Spring 2003. Prereq.: Admission to the Professional Program in Teacher Education. Introduction to concepts and skills in music, creative dramatics, dance/movement, physical education, and visual arts. Discussion of the basic strategies to integrate these disciplines into the school curriculum including the development of integrated lesson plans. Field experience required.

FA 490  INTEGRATING THE FINE ARTS FOR THE YOUNG LEARNER  3
Prereq.: Permission of department chair in Art, Music, or Theatre. Study of the aesthetic experience, its importance for children, and its interrelationship with empirical knowledge. Music, the visual arts, and movement will be investigated, with an emphasis on discovering resources and developing techniques for integrating each. Summer. Mode 4

FRENCH

FR 111  ELEMENTARY FRENCH I  3
Foundations of the French sound system and structure are established through an aural-oral approach. Not open to students with one year of high school study. Area B/Skill Area III

FR 112  ELEMENTARY FRENCH II  3
Prereq.: FR 111 or equivalent. Continuing the presentation of the elements of French language structure. Dictation and aural comprehension are stressed as well as conversation. No credit will be given to students with previous credit for more advanced course work in French except by permission of the department chair. Area B/Skill Area III

FR 125  INTERMEDIATE FRENCH I  3
Prereq.: One year of college French or equivalent. Taught in French. French language structure is reviewed. Short stories and plays. Conversation and composition based on topics of general interest. No credit will be given to students with previous credit for more advanced course work in French except by permission of the department chair. Area B/Skill Area III

FR 126  INTERMEDIATE FRENCH II  3
Prereq.: FR 125 or equivalent. Continuation of FR 125. Taught in French. No credit will be given to students with previous credit for more advanced course work in French except by permission of the department chair. Area B/Skill Area III

FR 151  FRENCH FOR READING KNOWLEDGE  3
Acquisition of basic French reading skills using scientific texts, magazines, popular literature, and other sources. On demand. Skill Area III

FR 225  ESSENTIAL SKILLS IN FRENCH I  3
Prereq.: FR 126 or French placement exam. Taught in French. Extensive use of technology and French language films, with emphasis on development of listening, speaking and writing skills. Fall. Area B/Skill Area III

FR 226  ESSENTIAL SKILLS IN FRENCH II  3
Prereq.: FR 225 or French placement exam. Taught in French. Improvement of the reading and writing of French through the use of contemporary texts, narratives, plays, and poems. Spring. Area B/Skill Area III

FR 261  BUSINESS FRENCH I  3
Prereq.: FR 126 or permission of instructor. Taught in French. Development of the oral and written skills needed for bilingual work situations encountered in business firms, travel bureaus, and government agencies. Study of the cultural attitudes of French business people. Fall. Area B. Skill Area III

FR 262  BUSINESS FRENCH II  3
Prereq.: FR 261 or permission of instructor. Taught in French. Additional practice in oral and written skills needed in bilingual work situations. Study of French business culture in a global perspective. Spring. (O) Skill Area III

FR 301  APPROACHES TO READING FRENCH TEXTS  3
Prereq.: FR 226 (may be taken concurrently) or permission of instructor. Taught in French. Introduction to various literary genres, with emphasis on reading comprehension, structure, theme, characterization, and literary techniques. Fall. Mode 3/Study Area I (I)

FR 302  MASTERPIECES OF FRENCH LITERATURE  3
Prereq.: FR 301 or permission of instructor. Taught in French. Study of representative major works in French literature with emphasis on reading strategies, literary movements, themes, and historical settings. Spring. Mode 3/Study Area I (I)

FR 315  ASPECTS OF FRENCH HISTORY & CULTURE  3
Prereq.: FR 225 or permission of instructor. Taught in English, majors/minors read and write in French. Topics include the most important features of French history, with emphasis on major artistic achievements and physical and political geography. Fall. (E) Study Area II

FR 316  CONTEMPORARY FRANCE  3
Prereq.: FR 315. Taught in French. Politics, social structures, and cultural life of France today. France in relation to Western Europe and in a broader international framework. Spring. (O) Study Area II

FR 335  FRENCH FOR ORAL EXPRESSION  3
Prereq.: FR 226. Taught in French. Development of grammar and idiom for oral proficiency through discussion of readings, films, and other documents. Fall. (E)

FR 336  FRENCH COMPOSITION & TRANSLATION  3
Prereq.: FR 226. Taught in French. Advanced training in the use of French based on readings, translation, and composition. Spring. (O)

FR 350  TOPICS IN FRENCH LITERATURE, CULTURE, AND LANGUAGE  3
Prereq.: FR 301 or permission of instructor. Taught in French. Aspects of French literature, culture, and language not covered in the standard curriculum. Specific topics as announced. May be repeated with different topics for a maximum of 6 credits. Irregular.

FR 441  ADVANCED ORAL PRACTICE  3
Prereq.: Permission of instructor. Open only to non-native speakers of French. Taught in French. Development of fluency in oral self-expression. Speech analysis to improve pronunciation and intonation. Fall. (O)

FR 451  THE STRUCTURE OF MODERN FRENCH  3
Prereq.: Permission of instructor. Taught in French. Assists in the improvement of all aspects of oral expression. Includes study of the sound system, description of word forms, and analysis of syntactic structures. Intensive practice in pronunciation. Irregular.

FR 460  ADVANCED GRAMMAR & COMPOSITION  3
Prereq.: FR 336 or permission of instructor. Taught in French. Written expression of French, particularly in idiomatic-free composition, designed to develop the ability to express shades of meaning. Comprehensive study of French grammar and levels of style. Use of translation from English. Spring. (E)

FR 472  STUDIES IN FRENCH CULTURE  3
Prereq.: FR 302, 336, and permission of instructor. Taught in French. Major cultural developments in post-war and contemporary France. Emergence of new forms of self-expression including the New Novel, dialogue between "high" and "low" culture, and minor genres. Emphasis on the mass media. Spring. (O)
GEOGRAPHIC COURSE DESCRIPTIONS

GEOG 100  SEARCH IN GEOGRAPHY  3  Introduction to processes and value systems in geography. Theme and title may vary from section to section. On demand. Mode 7/Study Area II

GEOG 110  INTRODUCTION TO GEOGRAPHY  3  Basic patterns of physical environment and relationship of human patterns to them are explained. Mode 7/Study Area II

GEOG 120  WORLD REGIONAL GEOGRAPHY  3  Survey of the lands, peoples, and places in the world's major culture regions. Reliance on case studies, investigations of development problems, or other approaches to develop concepts. Mode 7/Study Area II [I]

GEOG 200  HUMAN GEOGRAPHY  3  Survey of the world's people and their culture. Topics studied may include population, religion, language, settlement, architecture, land tenure, ideologies, social problems, behavior, resource utilization, and environmental change. Mode 7/Study Area II [I]

GEOG 223  GEOGRAPHY OF THE POPULAR MUSIC INDUSTRY  3  Examines the growth of the popular music industry and its impact on the spatial/locational nature of society. Basic human geographic concepts such as migration, diffusion regional identity, and place are discussed. Spring. Study Area II [I]

GEOG 241  INTRODUCTION TO PLANNING  3  Introduction to the principles and practice of planning at various spatial scales - regional, metropolitan, urban, and neighborhood. Mode 7/Study Area II

GEOG 244  ECONOMIC GEOGRAPHY  3  Spatial and ecological aspects of the economic development of world regions, resource and population balance, international trade issues, and geopolitics of the post-Cold War era. Spring. Mode 7/Study Area II [I]

GEOG 256  MAPS & MAP READING  3  Conferences and practical exercises in the use and interpretation of a variety of map types. Emphasis on the topographic map. Map sources will be discussed. Mode 7

GEOG 266  AIR PHOTO INTERPRETATION  3  Conferences and practical exercises in the use and interpretation of aerial photographs. Fall. Mode 7

GEOG 270  GEOGRAPHY OF HAZARDS  3  Prereq.: GEOG 110 or ESCI 110. Examines human and environmental generation of risks and hazards. Discussion will focus on both the social and physical aspects of causality, risk perception and mitigation. Spring. Study Area II [I]

GEOG 272  PHYSICAL GEOGRAPHY  3  Prereq.: GEOG 110 or permission of instructor. Analysis of the landforms at the earth's surface, their distribution, genesis, and relationships to the other natural phenomena. Spring. Mode 7/Study Area IV

GEOG 275  SOILS AND VEGETATION  3  Analysis of major soil groups and vegetation zones and their relationship to other geographic factors, including land use and rural or urban planning. Field experiences are part of this course. Mode 7/Study Area IV

GEOG 276  ELEMENTARY CARTOGRAPHY  3  Instruction and practice in the fundamentals of map construction, design, symbolism, and reproduction; emphasis on the use of cartographic drafting instruments, mediums, and materials. Mode 7 [c]

GEOG 290  GEOGRAPHY OF TOURISM  3  Physical and cultural factors affecting the locations and relative importance of recreational areas and tourist attractions, both foreign and domestic. Spatial analysis of tourist flows, modes of transportation, effects on regional economies, and impacts on environments. Mode 7/Study Area II [I]

GEOG 291  NATIONAL PARKS AND WORLD HERITAGE SITES  3  Examination of sustainability issues for tourism development in preserved areas. Comparative analysis of national park systems globally. Case studies of individual national parks and UNESCO World Heritage sites included. Spring. Study Area II. [I]

GEOG 330  UNITED STATES AND CANADA  3  The environmental, cultural, and economic patterns that give character to the different parts of the United States and Canada. Analysis of the internal structure and functions of cities such as New York and Los Angeles and regional planning in problem areas such as Appalachia, Alaska, and Southern California. Fall. Mode 7

GEOG 374  CLIMATOLOGY  3  Prereq.: GEOG 110 or ESCI 110, or permission of instructor. Earth's climate with an emphasis on the physical processes and dynamics of the atmosphere. Topics include regional, urban and historical climatologies, atmospheric pollution, and climate change. Some class time will be devoted to practical exercises. Spring. Mode 7

GEOG 378  INTRODUCTION TO GEOGRAPHIC INFORMATION SYSTEMS  2  To 3  Prereq.: GEOG 256 or 276, or permission of instructor. Introduction to raster and vector geographic information systems, with a focus on application areas in natural resource management, urban and regional planning, and business. Taken concurrently with GEOG 379. One two-hour lecture and one two-hour lab per week. [c]

GEOG 379  GIS LABORATORY  1  Geographic information systems laboratory. Application areas vary by section. Taken concurrently with GEOG 378. [c]

GEOG 414  TEACHING METHODS IN GEOGRAPHY  2  To 3  Prereq.: Admission to the Professional Program. Concepts, methods, and materials for teaching geography. Middle-level certification students selecting the Complementary Subject Matter Area in geography will enroll for two credits; all others will enroll for three credits. Fall.

GEOG 420  INTERNSHIP IN PLANNING  3  Prereq.: Permission of the department chair. Restricted to students who are pursuing a specialization in planning. Participants will serve as interns in a municipal, regional, state, or private planning agency under the supervision of a geography faculty member. On demand.

GEOG 425  INTERNSHIP IN INTERNATIONAL HOSPITALITY STUDIES  3  Prereq.: Permission of the department chair. Semester or six months work in an environment directly related to studies in international hospitality and tourism, under the on-site supervision by an affiliate faculty member from a liaison institution. Substantial pre-trip orientation and post-trip reports required. On demand. [I]

GEOG 430  INTERNSHIP IN GEOGRAPHY  3  Prereq.: Permission of the department chair. Students will work in an environment directly related to the track or planned program they are following, under the supervision of a geography faculty member. Written reports are required. No credit given to students with credit for GEOG 420. On demand.

GEOG 433  ISSUES IN ENVIRONMENTAL PROTECTION  3  Issues in the environmental protection planning process. Topics include air quality, noise, solid waste, hazardous materials, wilderness areas, endangered species, wetlands, and land use issues. A single field trip may be required. Mode 7

GEOG 434  MEXICO, CENTRAL AMERICA, AND THE CARIBBEAN  3  Study of our nearest neighbors south of the border, concentrating on people, the land on which they live, and related problems, primarily from a regional point of view. Fall. Mode 7 [I]

GEOG 435  JAPAN AND KOREA  3  Study of the physical framework, resources, economic activities, and characteristic landscapes of Japan and Korea. Activities of the people of Japan and Korea in relation to their environment and resources, and the differing problems of development facing both nations. Fall. (O) Mode 7 [I]
GEOG 436 SOUTH AMERICA
A survey of the countries of South America with emphasis on people, places, and problems. Spring. Mode 7 [I]

GEOG 437 CHINA
Physical, economic, political, and historical geography of China. Special consideration of its population, resources, agricultural growth, and industrial expansion. Discussion of the geographic bases and the expansion of the Chinese State and the contemporary foundation of Chinese national power. Fall. (E) Mode 7 [I]

GEOG 439 URBAN GEOGRAPHY
Form, function, and evolution of urban settlements with reference to attributes of place. Emphasis is also placed on internal structure and external relationships of cities. Provides a methodological basis for thought involving the planning process, including preservation planning and systems analysis. Personal on-site study of a current urban problem within the state is expected. Spring. Mode 7

GEOG 440 RURAL LAND PLANNING
Land use patterns and the planning process in agriculture, transportation, recreation, industry, population, and settlement in rural areas. Case studies and field work emphasizing the impact of urbanization on rural Connecticut. Fall. (O) Mode 7

GEOG 441 COMMUNITY & REGIONAL PLANNING
Philosophies, theories, and principles involved in planning of regions and urban areas. Fall. Mode 7

GEOG 442 FIELD METHODS IN GEOGRAPHY
Prereq.: 3 credits in Geography or permission of instructor. Design and execution of field research in physical and human geography. Techniques include field notes, sketching, area sampling, planar mapping, questionnaire design and administration, design of coding forms, soil and vegetation surveying. Both team and individual field research projects. Fall. (O) Mode 7

GEOG 443 ENVIRONMENTAL PLANNING
Prereq.: GEOG 110 or permission of instructor. Examines the environmental impacts of land development and natural constraints on planning and public policy decision-making. Case studies and field work will emphasize aspects of environmental planning in the Greater Hartford region. Spring.

GEOG 444 SUB-SAHARAN AFRICA
Relationships between physical environment and human development in Africa south of the Sahara. Spring. (E) Mode 7 [I]

GEOG 446 SUB-SAHARAN AFRICA
Environmental, cultural, and economic patterns that give character to the various regions of Russia. Its contemporary political economy viewed in spatial and historical context. Examination of Russia's relationship with Central Asia, East Asia, Eastern Europe and the EC. Fall. (E) Mode 7 [I]

GEOG 450 TOURISM PLANNING
Prereq.: GEOG 290 or 291 or permission of chair. Integrated and sustainable development approach to tourism planning explored through lectures, seminars and case studies at the national, regional, and community levels. Focus on public and private initiatives in tourism planning. Fall. Mode 7

GEOG 451 TOURISM DEVELOPMENT IN SOUTHERN NEW ENGLAND
Prereq.: GEOG 290 or 291 or permission of instructor or department chair. Study of the tourism industry, including perspectives on supply, demand, and socio-economic impacts. Focus on issues, problems, and opportunities in tourism, including functions of state and regional tourism agencies in southern New England. Spring. (E) Mode 7

GEOG 452 EUROPEAN UNION
Environmental, cultural, and economic patterns that give character to the different countries, regions, and cities of the European Union. Analysis of spatial changes associated with European integration. Spring. Mode 7 [I]

GEOG 453 RECREATION AND RESORT PLANNING
Prereq.: GEOG 290 or GEOG 291 or permission of instructor or department chair. Study of the supply, location, distribution, use, planning, management, and impact of recreation facilities in both urban and rural situations. Spring. Mode 7

GEOG 454 GEOGRAPHY OF TOURISM MARKETING
Prereq.: GEOG 290 and MKT 295 or permission of instructor. Examination of geographic elements and issues within the tourism industry, with a focus on how these influence the spatial aspects of tourist behavior and industry development strategies. Spring. Mode 7

GEOG 455 NEW DIRECTIONS IN TOURISM
Prereq.: GEOG 290 or 291 or permission of instructor or department chair. Prereq.: GEOG 290 or permission of instructor. Study of contemporary forms of tourism including ecotourism, heritage tourism, and educational travel, which have their own impacts, management, and planning needs, and which differ notably from the traditions of mass tourism. Fall. Mode 7 [I]

GEOG 459 FIELD STUDIES IN REGIONAL GEOGRAPHY
Prereq.: Permission of instructor. On-site group studies in regional geography. This course normally involves travel outside the United States. Only 3 credits may be applied to General Education requirements. May be repeated for a maximum of twelve credits but only six of these credits may be used toward the Geography major. Winter and Summer Sessions. Mode 7 [I]

GEOG 460 READINGS IN GEOGRAPHY
Prereq.: Permission of instructor. Directed independent studies in geography. May be taken more than once for credit. On demand.

GEOG 472 TOPICS IN PHYSICAL GEOGRAPHY
Prereq.: GEOG 272 or 275 or 374 or permission of instructor. Selected topics in physical geography including urban climates, microclimatology, global change, coastal environments, and the impact of glacial and periglacial processes on landforms. May be repeated with different topics for a maximum of 6 credits. Fall.

GEOG 473 GEOGRAPHY OF NATURAL RESOURCES
Prereq.: GEOG 110 or permission of instructor. Examines the definition, location, and evaluation of management. Focus on management strategies and cost-benefit analysis of environmental degradation associated with resource use. Examples illustrated with GIS and remote sensing techniques. Spring. (O)

GEOG 476 COMPUTER CARTOGRAPHY
Prereq.: GEOG 256 or 276 or permission of instructor. Use of statistical packages to process data for cartographic purposes. Familiarization with major computer mapping programs. "Hands on" experiences emphasized. No knowledge of computer programming required. Fall. [c]

GEOG 478 GIS DESIGN AND IMPLEMENTATION
Prereq.: GEOG 378 or permission of instructor. Advanced study of geographic information systems and applications. Students will prepare a proposal to develop GIS for a municipality or non-profit organization. Portions of the database will be implemented. Concentration on vector software. Fall. [c]

GEOG 483 TOPICS IN PLANNING
Prereq.: GEOG 241 or permission of instructor. Selected topics in planning. May be repeated with different topics for a maximum of 6 credits. On demand.

GEOG 490 CONNECTICUT
Explanation and analysis of man's occupancy of Connecticut, employing the concept of areal differentiation, the methodology of historical research. Spring. Mode 7

GERMAN

GER 111 ELEMENTARY GERMAN I
Functional approach to grammar. Facility in understanding spoken German and in reading is developed. Not open to students with one year or more of high school study. Area B/Skill Area III
COURSE DESCRIPTIONS

GER 112  ELEMENTARY GERMAN II  3
Prereq.: GER 111 or equivalent. Presentation of elements of German grammar is completed. Further practice in conversation, writing and speaking based on collateral reading. No credit will be given to students with previous credit for more advanced course work in German except by permission of the department chair. Area B/Skill Area III [I]

GER 125  INTERMEDIATE GERMAN I  3
Prereq.: One year of college German or equivalent. Grammar review, conversation, and composition based on popular German readings including some one-act plays. No credit will be given to students with previous credit for more advanced course work in German except by permission of the department chair. Fall. Area B/Skill Area III [I]

GER 126  INTERMEDIATE GERMAN II  3
Prereq.: GER 125 or equivalent. Continuation of GER 125. No credit will be given to students with previous credit for more advanced course work in German except by permission of the department chair. Spring. Area B/Skill Area III [I]

GER 225  GERMAN COMPOSITION & DICTION  3
Prereq.: GER 126 or permission of instructor. Course to train students in self-expression by means of frequent composition in German, in addition to systematic drills in pronunciation and intonation. Fall. Area B/Skill Area III [I]

GER 226  GERMAN STRUCTURE AND IDIOM  3
Prereq.: GER 225 or permission of instructor. Course designed to develop idiomatic usage and fluency of expression. Spring. Area B/Skill Area III [I]

GER 305  LITERARY MASTERPIECES SINCE 1800  3
Prereq.: GER 226 (may be taken concurrently). Introduction to major works of German literature since 1800. Spring. Mode 3/Study Area I [I] [L]

GER 315  GERMAN CIVILIZATION TO 1800  3
Prereq.: GER 226 (may be taken concurrently). Cultural development of Germany from its beginnings to 1800. Fall. Study Area II [I]

GER 316  GERMAN CIVILIZATION FROM 1800 TO PRESENT  3
Prereq.: GER 226 (may be taken concurrently). Cultural development of Germany from 1800 to the present. Spring. Study Area II [I]

GER 335  ADVANCED COMPOSITION AND DICTION  3
Prereq.: GER 226. Additional practice in written and oral expression. Fall. [I]

GER 336  ADVANCED STRUCTURE & IDIOM  3
Prereq.: GER 335. Additional practice in idiomatic usage and verbal fluency. Spring. [I]

GER 360  LITERARY MASTERPIECES TO 1800  3
Prereq.: GER 225 or 226 (may be taken concurrently). Introduction to major works in German literature from its beginning to 1800. Fall. Mode 3/Study Area I [I] [L]

GER 379  19TH CENTURY GERMAN LITERATURE  3
Prereq.: GER 305 or equivalent. Literature of Romanticism, Realism, and Naturalism. Spring. (O) [I]

GER 380  20TH CENTURY GERMAN LITERATURE  3
Prereq.: GER 305 or equivalent. Literature of Impressionism, Expressionism, Neue Sachlichkeit, and other modern movements. Fall. (E) [I]

GER 385  THE SOUND AND STRUCTURE OF GERMAN  3
Prereq.: Permission of instructor. Intensive and systematic study of the grammatical and phonetic structures of the German language for the advanced student. On demand. [I]

GER 410  BUSINESS GERMAN I  3
Prereq.: Permission of instructor. Development of the oral and written skills needed for bilingual work in the fields of business, tourism, science, technology, law enforcement, social service and international relations. Fall. [I]

HEALTH AND HUMAN SERVICE PROFESSIONS

HHSP 246  HEALTH CARE ETHICS  3
Introduction to basic ethical theories and the analysis of the application of such theories to contemporary health care issues. Nursing support course.

HHSP 341  ETHICAL CONCERNS OF THE FEMALE PATIENT  3
Prereq.: PHIL 144 or HHSP 246, or permission of instructor. Examination of medical-ethical concerns of women beginning with problems affecting the adolescent female and ending with issues surrounding the care of the elderly woman. On demand.

HHSP 342  ETHICAL ISSUES CONFRONTING THE GERIATRIC PATIENT  3
Prereq.: PHIL 144 or HHSP 246, or permission of instructor. Examination of major ethical, social, and political issues arising in the course of caring for and treating the elderly patient as well as those arising as a result of decision not to treat these patients. On demand.

HHSP 490  HEALTH CARE MANAGEMENT  3
Prereq.: Permission of instructor. Overview of the concepts and practices of management needed by health care clinicians to fulfill managerial responsibilities in a variety of health care settings.

HHSP 491  INTRODUCTION TO CARE/CASE MANAGEMENT  3
Prereq.: Permission of instructor. Introduction to the concepts and practices of care/case management. On demand.

HHSP 492  CLINICAL IMPLEMENTATION OF CARE/CASE MANAGEMENT  3
Prereq.: HHSP 491 or permission of instructor. Clinical course designed to introduce health care professionals to the delivery of care/case management services. On demand.

HHSP 493  PROFESSIONAL ISSUES IN CARE/CASE MANAGEMENT  3
Prereq.: HHSP 491 or permission of instructor. Ethical and legal aspects of care/case management. On demand.

HHSP 494  INTRODUCTION TO HOSPICE CARE  3
Prereq.: Permission of instructor. Introduction to the concepts and practices of hospice care. On demand.

HHSP 495  CLINICAL IMPLEMENTATION OF HOSPICE CARE  3
Prereq.: HHSP 494 or permission of instructor. Clinical course designed to introduce health care professionals to the delivery of hospice care. On demand.

HHSP 496  PROFESSIONAL ISSUES IN HOSPICE CARE  3
Prereq.: HHSP 494 or permission of instructor. Ethical and legal aspects of hospice care. On demand.

HISTORY

HIST 100  SEARCH IN HISTORY  3
Introduction to intellectual processes and value systems in history. Titles and themes may vary from section to section. Mode 5/Study Area II

HIST 121  WORLD CIVILIZATION I  3
World civilization to the 17th century. No credit for students who have received credit for HIST 142. Mode 5/Study Area II [I]

HIST 122  WORLD CIVILIZATION II  3
World civilization from the 17th century. No credit given to those with credit for HIST 143. Mode 5/Study Area II [I]
HIST 142 WESTERN CIVILIZATION I 3
Ancient, medieval, and early modern contributions to the development of contemporary thought and institutions through the 17th century. No credit for students who have received credit for HIST 121. Mode 5/Study Area II [I]

HIST 143 WESTERN CIVILIZATION II 3
Western civilization from the 17th century to the present. No credit for students who have received credit for HIST 122. Mode 5/Study Area II [I]

HIST 231 ANCIENT CIVILIZATION 3
Cultures of ancient Near East and Mediterranean. Fall. Mode 5/Study Area II [I]

HIST 232 MEDIEVAL CIVILIZATION 3
European history and institutions from the fall of Rome to 1300. Spring. Mode 5/Study Area II [I]

HIST 261 HISTORY OF AMERICAN LIFE I 3
Political, economic, social and cultural development to 1865. Mode 5/Study Area II

HIST 262 HISTORY OF AMERICAN LIFE II 3
Political, economic, social and cultural development since 1865. Mode 5/Study Area II

HIST 301 THE HISTORICAL IMAGINATION 3
Prereq.: A minimum of 6 credit hours in History. Students will practice history rather than simply study it in a passive sense. By honing research, analytical and writing skills students will be better prepared for upper level classes and work outside the university. History majors only. Must be taken prior to, or concurrently with, major's first 400-level history course.

HIST 310 COMMUNITIES IN AMERICAN HISTORY 3
Social history of the United States with emphasis on the specialized skills necessary for researching New England local history. Readings will survey public history opportunities in museums, archives, government agencies, historical firms, businesses and historical societies. May require off-campus research. Fall. Mode 5

HIST 330 HISTORY OF WOMEN IN THE UNITED STATES, 1620-1865 3
Survey of women in the United States from the colonial period through the Civil War, with special emphasis on how race, class, and ethnicity shaped women's experiences. Fall. Mode 5

HIST 331 HISTORY OF WOMEN IN THE UNITED STATES, 1865-PRESENT 3
Survey of women in the United States from Reconstruction to the present with special emphasis on how race, class, and ethnicity shaped women's experiences. Spring. Mode 5

HIST 335 WOMEN, MARRIAGE, AND FAMILY IN EARLY MODERN EUROPE 3
Impact of social, economic, and ideological change on gender roles and family structure in European society during the Renaissance, Reformation, and post-Reformation periods, 1400-1700. Spring. Mode 5 [I]

HIST 341 ENGLISH HISTORY TO 1715 3
Forces contributing to the growth of English civilization and development of Great Britain. Fall. Mode 5 [I]

HIST 342 ENGLISH HISTORY SINCE 1715 3
Continuation of HIST 341. Spring. Mode 5 [I]

HIST 343 MODERN IRELAND: 1600 - PRESENT 3
Introduction to political, social, and economic history of modern Ireland, with special focus on nationalism, the impact of the Great Famine, the achievement of independence, and the ongoing conflict in the north. Spring. Mode 5 [I]

HIST 344 HISTORY OF MODERN GERMANY 3
German history from 1871 to the present. Fall. (O) Mode 5 [I]

HIST 347 HISTORY OF RUSSIA I 3
History of Russia from the ninth century to 1861. Fall. Mode 5 [I]

HIST 348 HISTORY OF RUSSIA II 3
History of Russia from 1861 to the present. Mode 5 [I]

HIST 351 EAST ASIA TO 1800 3
Political, cultural, economic, and social history of East Asian countries. Fall. Mode 5/Study Area II [I]

HIST 352 EAST ASIA SINCE 1800 3
Continuation of HIST 351, with additional emphasis on contemporary, foreign, and colonial politics related to the Far East. Spring. Mode 5/Study Area II [I]

HIST 356 HISTORY OF EAST CENTRAL EUROPE SINCE 1919 3
Social and political institutions of the Successor states in the Danubian area from 1919. Spring. (O) Mode 5 [I]

HIST 361 THE WEST IN UNITED STATES HISTORY 3
Westward movement and its significance in American history. Fall. Mode 5

HIST 369 AFRICAN-AMERICAN HISTORY 3
Survey of African-American life from the slave trade through the 1970s. Fall. (E) Mode 5

HIST 375 HISTORY OF AFRICA TO 1800 3
Examination of economic, social, and political developments in Africa to the end of the 18th century. Spring. Mode 5/Study Area II [I]

HIST 376 HISTORY OF AFRICA SINCE 1800 3
Examination of economic, social, and political developments in Africa from the end of the 18th century to the present. Spring. Mode 5/Study Area II [I]

HIST 377 HISTORY OF CHRISTIANITY I 3
Christianity from its origins to 1450 A.D. Jewish origins, literature, central doctrines, and institutional development. Consideration of its influence on secular life and institutions. Fall. (O) Mode 5 [I]

HIST 378 HISTORY OF CHRISTIANITY II 3
Christianity from 1450 A.D. to present. Continuation of Christianity I. Spring. (O) Mode 5 [I]

HIST 381 LATIN AMERICAN HISTORY TO 1823 3
Social, economic, political, and cultural development of Latin American countries to 1823. Fall. (O) Mode 5 [I]

HIST 382 LATIN AMERICAN HISTORY SINCE 1823 3
Social, economic, political, and cultural development of Latin American countries since 1823. Spring. (O) Mode 5 [I]

HIST 395 TOPICS IN HISTORY 3
An intermediate course exploring specific areas of historical inquiry and research. Topics vary. May be repeated with different topics for a maximum of 6 credits. Irregular.

HIST 410 RESEARCHING AND WRITING LOCAL HISTORY 3
Prereq.: HIST 301 or 310 or permission of instructor. Utilization and practice of public history to research and write Connecticut and New England local history. May require off-campus research. Spring. Mode 5

HIST 423 COLONIAL PERIOD OF AMERICAN HISTORY 3
Prereq.: HIST 301 or 310 or permission of instructor. Development of America to 1763. Fall. Mode 5

HIST 424 ESTABLISHMENT OF A NEW NATION 3
Prereq.: HIST 301 or 310 or permission of instructor. Establishment of the United States of America from 1763 to 1800. Spring. Mode 5

HIST 425 ERA OF NATIONAL DEVELOPMENT 3
Prereq.: HIST 301 or 310 or permission of instructor. Political, social, and economic development from 1800 to 1850, with special emphasis on the development of party systems. Fall.
HIST 426 THE UNITED STATES, 1850-1896 3
Prereq.: HIST 301 or 310 or permission of instructor. The U.S. from the Compromise of 1850 to Plessy v. Ferguson (1896): Civil War, Reconstruction, and the shift of public concern to problems of industrialization, urbanization, and immigration. Spring. Mode 5

HIST 427 THE UNITED STATES, 1890-1933 3
Prereq.: HIST 301 or 310 or permission of instructor. Industrial growth, immigration, political reform, the Great Depression, and the rise of the United States as a world power. Fall. Mode 5

HIST 428 THE UNITED STATES SINCE 1933 3
Prereq.: HIST 301 or 310 or permission of instructor. Major political, social, economic, cultural, and diplomatic developments since 1933. Spring. Mode 5

HIST 429 WOMEN AND REFORM IN AMERICAN SOCIETY, 1870-1920 3
Prereq.: HIST 301 or 310 or permission of instructor. Involvement of women in suffrage reform, temperance, immigration reform, the social hygiene movement, the crusade against prostitution and white slavery, birth control, socialism, and problems of gender between 1870 and 1920 will be considered. Spring. (O) Mode 5

HIST 431 ANCIENT NORTHEAST AFRICA 3
Prereq.: HIST 301 or 310 or permission of instructor. Aspects of the history and legacies of ancient northeast Africa with focus upon Nubia, Egypt, and Aksum. Irregular. Irregular. Mode 5 [I]

HIST 432 HISTORY OF ANCIENT GREECE 3
Prereq.: HIST 301 or 310 or permission of instructor. Greek institutions from the Mycenaean period to the accession of Constantine. Fall. Mode 5 [I]

HIST 433 HISTORY OF ANCIENT ROME 3
Prereq.: HIST 301 or 310 or permission of instructor. Roman institutions from the regal period to the reign of Constantine. Spring. Mode 5 [I]

HIST 435 HISTORY OF LATER MEDIEVAL EUROPE 3
Prereq.: HIST 301 or 310 or permission of instructor. The Late Roman empire to the 11th century. Spring. (E) Mode 5 [I]

HIST 436 HISTORY OF LATER MEDIEVA EUROPE 3
Prereq.: HIST 301 or 310 or permission of instructor. The Crusades to the Great Schism. Spring. (O) Mode 5 [I]

HIST 441 RENAISSANCE & REFORMATION 3
Prereq.: HIST 301 or 310 or permission of instructor. History of Europe during the Age of Transition and the Era of the Religious Wars, 1300-1648. Fall. (E) Mode 5 [I]

HIST 442 EUROPEAN HISTORY, 1650-1815 3
Prereq.: HIST 301 or 310 or permission of instructor. Social, economic, political, and cultural forces of the period in relation to formation of modern society and government. Spring. (E) Mode 5 [I]

HIST 443 EUROPEAN HISTORY, 1815-1918 3
Prereq.: HIST 301 or 310 or permission of instructor. Political, economic, and social institutions in relation to rise of liberalism, nationalism, socialism, and imperialism. Fall. Mode 5 [I]

HIST 444 EUROPEAN HISTORY, 1918 TO PRESENT 3
Prereq.: HIST 301 or 310 or permission of instructor. National and international problems of European states. Spring. Mode 5 [I]

HIST 445 EUROPEAN INTELLECTUAL HISTORY, 1750-1870 3
Prereq.: HIST 301 or 310 or permission of instructor. Main currents of European thought and culture from 1750 to 1870. Fall. (E) Mode 5 [I]

HIST 446 EUROPEAN INTELLECTUAL HISTORY, 1870-PRESENT 3
Prereq.: HIST 301 or 310 or permission of instructor. Main currents of European thought and culture from 1870 to the present. Spring. (E) Mode 5 [I]

HIST 447 HISTORY OF THE SOVIET UNION 3
Prereq.: HIST 301 or 310 or permission of instructor. Study of the rise and fall of Soviet Communism, 1917-1991. Irregular. Mode 5 [I]

HIST 448 STALIN AND STALINISM 3
Prereq.: HIST 301 or 310 or permission of instructor. Historical study of Stalin and Stalinism stressing multi-disciplinary perspectives, considered in the light of the collapse of the Soviet Union. Irregular. Mode 5 [I]

HIST 453 HISTORY OF MODERN CHINA 3
Prereq.: HIST 301 or 310 or permission of instructor. China during the late Ch'ing, Republican and Communist periods. Fall. Mode 5 [I]

HIST 454 HISTORY OF MODERN JAPAN 3
Prereq.: HIST 301 or 310 or permission of instructor. Japan during the 19th and 20th centuries. Spring. Mode 5 [I]

HIST 456 CHINESE INTELLECTUAL HISTORY 3
Prereq.: HIST 301 or 310 or permission of instructor. The major intellectual, social, and political texts that shaped the Chinese historical tradition and formed the basis for the development of East Asian civilization. Fall. (O) Mode 5 [I]

HIST 457 THE FAMILY IN CHINESE HISTORY 3
Prereq.: HIST 301 or 310 and 351 or permission of instructor. Study of family structure and organization in Chinese history with special attention to the Confucian paradigm. Topics include the family and the state; men, women and children in the family; and the family as an economic unit. Fall. Mode 5 [I]

HIST 458 UNITED STATES SECTIONALISM: THE CLASH OF CULTURES 3
Prereq.: HIST 301 or 310 or permission of instructor. Clash of Northern and Southern culture over the issues of slavery from 1787 to 1861. Emphasis on the attempt to quell sectional disputes through political compromise, the rise of abolitionism, and the creation of a "Slave Power." Spring. Mode 5

HIST 460 AFRICAN ENSLAVEMENT IN THE AMERICAS 3
Prereq.: HIST 301 or 310 or permission of instructor. Comparative history of slavery in Latin America, the Caribbean, and the United States from 1492-1888. Fall. (O) Mode 5 [I]

HIST 463 CONSTITUTIONAL HISTORY OF THE UNITED STATES TO 1900 3
Prereq.: HIST 301 or 310 or permission of instructor. Study of nation's fundamental law as influenced by political, economic, and social forces. Fall. (E) Mode 5

HIST 465 ECONOMIC HISTORY OF THE UNITED STATES 3
Prereq.: HIST 301 or 310 or permission of instructor. American economy from its agricultural beginnings through stages of its commercial, industrial, and financial growth. Mode 5

HIST 466 HISTORY OF AMERICAN TECHNOLOGY 3
Prereq.: HIST 301 or 310 or permission of instructor. The history and development of technology in America, emphasizing sources of technology, its impact on the workplace, on the reorganization of production and management, and on change in the larger society. Fall. Mode 5

HIST 469 AFRICAN AMERICANS IN THE TWENTIETH CENTURY 3
Prereq.: HIST 301 or 310 or permission of instructor. Political, economic, social, and cultural developments in Black America since 1900. Fall. (O) Mode 5

HIST 472 MODERN MIDDLE EAST 3
Prereq.: HIST 301 or 310 or permission of instructor. Historical developments in the 20th century with a special emphasis on political, social, and economic conflicts. Fall. Mode 5 [I]

HIST 473 HISTORY OF JUDAISM 3
Prereq.: HIST 301 or 310 or permission of instructor. Analysis of major themes in the historical development of Judaism from ancient times to the present. Spring. Mode 5 [I]
HIST 474  HISTORY OF THE ARAB-ISRAELI CONFLICT  
Prereq.: HIST 301 or 310 or permission of instructor. History of the Arab-Israeli conflict from the time of Israel's creation as a modern nation-state until the present. Spring. Mode 5 [I]

HIST 476  AFRICAN HISTORY THROUGH FILM  
Prereq.: HIST 301 or 310 or permission of instructor. Africa's past and present are viewed through a series of movies and intensive scholarly discussion of selected topics and themes. Readings are derived from current scholarly research on the various issues discussed. Irregular. Mode 5 [I]

HIST 479  HISTORY OF POLAND: FROM THE PIASTS TO PARTITION, 966-1795  
Prereq.: HIST 301 or 310 or permission of instructor. Previously HIST 350. The medieval Kingdom, the Polish Lithuanian Commonwealth, and the Partitions. Fall. (O) Mode 5 [I]

HIST 480  MODERN POLAND  
Prereq.: HIST 301 or 310 or permission of instructor. Examination of the course of modern Polish history, including the restoration of independence in 1918, World War II, communist rule, Solidarity, and the recovery of sovereignty in 1989. Fall. (E) Mode 5 [I]

HIST 481  THE JEWS OF POLAND  
Prereq.: HIST 301 or 310 or permission of instructor. Topics include immigration and settlement, community development and rights and privileges before 1795, modernization, nationalism, anti-Semitism, independence, Polish-Jewish relations during the holocaust, exodus and marginalization in communist Poland, and the new Polish Jews. Fall (E) [I]

HIST 482  THE POLISH-AMERICAN IMMIGRANT AND ETHNIC COMMUNITY  
Prereq.: HIST 301 or 310 or permission of instructor. Topics include immigration and settlement in the United States, organizational infrastructure, heroes and myths, homeland politics and national consciousness, labor, class, ethnicity, cultural assimilation and political integration, and stereotypes and ethnic identity. Spring (O) [I]

HIST 483  HISTORY OF INTER-AMERICAN RELATIONS  
Prereq.: HIST 301 or 310 or permission of instructor. Inter-American relations from inception of the Monroe Doctrine to the present. Fall. (E) Mode 5 [I]

HIST 484  HISTORY OF MEXICO  
Prereq.: HIST 301 or 310 or permission of instructor. Mexico from high culture of the Mayans through conquest, colonial period, independence, and national development. Spring. (E) Mode 5 [I]

HIST 488  AMERICAN BUSINESS HISTORY  
Prereq.: HIST 301 or 310 or permission of instructor. Historical examination of the forms and strategies employed by business in modern America. Spring. (O) Mode 5 [I]

HIST 489  AMERICAN LABOR HISTORY  
Prereq.: HIST 301 or 310 or permission of instructor. Historical examination of the response of American Labor to technological change and the development of a formal, institutionalized labor movement. Spring. (E) Mode 5 [I]

HIST 490  SENIOR SEMINAR  
Prereq.: HIST 301 or 310 or permission of instructor. Special Conditions: Undergraduate history majors only. At least 24 history credits. Including HIST 301 or 310, and 6 credits at 400 level. Senior seminar. Mode 5

HIST 493  DIRECTED READINGS IN HISTORY  
Prereq.: HIST 301 or 310 or permission of instructor and six credits of 400-level History courses or permission of Department Chair. Individual program of studies for students with special interests and abilities. Topics to vary from semester to semester. Not more than 3 credits to be taken in one semester. On demand. May be repeated once.

HIST 497  TOPICS IN HISTORY  
Prereq.: HIST 301 or 310 or permission of instructor. Historical focus on a facet of history in order to help clarify current domestic and/or world developments. May be repeated with different topics for up to 6 credits. Mode 5

HONORS

HON 110  WESTERN CULTURE I  
Prereq.: Member of Honors Program or permission of Director of Honors Program. Introduction to western culture including its foundation in the ancient world. Spring. All modes except 2, 8 and Area D/Study Area I

HON 120  SCIENCE & SOCIETY I  
Prereq.: Member of Honors Program or permission of Director of Honors Program. Satisfies non-laboratory requirement of Study Area IV. Selected topics from the natural sciences and their relation to society. Spring. Mode 8/Study Area IV

HON 130  WORLD CULTURES I  
Prereq.: Honors Program participant. Introduction to the study of world cultures. Fall. All modes except 2, 8 and Area D/Study Area II [I]

HON 140  WRITING & RESEARCH I  
Prereq.: Honors Program participant. Principles of critical thinking and persuasive writing, with applications to written and oral presentations. Fall. All modes except 2, 8 and Area D/Skill Area I

HON 210  WESTERN CULTURE II: TOPICS IN WESTERN CULTURE  
Prereq.: Member of Honors Program or permission of Director of Honors Program. Selected topics in western culture including discussion of historical contexts. Fall. All modes except 2, 8 and Area D/Study Area I

HON 220  SCIENCE AND SOCIETY II: SOCIAL SCIENCES AND SOCIETY  
Prereq.: Honors Program participant. Selected topics from the social sciences and their relation to society. Spring. All modes except 2, 8 and Area D/Study Area III

HON 230  WORLD CULTURES II: TOPICS IN WORLD CULTURES  
Prereq.: Honors Program participant. Selected topics from world cultures. Fall. All modes except 2, 8 and Area D/Study Area II [I]

HON 250  WESTERN/WORLD CULTURE III: COMPARATIVE TOPICS  
Prereq.: Member of Honors Program or permission of Director of Honors Program. Selected topics in comparative cultures from western and world perspectives. Spring. Study Area III [I]

HON 440  WRITING & RESEARCH II  
Prereq.: Honors Program participant. Methodology of thesis writing and presentation of thesis proposal. Fall. All modes except 2, 8 and Area D/Study Area I

HON 441  WRITING & RESEARCH III  
Prereq.: Honors Program participant. Independent research developed from previous Honors Program courses. Spring. Modal and area credit appropriate to subject matter/Skill Area I

HON 442  WRITING & RESEARCH IV: THESIS WORKSHOP  
Prereq.: Member of Honors Program or permission of Director of Honors Program, and HON 441 (taken concurrently) Problems and solutions in thesis writing. Spring. Study Area II

HUMANITIES

HUM 100  SEARCH IN THE HUMANITIES  
Introduction to the intellectual processes and value systems in the humanities. Titles and themes may vary from section to section. Mode 3/Study Area I
COURSE DESCRIPTIONS

HUM 250  TOPICS IN EUROPEAN LITERATURE  3
Prereq.: ENG 110. Formerly HUM 150. A literary figure, movement or theme in
European Literature studied in translation. Topic may vary from semester to semes-
ter. On demand. Mode 3/Study Area I [I] [I]

HUM 290  STUDIES IN MODERN CIVILIZATION  3 OR 6
Insights into the culture of other lands as reflected in the arts, national traditions,
institutions and values. Area or topic may vary from semester to semester. On
demand. [I]

HUM 490  THE CULTURE AND CIVILIZATION OF
OTHER LANDS  3
An approach to better understanding of other peoples' life and culture as reflect-
ed in their language, music, literature, art, and folklore. The area covered may
vary from section to section. Offered in English. May be repeated with different
topics. Irregular. [I]

HUM 494  FOREIGN STUDY THROUGH TRAVEL  3 OR 6
Course will acquaint students with the civilizations of other countries through
supervised travel abroad. Attention to the special needs and interests of partici-
pants. On demand. [I]

INDUSTRIAL TECHNOLOGY

IT 190  INTRODUCTION TO QUALITY ASSURANCE  3
Overview of the tools and techniques required in contemporary quality systems.
Principles of world-class quality assurance, team building, change management,
problem solving, and continuous improvement will be presented. Fall.

IT 290  STATISTICAL PROCESS CONTROL AND
METROLOGY  3
Introduction to metrology and gauge R and R. Study of statistical process con-
rol, capability, sampling plans and their application to inspection. quality con-
trol, and improvement. Spring.

IT 355  ESTIMATING FOR PRINTING  3
Emphasis placed on the many factors which must be considered when estimating
a printing job. Actual estimates will be prepared, using a variety of fixed and vari-
able costs, through manual techniques and computer estimating software. Fall.

IT 359  PLANT LAYOUT  3
Covers the complete layout function as practiced in modern industry. A detailed
analysis is made of the procedures used in placing equipment, organizing effi-
cient machine-operator patterns, and servicing of machines. Considerable time is
devoted to practical work on actual layout problems, including integrated pro-
duction lines, using such tools as layout templates, three-dimensional models,
man-machine charts, and process flow charts. The relationship of work stan-
dards, methods and layout inspection, production control, and maintenance is
also discussed. Fall.

IT 360  PRODUCTION CONTROL  3
Analysis of skills required in supervising manufacturing departments. Emphasis
upon production technologies, machine and tool operations, and process control.
Area C

IT 362  LEADERSHIP SKILLS FOR SUPERVISORS  3
Designed as a bridge between technical courses and the art of supervising people.
Potential line supervisors will develop specific abilities in applying leadership
principles to everyday work situations through creative class participation in
industrial case studies. Techniques of getting-the-job-done through people;
include motivation, delegation, discipline, teamwork, decision making, communica-
tions, and problem identification. Goal-setting and objectives- planning tech-
niques are also covered.

IT 380  EMERGENCY MEDICAL TECHNICIAN (EMT)  3
Recognition of illnesses and injuries; training in the administering of appropriate
emergency medical care. Classes will include demonstrations, practice sessions,
and 10 hours of in-hospital practicum. Note: Credit automatically will be given
upon proof of current certification as issued by the Office of Emergency
Medical Service, State of Connecticut.

IT 390  AUDITING QUALITY SYSTEMS STANDARDS  3
ISO 9000, QS 9000, MIL standards and the Malcolm Baldrige quality system
standards will be examined and audited. Auditing techniques will be presented. Fall.

IT 400  SENIOR PROJECT  3
The selection of a problem in one area or facet of technology and the prepara-
tion of a term report. Areas will include planning, supervision, construction
techniques, design innovations, and labor relations. On demand.

IT 401  INDUSTRIAL INTERNSHIP  3 TO 6
Prereq.: Permission of department chair. Provides students with a supervised
opportunity to work in an industrial environment directly related to their pro-
gram. Written technical reports are required. Applications obtained from the
department chair. Graded on a pass-fail basis.

IT 402  TOPICS IN TECHNOLOGY  1 TO 3
Prereq.: Permission of the department chair. An individualized inquiry of com-
prehensive study into a selected technical area. The student may elect to examine
processes, products, or developmental aspects of modern industry. Open only to
Industrial Technology majors. Course may be repeated for a maximum of 6
credits for different topics.

IT 410  INDUSTRIAL SAFETY  3
Theory of industrial safety with emphasis upon fundamental concepts in the
industrial environment. Emphasis will be placed on the psychological, sociologi-
cal, and physiological aspects of industrial safety. Area C

IT 411  INDUSTRIAL HYGIENE  3
Lectures and laboratory exercises covering evaluation and control of exposure to
dust, fumes, mist, vapors, gases, radiation, noise, and abnormal temperatures.
Fall. Area C

IT 412  PRINCIPLES OF OCCUPATIONAL SAFETY  3
Development of internal policies of a plant in an accident prevention program
for its employees. Topics include safety training, job safety analysis, accident
investigation, safety promotion, and record keeping. On demand.

IT 414  INDUSTRIAL LOSS CONTROL MANAGEMENT  3
Loss control philosophy and techniques. Background information and specific
techniques required to develop and implement an effective company-wide and
on-site loss control program, personnel responsibilities, and total safety program.
Spring. Area C

IT 415  FIRE PROTECTION & PREVENTION  3
Measures related to safeguarding human life and preservation of property in pre-
vention, detection, extinguishing fires. Spring.

IT 421  EVALUATION TECHNIQUES IN INDUSTRIAL
HYGIENE  3
Prereq.: IT 411 or permission from instructor. Continuation of Industrial
Hygiene with emphasis on instrumentation, data collection, interpretation, and
applications to safety standards and regulations. Spring.

IT 432  WORKER/SUPERVISOR RELATIONS  3
Prereq.: IT 362 or MGT 295 or permission of instructor. To develop the role
of worker-supervisor relationships in manufacturing industries by covering such
topics as productivity, supervision within contract guides, union/non-union
manufacturing conflicts, Method/Time Study implementation. Spring.

IT 456  HAZARDOUS MATERIAL MANAGEMENT  3
Study of environmental regulations and their impact on industrial operations.
Emphasis is on application of statutes, regulations and information sources con-
cerning hazardous materials, waste handling and technical decisions pertinent to
environmental and safety issues. Spring.
IT 458 PRODUCTION IMPROVEMENT
Course deals scientifically with analytical and creative problems affecting time. It covers the principles of methods, design, and work measurement. The student acquires skill in using motion study techniques and learns how to establish standards. Applications to product design, machine and tool design, process planning, production scheduling, plant layout, budgeting, sales prices, manpower requirements, wage incentives, and methods of improvements are studied. Spring.

IT 464 CONTINUOUS PROCESS IMPROVEMENT
Prereq.: STAT 104. Application of statistical techniques to meet the needs of continuous quality improvement in the industrial environment. Topics include variation, control and capacity, SPC for short run, and advanced process control. Emphasis on developing a continuous quality improvement strategy through supplier certification standards. Spring.

IT 480 ROBOTICS
Prereq.: Senior standing or permission of instructor. The course provides an overview of the industrial robot to introduce the student to the science of flexible automata. The course emphasizes features, capabilities, programming, selection, and implementation of industrial robots. Fall and Summer. [c]

IT 490 QUALITY BY DESIGN
Planning techniques of Failure Mode and Effects Analysis (FMEA), Quality Function Deployment (QFD), and Design of Experiments (DOE) will be presented. Spring.

INTEGRATED SCIENCE AND MATHEMATICS

ISM 211 BIOLOGICAL & PHYSICAL SCIENCES INTEGRATED WITH MATHEMATICS
Prereq.: MATH 113. Taken concurrently with ISM 213. Inquiry approach to learning, focusing on connections between biological sciences, physical sciences, and mathematics. Development of skills in data interpretation and experimental design applicable to teaching in grades pre-K-8. Two hours of lecture and two hours of laboratory per week. Study Area IV [c]

ISM 213 MATH INTEGRATED WITH BIOLOGICAL AND PHYSICAL SCIENCES
Prereq.: MATH 113. Taken concurrently with ISM 211. Inquiry approach to learning, focusing on mathematics and its application to biological and physical sciences. Development of skills in data interpretation and experimental design applicable to teaching in grades pre-K-8. Two hours of lecture and two hours of laboratory per week. Can be used to meet requirements of a major or minor in mathematics only for students seeking elementary, early childhood, middle level or special education certification. Not recommended for use in meeting certification requirements for secondary school mathematics. Skill Area II [c]

INTENSIVE ENGLISH LANGUAGE PROGRAM

IELP 101 INTENSIVE ENGLISH LANGUAGE & AMERICAN CULTURE LISTENING AND SPEAKING
Eight-week highly interactive program which includes 20 hours of classroom instruction per week of Level I English language listening and speaking. Student activities and several field trips are also included.

IELP 102 INTENSIVE ENGLISH LANGUAGE & AMERICAN CULTURE: READING AND WRITING
Eight-week highly interactive program which includes 20 hours of classroom instruction per week of Level I English language reading and writing. Student activities and several field trips are also included.

IELP 199 TRANSITIONS
Prereq.: Acceptable IELP placement test results, minimum score of 475 on institutional TOEFL exam; or permission of instructor. Ten hour per week integrated language skills course for advanced ESL students. Emphasis on expository and argument writing, academic reading skills, focused discussion, formal debate, and familiarization with methods of research documentation.

IELP 201 INTENSIVE ENGLISH LANGUAGE & AMERICAN CULTURE II: LISTENING AND SPEAKING
Eight-week highly interactive program which includes 20 hours of classroom instruction per week of Level II English language listening and speaking. Student activities and several field trips are also included.

IELP 202 INTENSIVE ENGLISH LANGUAGE AND AMERICAN CULTURE II: READING AND WRITING
Eight-week highly interactive program which includes 20 hours of classroom instruction per week of Level II English language reading and writing. Student activities and several field trips are also included.

IELP 301 INTENSIVE ENGLISH LANGUAGE & AMERICAN CULTURE III: LISTENING AND SPEAKING
Eight-week highly interactive program which includes 20 hours of classroom instruction per week of Level III English language listening and speaking. Student activities and several field trips are also included.

IELP 302 INTENSIVE ENGLISH LANGUAGE & AMERICAN CULTURE III: READING/WRITING
Eight-week highly interactive program which includes 20 hours of classroom instruction per week of Level III English language reading and writing. Student activities and several field trips are also included.

IELP 401 INTENSIVE ENGLISH LANGUAGE & AMERICAN CULTURE IV: LISTENING/SPEAKING
Eight-week highly interactive program which includes 20 hours of classroom instruction per week of Level IV English language listening and speaking. Student activities and several field trips are also included.

IELP 402 INTENSIVE ENGLISH LANGUAGE & AMERICAN CULTURE IV: READING/WRITING
Eight-week highly interactive program which includes 20 hours of classroom instruction per week of Level IV English language reading and writing. Student activities and several field trips are also included.

IELP 451 INTENSIVE ENGLISH LANGUAGE & AMERICAN CULTURE-LEVEL 5: LISTENING/SPEAKING
Prereq.: IELP 401 or permission of instructor. Eight-week highly interactive class which includes 10 hours of classroom instruction per week of Level 5 English language listening and speaking. Student activities and several field trips are also included.

IELP 452 INTENSIVE ENGLISH LANGUAGE & AMERICAN CULTURE-LEVEL 5: READING/WRITING
Prereq.: IELP 402 or permission of instructor. Eight-week highly interactive class which includes 10 hours of classroom instruction per week of Level 5 English language reading and writing. Student activities and several field trips are also included.

IELP 460 TOEFL PREPARATION
Eight hours per week of TOEFL skills and strategies. Practice TOEFL exams are administered weekly.

INTERDISCIPLINARY SCIENCES

ISCI 104 SCIENCE CONNECTIONS
Interdisciplinary emphasis on science in the context of everyday experience. Promotes general scientific literacy and skills relevant to scientific inquiry. For non-science majors. Two lectures and one two-hour laboratory per week. Fall. Mode 8/Study Area IV
INTERNATIONAL BUSINESS

Note: Enrollment in 300- and 400-level Business courses requires admission to the School of Business or permission of the Department Chair.

IB 491  SPECIAL TOPICS IN INTERNATIONAL BUSINESS  3
Prereq.: Senior standing or permission of instructor. Study of selected topics in international business presented by international scholars and executives. Topics will be announced in advance and will vary from semester to semester. May be repeated for a maximum of three credits. Irregular. [I]

IB 495  FIELD STUDIES IN INTERNATIONAL BUSINESS  3
Prereq.: Permission of the instructor. Designed to enrich the student's understanding of the world as a marketplace by visiting foreign countries. Students will be able to observe and discuss international business problems with leading business people. On-site seminars will be included. [I]

IB 498  SEMINAR IN INTERNATIONAL BUSINESS  3
Prereq.: Senior standing. Advanced study of current trends in the global business environment. Emphasis will be on American competitive advantage in a global business context and a critical analysis of contemporary international business research. Course content will vary from semester to semester. Spring. [I]

INTERNATIONAL STUDIES

IS 225  THE WORLD AS A TOTAL SYSTEM  3
Examination of global interdependence in its historic, ecological, economic, cultural, and political dimensions. Analysis of selected contemporary global issues. Consideration of impact of global interdependence on our own local communities. Spring. Mode 6, 7/Study Area II [I]

IS 226  INTERCULTURAL SENSITIVITY  3
Exploration of customs of the world's major societies, with an emphasis on those customs pertinent to cross-cultural understanding and the conduct of international relationships. Fall. Mode 6, 7/Study Area III [I]

IS 230  TOPICS IN INTERNATIONAL STUDIES  3
Interdisciplinary examination of selected topics in international studies not otherwise offered by departments or International Studies. May be repeated with different topics for up to 6 credits. Irregular. Mode 6 or 7 [I]

IS 240  CARIBBEAN CULTURAL PATTERNS  3
Prereq.: Permission of instructor or program coordinator when course is offered in Spanish. Multi-disciplinary study of the people who inhabit the islands and margins of the Caribbean Sea, with a focus upon their problems and accomplishments. This course may be taught in Spanish. Irregular. Mode 6 or 7/Study Area II [I]

IS 245  PUERTO RICO  3
Prereq.: Permission of instructor or program coordinator when course is offered in Spanish. Multi-disciplinary study of the island of Puerto Rico and its people. Topics to be studied may include cultural development, international relations, problems, and prospects. This course may be taught in Spanish. Irregular. Study Area II/Mode 6 or 7 [I]

IS 450  INTERNSHIP IN INTERNATIONAL STUDIES  3
Students will work under faculty supervision in an international environment related to their academic track or planned program. Written reports are required. On demand.

IS 475  INTERNATIONAL STUDIES SENIOR PROJECT  3
Prereq.: Senior standing and declared 15 major. Independent project developed by the student in consultation with International Studies adviser. The semester's work will integrate the geographic area and academic focus of the student's previous course work. On demand.

IS 490  FIELD STUDIES ABROAD  3 OR 6
Course taught abroad. May be repeated for a maximum of 6 credits. Area B [I]

IS 497  SEMINAR IN INTERNATIONAL STUDIES  3
Prereq.: Permission of instructor. Interdisciplinary seminar on one of the world's regions or countries. Aspects of its anthropology, economics, geography, history, government, politics, and sociology will be considered in a synthetic approach. Area B [I]

INTERNET AND MULTIMEDIA STUDIES

IMS 110  INTRODUCTION TO CYBERSPACE  3
Social, economic, and political imperatives of the Information Age. Examines the personal and societal effects and value implications of cyberspace from the perspective of a number of social sciences. Fall. Mode 7/Study Area II

IMS 210  MULTIMEDIA COMPUTING  3
Previously CYS 210. Use of authoring environment in the creation of multimedia applications which combine text, drawn objects, existing graphics, audio and video clips, and simple animations and hyperlinks for use both locally and online. For advanced applications, a simple scripting language will be employed. Hands on experience stressed. Computer programming experience not necessary. Spring. Mode 2/Skill Area IV [c]

IMS 480  SENIOR PROJECT  3
Prereq.: IMS 110, 210, and permission of instructor. Work with a faculty member from any department interested in either developing coursework, a multimedia project, a website application, or similar project. On demand. [c]

IMS 490  INDEPENDENT STUDY  3
Prereq.: Permission of instructor. Development of an extended multimedia or Internet application, or a research project on some of the social science, humanities, or value implications of cyberspace, under the guidance of a faculty adviser. On demand. [c]

ITALIAN

ITAL 111  ELEMENTARY ITALIAN I  3
Fundamentals of Italian pronunciation and grammar taught from the beginning by the direct method. Students participate in conversation. Not open to students with one year of high school study. No credit for students who have received credit for ITAL 120. Area B/Skill Area III

ITAL 112  ELEMENTARY ITALIAN II  3
Prereq.: ITAL 111 or permission of instructor. Study of spoken and written Italian is continued. Further practice in conversation, pronunciation and analysis of Italian language structure. No credit given to those with credit for more advanced course work in Italian or who have received credit for ITAL 120. Area B/Skill Area III [I]

ITAL 120  INTENSIVE ELEMENTARY ITALIAN  6
Intensive Italian language course designed to bring students to intermediate skills in one semester. Six classroom hours per week. Not open to students with more than one year of Italian at the high school level. Only three credits may be applied toward the International requirement. No credit for students who have received credit for ITAL 111 and/or ITAL 112. Fall. Area B/Skill Area III [I]

ITAL 125  INTERMEDIATE ITALIAN I  3
Prereq.: One year of college Italian or equivalent. Principles of Italian language structure are reviewed. Short stories and plays are read and discussed. Conversation and composition on topics of general interest are practiced to improve oral and written expression. No credit will be given to students with previous credit for more advanced course work in Italian except by permission of the department chair. Fall. Area B/Skill Area III [I]

ITAL 126  INTERMEDIATE ITALIAN II  3
Prereq.: ITAL 125 or equivalent. Continuation of ITAL 125. No credit will be given to students with previous credit for more advanced course work in Italian except by permission of the department chair. Spring. Area B/Skill Area III [I]
ITAL 190  ITALIAN FOR ITALIAN SPEAKERS  3
Prereq.: Permission of instructor. Development of diction, reading, writing skills and grammar of standard Italian compared to dialect variations. Irregular. Area B/Skill Area III [I]

ITAL 225  ITALIAN COMPOSITION AND DICTION  3
Prereq.: ITAL 126 or permission of instructor. Course to train students in self-expression by means of frequent compositions in Italian, in addition to systematic drills in pronunciation and intonation. Fall. Area B/Skill Area III [I]

ITAL 226  ITALIAN STRUCTURE AND IDIOM  3
Prereq.: ITAL 225 or equivalent preparation. Course designed to develop correct idiomatic usage and fluency of expression. Spring. Area B/Skill Area III [I]

ITAL 260  INTRODUCTION TO BUSINESS ITALIAN  3
Prereq.: ITAL 126 or Italian placement exam. Development of oral and written skills needed for bilingual work situations encountered in business, travel and government agencies. Includes a study of the cultural attitudes of Italian business people. Irregular. Area B/Skill Area III [I]

ITAL 304  LITERARY MASTERPIECES TO 1700  3
Prereq.: ITAL 226 (may be taken concurrently) or permission of instructor. Taught in Italian. Introduction to major works in Italian literature from the Middle Ages to 1700. Fall. (O) Mode 3/Study Area I [I] [L]

ITAL 305  LITERARY MASTERPIECES SINCE 1700  3
Prereq.: ITAL 226 (may be taken concurrently) or permission of instructor. Taught in Italian. Introduction to major works in Italian literature since 1700. Spring. Mode 3/Study Area I [I] [L]

ITAL 315  ITALIAN CIVILIZATION TO 1861  3
Prereq.: ITAL 226 (may be taken concurrently). The cultural development of Italy from its beginnings to unification. Fall. Study Area II [I]

ITAL 316  ITALIAN CIVILIZATION FROM 1861 TO THE PRESENT  3
Prereq.: ITAL 226 (may be taken concurrently). Cultural development of Italy from 1861 to the present. Spring. Study Area II [I]

ITAL 335  ADVANCED COMPOSITION AND DICTION  3
Prereq.: ITAL 226. Additional practice in written and oral expression. On demand. [I]

ITAL 336  ADVANCED STRUCTURE AND IDIOM  3
Prereq.: ITAL 335. Additional practice in idiomatic usage and verbal fluency. On demand. [I]

ITAL 441  ADVANCED ORAL PRACTICE  3

ITAL 460  ADVANCED WRITTEN ITALIAN  3
Prereq.: ITAL 335 or equivalent. Written expression of Italian, particularly in idiomatic free composition, to establish an appreciation for Italian style and develop the ability to express shades of meaning. On demand. [I]

ITAL 470  14TH CENTURY ITALIAN LITERATURE  3
Prereq.: ITAL 304 or permission of instructor. Taught in Italian. Study of the period with special emphasis on Dante, Petrarch, Boccaccio. On demand. [I]

ITAL 476  16TH CENTURY ITALIAN LITERATURE  3
Prereq.: ITAL 304 or permission of instructor. Taught in Italian. Major works of Italian renaissance. On demand. [I]

ITAL 488  ITALIAN LIFE AND CULTURE  3
Prereq.: Permission of instructor. Discussion of contemporary Italian society, traditions, and values. On demand. Area B [I]

JAPANESE

JAPN 111  ELEMENTARY JAPANESE I  3
Basic sounds and structure patterns of Japanese are established through a direct audio-lingual approach. Area B/Skill Area III

JAPN 112  ELEMENTARY JAPANESE II  3
Prereq.: JAPN 111. Continuation of JAPN 111. No credit will be given to students with previous credit for more advanced course work in Japanese except by permission of the department chair. Spring. Area B/Skill Area III [I]

JAPN 125  INTERMEDIATE JAPANESE I  3
Prereq.: One year of college Japanese or equivalent. Continuation and review of grammar and structure. Development of reading skills. Fall. Area B/Skill Area III [I]

JAPN 126  INTERMEDIATE JAPANESE II  3
Prereq.: JAPN 125 or equivalent. Further study of grammar and structure. Readings in literary and cultural areas. Spring. Area B/Skill Area III [I]

JAPN 225  JAPANESE COMPOSITION AND DICTION  3
Prereq.: JAPN 126 or permission of instructor. To train students in self-expression by means of frequent compositions, systematic drills in pronunciation and intonation, and readings in Japanese literature and culture. Fall. Area B/Skill Area III [I]

JAPN 226  JAPANESE STRUCTURE AND IDIOM  3
Prereq.: JAPN 126 or permission of instructor. To develop correct idiomatic usage and fluency of expression. Readings in Japanese literature. Spring. Area B/Skill Area III [I]

JAPN 335  ADVANCED COMPOSITION AND DICTION  3
Prereq.: JAPN 226 or equivalent. Further study of sentence and discourse structure in Japanese and analysis of the Japanese communicative style. Designed to expand the student's speaking and listening skills. Fall. [I]

JAPN 336  ADVANCED STRUCTURE AND IDIOM  3
Prereq.: JAPN 335 or permission of instructor. Continuation of JAPN 335 with emphasis on development of reading comprehension skills. Spring. [I]

LATIN

LAT 111  ELEMENTARY LATIN I  3
Study of the elements of Latin grammar. Not open to students with one year or more of high school study. Fall. Area B/Skill Area III

LAT 112  ELEMENTARY LATIN II  3
Prereq.: LAT 111 or equivalent. Continuation of LAT 111; development of reading skills. Spring. Area B/Skill Area III

LAW

Note: See also the Pre-Law Program on page 87, as well as COMM 360, HIST 468, PHIIL 349, PE 412, PS 235, PS 241, PS 331, PS 332, PS 338, PS 339 and PS 447.

LAW 250  LEGAL ENVIRONMENT OF BUSINESS  3
Prereq.: 30 credits completed before beginning course work. Introduction to the legal environment of organizations, including principles that affect management, marketing, accounting, finance and technology. Included is a review of social responsibility of business, international legal environment, administrative law, torts, contracts, agency, business organizations, and intellectual property.

LAW 400  ADVANCED BUSINESS LAW  3
Prereq.: LAW 250. Advanced legal principles pertaining to commercial transactions and business organizations. Topics include contracts, sales, negotiable instruments, partnerships and corporations, accountant's legal liability, and bankruptcy.

</tr>
</tbody>
</table>

Prereq.: Permission of instructor. Selected topics in management, organization theory, and human resource management. Course content will vary from semester to semester. May be repeated with different topics for a maximum of 6 credits. Irregular.
MGT 494 ENTREPRENEURSHIP 3
Prereq.: FIN 295 or permission of instructor. Entrepreneurship and its role as a fundamental component of our economic system is discussed. The resources needed to start a new business are outlined as a well-conceived business plan.

MGT 496 PRACTICUM IN MANAGEMENT AND ORGANIZATION 3
Prereq.: Permission of instructor and meet criteria dependent upon nature of the specific project(s) and permission of the chair of the Management and Organization Department. Students work on a real-world project under the direct supervision of a faculty advisor. Projects may be sponsored by a host organization. Student performance is monitored and evaluated in relation to conditions set forth in an approved project plan. May be taken for a maximum of 6 credits. On demand.

MGT 497 INTERNSHIP/INDEPENDENT STUDY IN MANAGEMENT AND ORGANIZATION 3
Prereq.: Approved Special Project Request Form. Applications may be obtained from the chair of the Management and Organization Department. Students, with approved proposals, identify and investigate managerial problem areas as well as organizational growth and development phenomena. Progress and performance are monitored and evaluated by the faculty advisor who has approved the study project. Activity may be either research oriented or an internship. May be repeated for a maximum of 6 credits.

MGT 498 MANAGEMENT SEMINAR 3
Prereq.: Senior standing and 12 credits in management or permission of instructor. An examination of the latest development in management and organizational theory. Emphasis will be on current trends in the theory and practice of management using management literature and research. Course content will vary from semester to semester.

MANAGEMENT INFORMATION SYSTEMS
Note: Enrollment in upper-division Business courses requires admission to the School of Business or permission of the Department Chair.

MIS 201 INTRODUCTION TO MANAGEMENT INFORMATION SYSTEMS 3
The course provides the background necessary for understanding the role of information systems in organizations and for using computer tools and technology in solving business problems. Topics include organizational foundations of information systems, technical foundations of information systems, building information systems, and the management of information. Not open to CS majors. [c]

MIS 210 APPLICATION PROGRAM DEVELOPMENT I 3
Prereq.: MIS 201. An introduction to computer programming in a business environment. Emphasis on the fundamentals of structured program design, development, testing, implementation, and documentation of common business-oriented applications using COBOL. Discussion and application of top-down design strategies and structured programming techniques for designing and developing problem solutions. [c]

MIS 220 CONTEMPORARY BUSINESS APPLICATIONS DEVELOPMENT 3
Prereq.: MIS 201. Introduction to contemporary approaches to application development in a business environment. Emphasis on structured program design, development, testing, implementation, and documentation of business applications.

MIS 305 IMPLEMENTING AN E-BUSINESS ENVIRONMENT 3
Prereq.: MIS 201 or permission of department chair. Focuses on conducting e-business activities, including the role of the Internet, intranets, extranets, and other business applications. Emphasis on web-page design and implementation, web-server management, and security issues. [c]

MIS 311 APPLICATION PROGRAM DEVELOPMENT II 3
Prereq.: MIS 210. A continuation of MIS 210. An introduction to computer programming in a business environment. Emphasis on the fundamentals of structured programming design, development, testing, implementation and documentation of common business-oriented applications using COBOL. Discussion and application of top-down design strategies and structured programming techniques for designing and developing problem solutions. [c]

MIS 400 BUSINESS DECISION ANALYSIS USING KNOWLEDGE BASES 3
Prereq.: MIS 220 or 305, or permission of instructor. Introduction to management information support systems, designed to aid managers and others in the decision-making process. These systems include Decision Support Systems (DSS), Group Decision Support Systems (GDSS), Executive Information Systems (EIS), and Expert Systems (ES). [c]

MIS 410 DISTRIBUTED PROCESSING-Networks & Telecommunications 3
Prereq.: MIS 220 and 305, or permission of instructor. Impact of distributed systems on the business enterprise emphasized. Features of centralized, decentralized, and distributed systems; and technology implications as they relate to analysis, design, and development of distributed processing systems will be examined. [c]

MIS 415 DATABASE PROGRAM DEVELOPMENT 3
Prereq.: MIS 220 and 305, or permission of instructor. Introduction to application program development in a database environment with an emphasis on loading, modifying, and querying the database. Discussion of storage devices, data administration, and data analysis. Design and implementation of a major database project. [c]

MIS 450 ENTERPRISE STRATEGIES AND TRANSFORMATIONS 3
Prereq.: Senior standing. Organizational transformations are critical for continued market success in an increasingly complex and dynamic global environment. Emphasizes integrative strategies spanning all business functions which are needed by evolving and established enterprises.

MIS 460 EMERGING TECHNOLOGIES FOR BUSINESS 3
Prereq.: Senior standing. Analysis of current topics and developments in emerging technologies. Application of these technologies to support decision-making in enterprises. Design of alternate information systems and strategies. May be repeated under a different topic to a maximum of 6 credits. Irregular. [c]

MIS 461 STRUCTURED SYSTEMS ANALYSIS & DESIGN IN MIS 3
Prereq.: Completion of all other MIS core courses or permission of MIS chair. Capstone experience within MIS. Development of business application systems using structured and object-oriented analysis and design. Use and evaluation of modeling techniques and CASE tools. Includes information systems architecture, enterprise modeling, project management; and ethical issues. [c]

MIS 494 INDEPENDENT STUDY IN MANAGEMENT INFORMATION SYSTEMS 3 TO 6
Prereq.: Senior standing. Special study or research projects. Progress and performance are monitored and evaluated by a qualified MIS faculty adviser. May be repeated with different topics for a maximum of 6 credits. On demand. [c]

MIS 496 PRACTICUM IN MANAGEMENT INFORMATION SYSTEMS 3
Prereq.: Permission of department chair. Students work on a real-world project under the direct supervision of a faculty adviser. Projects may be sponsored by a host organization. Student performance is monitored and evaluated in relation to conditions set forth in an approved Special Project Request Form. May be repeated for a maximum of 6 credits. On demand.

MIS 498 INFORMATION AND DECISION SCIENCES SEMINAR 3
Prereq.: Senior standing. An examination of the current trends in the theory and business practices of information and decision sciences. On demand. [c]
MANAGERIAL COMMUNICATION

MC 207 MANAGERIAL COMMUNICATIONS 3
Prereq.: ENG 110 and sophomore standing. The study and development of effective business correspondence, reports, and communications systems. Selected assignments include written and oral reports used in business. Area A (Business majors do not receive Area A credit for this course.)

MKT 295 FUNDAMENTALS OF MARKETING 3
Overview of the multifaceted discipline and practice of marketing, emphasizing market segmentation and exchange. Consideration of consumer and industrial markets, product and service marketing, pricing and promotion strategies, and the role of distribution channels. [c] Area C (Business majors do not receive Area C credit for this course.)

MKT 305 CONSUMER BEHAVIOR 3
Prereq.: MKT 295. Examines the influence of psychological, sociological and cultural factors on buying behavior of consumers and industrial buyers. Shows how this knowledge is indispensable to the marketing manager when he or she delineates target markets and makes decisions about product, price, promotion, and channels of distribution. Current theories and models are related to present practices and potential applications.

MKT 306 MARKETING COMMUNICATION 3
Prereq.: MKT 295. Study of an organization’s marketing communication with consumers and other stakeholders. Theory, characteristics and management of various promotion mix elements are surveyed including advertising, sales promotion, public relations, direct marketing, and personal selling.

MKT 307 SALES ADMINISTRATION 3
Prereq.: MKT 295. Examines the organization of sales departments and how to select, train, administer, and evaluate the sales force. Techniques of sales forecasting, planning, and analysis are explored.

MKT 308 INTRODUCTION TO HOSPITALITY 3
Prereq.: MKT 295. Overview of the hospitality industry, with special emphasis on hotel, restaurant, tourism, recreation, and leisure. Topics include history, principles, practices, philosophies, systems, description, and interrelationships of hospitality components and the social and economic forces that impact this industry. Fall.

MKT 311 RETAILING 3
Prereq.: MKT 295. Discussions of retail store problems, opportunities and trends in retailing, store organizations, merchandising, and store management.

MKT 313 MERCHANDISING 3
Prereq.: MKT 311. Discusses the basic elements of buying, merchandising, stock controls, product information, and fashion analysis as they apply to the retailer and consumer.

MKT 321 INTERNATIONAL MARKETING 3
Prereq.: MKT 295. An analysis of the techniques, procedures, and strategies used by multinational firms. Potential problems are explored. Methods and sources of data for determining products to sell and countries in which to sell them are studied. [l]

MKT 340 PRODUCT DEVELOPMENT & MANAGEMENT 3
Prereq.: MKT 295. A systematic examination of the processes by which new products are developed and incorporated into the marketing mix, existing products are evaluated and managed, and uneconomic products are demarketed.
MATHEMATICS

MATH 099 ELEMENTARY ALGEBRA 3
Review of fundamental algorithms of whole numbers, integers, rational numbers, and elementary algebra. Students who are required to take MATH 099 must pass this course with a C- or better before successful completion of 30 hours of regular coursework. Letter grade will affect GPA as if MATH 099 were a three-credit course, but these credits may not be used to fulfill the number of credits required for graduation. This course may not be used to meet the General Education requirement nor requirements for a major, minor or certification in mathematics. Fall. Spring. Summer

MATH 101 INTERMEDIATE ALGEBRA 3
Prereq.: MATH 099 (C- or higher) or Placement Exam. Review and extension of elementary algebra. A study of functions including their algebraic properties and graphs. Quadratic equations and inequalities are solved and graphed. Graphing calculator required. No credit given to students with credit for MATH 115, 119, 122, 124, or 125. This course may not be used to meet the General Education requirement nor requirements for a major, minor or certification in mathematics. No student is permitted to use both MATH 105 and 113 to satisfy the General Education requirements. Mode 2/Skill Area II.

MATH 105 FUNDAMENTALS OF MATHEMATICS 3
Prereq.: MATH 101 (C- or higher) or Placement Exam. This course is intended for students who are not majoring in mathematics or the natural sciences. It provides students with an introduction to a broad range of topics in mathematics. No credit given to students with credit for MATH 218. May not be used to meet the requirements for a major, minor or certification in mathematics. No student is permitted to use both MATH 105 and 113 to satisfy the General Education requirements. Mode 2/Skill Area II.

MATH 110 FINITE MATHEMATICS 3
Prereq.: MATH 101 (C- or higher) or Placement Exam. Topics to include chosen from logic, theory of sets, counting techniques, probability theory, linear equations, linear programming, matrix algebra, graph theory, and Markov chains. Emphasis placed on the construction of mathematical models and their applications. Can be used to meet requirements of a major or minor in mathematics only for students seeking elementary, early childhood, middle level or special education certification. Not recommended for use in meeting certification requirements for secondary school mathematics. Fall. Mode 2/Skill Area II.

MATH 111 STRUCTURE OF MATHEMATICS I: NUMBER SYSTEMS 3
Prereq.: MATH 101 (C- or higher) or Placement Exam. Problem solving approach to inductive reasoning, sets, numeration, number theory, integer properties and operations, rational number properties, and numeration. No credit given to those with credit for MATH 366. Elementary, Early Childhood, Middle Level and Special Education certification candidates only. Can be used to meet requirements of a major or minor in mathematics only for students seeking elementary, early childhood, middle level or special education certification. Not recommended for use in meeting certification requirements for secondary school mathematics. No student is permitted to use both MATH 105 and 113 to satisfy the General Education requirements. Mode 2/Skill Area II.

MATH 115 TRIGONOMETRY 4
Prereq.: MATH 101 (C- or higher) or Placement Exam. Study of relations, functions (special emphasis on the six trigonometric functions), inverses, and graphs. An analytic approach to trigonometry using circular functions, angular measures, identities, graphs and inverses. No credit given to students with credit for MATH 119, 122, or 124. Can be used to meet requirements of a major or minor in mathematics only for students seeking elementary, early childhood, middle level or special education certification. Not recommended for use in meeting certification requirements for secondary school mathematics. Mode 2/Skill Area II.

MATH 119 PRECALCULUS WITH TRIGONOMETRY 4
Prereq.: MATH 101 (C- or higher) or Placement Exam. Preparation course for the calculus sequence. Properties of functions including polynomial, rational, periodic, exponential and logarithmic, and rate of change. Also covers trigonometry, including the unit circle, right triangles, and analytic trigonometry. No credit given for students with credit for MATH 115, MATH 121, or MATH 124. Mode 2/Skill Area II.

MATH 120 PROBLEM SOLVING I 1
Prereq.: MATH 115 (C- or higher) or MATH 119 (C- or higher) or Placement Exam. Polya's four-step approach to problem solving applied to non-routine problems in algebra, geometry, and trigonometry. One two-hour lab per week.

MATH 121 PRE-CALCULUS MATHEMATICS 3
Prereq.: MATH 119 (C- or higher) or Placement Exam. Properties of the real numbers, relations and functions, exponential and logarithmic functions, mathematical induction, and conics. No credit given to students with credit for MATH 119, 122, 124, or 125. Mode 2/Skill Area II.

MATH 122 CALCULUS I 4
Prereq.: MATH 115 (C- or higher) and MATH 121 (C- or higher), or MATH 119 (C- or higher), or Placement Exam. Limits and continuity, derivatives, applications of derivatives, antiderivatives, definite integrals, and applications of definite integrals. Mode 2/Skill Area II.

MATH 124 APPLIED CALCULUS WITH TRIGONOMETRY 4
Prereq.: MATH 101 (C- or higher). Polynomial, rational, exponential, and logarithmic functions and their derivatives, and their application to the natural sciences. The concepts of rate of change, limit, and derivative are emphasized. Integration is introduced. No credit given to students with credit for MATH 115, 119, 122, 125. Can be used to meet requirements of a major or minor in mathematics only for students seeking elementary, early childhood, middle level or special education certification. Not recommended for use in meeting certification requirements for secondary school mathematics. Mode 2/Skill Area II.

MATH 125 APPLIED CALCULUS I 3
Prereq.: MATH 101 (C- or higher) or Placement Exam. This course is for students majoring in the social, biological, behavioral, and managerial sciences. Topics include review of algebra, differentiation, and integration. Graphing calculator required. No credit given to students with credit for MATH 122 or 124. Can be used to meet requirements of a major or minor in mathematics only for students seeking elementary, early childhood, middle level or special education certification. Not recommended for use in meeting certification requirements for secondary school mathematics. Mode 2/Skill Area II.
COURSE DESCRIPTIONS

MATH 126  APPLIED CALCULUS II  3
Prereq.: MATH 124 (C- or higher) or MATH 125 (C- or higher). Continuation of MATH 125. Topics include techniques of integration, application of integrals, differential equations, and multivariate calculus. Graphing calculator required. No credit given to students with credit for MATH 221.
Can be used to meet requirements of a major or minor in mathematics only for students seeking elementary, early childhood, middle level or special education certification.
Not recommended for use in meeting certification requirements for secondary school mathematics. Mode 2/Skill Area II

MATH 213  STRUCTURE OF MATHEMATICS II: PROBABILITY & GEOMETRY  3
Prereq.: MATH 113 (C- or higher). Problem solving approach to deductive reasoning and logic, probability, descriptive statistics, point set, metric, analytic and transformational geometry; and properties of plane and solid figures. No credit given to those with credit for MATH 323. Early Childhood, Elementary, Middle Level, or Special Education certification candidates only. Can be used to meet requirements of a major or minor in mathematics only for students seeking elementary, early childhood, middle level or special education certification.
Not recommended for use in meeting certification requirements for secondary school mathematics. Mode 2/Skill Area II

MATH 218  DISCRETE MATHEMATICS  4
Prereq.: MATH 122 (C- or higher). Topics include logic, induction, recursion, combinatorics, matrices, graph theory, set theory, and number theory.

MATH 220  PROBLEM SOLVING II  1
Prereq.: MATH 120 (C- or higher) and 122 (C- or higher). Polya's four-step approach to problem solving applied to non-routine problems in algebra, geometry, trigonometry, and calculus. One two-hour lab per week.

MATH 221  CALCULUS II  4
Prereq.: MATH 122 (C- or higher). Continuation of MATH 122. Differentiation and integration of transcendental functions, techniques of integration, indeterminate forms, improper integrals, sequences, and infinite series.
Mode 2/Skill Area II

MATH 222  CALCULUS III  4
Prereq.: MATH 221 (C- or higher). Continuation of MATH 221. Parametric equations, polar coordinates, two- and three-dimensional vectors, three-dimensional analytic geometry, functions of several variables, partial differentiation, and double and triple integrals.

MATH 228  INTRODUCTION TO LINEAR ALGEBRA  4
Prereq.: MATH 122 (C- or higher) and 218 (C- or higher). Vector spaces, systems of linear equations, determinants, linear transformations, and matrices are considered.
Three lectures and one three-hour lab per week.

MATH 300  MATHEMATICS INTERNSHIP  3
Prereq.: Permission of the department and a 3.00 GPA in mathematics. Designed to provide students an opportunity to work in a business environment directly related to their major or specialization. Each student will apply his/her classroom knowledge in mathematics, actuarial science, operations research, and/or statistics in an appropriate business setting. Graded on pass-fail basis only.

MATH 305  STRUCTURE OF MATHEMATICS III: NUMBER PATTERNS  3
Prereq.: MATH 213 (C- or higher) and MATH 119, 121, 124, or 125 (C- or higher). Exploratory approach to number patterns and functions. Topics include prime and composite numbers, perfect numbers, Fibonacci numbers, figurative numbers, Pythagorean triples, and sequences. Calculators will be used. Elementary Education and Special Education certification candidates only. Can be used to meet requirements of a major or minor in mathematics only for students seeking elementary, early childhood, middle level or special education certification.
Not recommended for use in meeting certification requirements for secondary school mathematics.

MATH 306  STRUCTURE OF MATHEMATICS IV: DEVELOPMENT OF GEOMETRIC IDEAS  3
Prereq.: MATH 213 (C- or higher) and MATH 115, 119 or 124 (C- or higher). Exploration of geometric concepts via hands-on activities and computer software. Topics include congruence, similarity, transformations, tessellations, and fractals. Elementary Education and Special Education certification candidates only. Can be used to meet requirements of a major or minor in mathematics only for students seeking elementary, early childhood, middle level or special education certification.
Not recommended for use in meeting certification requirements for secondary school mathematics.

MATH 307  TOPICS IN ELEMENTARY MATHEMATICS  1 TO 3
Prereq.: Permission of instructor. Selected elementary topics in mathematics covering specialized areas not offered in the regular curriculum. May be repeated with different topics for a maximum of 3 credits. Can be used to meet requirements of a major or minor in mathematics only for students seeking elementary, early childhood, middle level or special education certification.
Not recommended for use in meeting certification requirements for secondary school mathematics. Irregular.

MATH 313  NUMBER SYSTEMS FROM AN ADVANCED VIEWPOINT  2
Prereq.: Application filed for admission by the department to the Professional Program in Teacher Education. Examination of the content of elementary school mathematics from the point of view of teachers of secondary mathematics.
Requires field experience as a tutor in MATH 113. Taken concurrently with either MATH 327 or 328.

MATH 320  PROBLEM SOLVING III  1
Prereq.: MATH 220 (C- or higher) and 228 (C- or higher). Polya's four-step approach to problem solving applied to non-routine problems in algebra, geometry, trigonometry, calculus, discrete mathematics, and linear algebra. One two-hour lab per week.

MATH 323  COLLEGE GEOMETRY  3
Prereq.: MATH 218 (C- or higher) and 221(C- or higher). Euclidean geometry from a modern viewpoint, with emphasis on the structure of deductive systems and methods of proof. Real number system as a model for Euclidean geometry, betweenness, separations and convexity, measure, congruence, parallelism, similarity, and construction.
Spring.

MATH 327  CURRICULUM & TECHNOLOGY IN SECONDARY MATHEMATICS I  3
Prereq.: Application filed for admission by the department to the Professional Program in Secondary Teacher Education. Examination of the content of the mathematics curriculum in grades 7-12, with emphasis on the development of algebraic thinking across grade levels and the use of spreadsheets, function plotting software, and graphing calculators. Graphing calculator required. Fall. [c]

MATH 328  CURRICULUM & TECHNOLOGY IN SECONDARY MATHEMATICS II  3
Prereq.: Application filed for admission by the department to the Professional Program in Secondary Teacher Education. Examination of the content of the mathematics curriculum in grades 7-12, with emphasis on the teaching of geometric probability, statistics, and discrete mathematics, including the use of geometric drawing programs, laboratory instrumentation, and the internet.
Graphing calculator required. Spring. [c]

MATH 344  MATHEMATICS IN DIVERSE CULTURES  3
Prereq.: MATH 122 (C- or higher) or MATH 125 (C- or higher) or MATH 305 (C- or higher). Mathematical systems of different cultures around the world and their contributions to the development of mathematics. Recent trends in ethnomathematics research and ideas on "multiculturing" the mathematics classroom will also be discussed.
Spring. [E] [I]

MATH 366  INTRODUCTION TO ABSTRACT ALGEBRA  3
Prereq.: MATH 218 (C- or higher). Certain fundamental structures such as groups, rings, integral domains, and fields are considered.
MATH 398 INDEPENDENT STUDY IN MATHEMATICS 1 TO 3
Prereq.: MATH 228 or 366, and a 3.00 G.P.A. in mathematics and permission of instructor. Special independent work to meet individual interest in areas not covered by the regular curriculum. Work will be under the supervision of a faculty member and in an area and for an amount of credit agreed upon prior to registration for the course. On demand.

MATH 409 MATHEMATICS THROUGH COMPUTERS 3
Prereq.: MATH 305 or 306. Exploration of computer software, such as Geometer's Sketchpad, Logo, and Excel; and the use of Web resources, to promote better understanding of mathematical concepts and algorithms. For preservice teachers of K-9. Can be used to meet requirements of a major or minor in mathematics only for students seeking elementary, early childhood, middle level or special education certification. Not recommended for use in meeting certification requirements for secondary school mathematics. [c]

MATH 410 EARLY CHILDHOOD MATHEMATICAL METHODS 3
Prereq.: MATH 213 (C- or higher) and admission to the Professional Program in early childhood education. Concepts underlying contemporary mathematics curriculum for early childhood grades. Developmentally appropriate methods for developing concepts and the meaning of operations and procedures in arithmetic through problem solving. This course is for teacher certification only and graduate credit will not be granted.

MATH 411 CLINICAL EXPERIENCE IN MATHEMATICS EDUCATION 1
Prereq.: MATH 327 or 328 or permission of instructor. This course provides the prospective mathematics teacher with an opportunity to gain practical experience in a tutorial or small-group-instruction setting. The student will spend a minimum of three hours each week in the Math Center at CCSU, working one-on-one with small groups of students seeking help with mathematics. The director of the Math Center will coordinate and oversee the activities of students enrolled in this course (including receiving reports from cooperating teachers). May be repeated for up to 4 credits but cannot be taken more than once in any semester.

MATH 412 ELEMENTARY MATHEMATICAL METHODS 3
Prereq.: MATH 213 (C- or higher) and admission to the Professional Program in elementary education. Concepts underlying contemporary mathematics curriculum for elementary grades. Developmentally appropriate methods for developing concepts and the meaning of operations and procedures in arithmetic through problem solving. This course is for teacher certification only and graduate credit will not be granted.

MATH 413 TEACHING MATHEMATICS IN THE SECONDARY SCHOOL 4
Prereq.: MATH 327 and admission to the Professional Program in Secondary Teacher Education. Topics include planning for instruction, classroom management, promoting effective discourse, methods to address the needs of a diverse student population, and methods of assessment. Field experience required. Taken concurrently with EDSC 425. Spring.

MATH 414 MIDDLE LEVEL MATHEMATICS METHODS 2 OR 3
Prereq.: MATH 121 or 122 or 125 (C- or higher), and admission to the Professional Program in middle level education. Concepts underlying contemporary mathematics curriculum at the middle level with emphasis on both the structure of the mathematics content and the procedures used in teaching for understanding. This course is for teacher certification only and graduate credit will not be granted.

MATH 421 HISTORY OF MATHEMATICS 3
Prereq.: MATH 221 or 305. Development of mathematics is traced from arithmetic of commerce, astronomy, geometry, and trigonometry in Babylonia, Egypt, Greece, and Rome to the later accomplishments in algebra, geometry, and calculus. Spring. (O)

MATH 425 MATHEMATICS LABORATORY 3
Prereq.: Application filed for admission by the department to the professional education program. Construction and use in the laboratory of models, materials, and instruments which illustrate principles and applications of mathematics. Summer.

MATH 426 STUDENT TEACHING SEMINAR 1
Prereq.: MATH 413. Examination of problems which arise in secondary mathematics instruction. Taken concurrently with EDSC 435. Fall.

MATH 440 SELECTED TOPICS IN MATHEMATICS J TO 3
Prereq.: Permission of instructor. Selected topics in mathematics covering specialized areas not covered in regular offerings or that go beyond that provided for in the standard curriculum. May be repeated with different topics for a maximum of 6 credits. Spring. (E)

MATH 441 INTRODUCTION TO CONCEPTS OF ANALYSIS I 3
Prereq.: MATH 113. Equations, inequalities, functions, relations, and graphs. No credit given to students with credit for MATH 121. Cannot be used to meet the requirements for a major or secondary concentration in mathematics and is not recommended by this department for use in meeting certification requirements in teaching secondary school mathematics. Fall.

MATH 442 INTRODUCTION TO CONCEPTS OF ANALYSIS II 3
Prereq.: MATH 441. Extension of MATH 441. Basic concepts of trigonometric functions of angle and of real numbers and analytic geometry, including polar coordinates. Introduction to calculus and other selected topics. No credit given to students with credit for MATH 122 or 125. Cannot be used to meet the requirements for a major or minor (for students in the secondary certification program) in mathematics and is not recommended by this department for use in meeting certification requirements in teaching secondary school mathematics. Spring. (O)

MATH 446 INTRODUCTION TO COMPUTERS AND COMPUTER PROGRAMMING 3
Prereq.: MATH 121 or 125 or 441 or equivalent. Introductory course for those students with a limited mathematics background who desire a basic understanding of a computer, how it relates to everyday life and how to communicate with it. Topics include computer components, computer usage, programming, and the computer's impact on the many facets of our society. No credit given to Mathematics majors or minors (except Elementary minors) or to students with credit for MATH 221, 471 or CS 151. Can be used to meet requirements of a major or minor in mathematics only for students seeking elementary, early childhood, middle level or special education certification. Not recommended for use in meeting certification requirements for secondary school mathematics. Spring. (C)

MATH 449 MATHEMATICS LABORATORY FOR ELEMENTARY SCHOOL 3
Prereq.: MATH 412, 414 or 327 or equivalent and student teaching. Provides teachers in elementary school with the opportunity to make mathematical materials useful in teaching elementary mathematics. Each participant constructs mathematical models and manipulatives appropriate to his/her teaching level and interest. Mathematical projects and educational implications are discussed. Can be used to meet requirements of a major or minor in mathematics only for students seeking elementary, early childhood, middle level or special education certification. Not recommended for use in meeting certification requirements for secondary school mathematics. Summer.

MATH 463 INTRODUCTION TO DIFFERENTIAL EQUATIONS 3
Prereq.: MATH 221. Methods of solution of ordinary differential equations, including the Laplace Transform. Some elementary applications in geometry, physics and chemistry. Fall. (O)

MATH 468 SYMBOLIC LOGIC 3
Prereq.: MATH 366 or equivalent. Introduction to truth, validity and argument. Methods of deduction, propositional functions and quantifiers, logic of relations, deductive systems, and propositional calculus. Spring. (E)

MATH 469 NUMBER THEORY 3
Prereq.: MATH 366 or equivalent. Elementary theory of numbers. Divisibility, prime numbers, Fundamental Theorem of Arithmetic, congruences, Diophantine equations, quadratic residues and continued fractions are among topics considered. Fall. (O)
COURSE DESCRIPTIONS

MATH 470 MATHEMATICAL METHODS IN OPERATIONS RESEARCH 3
Prereq.: STAT 200 or 215 or 315, and MATH 110 or 228. Selected topics chosen from the areas of linear programming, decision analysis, and network analysis. Spring. (O)

MATH 471 COMPUTER PROGRAMMING 3
Prereq.: MATH 221. Introduction to computer programming, with emphasis on the analysis of classes problems, the design of algorithms for solving them, and the use of computer language for implementation. No credit given to students with credit for CS 151. (c)

MATH 472 COMPUTER SYSTEMS ORGANIZATION 3
Prereq.: MATH 471 or CS 151, and MATH 221. Course introduces concepts of assembler language, machine language, macro-instructions, subroutines, program check out, structure of assemblers, use of an operating system. Oriented toward mathematics. No credit given to students with credit for CS 254. (c)

MATH 473 APPLIED ALGEBRA 3
Prereq.: MATH 228 and 366. Applications of abstract and linear algebra to the areas of statistics, computer science, actuarial science and applied mathematics. Spring. (O)

MATH 477 NUMERICAL ANALYSIS 3
Prereq.: MATH 221, and MATH 471 or CS 151. Selected topics including difference operators, iterative methods of finding zeros of functions, interpolation and polynomial approximation, numerical integration and differentiation, matrices, and systems of linear equations. Fall. (E) (c)

MATH 479 ELEMENTS OF APPLIED MATHEMATICS 3
Prereq.: MATH 221 and permission of instructor. Selected topics from numerical analysis, finite differences, partial differential equations, and other areas of applied mathematics. May be repeated with different topics for a maximum of six credits. Spring. (E) (c)

MATH 491 ADVANCED CALCULUS 3
Prereq.: MATH 222. Topics from continuity and differentiability of functions of several variables, exterior differential forms, multiple and iterated integration, line integrals, Gauss', Green's, and Stokes' Theorems. Fall. (E)

MEDICAL TECHNOLOGY

Note: The following courses are available only to students in the Medical Technology program.

MT 410 CLINICAL MICROBIOLOGY 8
Includes all the isolation and identification of clinically significant bacteria from all types of clinical specimens. Also covered: parasitology, virology, and mycology. Correlation of laboratory findings to disease states emphasized.

MT 411 HEMATOLOGY 5
Comprehensive study of the principles, procedures, special techniques, and disease states of the cellular components of the blood. Includes hemostasis.

MT 412 CLINICAL MICROSCOPY 1
Principles of the diagnostic procedures for urine, spinal fluids, feces, gastric contents, and other body fluids.

MT 413 BLOOD BANKING AND IMMUNOHEMATOLOGY 3
Study of human blood groups, compatibility testing, component therapy, and their relation to transfusion. Emphasis is on problem solving.

MT 414 CLINICAL CHEMISTRY 8
The biochemical analysis of body fluids in health and disease, and the clinical application of test results.

MT 415 IMMUNOLOGY AND SEROLOGY 3
A study of the immune response in health and disease and the use of current techniques for the determination of antigen-antibody reactions.

MT 416 SPECIAL TOPICS IN MEDICAL TECHNOLOGY 2
Investigation of special medical technology subject and/or related topic.

MODERN LANGUAGES

ML 106 LANGUAGES ACROSS THE CURRICULUM I 1
Prereq.: Permission of instructor. Interdisciplinary course in basic language attached to a course in a particular discipline. Study of selected foreign language material integrated with the content of the other course. Practice in oral and written expression. No previous language study required. May be repeated for a maximum of three credits. On demand.

ML 146 LANGUAGES ACROSS THE CURRICULUM II 1
Prereq.: 112 level of a particular language or permission of instructor. Interdisciplinary course in basic language attached to a course in a particular discipline. Study of selected foreign language texts integrated with the content of the other course. Practice in oral and written expression. May be repeated for a maximum of three credits. On demand.

ML 400 TOPICS IN MODERN LANGUAGES 3
Prereq.: Permission of instructor. Literary and language topics taught in the target language. One credit per eight-week unit. May be repeated for a total of three credits. On demand.

ML 420 INTERNSHIP IN FOREIGN LANGUAGES 1
Prereq.: Appropriate 226 course or equivalent in target language. Practical field experience using the target language. One credit per eight-week unit. May be repeated for a total of three credits. On demand.

ML 428 METHODS AND MATERIALS FOR TEACHING WORLD LANGUAGES AT ELEMENTARY SCHOOL LEVEL 3
Prereq.: B.S. Major in target language or State language teacher certification. Participants will link the rationale, history, and theoretical foundations of elementary world language instruction to teaching and learning, and construct and adapt models for curriculum planning, program implementation, articulation, and assessment. Participants will explore contemporary methodologies, lessons, activities resources, and address issues and concerns that apply to the elementary school level. Fall. Summer.

ML 429 SEMINAR IN MODERN LANGUAGE TEACHING METHODS 3
Prereq.: Matriculation in graduate certification program, admission to the Professional Program in teacher education, permission of department, and permission of the Director of the Office of Field Experiences. Discussion and practice of the historical, theoretical and contemporary issues, and related topics related to the teaching of modern languages at the secondary level. Fall.

ML 440 STUDENT TEACHING SEMINAR IN MODERN LANGUAGES 1
Prereq.: Admission to the Professional Program in teacher education. Discussion, critical thinking and problem solving techniques with applications in the foreign language classroom. Taken concurrently with EDSC 435. Spring.

ML 490 TEACHING WORLD LANGUAGES II: ACQUISITION IN YOUNG CHILDREN FOR TEACHERS OF WORLD LANGUAGES 3
Prereq.: BS degree in target language or State language teacher certification. Participants will learn about research in the first and second language acquisition of world languages and discuss and apply implications of research findings (including brain research theory) for teaching and learning of world languages. Not open to TESOL students. Summer.

ML 492 TOPICS IN LANGUAGE TEACHING 1 TO 3
Prereq.: ML 429. Special aspects of language teaching, such as creative uses of the language laboratory and other special aids, individualizing language instruction, teaching of literature and culture in the schools, will be emphasized. Topics may vary from section to section. Course may be repeated, with different topics, for up to 6 credits. Irregular.
MUSIC

Note: Students enrolled in the following courses will be assessed an Applied Music Fee — $200.00 for 1/2 hour lesson (MUS 177) and $400.00 for full hour lesson (MUS 178). Contact the Department at 832-2912 for additional information.

MUS 090 CONCERT/FORUM ATTENDANCE N/C Attendance, totaling 9 per semester, at concerts/student forums sponsored by the Music Department. Music majors are required to enroll every semester except the semester they enrolled in either EDSC 420/421 or MUS 400.

MUS 101 PRACTICUM IN MUSIC EDUCATION 2 Overview of topics related to a career in music education. Includes case study analysis, discussion of issues in music education, observations and reflections on classroom teaching and rehearsals, and laboratory in music education technology. Spring.

MUS 109 FUNDAMENTALS OF MUSIC 3 Music reading, ear-training, and elementary music theory. Mode 4/Study Area I

MUS 110 LISTENING TO CLASSICAL MUSIC 3 Introduction to masterpieces of Western art music and to skills required for critical listening. Mode 4/Study Area I [I]

MUS 111 MUSIC OF THE WORLD’S PEOPLE 3 Introduction to music from a cross-cultural perspective, including African, Asian, Hispanic, and Native American musical traditions. Mode 4/Study Area I [I]

MUS 112 COMPUTER APPLICATIONS TO MUSIC 3 Exploration of music using computer technology. Includes music fundamentals, elementary principles of musical composition, and computer sound synthesis through the use of computers. Mode 4/Study Area I

MUS 113 HISTORY OF JAZZ 3 Survey of the evolution of jazz from its origins in African-American, European, and American ethnic styles through present models as illustrated through lectures, recordings, and related readings. Mode 4/Study Area I

MUS 114 MUSIC TECHNOLOGY FOR THE MUSIC EDUCATOR 2 Introduction to the various aspects of music technology relevant to music education, including notation, sequencing, computer-aided instruction, and multimedia music. On demand.

MUS 115 SIGHT SINGING I 1 Development of sight-singing skills, diatonic major and minor materials. Open only to music majors. To be taken concurrently with MUS 121. Fall.

MUS 116 SIGHT SINGING II 1 Prereq.: MUS 115 (C- or higher). Continued development of diatonic major and minor sight singing and ear training skills. Introduction to chromatic materials. Open only to music majors. To be taken concurrently with MUS 122. Spring.

MUS 121 MUSIC THEORY I 3 Prereq.: Permission of instructor. Basic properties of music with emphasis on melodic materials; study includes stylistic analysis, composition, two and three-part counterpoint. Open only to music majors, minors, or permission of instructor. To be taken concurrently with MUS 115. Fall.

MUS 122 MUSIC THEORY II 2 Prereq.: MUS 121 (C- or higher). Homophonic texture and diatonic harmonic relations, form, and analysis. Open only to music majors, minors, or permission of instructor. To be taken concurrently with MUS 115. Fall.

MUS 123 MUSIC HISTORY I 3 Prereq.: MUS 122. Survey of the development of Western music in its historical context from ancient Greece to the late Baroque era. Fall.

MUS 124 MUSIC HISTORY II 3 Prereq.: MUS 221, 235. Survey of the development of Western music in its historical context from the late Baroque to the late Romantic era. Spring.

MUS 125 MUSIC HISTORY III 3 Prereq.: MUS 122 (C- or higher). Harmonic relations continued; chromatic and higher tertian harmony, form, and analysis continued, basic principles of orchestration. Open only to music majors. To be taken concurrently with MUS 215. Fall.

MUS 126 MUSIC HISTORY IV 2 Prereq.: MUS 221 (C- or higher). Study of historical forms and contrapuntal techniques through analysis, composition, and performance, continuation of orchestration study. Spring. Open only to music majors. To be taken concurrently with MUS 216.

MUS 131 APPLIED MUSIC FOR MAJORS 2 Individual instrumental or vocal instruction in performance. Open only to music majors. Fee: $400 per semester.

MUS 132 APPLIED MUSIC FOR NON-MAJORS 2 Individual instrumental or vocal instruction in performance. Open only to non-majors by permission of the instructor. Fee: $200 per semester.

MUS 133 SIGHT SINGING V 1 Prereq.: MUS 116 (C- or higher). Continued development of diatonic major and minor sight singing. To be taken concurrently with MUS 122. Fall.

MUS 134 BAND-WIND ENSEMBLE 1 Prereq.: Permission of instructor through audition. Open to all students who play band instruments. Various types of literature performed. May be repeated for credit with different content. Mode 4

MUS 135 ORCHESTRA 1 Prereq.: Permission of instructor through audition. Open to all students who play orchestra instruments. Standard orchestral literature will be played. Course may be repeated for credit with different content. Mode 4

MUS 136 MARCHING BAND 1 Prereq.: Basic proficiency in playing a wind or percussion instrument. Performance of marching band music and opportunities to perform at football games and other special events. Fall.

MUS 137 APPLIED MUSIC FOR EDSC 420/421 2 Individual instrumental or vocal instruction in performance. Open to non-majors by permission of the instructor. Fee: $200 per semester. Mode 4

MUS 138 MUSIC HISTORY V 1 Prereq.: MUS 131 or permission of instructor. Critical study of major jazz artists and the influence of their lives, culture, and music on the development of jazz. On demand.

MUS 139 SIGHT SINGING VI 1 Prereq.: MUS 116 (C- or higher). Continued development of diatonic major and minor sight singing and ear training skills. Introduction to modulatory materials. Open only to music majors. To be taken concurrently with MUS 221. Fall.

MUS 140 ENSEMBLE 1 Prereq.: Permission of instructor through audition. Study and performance for ensembles for various combinations. May be repeated for credit with different content. This course does not satisfy ensemble degree requirements for Music majors (except B.A. in Jazz Studies). Mode 4

MUS 141 CHORUS 1 Various types of choral works are performed. Different choral literature is studied each semester. May be repeated for credit with different course content. Mode 4

MUS 142 BAND-WIND ENSEMBLE 1 Prereq.: Permission of instructor through audition. Open to all students who play band instruments. Various types of literature performed. May be repeated for credit with different content. Mode 4

MUS 143 ORCHESTRA 1 Prereq.: Permission of instructor through audition. Open to all students who play orchestra instruments. Standard orchestral literature will be played. Course may be repeated for credit with different content. Mode 4

MUS 144 MARCHING BAND 1 Prereq.: Basic proficiency in playing a wind or percussion instrument. Performance of marching band music and opportunities to perform at football games and other special events. Fall.

MUS 145 SIGHT SINGING VII 1 Prereq.: MUS 116 (C- or higher). Continued development of diatonic major and minor sight singing and ear training skills. Expanded tonal and atonal materials. Spring. Open only to music majors. To be taken concurrently with MUS 222.

MUS 146 SIGHT SINGING VIII 1 Prereq.: MUS 221 (C- or higher). Continued development of diatonic major and minor sight singing and ear training skills. Expanded tonal and atonal materials. Spring. Open only to music majors. To be taken concurrently with MUS 222.

MUS 147 APPLIED MUSIC FOR EDSC 420/421 2 Individual instrumental or vocal instruction in performance. Open to non-majors by permission of the instructor. Fee: $200 per semester. Mode 4

MUS 148 MUSIC HISTORY VI 1 Prereq.: MUS 131 or permission of instructor. Critical study of major jazz artists and the influence of their lives, culture, and music on the development of jazz. On demand.

MUS 149 SIGHT SINGING IX 1 Prereq.: MUS 116 (C- or higher). Continued development of diatonic major and minor sight singing and ear training skills. Expanded tonal and atonal materials. Spring. Open only to music majors. To be taken concurrently with MUS 222.

MUS 150 MUSIC THEORY III 3 Prereq.: MUS 122 (C- or higher). Harmonic relations continued; chromatic and higher tertian harmony, form, and analysis continued, basic principles of orchestration. Open only to music majors. To be taken concurrently with MUS 215. Fall.

MUS 151 MUSIC THEORY IV 2 Prereq.: MUS 221 (C- or higher). Study of historical forms and contrapuntal techniques through analysis, composition, and performance, continuation of orchestration study. Spring. Open only to music majors. To be taken concurrently with MUS 216.

MUS 152 MUSIC HISTORY I 3 Prereq.: MUS 122. Survey of the development of Western music in its historical context from ancient Greece to the late Baroque era. Fall.

MUS 153 MUSIC HISTORY II 3 Prereq.: MUS 221, 235. Survey of the development of Western music in its historical context from the late Baroque to the late Romantic era. Spring.
COURSE DESCRIPTIONS

MUS 250  PIANO CLASS I  2
Introduction to piano through the study of harmonic, melodic, and rhythmic patterns. Elementary keyboard skills in sight-reading, transposition and melody harmonization. For students with no previous piano training. Mode 4

MUS 251  PIANO CLASS II  2
Prereq.: MUS 250 or equivalent skill and permission of instructor. Continuation of keyboard skills introduced in MUS 250. Mode 4

MUS 259  VOCAL METHODS  1
Methods and materials of class instruction in voice. Open only to Music majors. Spring.

MUS 261  WOODWIND CLASS I  1
Beginning class instruction in woodwind instruments. Open only to Music majors. Fall.

MUS 262  BRASS CLASS I  2
Beginning class instruction in brass instruments. Open only to Music majors. Spring.

MUS 263  PERCUSSION CLASS  2
Class instruction in snare drum, tympani, and related orchestral and band percussion instruments. Open only to Music majors. Fall.

MUS 264  VOICE CLASS  2
Instruction in voice production and vocal techniques. Vocalizations for vowels, range, flexibility. Song repertoire for individual members. Fall. Mode 4

MUS 267  STRING CLASS: VIOLIN AND VIOLA  1
Methods and materials of class instruction in violin and viola. Open only to Music majors. Fall.

MUS 268  STRING CLASS: CELLO AND DOUBLE BASS  2
Methods and materials class instruction in cello and double bass. Open only to Music majors.

MUS 278  APPLIED MUSIC FOR MAJORS II  2
Prereq.: MUS 178. Individual instrumental or vocal instruction in performance. Open only to music majors. Fee: $400 per semester. May be repeated for up to 4 credits in any one performing area. Special conditions: demonstrated proficiency at prerequisite level. Spring.

MUS 310  GENERAL MUSIC METHODS  3
Prereq.: MUS 101 (C- or higher). Organization, aims, and supervision of elementary and middle school programs. Materials for teaching general music in the elementary and middle schools. Open only to Music Education majors. Fall.

MUS 315  CHORAL MUSIC METHODS  3
Prereq.: MUS 310. Organization, aims, methods and supervision of school vocal programs and choral organizations in elementary, middle and high schools. Discussion of special problems of choral conducting and the selecting of choral materials for elementary, middle and high school choirs. Open only to Music Education majors. Spring.

MUS 316  INSTRUMENTAL MUSIC METHODS  3
Prereq.: MUS 310. Organization, aims, methods, and supervision of school instrumental programs and instrumental organizations in elementary, middle and high schools. Discussion of special problems of instrumental conducting and the selecting of instrumental materials. Open only to Music Education majors. Spring.

MUS 335  MUSIC HISTORY III  3
Prereq.: MUS 335 or permission of instructor. Survey of the development of Western music in its historical context from the late Romantic era to the present. Fall.

MUS 350  PIANO CLASS III  2
Prereq.: MUS 251 or equivalent skill and permission of instructor. Continuation of MUS 251 with emphasis on keyboard skill. Harmonization of folk melodies, improvising to given chord pattern, sight-reading of community songs. Fall. Mode 4

MUS 351  PIANO CLASS IV  2
Prereq.: MUS 350 or equivalent skill and permission of instructor. Continuation of MUS 350. Improvisation on more advanced level. Repertoire from various styles of piano literature. Spring. Mode 4

MUS 361  WOODWIND CLASS II  1
Methods and materials of class instruction in woodwind instruments. Open only to Music Majors. Fall.

MUS 362  BRASS CLASS II  1
Prereq.: MUS 222 or equivalent. Methods and materials of class instruction in brass instruments. Open only to Music majors. Spring.

MUS 363  JAZZ IMPROVISATION I  3
Prereq.: MUS 222 or permission of instructor. Performance study of the elements of jazz harmony and transcription of solos. Students will perform on their major instruments. Fall.

MUS 364  JAZZ IMPROVISATION II  3
Prereq.: MUS 222 or 363 or permission of instructor. Performance study of the elements in the jazz idiom, with emphasis on creative expression. The course will focus on the development of musical ideas while also giving the student a broad experience of styles and historical genres in the jazz idiom. Spring.

MUS 365  JAZZ COMPOSING AND ARRANGING  2
Prereq.: MUS 222 or permission of instructor. Compositional and arranging techniques in the jazz idiom. Student will arrange and compose pieces for jazz ensemble. Student must be able to work independently. Fall.

MUS 367  CHORAL CONDUCTING  2
Prereq.: MUS 222 or equivalent. Development of skills in choral conducting and score reading. Open only to Music majors. Fall.

MUS 368  INSTRUMENTAL CONDUCTING  2
Prereq.: MUS 367. Development of skills in instrumental conducting, baton technique, and score reading. Open only to Music majors. Spring.

MUS 378  APPLIED MUSIC FOR MAJORS III  2
Prereq.: MUS 278. Individual instrumental or vocal instruction in performance. Open only to music majors. Fee: $400 per semester. May be repeated for up to 4 credits in any one performing area. Special conditions: demonstrated proficiency at prerequisite level.

MUS 380  NOTATION AND SEQUENCING  3
Prereq.: Permission of instructor. Introduction to the foundations of digital music technology including sound design and processing, MIDI sequencing, notation, and editing. On demand.

MUS 390  ORCHESTRATION  1
Prereq.: MUS 222. Techniques and principles of orchestration; both instrumental and vocal arranging. Open only to Music majors. Fall.

MUS 395  COMPOSITION  3
Prereq.: MUS 222 or permission of instructor. Principles and techniques of music composition, geared to the mature musician; much independent work. Open only to music majors. Spring.

MUS 400  PROJECT IN MUSIC  1 TO 4
Prereq.: Permission of instructor. Individual study in an area of student's choice. May take the form of performance, composition, paper, or other area to be determined in consultation with a Music Department adviser.

MUS 401  TOPICS IN MUSIC  1 TO 3
Prereq.: Permission of instructor. Selected topics in music to include specialized areas not covered in regular course offerings. May be repeated with different topics for up to 6 credits. Irregular. Mode 4

MUS 402  STUDENT TEACHING SEMINAR  1
Seminar in which students discuss experiences in their learning communities, share resources, problem-solve, and develop and refine teaching techniques. Taken concurrently with EDSC 420 and/or 421.
### COURSE DESCRIPTIONS

#### NURSING

**NRSE 300**  
**NURSING ASSESSMENT**  
3 credits  
The health assessment course is designed to prepare the registered nurse with the theoretical knowledge and skills necessary to perform a comprehensive assessment. The emphasis will be on comprehensive history taking, interviewing, and assessment techniques.

**NRSE 301**  
**THEORETICAL FOUNDATIONS OF NURSING**  
3 credits  
Introduction to the B.S.N. program philosophy, objectives, and conceptual framework. Investigation of related nursing theories and their application to nursing practice. An examination of the concept of wellness, nursing process, leadership, teaching, and learning as applied to individuals, families, and communities.

**NRSE 303**  
**INTRODUCTION TO NURSING RESEARCH**  
3 credits  
Prereq.: NRSE 301 and matriculation into the B.S.N. program. Basic nursing research design and methodology. Preparation of the professional nurse to be a critical consumer of nursing research and to begin to apply basic nursing research findings to nursing practice.

**NRSE 410**  
**HOLISTIC FAMILY CARE AND HEALTH PROMOTION ACROSS THE LIFE SPAN**  
4 credits  
Prereq.: NRSE 300, 301, 303, and matriculation in the BSN program. Integration, analysis, and synthesis of comprehensive theoretical concepts of holistic care across the life span in diverse settings. Must be taken concurrently, consecutively or continguously with NRSE 412 and 414. Fall, Spring, Summer.

**NRSE 412**  
**HOLISTIC FAMILY HEALTH CLINICAL PRACTICUM**  
4 credits  
Prereq.: NRSE 300, 301, 303, and matriculation in the BSN program. Application of the nursing process to families in diverse settings. Emphasis on leadership, delegation, health promotion, and complex care based on evidence based practice. Must be taken concurrently, consecutively, or continguously with NRSE 410 and 414, or permission of the Coordinator.

**NRSE 414**  
**PROFESSIONAL NURSING ROLE**  
4 credits  
Prereq.: Completion of all BSN course work. Synthesis of professional nursing practice from the analysis of selected ethical, social, political, professional, and role issues with related field experiences as appropriate. Must be taken concurrently, consecutively or continguously with NRSE 410 and 412, or permission of the Coordinator. Fall, Spring, Summer.

**NRSE 498**  
**SPECIAL STUDIES IN NURSING**  
3 credits  
Prereq.: Permission of instructor. Individualized plan to aid the learner in attainment of professional goals. Plan may consist of directed study of reading, clinical experience, individual instruction, research, or other appropriate activities.

#### PHILOSOPHY

**PHIL 100**  
**SEARCH IN PHILOSOPHY**  
3 credits  
Introduction to the techniques and perspectives of philosophical inquiry. Title and content may vary from section to section. Mode 1/Study Area I

**PHIL 112**  
**INTRODUCTION TO PHILOSOPHY**  
3 credits  
Introduction to the study of some significant philosophies, including problems such as metaphysics, theories of knowledge, and theories of value. Mode 1/Study Area I

**PHIL 121**  
**INTRODUCTION TO PHILOSOPHY THROUGH LITERATURE**  
3 credits  
Introduction to philosophical inquiry pursued through literary works. Topics covered include the nature of literary understanding, its relation to philosophical inquiry, and the meaning and grounds of philosophical ideas about the identity and interpretations of a work of literature. Study Area I

**PHIL 135**  
**NATURE, MIND, AND SCIENCE**  
3 credits  
Critical examination (both practical and theoretical) of issues arising in the private and public conduct of one's life. Typical issues for examination are abortion, violence, capital punishment, and conflicts between personal values and professional duties. Spring. Mode 1/Study Area I

**PHIL 144**  
**MORAL ISSUES**  
3 credits  
Introduction to the techniques and perspectives of philosophical inquiry. Title and content may vary from section to section. Mode 1/Study Area I

**PHIL 150**  
**SOCRATES**  
3 credits  
Introduction to the life and philosophy of Socrates, especially as portrayed in Plato's early dialogues. Some attention to other commentators such as Aristophanes, Xenophon, Nietzsche, and Kierkegaard. Mode 1/Study Area I

**PHIL 200**  
**THROUGH LITERATURE**  
3 credits  
Introduction to the techniques and perspectives of philosophical inquiry. Title and content may vary from section to section. Mode 1/Study Area I

**PHIL 221**  
**INTRODUCTION TO LOGIC**  
3 credits  
Introduction to formal systems of deductive reasoning (Aristotelian syllogism, Venn diagrams, sentential, and predicate logic), as well as non-deductive reasoning and the relations between logic and philosophy. Mode 1/Study Area I

**PHIL 222**  
**PHILOSOPHY OF GENDER**  
3 credits  
Prereq.: Three credits in Philosophy or permission of instructor. Study of attitudes to gender in the history of philosophy, discussion of recent and contemporary issues and texts, and an introduction to feminist thought. Fall. (E) Mode 1

**PHIL 230**  
**ANCIENT GREEK PHILOSOPHY**  
3 credits  
Development of Greek philosophy from the pre-Socratics to Plato and Aristotle. Fall. Mode 1

**PHIL 232**  
**MEDIEVAL AND RENAISSANCE PHILOSOPHY**  
3 credits  
Prereq.: PHIL 230. Development of European philosophy from the Middle Ages to the end of the 16th century. Spring. (E) Modes 1 and 5

**PHIL 235**  
**PHILOSOPHY OF SOCIAL SCIENCE**  
3 credits  
Study of philosophical questions related to the social sciences, including the origin and nature of the concept of social science and the relation between social science and natural science. Spring. (O) Study Area I
PHIL 240  ETHICAL PROBLEMS IN BUSINESS  3
Critical examination (both practical and theoretical) of contemporary moral problems in business such as ethical investment, questionable foreign payments, disclosure, dumping, mergers, job discrimination, whistle-blowing, and big and small business responsibilities and regulations. Spring. Mode 1

PHIL 241  ENVIRONMENTAL ETHICS  3
Critical examination of ethical problems concerning how people treat the land, air, plants, and animals. Fall. (E) Mode 1

PHIL 242  ETHICAL PROBLEMS IN TECHNOLOGY  3
Critical examination (both practical and theoretical) of contemporary moral problems in technology, ranging from modern farming and manufacturing technologies to recombinant DNA, nuclear, modern surgical and computer technologies. Fall. Mode 1

PHIL 245  COMPUTER ETHICS  3
Examination of ethical theories and principles relevant to issues regularly confronted by computer professionals and users, including privacy, intellectual property, expression, and codes of conduct. Fall.

PHIL 248  PHILOSOPHY OF THE ARTS  3
Prereq.: One course in philosophy or permission of instructor. Philosophical analysis of some of the concepts used in identifying, describing, and evaluating both works of art and aesthetic experience: expression, representation, form, content, interpretation. Fall. (O) Modes 1 and 4/Study Area I

PHIL 250  INTRODUCTION TO ASIAN PHILOSOPHY  3
Broad survey of Indian and Chinese philosophical traditions. Fall. (E) Mode 1/Study Area I [I]

PHIL 255  PHILOSOPHY OF RELIGION  3
Critical examination of important concepts, beliefs and arguments presented in world religions. Fall. Mode 1/Study Area I

PHIL 260  AFRICAN PHILOSOPHY  3
Examination of some or all of the five leading trends in African philosophy: ethnophilosophy, sagacity philosophy, metaphilosophy, modern/critical philosophy, and liberation philosophy. Spring. Mode 1/Study Area I [I]

PHIL 275  CHINESE PHILOSOPHY  3
Survey of Chinese philosophy from ancient times to the modern era, including early Confucianism and Taoism, Chinese Buddhist schools, Neo-Confucianism, and China's reaction to Western thought. Spring. (E) Modes 1 and 3/Study Area I [I]

PHIL 300  INTERMEDIATE SEMINAR  3
Prereq.: Major or minor in philosophy, or permission of seminar coordinator. Provides background about the areas of interest and expertise of faculty members and stimulates student participation through papers and discussion. Spring.

PHIL 320  MODERN LOGIC  3
Prereq.: PHIL 220 or permission of instructor. Further study of sentential and predicate logic. The formal foundations of epistemology and metaphysics as applied to various philosophical problems such as logical paradoxes, and minds and machines. Irregular. Mode 1

PHIL 330  RATIONALISM AND EMPIRICISM  3
Prereq.: PHIL 112. European philosophy from the Renaissance to the Enlightenment including Descartes, Spinoza, Leibniz ("rationalists"), Locke, Berkeley, Hume ("empiricists"), and Kant; ontology, epistemology and metaphysics, the beginnings of science and the classical foundations of political and ethical theory, psychology, and sociology. Fall. (O) Mode 1

PHIL 332  THE AGE OF IDEOLOGY  3
Prereq.: PHIL 112 or 330, or permission of instructor. Major issues of the nineteenth century: the era of Darwin, Hegel, Schopenhauer, Nietzsche, Marx, and others, focusing on metaphysics, epistemology, political philosophy, and philosophy of history. Topics include philosophical background to continental philosophy, liberal, conservative and socialist ideologies, and the scientific doctrines of evolutionism and mechanism. Fall. (E) Mode 1 [I]

PHIL 335  PHILOSOPHY OF SCIENCE  3
Study of some contemporary philosophies of science, including theories of scientific revolutions, confirmation and refutation of scientific theories, hypothesis formation and theory testing, and scientific progress. Spring. (E)

PHIL 346  ETHICAL THEORY  3
Prereq.: One previous course in philosophy. Examination of problems in theory about right and wrong, good and bad. Spring. Mode 1

PHIL 349  PHILOSOPHY OF LAW  3
The nature of law and of such correlative concepts as legal rights, obligations, responsibility and punishment. The logic of judicial reasoning. The relationship between law and morality. Fall. (O) Modes 1 and 7

PHIL 360  AFRICAN-AMERICAN PHILOSOPHY  3
Critical examination of the writings of African-American philosophers from 1619 to the present. Addresses issues in moral, social, and political philosophy. Spring. (O)

PHIL 366  EXISTENTIALISM  3
Some of the important existentialists in the 19th and 20th centuries, focusing on questions concerning human existence, such as freedom, responsibility, anguish, interpersonal relationship, and the meaning (or lack of meaning) of human existence itself. Spring. Modes 1 and 3/Study Area I [I]

PHIL 368  CONTEMPORARY EPISTEMOLOGY AND METAPHYSICS  3
Prereq.: PHIL 220 and 330, or permission of instructor. Study of relations between language, thought, and reality by reference to the works of leading 20th century thinkers, both analytic and others. Spring.

PHIL 376  BUDDHIST PHILOSOPHY  3
Previously PHIL 276. Critical survey of Buddhist philosophy from its Indian beginnings to its development in China, including contemporary aspects. Primary source material is used to illustrate key doctrinal developments. No credit given to those with credit for PHIL 276. Fall. [I]

PHIL 382  SPECIAL TOPICS IN PHILOSOPHY  3
Prereq.: One course in philosophy or permission of instructor. Study of various topics not dealt with in other philosophy courses. Irregular. Mode 1

PHIL 400  SEMINAR IN PHILOSOPHY  3
Prereq.: PHIL 220 and 330, or permission of instructor. Study of selected topics as announced. Spring.

PHIL 440  PROJECT IN APPLIED ETHICS  3
Prereq.: PHIL 220, 246, 341, 342. Research in applied ethics. May include a practicum. Spring

PHIL 441  PHILOSOPHY HONORS THESIS  3
Prereq.: Major in philosophy and approval of department. Undergraduate thesis on a topic in philosophy: On demand.

PHIL 492  INDEPENDENT STUDY  1 TO 3
Prereq.: Permission of instructor. Individual research in selected topics. Open to any student who wishes to pursue a topic of special interest for which the student is qualified. On demand.

PHYSICAL EDUCATION

Note: Students not majoring in Physical Education should see other courses under Recreation. PE 244 is required of all students who enter the University with fewer than 15 credits in fulfillment of the University requirement under Skill Area IV.

PE 101  COACHING PERMIT: LEGAL LIABILITY AND SAFETY ASPECTS OF COACHING  1
This course is designed to acquaint the student with a background in legal liability with specific reference to negligence, due process, and product liability. Summer and Winter Sessions.
PE 102 COACHING PERMIT: MEDICAL ASPECTS OF COACHING
This course is designed to acquaint the student with the medical aspects of coaching adolescents. Instruction will include the care of, prevention of, and rehabilitation of athletic-related injuries. Summer and Winter Sessions.

PE 103 COACHING PERMIT: PRINCIPLES AND PRACTICES OF COACHING
This course is designed to acquaint the student with the aspects of coaching which deal with the values of athletics in education, ethics, public relations, motivation, aggression and violence, anxiety and stress, and practice sessions. Summer and Winter Sessions.

PE 110 CONCEPTS IN FITNESS
Examines the general concepts of health-related physical fitness in a lecture/laboratory setting. Open to exercise science and athletic training students only.

PE 111 ORIENTATION TO PHYSICAL EDUCATION
Examines the history, philosophy, and foundation aspects of physical education with allied fields. Open to physical education majors only.

PE 112 INTRODUCTION TO ATHLETIC TRAINING
Introduction to the history, foundation, and philosophy of the athletic training profession and its relationship to other allied fields. Designed to acquaint students with academic and clinical requirements for certification as an entry level athletic trainer. Fall.

PE 201 TEACHING AEROBICS: DANCE, STEP AND AQUA
Principles of teaching aerobic fitness activities in the dance studio and in the pool. Topics include dance design, safety concerns, basic steps, choreography, and exercise leadership skills. Open to Exercise Science students only. Spring.

PE 210 PERSONAL AND COMMUNITY HEALTH
Prereq.: BIO 111 (C- or higher). Individual health problems of college students as well as optimum health patterns for the school, community, and home. Open to physical education, exercise science, and athletic training students only.

PE 213 ANATOMY IN PHYSICAL EDUCATION
Prereq.: BIO 111 (C- or higher). Study of structure and function of the human body with emphasis upon skeletal, muscular, nervous, and respiratory systems as applied to physical activity. Open to physical education, exercise science, and athletic training students only.

PE 214 PHYSIOLOGY IN PHYSICAL EDUCATION
Prereq.: PE 213 (C- or higher) and CHEM 111 (C- or higher). Study of the function of the human body with emphasis on the muscular, circulatory, respiratory, and nervous systems as applied to physical activity.

PE 215 PHYSIOLOGICAL ASPECTS OF THE HUMAN PERFORMANCE OF THE AGING
This course will stress the physiological responses of exercise and the physiological rationale for lifelong physical activities for the aged. Irregular.

PE 216 KINESIOLOGY
Prereq.: PE 214 (C- or higher) and PHYS 111 (C- or higher). Analysis and application of principles of mechanics as they relate to motor skills in physical activity.

PE 217 CARE AND TREATMENT OF ATHLETIC INJURIES
Prereq.: PE 213 (C- or higher). Prevention and treatment of athletic injuries with opportunity for practical application in prevention/protective strapping, acute injury care, fitting of protective equipment, and devising special padding. Course includes a 50-clock hour observation. Open to exercise science and athletic training students only.

PE 218 SCIENTIFIC BASIS FOR ATHLETIC TRAINING
Prereq.: PE 217. Orthopedic evaluation of athletic injuries, pre-season screening, and mechanisms of athletic injuries will be studied, as well as the psychology of injury and the effectiveness of athletics on the pre-adolescent athlete. Spring.

PE 224 FITNESS/WELLNESS VENTURES
Benefits of healthy lifestyle incorporating fitness and wellness topics within a lecture and activity setting. Area D/Skill Area IV

PE 227 OUTDOOR ADVENTURE ACTIVITIES
Survey course that includes group initiative games, rope course activities, and orienteering. Develops skills necessary to organize a safe, effective outdoor education program. Some class meetings occur off campus. Open to physical education majors only. Spring.

PE 300 DEVELOPMENTAL MOVEMENT
Application of Laban's Movement Framework to the teaching of elementary physical education. Includes rhythmical activities, folk dance, and developmentally appropriate games. Spring.

PE 305 EVALUATION IN PHYSICAL EDUCATION
Prereq.: STAT 104 and admission to the Professional Program in Teacher Education. Measurements in health and physical education. Emphasis on modern tests of physical fitness, skills, knowledge, and general motor ability. Fall.

PE 306 RECREATION AND THE AGING PROCESS
A study of the needs of the aged as applied to the provisions of recreational services in community and institutional settings. This course will provide methodology in one-to-one and group methods in leisure, fitness, or health services for the aging. Irregular.

PE 307 HUMAN NUTRITION
Prereq.: CHEM 111 (C- or higher). Principles and concepts of normal human nutrition applied to various stages in life and activities especially as they relate to health promotion and weight control. Motivational skills for fitness, adherence to healthy nutrition, and strategies for evaluating health and fitness claims will be discussed. Open to physical education, exercise science and athletic training students only.

PE 311 STRESS MANAGEMENT
Prereq.: PE 210 (C- or higher), PSY 112. Examines the physical and mental phenomena that constitute stress and the effects of negative stress on the body. Presents strategies for managing and coping with stress, increasing self control, and adaptive behavior. Fall.

PE 314 BASEBALL OFFICIATING
Rules and techniques of officiating interscholastic and intercollegiate baseball. The course includes field experience and classroom lecture. Spring.
PE 315 PRACTICUM IN ATHLETIC TRAINING I
Prereq.: PE 217, admission to the Professional Program in Athletic Training. Students also must have one semester of clinical experience in CCSU’s athletic training facility. Sixteen weeks of supervised NATABOC approved athletic training experience hours in CCSU’s athletic training facility. Experience includes basic first aid, evaluation, taping, wrapping, design and application of protective equipment, preparing teams for competition, and maintaining the athletic training room. May include weekends, unusual hours, and holidays.

PE 316 PRACTICUM IN ATHLETIC TRAINING II
Prereq.: PE 218, PE 315 and admission to the Professional Program in Athletic Training. Sixteen weeks of supervised NATABOC approved athletic training experience hours in CCSU’s athletic training facility. Includes evaluating athletic injuries, establishing treatment for rehabilitation, and maintaining records. May include weekends, unusual hours, and holidays.

PE 317 THERAPEUTICS IN ATHLETIC TRAINING
Prereq.: PE 217. Introduction to the theories and techniques of manual muscle testing, flexibility testing, rehabilitation, and conditioning programs. Theories of strength development including isokinetic techniques. Fall.

PE 319 PRACTICUM IN ATHLETIC TRAINING III
Prereq.: PE 316, PE 317 and admission to the Professional Program in Athletic Training. Sixteen weeks of supervised NATABOC approved athletic training experience hours in CCSU’s athletic training facility. Includes pre-season screening and physicals, general issues and neurological evaluations and advanced rehabilitation skills. May include weekends, unusual hours, and holidays.

PE 332 PSYCHOLOGICAL ASPECTS OF SPORT
Psychological aspects of sport participation are reviewed with emphasis on coach and player issues. Topics will include "burn out," stress management, arousal, motivation. Course aims to broaden student background in these topics and the interpersonal relationships between coaches and players at the adolescent and youth sport levels. Open to physical education, exercise science, and athletic training students only. Spring.

PE 350 RACQUET SPORTS
Survey course in racquet sport skills and techniques that will focus on application of motor learning and kinesiological principles for personal skill development as well as teaching/coaching application. Activity course. Open to physical education majors only.

PE 375 TRAINING FOR FITNESS
Prereq.: PE 214 (C- or higher). Designed to enhance fitness levels and to develop the knowledge and skills required to organize a safe and effective physical fitness program. Activity course. Open to physical education, exercise science, and athletic training majors only.

PE 380 LEADERSHIP IN EXERCISE AND WELLNESS
Prereq.: PE 210 (C- or higher), 375 (C- or higher). Opportunities for students to gain knowledge assisting instructor in the Fitness/Wellness course. Students will learn to lead exercise sessions and engage in health promotion activities. Open to exercise science students only. Spring.

PE 402 ORGANIZATION AND ADMINISTRATION OF PHYSICAL EDUCATION
Prereq.: Admission into the Professional Program in Teacher Education. Administrative procedures involved in conducting physical education activities, arranging programs, providing facilities and handling staff-class details. Finance, publicity, interscholastic, and intramural activities. Fall.

PE 403 METHODS IN PHYSICAL ACTIVITY FOR THE AGING
An examination of appropriate activities and methods of teaching physical education for the elderly. Irregular.

PE 405 ELEMENTARY METHODS IN PHYSICAL EDUCATION
Prereq.: PE 272, and PE 300 and admission to the Professional Program in Teacher Education. Application of the child-centered, problem-solving approach as a method to learning fundamental concepts of movement. Discussion, observation, and laboratory experience will provide theoretical background. An off-campus practicum is included. Open only to physical education majors.

PE 406 ADAPTED PHYSICAL EDUCATION
Prereq.: PE 214 (C- or higher), 272, 305. Pedagogical skills and knowledge pertaining to physical education for individuals with disabilities and gifted and talented individuals. Emphasis on program planning and teaching effectiveness in the psychomotor domain. Fall.

PE 407 HUMAN PERSPECTIVES IN SPORT
Prereq.: Senior or graduate status. This course offers students an opportunity to inquire into the nature and expression of humans in sport. Topics include the issue of competition and winning, amateurism vs. professionalism, the values of sport, causes and results of spectator behaviors. Fall.

PE 408 THE CURRICULUM PROCESS IN K-12 PHYSICAL EDUCATION
Prereq.: Admission to the Professional Program in Teacher Education. Identification of competency-based, goal-oriented activities appropriate to K-12 physical education. Emphasis on program development and design, instructional process, program implementation, and evaluation. Fall.

PE 409 PSYCHO-SOCIAL ASPECTS OF PHYSICAL EDUCATION
Prereq.: Admission to the Professional Program in Teacher Education. Foundation and practical psychological and sociological information for the improvement of physical education in today’s society. Spring.

PE 410 EXERCISE PHYSIOLOGY
Prereq.: PE 214 (C- or higher). The physiological factors which affect human performance in physical education and athletics will be studied. The acute and chronic effects of exercise on the respiratory, circulatory and muscular systems will be emphasized. Open to physical education, exercise science, and athletic training students only.

PE 411 ORGANIZATION AND MANAGEMENT OF HEALTH PROMOTION PROGRAMS
Prereq.: Admission to the Professional Program in Exercise Science or graduate status. Management procedures involved in conducting health fitness activities and program implementation. Emphasis on facilities, budgeting, legal liability, and risk management. Spring.

PE 412 THE APPLICATION OF TORT LAW TO PHYSICAL ACTIVITY
Prereq.: Junior/senior standing. Designed to acquaint physical educators and prospective coaches, athletic trainers, and health fitness personnel with negligence theory in physical activity. Spring.

PE 413 ORGANIZATION AND ADMINISTRATION OF ATHLETIC TRAINING
Prereq.: CS 115 and admission to the Professional Program in Athletic Training. Skills involved in managing and organizing an athletic training program. Emphasis on administrative plans, facilities, budgeting, legal issues, record keeping and public relations for the certified athletic trainer. Spring. (O)

PE 415 FITNESS ASSESSMENT AND EXERCISE PRESCRIPTION
Prereq.: PE 307, 410, STAT 104 and admission to the Professional Program in Exercise Science or graduate status. Provides an opportunity to study theories, concepts, procedures, and techniques necessary for an exercise specialist. Basic understandings of exercise prescription, community programs, intervention and rehabilitation, and cardiac exercise programs will be emphasized. Open to exercise science and athletic training students only.
PE 420 PERCEPTUAL AND MOTOR DEVELOPMENT 3
Prereq.: PE 300, and admission to the Professional Program in Teacher Education or graduate status. Surveys the information concerning motor learning for the young learner. Emphasis upon perceptual-motor learning and development of task analysis. Fall.

PE 421 PHARMACOLOGY IN SPORTS MEDICINE AND SPECIAL POPULATIONS 3
Prereq.: PE 307 and admission to the Professional Program in Athletic Training or Exercise Science. Basic principles of pharmacology, pharmacokinetics, and commonly prescribed therapeutic medications in athletics and special populations. Introduction to contemporary medications, social drugs, and performance enhancers used in sports medicine and exercise management for individuals with chronic diseases and disabilities. Spring. (E)

PE 422 MOTOR LEARNING 3
Prereq.: PE 420, and admission to the Professional Program in Teacher Education or graduate status. Examines the principles of motor learning which affect skill acquisition of secondary and post-secondary school learners. Spring.

PE 425 IMPLEMENTATION AND EVALUATION OF HEALTH PROMOTION PROGRAMS 3
Prereq.: PE 307, 410, STAT 104 and admission to the Professional Program in Exercise Science or graduate status. The development and implementation of health/fitness programs in schools, business, and community agencies. Organization and administration of health/fitness programs including the key components of exercise, weight control, nutrition, stress management, and low-back pain. Open to exercise science and athletic training students only. Fall.

PE 440 THERAPEUTIC MODALITIES IN ATHLETIC TRAINING 4
Prereq.: PE 218 or 317. Study of the effects of therapeutic modalities on athletic injuries. Topics include pain and its control, modality principles, indications, and contradictions. Emphasis on safe operation and application of modalities, manual therapy, and foot biomechanics. Two lectures and one one-hour laboratory. Fall.

PE 445 INTERNSHIP IN ATHLETIC TRAINING 6
Prereq.: PE 319, 440 and admission to the Professional Program in Athletic Training. Students also must have State of Connecticut EMT-B Certification. Internship under the direct supervision of a certified athletic trainer. May occur in a sports medicine, public or preparatory school, or college/university setting. May require weekends, unusual hours, and holidays.

PE 450 PRACTICUM IN EXERCISE SCIENCE 3
Prereq.: PE 375 (C- or higher), 415, 425, CS 115 and admission to the Professional Program in Exercise Science or graduate status. Provides an opportunity for students to gain 150 clock hours of field experience in an exercise setting, conducting prescribed exercise programs.

PE 470 INTERNSHIP IN EXERCISE AND HEALTH PROMOTION 6
Prereq.: PE 450 and admission to the Professional Program in Exercise Science or graduate status. Full semester off-campus practical experience in a health and fitness program. Topics include wellness/health promotion, corporate fitness, YMCA, strength and conditioning, sports medicine, and cardiac rehabilitation. Enhances professional preparation by offering opportunities to apply fundamental concepts in a work setting.

PE 490 INDEPENDENT STUDY IN PHYSICAL EDUCATION 1 TO 3
Prereq.: Senior or graduate standing and permission of department chair. Reading and research in approved topics under the guidance of a member of the department. May be repeated for a total of 3 credits.

PHYSICS

PHYS 111 INTRODUCTORY PHYSICS I 3
For students who do not plan to major or minor in science. Includes study of selected topics from mechanics, heat, electricity and light, and modern physics. Not open to students who have received credit for SCI 117. Two lectures and one two-hour laboratory per week. Mode 8/Study Area IV

PHYS 113 THE SOUND OF MUSIC 3
An introductory course covering the physical basis of music, sources of sound transmission and detection of sound waves, characteristics of sensation of sound and their physical correspondents, and general consideration of architectural acoustics. Two lectures and one two-hour laboratory per week. Spring. Mode 8/Study Area IV

PHYS 115 PHYSICS OF SAILING 3
Physical principles which find application in sailing will be studied. Selected readings, discussions, classroom demonstrations, field investigations with models, and demonstrations on board sailboats. Two lectures and one two-hour laboratory per week. Mode 8/Study Area IV

PHYS 121 GENERAL PHYSICS I 4
Prereq.: MATH 121, or MATH 119, or MATH 124 or MATH 115 and 125 (may be taken concurrently). Fundamental principles of mechanics and properties of matter; heat and sound. Three lectures and one three hour laboratory each week. Mode 8/Study Area IV

PHYS 122 GENERAL PHYSICS II 4
Prereq.: PHYS 121. A continuation of PHYS 121; electricity (DC and AC), magnetism, optics, and atomic phenomena. Three lectures and one three-hour laboratory per week. Mode 8/Study Area IV

PHYS 125 UNIVERSITY PHYSICS I 4
Prereq.: MATH 122 (may be taken concurrently). Introductory course for science/engineering students which uses calculus. Fundamental principles of mechanics, heat, and sound. Three lectures, one recitation, and one three-hour laboratory per week. Credit not given to students who have had PHYS 121. Mode 8/Study Area IV

PHYS 126 UNIVERSITY PHYSICS II 4
Prereq.: PHYS 125. Continuation of PHYS 125. Study of electricity, magnetism, and optics. Three lectures, one recitation and one three-hour laboratory per week. Mode 8/Study Area IV

PHYS 220 MECHANICS I 3
Prereq.: PHYS 122 or 126, MATH 222 (may be taken concurrently). Vector formulation of kinematics and dynamics of particles and rigid bodies. Topics include Newton's laws, momentum, energy, moving coordinate systems, central force motion, and the harmonic oscillator. Irregular.

PHYS 225 OPTICS 4
Prereq.: PHYS 122 or 126, MATH 221 (may be taken concurrently). Study of geometrical and physical optics. Topics include lens and mirror theories and applications, interference, and diffraction phenomena including holography and polarization. Matrix methods are employed where applicable. Three lectures and one three-hour laboratory per week. Irregular.

PHYS 250 INTERMEDIATE LAB I 1
Prereq.: PHYS 125, 126 and 220 or 320 (may be taken concurrently). Laboratory course with experiments performed in mechanics, heat, and thermodynamics. One three-hour laboratory per week. Irregular.

PHYS 305 FOUNDATIONS OF ELECTRICITY AND MAGNETISM 3
Prereq.: PHYS 220 and MATH 222. Electrostatics, circuit theory, electromagnetic fields of steady and alternating currents, solutions of Laplace's equation, Maxwell's equations, and propagation of electromagnetic waves. Irregular.
COURSE DESCRIPTIONS

PHYS 320  HEAT AND THERMODYNAMICS  3

PHYS 331  ELECTRONICS I  3
Prereq.: PHYS 122 or 126, MATH 221 (may be taken concurrently). Unified treatment of solid state devices and their applications in filters, regulators, power supplies, oscillators, amplifiers, and control devices. Introduction to digital circuits such as logic gates. Two lectures and one three-hour laboratory period per week. Irregular.

PHYS 332  ELECTRONICS II  3
Prereq.: PHYS 331. A continuation of PHYS 331. Digital circuitry including flip-flops, counters, ADC and DAC, shift registers, microprocessor architecture, instruction set, addressing, and interfacing. Two lectures and one three hour laboratory per week. Irregular.

PHYS 338  DIGITAL SYSTEMS LABORATORY  1
Prereq.: CS 354 (may be taken concurrently). Laboratory experiments and designs that lead to understanding of concepts of digital systems, using logical and sequential networks. One three-hour lab per week.

PHYS 339  COMPUTER ELECTRONICS I  4
Prereq.: MATH 122 and junior standing. Study of basic electrical elements leading to an understanding of analog and digital circuits used in computers. For computer science, physical science and life science majors. Not open to students with credit for PHYS 331. Three lecture hours and one three-hour lab per week. Irregular. Mode 8

PHYS 340  COMPUTER ELECTRONICS II  4
Prereq.: PHYS 339. Investigation of microprocessor devices, architecture, instruction set, addressing, and interfacing. Experimentation with microcomputer systems and peripherals. Three lecture hours and one three-hour laboratory per week. Irregular. Mode 8

PHYS 350  INTERMEDIATE LAB II  1
Prereq.: PHYS 305 or 425 (may be taken concurrently). Laboratory course with experiments in electrical measurements and modern physics (Planck's constant, charge to mass ratio of the electron, Millikan's oil drop experiment, etc.). One three-hour laboratory per week. Irregular.

PHYS 411  MECHANICS II  3

PHYS 425  MODERN PHYSICS  3
Prereq.: PHYS 305. Special theory of relativity; quantum aspects of matter and of electromagnetic radiation, Bohr model, nuclear structure, radioactivity. Irregular.

PHYS 442  ELECTROMAGNETICS  3

PHYS 450  ADVANCED LABORATORY  1
Prereq.: PHYS 331, 425. A study of the 400 kV Van de Graaf accelerator, particle detection electronics, and a study of induced nuclear reactions. One three-hour laboratory per week. Irregular.

PHYS 462  INDEPENDENT STUDY IN PHYSICS  1
Prereq.: Approved plan of study by arrangement with supervising instructor and approval of department chair. Special work in laboratory or theory to meet individual requirements in areas not covered by regular curriculum. May be taken more than one semester up to a limit of 4 credits.

PHYS 460  SEMINAR IN PHYSICS  1
Prereq.: Senior standing. Through individual readings, discussions, and presentations, students will study contemporary topics in various fields of physics. Capstone requirement for all physics majors in the B.A. and B.S. non-teaching programs. Hours by arrangement. Spring.

PHYS 470  QUANTUM MECHANICS  3
Prereq.: PHYS 425. Limits of classical physics, wave packets and uncertainty, Schrödinger wave equation, eigenfunctions and eigenvalues, one-dimensional potentials, wave mechanics, operator methods. Irregular.

PHYS 471  QUANTUM MECHANICS II  3
Prereq.: PHYS 470. Three-dimensional Schrödinger equation, angular momentum, radial equation, hydrogen atom, operator matrices and spin, addition of angular momentum, plus additional topics to be chosen by instructor. Irregular.

PHYS 480  STUDENT INTERNSHIP IN PHYSICS  3
Prereq.: Senior standing and permission of the student's adviser. Students participating in the program will serve as interns, obtaining outside industrial and/or research experiences in an environment directly related to their program. Before commencing work, a plan of the Committee of Physics faculty members. Restricted to physics majors pursuing the B.A. degree. Either semester. On demand.

PHYS 490  TOPICS IN PHYSICS  3
Selected studies in physics which are not offered presently in the curriculum of the department. Course may be repeated for different topics. No topic may be taken for credit more than once. Irregular.

POLISH

POL 111  ELEMENTARY POLISH I  3
Functional approach to grammar. Development of facility in speaking, understanding, reading Polish. Not open to students with one year or more of high school study. Fall. Area B/Skill Area III

POL 112  ELEMENTARY POLISH II  3
Prereq.: POL 111 or equivalent. Continuation of POL 111. Functional approach to grammar. Development of facility in speaking, understanding, reading Polish. Spring. Area B/Skill Area III [I]

POL 125  INTERMEDIATE POLISH I  3
Prereq.: One year of college Polish or equivalent. Principles of Polish structure are reviewed. Short stories and poems are read and discussed. Conversation and composition topics given to improve oral and written expression. Fall. Area B/Skill Area III [I]

POL 126  INTERMEDIATE POLISH II  3
Prereq.: POL 125 or equivalent. Continuation of POL 125. Further work in written and oral expression. Spring. Area B/Skill Area III [I]

POLITICAL SCIENCE

PS 104  THE WORLD'S POLITICAL SYSTEMS  3
Comparative survey of the structures and functions of the national governments of selected industrialized and Third World nations, such as the U.S., Russia, Britain, France, India, Nigeria, and Brazil. Scope and methods of political science and key policy issues will be treated in a comparative context. PS 104 or 110 is required for all majors. Mode 7/Study Area II [I]

PS 110  AMERICAN GOVERNMENT AND POLITICS  3
Structure, functions, services, and problems of government and politics at the national level. PS 110 or 104 is required of all majors. Mode 7/Study Area II

PS 230  AMERICAN STATE AND LOCAL GOVERNMENT  3
Organization and major problems of state and local government in the United States, with attention to intergovernmental relations, federalism, and contemporary issues. Mode 7/Study Area II

PS 231  CONDUCT OF AMERICAN FOREIGN POLICY  3
Theories, processes, and problems of American foreign policy and the craft of diplomacy, with special attention to contemporary issues. Mode 7 [I]

PS 232  ANCIENT AND MEDIEVAL POLITICAL THOUGHT  3
Political thought from Plato to Machiavelli. Fall. Mode 7/Study Area I
PS 235  INTERNATIONAL RELATIONS 3
Introduction to study of international relations, including international poli­tics, international law and morality, international organization, international conflict and cooperation and the foreign policies of the major powers. Mode 7
Study Area II [I]

PS 241  WOMEN AND AMERICAN LAW 3
Examines the evolution of women's legal rights in the United States. Special attention given to the legal status of women in the economic, political, edu­cation­al, and judicial sectors of society. Fall. [E] Mode 7

PS 260  PUBLIC ADMINISTRATION 3
Prereq.: PS 104 or 110. Study of administrative theory and the politics of bureaucracy. Assigned readings, field projects, and research papers. Mode 7
Study Area II

PS 291  SPECIAL TOPIC IN POLITICAL SCIENCE 3
Examination of selected topics in political science. Topics may vary from semester to semester. On demand. Mode 7

PS 315  TECHNOLOGY, BUSINESS AND POLITICS I : CYBERSPACE AND MEDIA POLITICS 3
Technologies of the information superhighway, their political implications, and decentralizing effects: economic concentration in the media industries; politics and public policy toward the telecommunications industries; the 1996 Telecommunications Act; rate deregulation; and potential threats to privacy and freedom of speech and of the press. Mode 7/Study Area II. Spring. (O)

PS 330  AMERICAN PARTIES AND INTEREST GROUPS 3
Prereq.: PS 104, 110 or permission of instructor. Historical development and current operation of party organizations in the United States, with attention to voting behavior, interest groups, the influence of news media, etc. Field research projects. Fall (E). Mode 7

PS 331  AMERICAN CONSTITUTIONAL LAW 3
Prereq.: PS 104 or 110. Great constitutional issues through the study of Supreme Court decisions. Origins of judicial review in Marbury v. Madison to current issues, exclusive of civil liberties. In addition to the traditional case approach, attention is given to a behavioral understanding of judicial decision making. Mode 7

PS 332  CIVIL LIBERTIES 3
Prereq.: PS 104 or 110. Constitutional safeguards of liberty and property. Special attention to privileges and immunities, equality and civil rights. Mode 7

PS 334  MODERN POLITICAL THOUGHT 3
Critical consideration is given to modern political thinkers, origins, developments, and present significance. Spring. Mode 7/Study Area II

PS 335  AMERICAN POLITICAL THOUGHT 3
American political thought, with special attention to early and contemporary discussion of liberalism, conservatism, pluralism, and radicalism. Spring. (O) Mode 7

PS 336  WEST EUROPEAN GOVERNMENTS 3
Comparison of selected West European political systems, mainly in Britain, France and West Germany. Other countries may be included. Mode 7 [I]

PS 338  INTERNATIONAL ORGANIZATION 3
Basic assumptions, objectives, growth, problems, and prospects of international organizations, such as the League of Nations, the U.N. and its specialized agencies, the O.A.S. Irregular. Mode 7 [I]

PS 339  INTERNATIONAL LAW 3
Nature and functions of international law in the international community, in theory as well as in practice. Mode 7 [I]

PS 343  POLITICAL LEADERSHIP 3
Prereq.: PS 104, 110 or instructor's permission. Analysis of political leadership and its role in the political process. Mode 7

PS 344  INTERPRETATION OF POLITICAL DATA 3
Prereq.: PS 104, 110 or permission of instructor. Basic introduction to computer applications in political science and use of computer and analytic skills in such areas as domestic and international politics, research, administration, policy studies, and political campaigns. Fall. (E) Mode 7

PS 345  INTERNATIONAL TERRORISM 3
Examination of definitions, history, philosophy, and theories of international terrorism, as well as tactics and strategies of terrorist groups and responses of govern­ments, with emphasis on policy alternatives and civil liberties dilemmas for democratic countries combating terrorism. Mode 7 [I]

PS 380  INTERNATIONAL CONFLICT AND SECURITY 3
Prereq.: PS 104, 110 or permission of instructor. Theory and case studies of international and domestic conflict and conflict resolution during the Cold War and post-Cold War eras. Emphasis on forms of conflict (international war, civil wars, revolutions, domestic insurgencies) and forms of conflict resolution (inter­vention, bargaining, negotiation, diplomacy and strategies of international secu­rity, peace-building and peacekeeping). Fall, Spring, Summer. [I]

PS 415  TECHNOLOGY, BUSINESS AND POLITICS II: FROM THE INDUSTRIAL AGE TO THE INFORMATION AGE 3
Prereq.: PS 104 or 110 or 315 or permission of instructor. Analysis of the evolution of the pattern of interaction between business and government in the American administrative and political process as we enter the information age, with attention to how we as members of society are affected by and may influence this process. Spring. (E) Mode 7

PS 420  GOVERNMENT AND POLITICS OF LATIN AMERICA 3
Historical, social, economic, and ideological factors impacting contemporary government and politics in Latin America. Spring. (O) Mode 7 [I]

PS 421  GOVERNMENT AND POLITICS OF AFRICA 3
Historical, social, economic, and ideological factors impacting contemporary government and politics in Africa. Spring. (O) Mode 7 [I]

PS 425  ASIAN POLITICS 3
Prereq.: PS 104. Examination of the government and politics of East and South Asia with major focus on Japan, China, and India. Emphasis on historical and cultural forces shaping politics, Western impact on Asia, and cross-national comparisons. Spring. Mode 7 [I]

PS 430  THE AMERICAN PRESIDENCY 3
Prereq.: PS 104, 110 or permission of instructor. Office of President and place in the political system, colonial antecedents and modern counterparts. Emphasis on the presidency's functional and institutional development, contemporary role in politics and public policy, and interplay between man and office. Spring. Mode 7

PS 431  THE LEGISLATIVE PROCESS 3

PS 432  URBAN POLITICS AND GOVERNMENT 3
Prereq.: PS 104 or 110 or permission of instructor (non-Political Science introductory courses may be substituted with permission of instructor). Selected urban conditions and problems such as housing, racial relations, power structure, intergovernmental relations, partisan politics, group behavior, forms of govern­ment, politics of planning, regionalism, economic development, transportation, and communication. Field research projects. Fall. (O) Mode 7

PS 433  TWENTIETH CENTURY POLITICAL THOUGHT 3
Contemporary approaches to political theory, such as socialism, conservatism, liberalism, and group theory. Fall. Mode 7
COURSE DESCRIPTIONS

PS 434  GOVERNMENT AND POLITICS OF THE MIDDLE EAST AND NORTH AFRICA  3
Historical background, contemporary setting, political processes, and major problems of some of the countries of Middle East and North Africa. Spring. Mode 7 [I]

PS 435  RUSSIAN AND EASTERN EUROPE  3
Government and politics of Russia and of selected Eastern European countries such as Poland, Hungary, Ukraine, and Yugoslavia. Irregular. Mode 7 [I]

PS 439  U.S. MIDDLE EAST POLICY  3
Examination of the evolution of United States foreign policy towards the Middle East since W.W. II. Emphasis placed on the sources, determinants, and goals of United States policy and the challenges facing the United States in the region. Irregular. Mode 7 [I]

PS 445  PUBLIC POLICY ANALYSIS AND EVALUATION  3
Prereq.: Permission of instructor or two courses in political science, geography, economics or sociology; plus completion of, or simultaneous registration in, PS 344 or MATH 125. An investigation in perspectives and methods of measuring public policies.

PS 446  THE BUDGETARY PROCESS  3
Prereq.: PS 110 and 260. Examination and analysis of budgeting as an administrative and political process, with attention to techniques and reform efforts.

PS 447  ADMINISTRATIVE LAW  3
Prereq.: PS 110. PS 331 recommended. Study of administrative agencies and the legal boundaries within which they operate. Constitutional case law and the Uniform Administrative Procedures Act will be applied to agency rule-making and regulation. Current controversies over the role of administrative agencies.

PS 448  THE POLITICS OF HUMAN SERVICES  3
Study of the politics and administration of government programs that deal with human problems such as poverty, crime, health, manpower development, and housing. Mode 7

PS 450  ETHICS, CORRUPTION, AND VIRTUE IN PUBLIC SERVICE  3
Prereq.: PS 110, 260, and junior standing. An examination of the ethical dimensions of public service, including elective, appointment, and civil service. Topics include relationship between ethical theory and practice, standards of action, administrative discretion, and ethical training for public administrators. Fall.

PS 480  GOVERNMENT INTERNSHIP EXPERIENCE  3
Prereq.: Junior or senior status with a 2.50 grade point average or higher. To be taken concurrently with PS 481. Students who apply and are admitted to this program are assigned to work in state and local government departments and agencies for a minimum of two days a week. Not open to students who have completed PS 482 and 483. By application.

PS 481  INTERNS SEMINARS AND RESEARCH  3
Prereq.: Junior or senior status with a 2.50 grade point average or higher. Seminars and research projects and papers related to work assignments of PS 480. Open only to students concurrently enrolled in PS 480.

PS 482  GOVERNMENT INTERNSHIP EXPERIENCE  6
Prereq.: Junior or senior status; a minimum of 3.00 grade point average unless special departmental discretionary exception is approved by the Dean of Arts and Sciences. Must be taken concurrently with PS 483. Students who apply and are admitted to this program are assigned to work on a full-time basis, five days per week, with the State legislature or administrative department or agencies. Cannot be taken by students who have completed PS 480 and 481. No more than 3 credits may be taken by students who have completed PS 482 may be applied toward a Political Science major. By application.

PS 483  INTERNS SEMINARS AND RESEARCH  6
Prereq.: Junior or senior status; a minimal 3.00 grade point average unless special departmental discretionary exception is approved by the Dean of Arts and Sciences. Open only to students concurrently enrolled in PS 482. A series of seminars, assigned readings, and completion of a substantial research project related to work assignments of PS 482. No more than 3 credits of PS 483 may be applied toward a Political Science major.

PS 490  DIRECTED READINGS IN POLITICAL SCIENCE  3 OR 6
Prereq.: Permission of instructor. Individual programs of study for students with special abilities or interests in political science. On demand.

PS 491  ADVANCED STUDIES IN POLITICAL SCIENCE  3
Prereq.: Permission of instructor. Extensive study of selected problems in political science. On demand.

PS 492  POLICY STUDIES  3
Prereq.: PS 110 and 240. Analysis and evaluation of specific policy issues at the state and national levels of government. Topics will vary from year to year. If topics differ, may be taken more than once. Irregular.

PSYCHOLOGY

Note: Junior standing is recommended for 300-level courses; junior or senior standing is required for 400-level courses.

PSY 112  GENERAL PSYCHOLOGY I  3
Major areas involved, with emphasis on scientific methods and application to systematic study of human behavior. Required of all psychology majors and minors in the B.A. and B.S. programs. Mode 6/Study Area III

PSY 113  EXPLORING PSYCHOLOGY  1
Prereq.: PSY 112 (may be taken concurrently). Introduction to the academic, professional, and ethical aspects of the field of psychology. Develops critical thinking, research, library, and information acquisition for psychology. Also explores career options. Open only to Psychology majors or with permission of instructor. [c]

PSY 125  ENVIRONMENT & BEHAVIOR  3
Prereq.: PSY 112. Effects of built and natural environment on human behavior, cognition, and emotion. Mode 6/Study Area III

PSY 200  LEARNING & MEMORY  3
Prereq.: PSY 112. Introduction to theories, methods, and research in the study of learning and memory. Underlying mechanisms of behavior and models of memory derived from animal and human research will be emphasized. Mode 6/Study Area III

PSY 221  RESEARCH METHODS IN PSYCHOLOGY I  3
Prereq.: PSY 112 (C or higher) and STAT 215 (C or higher). Introduction to research methods in psychology, with an emphasis on experimental designs which employ a single independent variable. Each student will plan an independent research project. Two-hour lecture and two-hour laboratory per week. Required for all psychology majors. [c]

PSY 222  RESEARCH METHODS IN PSYCHOLOGY II  3
Prereq.: PSY 221. Controlled experiments are contrasted with non-experimental designs, such as naturalistic observation, surveys, and field studies. Factorial, mixed, and multivariate designs are discussed. Each student will complete the independent project proposed in PSY 221. Two hour lectures and two-hour laboratory per week. Required of all psychology majors. [c]

PSY 234  INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY  3
Prereq.: PSY 112 or permission of instructor. Application of psychological theory, knowledge and methods to behavior in industry and organizations. Mode 6
PSY 236  LIFE-Span DEVELOPMENT  3  
Human development from conception through old age, considering physical, emotional, social, and intellectual factors. Required of all psychology majors. Mode 6/Study Area III

PSY 239  SURVEY OF RESEARCH METHODS  3  
Prereq.: MATH 213 or STAT 215. Introduction to research methods, techniques, and resources in the social sciences. Emphasis will be on critical evaluation of existing research. Cannot be used to meet the requirements for a major in psychology.

PSY 241  INTRODUCTION TO HEALTH PSYCHOLOGY  3  
Prereq.: PSY 112. Examination of how psychological processes impact health, both positively and negatively. Topics include health-related behaviors, stress, coping, and management of chronic illness such as cancer, diabetes, heart disease, and HIV/AIDS. Fall. Study Area III

PSY 281  COGNITIVE PSYCHOLOGY  3  
Prereq.: PSY 112. Overview of current theory concerning the processing of information by the human mind. Emphasis placed on relevant contributions from the areas of perception, memory, language, and thinking. Fall. Mode 6/Study Area III

PSY 330  ABNORMAL PSYCHOLOGY  3  
Prereq.: PSY 112 and one other psychology course. Symptoms, causes and treatment of deviant behavior, anxiety disorders, psychoses, personality disorders, substance abuse disorders.

PSY 342  SENSATION & PERCEPTION  3  
Prereq.: Six credits in psychology or permission of instructor. Study of the physiological, psychophysical, and psychological processes through which organisms interact with the environment. Fall.

PSY 362  CHILD PSYCHOLOGY  3  
Prereq.: PSY 236. Advanced study in developmental psychology through the childhood years. Emphasis on topics in the areas of social, emotional, personality, and cognitive development.

PSY 363  ADOLESCENT PSYCHOLOGY  3  
Prereq.: PSY 236. Research studies pertaining to adolescence, with special emphasis on psychological development and problems characteristic of the age. Mode 6

PSY 365  PSYCHOLOGY OF THE EXCEPTIONAL CHILD  3  
Prereq.: PSY 236. Psychological characteristics of exceptional children (gifted, retarded, emotionally disturbed, physically handicapped, etc.) with emphasis on implications of these characteristics for classroom procedures. Mode 6

PSY 372  SOCIAL PSYCHOLOGY  3  
Prereq.: Two courses in psychology. Influence of social factors on behavior, cognition, and emotions of individuals. Analysis of methods of research in social setting.

PSY 380  PSYCHOLOGY OF DYING AND DEATH  3  
Prereq.: PSY 112 or equivalent. Psychological issues of death, dying, and suicide. Topics include death and denial, fear of death, grief and bereavement, child’s and adolescent’s view of death, psychological stages of dying, and euthanasia. Mode 6

PSY 385  HUMANISTIC PSYCHOLOGY  3  
Prereq.: Two courses in psychology. Study of humanistic approaches to the understanding of behavior. Focus is on the healthy personality and its potential for self-actualization.

PSY 390  HUMAN SEXUALITY  3  
Prereq.: PSY 112 and one other course in psychology. Survey of social scientific theories and studies relevant to understanding human sexuality. Topics include reproductive technology, attraction, sexual response cycle, therapeutic interventions, sexually-transmitted diseases, and human development.

PSY 428  ADULT DEVELOPMENT AND AGING  3  
Prereq.: PSY 236. Study of behavior, dynamics, and developmental processes from early adulthood through old age and death. Mode 6

PSY 430  PSYCHOLOGY OF DIVERSITY  3  
Prereq.: PSY 112 or permission of instructor. Review of psychological research and theories pertaining to the study of diversity. Implications for clinical work and community education will be discussed. Spring. Mode 6

PSY 440  MOTIVATION  3  
Prereq.: Three courses in psychology. Physiological and psychological variables in selected motivational processes. Problems of measurement, empirical findings, and theoretical research. Readings in contemporary literature.

PSY 446  INTRODUCTION TO THE PSYCHOLOGY OF COUNSELING  3  
Prereq.: Three courses in psychology. An introduction to the basic assumptions and theoretical approaches in the counseling process. Students wishing to become trained as counselors are advised to contact the Department of Health and Human Service Professions. Irregular.

PSY 448  PSYCHOLOGY OF WOMEN  3  
Review of research and theories pertaining to the psychology of women. The dynamic aspects of being female in the development of cognitive, emotional, motivational, and social behavior is emphasized. Psycho-social implications and consequences of changing sex roles will be examined. Mode 6

PSY 450  BIOPSYCHOLOGY  3  
Prereq.: Six credits in psychology or permission of instructor. Analysis of relationships between bodily processes and behavior.

PSY 451  PSYCHOLOGICAL EVALUATION  3  
Prereq.: Three courses in psychology. Principles and problems basic to construction, choice and use of psychological measuring instruments, and study of application to diagnosis. Special Condition: completion of additional project by graduate students. Fall.

PSY 454  DRUGS AND BEHAVIOR  3  
Prereq.: PSY 112. Overview of the major classes of psychoactive drugs and their effect on the brain and behavior. Legal drugs, such as alcohol and caffeine, and illegal drugs are considered. Mode 6

PSY 458  HUMAN NEUROPSYCHOLOGY  3  
Prereq.: PSY 330 and 450, or permission of instructor. Relationship between the brain and behavior is examined. Topics include disorders of speech and memory, common neurological disorders such as dementia and stroke, and alcohol-related disorders. Spring.

PSY 460  BEHAVIOR MODIFICATION: THEORY AND PRACTICE  3  
Prereq.: PSY 200 or permission of instructor. Application of learning principles to the modification of both normal and abnormal behavior. The settings for application include areas such as personal, social, and marriage counseling; individual and group psychotherapy; formal and informal education and re-education; personal, vocational, and correctional rehabilitation.

PSY 462  PSYCHOLOGY OF EARLY CHILDHOOD  3  
Prereq.: PSY 236. Study and observation of young children (birth to age six), with emphasis on the development, origins, and dynamic processes of behavior within this age range.

PSY 470  THEORIES OF PERSONALITY  3  
Prereq.: Three courses in psychology. Nature of personality theory and major contemporary theories of personality, including empirical evidence relevant to these theories.

PSY 490  HISTORY & SYSTEMS OF PSYCHOLOGY  3  
Prereq.: PSY 112, three other courses in psychology and junior standing. Historical study with emphasis on general philosophical bases, development of psychology as an experimental science, and comparative analysis of principal modes of psychological inquiry.
PSY 496  INTERNSHIP IN PSYCHOLOGICAL APPLICATIONS  3  
Prereq.: Written permission of instructor. Supervised work in public and private agencies and institutions requiring the application of psychological principles. A study of appropriate references and a written report of procedures and conclusions suggested. May be repeated for a total of 6 credits.

PSY 498  TOPICS IN PSYCHOLOGY  1 TO 3  
Prereq.: Senior, or graduate standing, or permission of instructor. Study of selected topics in psychology. Topics announced each semester. May be repeated with different topics for a total of 6 credits.

PSY 499  INDEPENDENT READING AND RESEARCH IN PSYCHOLOGY  1 TO 3  
Prereq.: Junior, senior, or graduate standing and written permission of instructor. Directed independent studies in psychology. May be repeated for a total of 6 credits. On demand.

READING

RDG 140  READING EFFICIENCY  3  
Student’s reading is analyzed and training is provided to improve vocabulary, comprehension, and rate. Study skills needed in college work are given attention. Area C/Skill Area IV

RDG 315  INTRODUCTION TO LITERACY  3  
Last offering: Spring 2002. Prereq.: Admission to the Professional Program. Relationship of the language arts to current learning theories and test processing models, and their importance across grade levels, curriculum and culture. Major project specific to elementary or middle level certification required.

RDG 315  INTRODUCTION TO LITERACY  3  
First offering: Spring 2002 (effective Fall 2002, fall only for ECE). Prereq.: Admission to the Professional Program in Teacher Education. Taken concurrently with EDTE 315 (Elementary Education majors). Development of a knowledge and belief system in reading and familiarity with instructional models and assessments. Field experience required.

RDG 316  COMPREHENSIVE READING INSTRUCTION II  3  
First offering: Fall 2002 (effective Spring 2003, spring only). Prereq.: RDG 315. Taken concurrently with EDTE 320 (Elementary Education majors) and EDTE 420 (Early Childhood majors). Expansion of a knowledge and belief system in reading, and familiarity with instructional models and assessments. Development of awareness to the organization and enhancement of reading programs. Field experience required.

RDG 412  LITERACY IN THE ELEMENTARY SCHOOL  3  
Last offering: Fall 2002. Prereq.: RDG 412 or 423. Integrated approach to the teaching of reading, writing, listening, speaking and viewing in the elementary school curriculum. Field experience required.

RDG 423  LITERACY FOR EARLY CHILDHOOD  3  
First offering: Spring 2002 (effective Spring 2003, spring only). Prereq.: Admission to Professional Program. Developmental aspects of language activity in listening, speaking, reading, writing, viewing, and visually representing from nursery to grade 3. Understanding and application of knowledge, skills, and materials as they relate to preschool into primary grades. Field experience required.

RDG 427  LITERACY IN THE PRIMARY GRADES  3  
Last offering: Fall 2002. Prereq.: RDG 423. Developmental aspects of language activity in listening, speaking, reading, writing, and viewing in elementary schools. Understanding and application of knowledge, skills, and materials as they relate to the primary grades. Field experiences required.

RDG 440  LITERACY IN THE SECONDARY SCHOOL  3  
Prereq.: Admission to the Professional Program in Teacher Education or permission of Reading Department chair. Fundamentals of reading and language arts to support instructional design and student development across disciplines and grade levels. Designed for pre-service content area teachers. Field experience required.

RECREATION

(RECREATION)

REC 104  SELF-DEFENSE  1  
Rigorous program designed to combine self-defense techniques, increased strength, stamina, and flexibility, which provides an increased awareness and understanding of the ability to defend oneself. Area D

REC 105  INTERMEDIATE SELF-DEFENSE  1  
Prereq.: Permission of instructor. Combination of self-defense techniques, increased strength, stamina, and flexibility on an intermediate level. Provides an increased awareness and understanding of the ability to defend oneself. Area D

REC 124  DOWNHILL SKIING  1  
This course is designed to perform successful downhill skiing maneuvers, including ski lessons. Off-campus site. Area D

REC 141  VOLLEYBALL  1  
Course designed to teach volleyball's offensive and defensive techniques. Games are designed to teach team play and strategy. Area D

REC 142  SOFTBALL  1  
Program designed to teach individual and team offensive and defensive softball techniques and fundamentals. Hitting, fielding, and team play will be featured. Area D

REC 152  BADMINTON  1  
Tactics and strategies in performing various fundamentals and methods in badminton. Area D

REC 166  TENNIS  1  
Fundamentals and techniques in practicing and playing tennis. Area D

REC 168  WEIGHT TRAINING  1  
Tactics, strategy, and proper methods in performing a variety of weight training techniques. Area D

REC 169  GOLF  1  
This course is designed to perform various golf strokes and the proper methods of how to play the game of golf. Area D

REC 200  BEGINNING SWIMMING  1  
How to perform the proper tactics and fundamentals for beginning swimmers. Area D

REC 230  INTERMEDIATE SWIMMING  1  
This course is designed to acquaint, practice, and perform correct swimming techniques for intermediate swimmers. Area D
RELIGIOUS STUDIES

REL 105 DEVELOPMENT OF CHRISTIAN THOUGHT 3
Critical survey of the central, formative ideas of Christian thought and their development from New Testament times to the present. Fall. (E) Mode 1/Study Area I

REL 110 WORLD RELIGIONS 3
Investigation of the essence of religion, the variety of religious phenomena and systems, and various approaches to the study of religion. Mode 1/Study Area I

REL 257 SPECIAL TOPICS IN RELIGION 3 TO 6
Study of selected topics in religion to be announced. Students may not take this course under the same topic more than once. On demand. (O) Mode 1

REL 361 AFRICAN-AMERICAN RELIGION 3
Examines history, leadership, dynamics, theology, and cultural milieu of African-American religion with focus on religious experience and on spiritual response to social, economic and political oppression and exploitation. Spring. (E)

REL 492 INDEPENDENT STUDY 1 TO 3
Prereq.: Permission of instructor. Individual research in selected topics. Open to any interested student who wishes to pursue a topic of special interest for which the student is qualified. On demand.

RUSSIAN

RUS 111 ELEMENTARY RUSSIAN I 3
Elements of Russian linguistic structure. Facility in speaking and understanding the language is developed rapidly by the direct method. Not open to students with one year or more of high school study. Fall. Area B/Skill Area III

RUS 112 ELEMENTARY RUSSIAN II 3
Prereq.: RUS 111 or equivalent. Continued study of Russian linguistic structure with further practice in speaking and writing. Intensive and extensive reading. No credit will be given to students with previous credit for more advanced course work in Russian except by permission of the department chair. Spring. Area B/Skill Area III

RUS 125 INTERMEDIATE RUSSIAN I 3
Prereq.: One year of college Russian or equivalent. Principles of Russian language structure reviewed. Short stories and plays are read and discussed. Conversation and composition based on topics of general interest are practiced as a means of improving oral and written expression. No credit will be given to students with previous credit for more advanced course work in Russian except by permission of the department chair. Fall. Area B/Skill Area III

RUS 126 INTERMEDIATE RUSSIAN II 3
Prereq.: RUS 125 or equivalent. Continuation of RUS 125. No credit will be given to students with previous credit for more advanced course work in Russian except by permission of the department chair. Spring. Area B/Skill Area III

RUS 225 RUSSIAN COMPOSITION & DICTION 3
Prereq.: RUS 126 or permission of instructor. Self-expression by means of frequent compositions in Russian; systematic drills in pronunciation and intonation. Fall. Area B/Skill Area III

RUS 226 RUSSIAN STRUCTURE AND IDIOM 3
Prereq.: RUS 225 or equivalent. Designed to develop correct idiomatic usage and fluency of expression. Spring. Area B/Skill Area III

RUS 315 RUSSIAN CIVILIZATION I 3
Prereq.: RUS 126 or permission of instructor. Taught in Russian. Survey of Russian customs, values, and behavior from a contemporary and historical point of view. Fall. (E) Study Area II

RUS 316 RUSSIAN CIVILIZATION II 3
Prereq.: RUS 315 or permission of instructor. Taught in Russian. Continuation of RUS 315. Survey of Russian customs, values, and behavior from a contemporary and an historical point of view. Spring. (O) Study Area II

RUS 441 ADVANCED ORAL PRACTICE I 3
Prereq.: Permission of instructor. Development of fluency in oral self-expression. Speech analysis to improve pronunciation and intonation. Fall. (O)

RUS 442 ADVANCED ORAL PRACTICE II 3
Prereq.: RUS 441 or permission of instructor. Further practice in oral self-expression. Spring. (I) (E)

SCIENCE EDUCATION

SCI 117 PHYSICAL SCIENCE 3
Everyday aspects of physical science, with emphasis on conceptual understanding of the physical world around us, using basic principles of physics and chemistry. Two lectures and one two-hour laboratory per week. Spring. Mode B/Study Area IV

SCI 412 ELEMENTARY SCIENCE METHODS 2
Prereq.: BIO 211, one course in ESCI (ESCI 111 recommended). Admission to the Professional Program in Teacher Education. Methods of science instruction and assessment using developmentally appropriate activities. Introduction to science curriculum, the National Science Standards, and the State of Connecticut Frameworks. Not open to Summer Through Summer participants without permission of instructor.

SCI 416 EDUCATIONAL TECHNOLOGY IN SECONDARY SCIENCE 1
Prereq.: Admission to the Professional Program in Teacher Education. Taken concurrently with SCI 417. Examination and use of software applications, hardware, and the Internet in the context of integrating educational technology into science curriculum.

SCI 417 TEACHING OF SCIENCE IN THE SECONDARY SCHOOL 3
Prereq.: Admission to the Professional Program in Teacher Education. Taken concurrently with SCI 416. Examination and application of curriculum, instruction, and assessment strategies in line with national and state standards/frameworks and CSDE certification requirements, including the BEST program and science teaching portfolio development.

SCI 418 TEACHING SCIENCE IN THE OUT-OF-DOORS 3
Prereq.: Two science courses. Development of leadership skills and instructional techniques necessary for teaching science in the outdoor classroom. The methods and materials for developing and conducting an outdoor education program in science are discussed. Three hours a week; field studies are required. Fall. (O)

SCI 419 STUDENT TEACHING SEMINAR 1
Prereq.: SCI 417 (EDSC 435 taken concurrently). Discussion, reflection, and collaboration with peers on issues that arise in secondary science education in the areas of curriculum, instruction, classroom management, and student assessment.

SCI 420 HISTORY OF SCIENCE 3
Prereq.: Three courses in science or mathematics. Historical development of biological and physical science, interdependence of various areas of science, and relations of scientific progress to society.
COURSE DESCRIPTIONS

SCI 424  TEACHING MIDDLE LEVEL SCIENCE  2
Methods and materials of teaching science at the middle level. Various aspects of
the National Science Education Standards, including Project 2061, and the
scope, sequence, and coordination project will be considered.

SCI 452  INDEPENDENT STUDY IN SCIENCE  1 TO 3
Prereq.: Approved plan of study by arrangement with the supervising instructor
and approval of a department chair. Includes special work in the laboratory or
study of theory to meet the individual requirements in areas not covered by the
regular curriculum. May be taken for more than 1 credit up to a limit of 4 cred-
its. On demand.

SCI 453  ENVIRONMENTAL INTERPRETATION  3
Prereq.: Prior completion of two field trips to environmental education facilities
approved by advisory committee and senior standing. Responsible experiences in
an environmental education facility. Before commencing the internship, a plan of
the internship must be approved by the Advisory Committee on Environmental
Interpretation.

SCI 456  TEACHING SCIENCE TO YOUNG CHILDREN  3
Prereq.: Permission of instructor. Previously SCI 556. Develops teaching strat-
egies which assist young children in expanding their awareness, understanding,
and appreciation of their natural environment. Teachers will learn active involve-
ment techniques and will prepare "hands-on" science curriculum materials for
use with children from preschool through grade 3. Irregular.

SCI 485  STUDIES IN SCIENCE  1 TO 3
Prereq.: Permission of instructor. Selected studies in the sciences which are not
offered presently in the curriculum of the science departments. Course may be
repeated for different topics, but the student may not take this course for credit
under the same topic more than once.

SIGN LANGUAGE

SL 420  BASIC MANUAL COMMUNICATION I  3
Previously SPED 420. An introduction to the Manual Alphabet and American
Sign Language of the Deaf, designed to provide basic skill in non-verbal commu-
nication. Fall.

SL 421  BASIC MANUAL COMMUNICATION II  3
Prereq.: SL 420 or permission of instructor. Previously SPED 421. A continua-
tion of the Manual Alphabet and American Sign Language for the Deaf,
designed to provide further skill in non-verbal communication. Spring.

SOCIAL SCIENCES

SSCI 415  SOCIAL STUDIES METHODS AT THE  4
SECONDARY LEVEL
Prereq.: Admission into the Professional Program of teacher education. Concepts,
methods, and materials for teaching social studies in the secondary school.
Emphasis on the use of documents, learning styles, process skills, and the inter-
disciplinary nature of social studies. Field experience required.

SSCI 421  SOCIAL STUDIES STUDENT TEACHING SEMINAR  1
Seminar during student teaching semester enabling students to share resources
and ideas for upcoming lessons, difficulties, and successes, and discover how vari-
ous schools and teachers approach the same issues. Must be taken concurrently
with EDSC 435.

SOCIAL WORK

SW 226  SOCIAL WELFARE POLICY AND SERVICES I  3
Prereq.: SOC 110 or ANTH 140, SOC 111 and PS 110 or 230. Exploration of
the historical background of social work and social welfare institutions in the
United States and around the world; knowledge, values, and practice skills that
distinguish social work as a discipline. Field work required. Pre-Social Work
majors only. Fall.

SW 227  HUMAN BEHAVIOR AND THE SOCIAL  3
ENVIRONMENT I
Prereq.: BIO 111, SOC 233. Examination of individuals, families, and commu-
nities, taking an ecological perspective of the life span; various cultural, econom-
ic, and ethnic factors that influence lives; application of social work values and
how these relate to developmental tasks in a socio-political environment. Field
work required. Pre-Social work majors only. Spring.

SW 360  GENERALIST SOCIAL WORK PRACTICE WITH  3
INDIVIDUALS AND FAMILIES
Prereq.: SW 226, 227 and admission to Social Work major. Study of delivery
of direct service to individuals and families interacting within groups and commu-
nities: tasks and skills necessary for generalist social workers to empower clients
to modify and change their situations. Field work required. Fall.

SW 361  GENERALIST SOCIAL WORK PRACTICE  3
WITH SMALL GROUPS
Prereq.: SW 226, 227 and admission to Social Work major. Use of the small
group as a resource for delivering direct service in generalist social work practice;
tasks and skills necessary for the social worker to use group process to empower
clients. Field work required. Spring.

SW 362  GENERALIST SOCIAL WORK PRACTICE WITH FAMILIES. ORGANIZATIONS,
AND COMMUNITIES  3
Prereq.: SW 360 and 361. Interventions and strategies for assisting families,
organizations and communities in the context of generalist social work practice;
tasks and skills necessary to bring about change in large systems. Recommended
SW 450 and 451 or SW 452 and 453 be taken concurrently. Fall.

SW 368  HUMAN BEHAVIOR AND THE SOCIAL
ENVIRONMENT II
Prereq.: SW 360 (may be taken concurrently) and admission to the Social Work
major. The ecosystems framework provides the framework to examine systems of
all sizes: families, groups, organizations, and communities. Special attention
given to the impact of human diversity, discrimination, and oppression in the
context of these social systems. Field work required. Fall.

SW 374  INTRODUCTION TO SOCIAL WORK RESEARCH  3
Prereq.: STAT 215. Research knowledge and skills essential for beginning social
work practice. Theory of social research, hypothesis testing, research design, sam-
ping, data collection techniques and ethical issues germane to social workers.
Quantitative and qualitative research and the problem-solving model, associated
with a research proposal applicable to social work practice, will be developed. Fall.

SW 426  SOCIAL WELFARE POLICY AND SERVICES II  3
Prereq.: SW 360, 361 and ECON 200. Uses of policy analysis and planning as
intervention strategies in generalist social work practice. Recommended that SW
450 and 451 or SW 452 and 453 be taken concurrently. Spring.

SW 433  INDEPENDENT STUDIES IN SOCIAL WORK  3
Prereq.: Senior standing in the Social Work major and permission of the pro-
gram director. Student must have a written study proposal approved by the pro-
gram director prior to registering for this course. Readings and research in
selected areas of social work. On demand.

SW 436  HEALTH AND SOCIAL WORK  3
Prereq.: SW 226 and 227; or permission of the instructor. Examination of
health issues such as cancer, AIDS, Alzheimer's, and other disabilities: preven-
tion, treatment, and attitudes; policies and programs in both public and private
sectors which impinge upon the lives of clients with health problems. Irregular.
SW 437 CHILD WELFARE I 3
Prereq.: SW 226 and 227; or permission of the instructor. Examination of the role of the social worker in meeting the needs and protecting the rights of children. Irregular.

SW 438 CHILD WELFARE II 3
Prereq.: SW 226 and 227; or permission of instructor. Examination of current social issues, such as war, poverty, and divorce, that impact the lives of children. Irregular.

SW 441 PUERTO RICANS IN TRANSITION: A SOCIAL WORK PERSPECTIVE 3
Prereq.: permission of instructor. Overview of critical areas in understanding the Puerto Rican population on the island and in the U.S. Puerto Rican history, migration, demographic trends, culture, socio-political issues, family, and gender roles will be explored, in addition to health, education, employment and poverty. Micro/macrowork approaches to providing culturally relevant intervention. Irregular. Mode 6 [I]

SW 442 THE SOCIAL CONSEQUENCES OF IMMIGRATION 3
Prereq.: Permission of instructor. Explores the development of immigration policies, social service delivery structures, and practices that help social workers provide services to immigrants and refugees. Irregular. Mode 6 [I]

SW 450 FIELD PRACTICUM I 3
Prereq.: All other requirements for the major except SW 362 and 426 (may be taken concurrently with this course); completed field application and permission of field coordinator. Placement in a social work agency in the community for a minimum of 200 hours. Students are engaged in social work roles and activities which help them to develop generalist practice skills and knowledge. Must be taken concurrently with SW 451.

SW 451 FIELD PRACTICUM SEMINAR I 3
Prereq.: All other requirements for the major except SW 362 and 426 (may be taken concurrently with this course); completed field application and permission of field coordinator. Shared learning experience among all students placed in a community social work agency to provide an opportunity for information exchange in depth. Case processes and agency analysis are required. Social work philosophies, values, and ethics in the social service delivery system are reinforced. Relevant readings, assignments, and projects to help students integrate theory and practice. Must be taken concurrently with SW 450.

SW 452 FIELD PRACTICUM II 3
Prereq.: SW 450 and 451 and permission of field coordinator. Continued placement in a social work agency in the community for a minimum of 200 hours. Students are engaged in social work roles and activities which further prepare them for professional practice responsibilities. Must be taken concurrently with SW 453.

SW 453 FIELD PRACTICUM SEMINAR II 3
Prereq.: SW 450 and 451 and permission of field coordinator. Shared learning experience among all students placed in a community social work agency to provide an opportunity for information exchange in depth. Evaluation of practice and organized community outreach in the social service delivery system are reinforced. Relevant readings, assignments, and projects to help students integrate theory and practice. Must be taken concurrently with SW 452.

SW 478 CURRENT TOPICS IN SOCIAL WORK 3
Prereq.: Permission of instructor. Analysis and evaluation of special topics in the general field of social work. Topics will vary from year to year. If topics vary, may be taken more than once. Irregular.

SOCIOLOGY

SOC 110 INTRODUCTORY SOCIOLOGY 3
Major theoretical models and research methodologies used by sociologists in examining the institutions of societies and everyday lives of individuals. Topics include social stratification, ethnic relations, race, poverty, gender roles, aging, the family, population and urban/suburban communities. Mode 6/Study Area III

SOC 111 SOCIAL PROBLEMS 3
Conditions or patterns of behavior that are considered to be harmful to society or its members, about which it is considered that something should be done. Included as possible topics are sexism, physical and mental health, drug and alcohol abuse, sexuality, inequality, discrimination, environmental problems and abuses of power. Fall. Mode 6/Study Area III

SOC 210 SOCIOLOGICAL INQUIRY 3
Prereq.: SOCI 110. Exposes students to the sociological imagination, the link between theory and methods, how evidence is assembled to produce explanations of social phenomena, and the impact of sociological knowledge on public policy and culture.

SOC 212 RACE, CLASS, AND GENDER 3
Previously SOC 112. Sociological definition of race, class, and gender, at academic and experiential levels; the interrelationship of these social characteristics as they affect individual consciousness, group interaction, and access to institutional power and privileges in the United States. Mode 6/Study Area III

SOC 230 CULTURE AND SUBURBAN LIFE 3
Prereq.: SOCI 110. Examination of the development of postindustrial cities and how they differ from modern urban areas. Research on differences between suburban and urban life will be explored as well as contrasting lifestyles which exist within urban areas. Post-War II policies which helped to lead to many of today's problems will be identified and discussed. Fall. Mode 7

SOC 232 CITY AND SUBURBAN LIFE 3
The family in its social context, including cross-cultural perspectives and theories of family structure and change. The contemporary American family and its emerging alternatives will be studied, with special reference to the family life cycle and current issues in family studies. Mode 6/Study Area III

SOC 234 THE SOCIOCONSTRUCTION OF SELF AND SOCIETY 3
Prereq.: SOCI 110. Symbolic interactionism and social constructionist theories are used to explore the making of meanings and identities by individuals, groups and institutions, and the influence of these constructions on society. Spring.

SOC 240 THE SOCIOLOGY OF GENDER 3
Gender as biology, social learning, social organization, and social structure. The gendered nature of friendships, sexuality, conversation, power and violence. Interpersonal/institutional sexism as it affects women and men. Issues of inequalities in work, education, politics, and health. Women's and men's movements. Mode 6/Study Area III

SOC 300 SOCIOLOGICAL THEORY 3
Prereq.: SOCI 210. Examines the work of Marx, Weber, Durkheim, Goffman and selected other theorists. Discussion of theories within their historical context.

SOC 310 RESEARCH METHODS 3
Prereq.: SOCI 210. Examines scientific method as used in sociology. Topics include inductive and deductive reasoning, quantitative and qualitative research designs, measurement, sampling, methods of data collection, and analysis strategies.

SOC 312 CLASS, POWER, AND STATUS 3
Prereq.: SOCI 110, 212. Examines theories and forms of class inequality and social stratification. Assesses the consequences of class and status inequality on prospects for social change, the degree of political influence, institutional structures, opportunities for mobility, and life chances. Fall.

SOC 322 RACE AND ETHNIC RELATIONS 3
Prereq.: SOCI 110, 212. Previously SOCI 231. Examines selected racial and ethnic groups, their history, social and ethnic patterns, and position in the social structure in the United States. Includes theories of racial and ethnic relations. Fall.

SOC 332 THE SOCIOLOGY OF POVERTY 3
Prereq.: SOCI 110. Analysis of poverty conditions and their causes in historical and cross-cultural perspectives. Role of poor in the larger social system and on the way needs and potentialities of the poor are determined. Spring. Mode 6
SOC 336  SOCIOMETRY OF DEVIANCE  3
Prereq.: SOC 110. Deviance as types of persons and behaviors which violate the  
norms of a social group. As well as attempts to control or limit such persons or  
behaviors. A historical and cross-cultural perspective will be used to analyze a  
variety of deviant types of individuals and behaviors. Mode 6

SOC 340  AGING IN AMERICAN SOCIETY  3
Prereq.: SOC 110. Analysis of demographic changes, role shifts, age stereotyp­  
ing, institutionalization, and their implications for the treatment and status of the  
elderly. Exploration of the processes of aging in the later years and the impact  
of the same on people's lives. Fall. Mode 6

SOC 400  TOPICS IN SOCIAL THEORY  3
Prereq.: SOC 210 and 300. Selected topics in social theory. May be repeated  
with different topics for a maximum of 6 credits. On demand.

SOC 410  QUANTITATIVE ANALYSIS  3
Prereq.: SOC 310, STAT 215. Analysis of quantitative data using computer  
applications to test hypotheses and to complete a research project. Spring. [c]

SOC 412  QUALITATIVE ANALYSIS  3
Prereq.: SOC 310. Intensive exposure to participant observation, in-depth inter­  
viewing, and content analysis. Emphasis on the collection, coding, and interpre­  
tation of primary data. Additional focus on the ethics and politics of qualitative  
research designs.

SOC 425  INFORMATION, IMAGES, AND INEQUALITY  3
Prereq.: SOC 110 and 3 additional credits in Sociology. Examination of the new  
forms of property, value, social control, identity formation, social relations and  
and class inequities that have emerged with the information age and the electronic  

SOC 433  INDEPENDENT STUDIES IN SOCIOLOGY  3
Prereq.: Permission of instructor. Student must present a written study proposal  
to the department chair at least three weeks prior to registering for this course.  
Readings and research in selected fields of sociology. On demand.

SOC 440  DEATH AND DYING; SOCIOLOGICAL IMPLICATIONS  3
Prereq.: SOC 110. Different cultural, social, and historical perspectives on death  
and their impact on social roles and institutional change. Problems faced by the  
health care profession in meeting the needs of the terminally ill and the bereaved.  
Student will be required to have a field experience with a terminally ill patient  
and/or bereaved family. Spring. (E) Mode 6

SOC 444  SPORT AND PLAY IN SOCIETY  3
Prereq.: SOC 110 and 3 additional credits in Sociology. Examines the insti­  
tution of sport from the social, political, economic, and cultural perspectives.  
Substantive topics include sexism and racism in sport, sport and the mass media,  
deviance in sport, sport and social mobility, and the relationship of sport with  
religious, political, and economic structures. Irregular.

SOC 450  SOCIAL JUSTICE AND CIVIL SOCIETY  3
Prereq.: SOC 110. Examination of situational contexts, institutional structures,  
and cultural differences on social justice concerns in a civil society. Emphasis on  
distributive, procedural, interactive, and/or organizational justice. Analysis of cri­  
teria used to assess justice and examination of responses to real and/or perceived  
injustices. Irregular.

SOC 452  ORGANIZATIONS, OCCUPATIONS, AND WORK  3
Prereq.: SOC 110 and 3 additional credits in Sociology. Systematic study of  
large scale, bureaucratic organizations with emphasis on relations among the  
organization's members, the organization as a social entity and its social and  
physical environment. Spring.

SOC 460  SOCIAL MOVEMENTS AND COLLECTIVE ACTION  3
Prereq.: SOC 110 and 3 additional credits in Sociology. Goals, composition, and  
impact of collective efforts to address an injustice or achieve social change are  
considered in historical and cultural context. Emphasis on recent American  
movements in opposition to government policies, established elites, and domi­  
nant cultural norms, such as the Civil Rights Movement, the women's move­  
ments, the peace movement, and the environmental movement. Irregular.

SOC 478  CURRENT TOPICS IN SOCIOLOGY  3
Prereq.: SOC 110. Analysis and evaluation of special topics in the field of sociol­  
ogy. Not a seminar. May be repeated with different topics for a maximum of 6  
credits. Irregular.

SOC 482  AIDS IN THE UNITED STATES  3
Prereq.: SOC 110 and 3 additional credits in Sociology. Examines HIV and  
AIDS from social, political, economic, and cultural perspectives: addresses AIDS  
as a disease, a moral question, and a political issue. Irregular.

SOC 490  COMMUNITY INTERN EXPERIENCE  3
Prereq.: Sociology major with 2.70 GPA or higher and two letters of recom­  
mendation addressing academic ability and maturity. Taken concurrently with  
SOC 491. Accepted students are assigned to work in either a profit or nonprofit  
community-based organization for 6 to 8 hours per week.

SOC 491  INTERNSHIP SEMINAR AND RESEARCH  3
Prereq.: Sociology major with 2.70 GPA or higher and two letters of recommenda­  
tion addressing academic ability and maturity. Taken concurrently with SOC 490.  
Assigned readings and research projects related to work assignment of SOC 490.

SPANISH

SPAN 111  ELEMENTARY SPANISH I  3
Through a direct conversational approach, foundations of Spanish linguistic  
structure are established. Open only to non-native speakers of Spanish, and to  
students with one year or less of high school study. No credit for students who  
have received credit for SPAN 120. Area B/Skill Area III

SPAN 112  ELEMENTARY SPANISH II  3
Prereq.: SPAN 111 or equivalent. Study of spoken and written Spanish is con­  
tinued with analysis of Spanish language structure. Open only to non-native  
speakers of Spanish. No credit given to those with credit for two or more years  
of high school study or who have received credit for SPAN 120. Area B/Skill  
Area III [I]

SPAN 115  SPANISH FOR THE PROFESSIONS  3
Prereq.: SPAN 112 or permission of instructor. Designed to develop language  
proficiency in business practice, law enforcement, medical work, travel, social  
work, and other fields of everyday professional life. May be repeated with differ­  
ent topics for a maximum of 6 credits. Only three credits may be applied to the  
General Education and International requirements. Open only to non-native  
speakers of Spanish. No credit given to those with credit for three or more years  
of high school study. Irregular. Area B/Skill Area III [I]

SPAN 120  INTENSIVE ELEMENTARY SPANISH  6
Intensive oral-proficiency based Spanish language course designed to bring stu­  
dents to intermediate level production and receptive skills in one semester. Six  
classroom hours per week. Only three credits may be applied toward the  
International requirement. Open only to non-native speakers of Spanish and to  
students with one year or less of high school study. No credit for students who  
have received credit for SPAN 111 and/or SPAN 112. Area B/Skill Area III [I]

SPAN 123  BASIC SPANISH REVIEW  3
Prereq.: Three years of Spanish in high school or equivalent preparation.  
Formerly SPAN 114. Refresher course in structure patterns and sound systems  
of the Spanish language. Open only to non-native speakers of Spanish. No credit  
will be given to those with credit for more than three years of high school study  
of Spanish. Skill Area III [I]

SPECIAL EDUCATION

SPED 315  INTRODUCTION TO EDUCATION LEARNERS WITH EXCEPTIONALITIES  
Prereq.: Admission to the Professional Program in Teacher Education. Examines growth and development of learners with exceptionalities, including gifted and talented and those who may require special education, and methods for identifying, planning for, and working effectively with these populations in educational settings. Meets State of Connecticut requirement for teacher certification. Field experience required. Area C

SPED 423  ASSESSMENT, INSTRUCTION AND CURRICULAR ADAPTATIONS FOR PRESCHOOLERS  
Prereq.: SPED 315 and admission into the Professional Program. Development of Individualized Education Programs, adapting curricula, and the utilization of assessment and teaching strategies to promote the development and independence of preschoolers with disabilities in community and integrated school settings. Taken concurrently with EDEC 423. Field experience required.

SPED 430  CHARACTERISTICS AND EDUCATION OF INDIVIDUALS WITH BEHAVIORAL/EMOTIONAL DISORDERS  
Prereq.: SPED 315 or permission of instructor. Taken concurrently with SPED 431. Overview of the education of behavioral/emotional disorders, autism and attention deficit hyperactivity disorders. Topics include characteristics, identification, etiology, theoretical, and educational approaches. Involves field experience component.

SPED 431  BEHAVIOR MANAGEMENT AND SOCIAL SKILLS DEVELOPMENT  
Prereq.: SPED 315 or permission of instructor. Taken concurrently with SPED 430. Examination of methodologies for evaluation, assessment, management of student behavior, and program planning/instruction utilized in special education settings. Involves field experience component.

SPED 432  CHARACTERISTICS AND EDUCATION OF INDIVIDUALS WITH LEARNING DISABILITIES  
Prereq.: SPED 315 or permission of instructor. Overview of the education of students with learning disabilities and traumatic brain injury. Topics include characteristics, identification, etiology, theoretical and educational approaches. Involves field experience component.

SPED 433  EDUCATIONAL ASSESSMENT FOR EXCEPTIONAL LEARNERS  
Prereq.: Admission to the Professional Program and SPED 432. Examines formal and informal assessment materials and techniques used in evaluating adaptive skills, processing abilities, and academic achievement in individuals with learning and/or behavior problems. Topics include procedures for test selection/administration, methods for scoring and interpreting test results. Involves field experience component.

SPED 434  CHARACTERISTICS AND EDUCATION OF INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES  
Prereq.: Admission to the Professional Program. Taken concurrently with SPED 435. Overview of mental retardation, developmental disabilities. autism and physical disabilities. Topics include characteristics, identification, etiology, theoretical, and educational approaches. Involves field experience component.

SPED 435  CURRICULUM ADAPTATIONS AND TEACHING STRATEGIES FOR LEARNERS WITH EXCEPTIONALITIES  
Prereq.: SPED 434. Taken concurrently with SPED 434. Techniques for assessing social studies, science, and prevocational skills, as well as for selecting, developing, and adapting curricula and methods for students with exceptionalities. Involves field experience component.

STATISTICS

STAT 104  ELEMENTARY STATISTICS  
Prereq.: MATH 101 (C- or higher) or Placement Exam. Intuitive treatment of some fundamental concepts involved in collecting, presenting, and analyzing data. Topics include frequency distributions, graphical presentations, measures of relative position, measures of variability, probability, probability distributions (binomial and normal), sampling theory, regression, and correlation. No credit given to students with credit for STAT 108, 200, 215, 314 or 315. Mode 2/Skill Area II

STAT 108  INTRODUCTION TO BIOSTATISTICS  
Prereq.: MATH 101 (C- or higher) or Placement Exam. Principles of statistics applied to the analysis of health and biological data. Emphasis on concepts and principles from biostatistics to facilitate critical reading of literature relevant to health data. The development of analytic skills is enhanced by the use of one of the widely available statistical packages and/or graphing calculator. Topics include graphical presentations, testing, estimation cross-classification, correlation, life tables, and survey analysis. No credit given to students with credit for STAT 104, 200, 215, 314, or 315. Mode 2/Skill Area II

STAT 151  SAS PROFESSIONAL CERTIFICATION  
Prereq.: MATH 101 (C- or higher) or Placement Exam. Introduction to the essentials of SAS programming. Topics include descriptive statistics, how to import and manipulate data from a variety of sources, and how to use that data to produce detailed and summary reports. Intended for the beginning SAS software user. Skill Area II [c]

STAT 200  BUSINESS STATISTICS  
Prereq.: MATH 101 (C- or higher) or Placement Exam. Application of statistical methods used for a description of analysis of business problems. The development of analytic skills is enhanced by use of one of the widely available statistical packages and a graphing calculator. Topics include frequency distributions, graphical presentations, measures of relative position, measures of central tendency and variability, probability distribution including binomial and normal, confidence intervals, and hypothesis testing. No credit given to students with credit for STAT 104, 108, 215, 314, or 315. Mode 2/Skill Area II [c]
STAT 201 BUSINESS STATISTICS II 3
Prereq.: STAT 200 or equivalent (C- or higher). Application of statistical methods used for a description and analysis of business problems. The development of analytical skills is enhanced by use of one of the widely available statistical packages. Topics include continuation of hypothesis testing, multiple regression and correlation analysis, residual analysis, variable selection techniques, analysis of variance and design of experiments, goodness of fit, and tests of independence. No credit given to students with credit for STAT 216, 416 or 453. Area C [c]

STAT 215 STATISTICS FOR BEHAVIORAL SCIENCES I 3
Prereq.: MATH 101 (C- or higher) or Placement Test. Introductory treatment of research statistics used in behavioral sciences. Quantitative descriptive statistics, including frequency distributions, measures of central tendency and variability, correlation, and regression. A treatment of probability distributions including binomial and normal. Introduction to the idea of hypothesis testing. No credit given to students with credit for STAT 104, 108, 200, 314 or 315. Fall. Mode 2/Skill Area II [c]

STAT 216 STATISTICS FOR BEHAVIORAL SCIENCES II 3
Prereq.: STAT 215 or permission of instructor. Continuation of STAT 215. Survey of statistical tests and methods of research used in behavioral sciences, including parametric and nonparametric methods. No credit given to students with credit for STAT 201, 416 or 453. Spring. Mode 2/Skill Area II [c]

STAT 217 ELEMENTARY SURVEY SAMPLING 3
Prereq.: STAT 104 or 108 or 200 or 215. Introduction to design and analysis of sample surveys emphasizing practical aspects of survey problems. Topics include survey design, questionnaire design, types of sampling, and computer-aided analysis using statistical software. Spring. Mode 2/Skill Area IV [c]

STAT 314 INTRODUCTORY STATISTICS FOR SECONDARY TEACHERS 3
Prereq.: MATH 218 and 221. Techniques in probability and statistics necessary for secondary school teaching. Topics include sampling, probability, probability distributions, simulation, statistical inference, and the design and execution of a statistical study. Computers and graphing calculators will be used. No credit given to those with credit for STAT 201, 216 or 453. Graphing calculator required. Fall. [c]

STAT 315 MATHEMATICAL STATISTICS I 3
Prereq.: MATH 218, MATH 221. Theory and applications in statistical analysis. Combinations, permutations, probability, probability distributions, simulation, statistical inference, and the design and execution of a statistical study. Computers and graphing calculators will be used. No credit given to those with credit for STAT 201, 216 or 453. Graphing calculator required. Fall. [c]

STAT 321 ELEMENTARY DATA MINING 3
Prereq.: STAT 104 or STAT 200 or STAT 215 or STAT 315. Introduction to basic concepts behind data mining. Survey of data mining applications, techniques and models. Discussion of ethics and privacy issues with respect to invasive use. Introduction to data mining software suite. Fall.

STAT 322 DATA MINING TECHNIQUES 3
Prereq.: STAT 321; STAT 201 or STAT 216 or STAT 416 or STAT 453. Exploration of data mining methodologies. Topics include decision tables, decision trees, classification rules, association rules, clustering, statistical modeling, and linear models. More extensive use of data mining software. Spring.

STAT 323 APPLICATIONS OF DATA MINING 3
Prereq.: STAT 322; MATH 122; MATH 218. Capstone course for Certificate in Data Mining. Case studies using large data sets taken from real-life applications. Discussion of problems encountered with large data sets. Extensive use of data mining software. Fall.

STAT 416 MATHEMATICAL STATISTICS II 3

STAT 425 LOSS AND FREQUENCY DISTRIBUTIONS AND CREDIBILITY THEORY 3
Prereq.: STAT 416 (may be taken concurrently). Topics chosen from credibility theory, loss distributions, simulation, and time series. Spring. (E)

STAT 440 BIOSTATISTICAL METHODS 3
Prereq.: STAT 216 or 201, or 453 with permission of instructor or STAT 416. Statistical methods applied to the analysis of health and biological data with emphasis on multivariate methods. Computer packages assist in the design and interpretation of models fitted to health data. Spring. (O) [c]

STAT 453 APPLIED STATISTICAL INFERENCE 3
Prereq.: STAT 104. Statistical techniques used to make inferences in experiments in social, physical, and biological sciences, and in education and psychology. Topics included are populations and samples, tests of significance concerning means, variances and proportions, and analysis of variance. No credit given to students with credit for STAT 201 or 216. Fall. Mode 2

STAT 455 EXPERIMENTAL DESIGN 3
Prereq.: STAT 201 or 216 or 416. Introduction to experimental designs in statistics. Topics include complete randomized blocks, Latin square, and factorial experiments. Fall. (O)

STAT 456 STATISTICS LABORATORY 3
Prereq.: CS 151 and STAT 201 or 216 or equivalent. Study of SAS, one of the major statistical procedures and analysis. Spring. (E) [c]

STAT 465 NONPARAMETRIC STATISTICS 3
Prereq.: STAT 201 or 216 or 416. General survey of nonparametric or distribution-free test procedures and estimation techniques. Topics include one-sample, paired-sample, two-sample, and k-sample problems as well as regression, correlation, and contingency tables. Comparisons with the standard parametric procedures will be made, and efficiency and applicability discussed. Fall. (E)

STAT 476 TOPICS IN STATISTICS 3
Prereq.: Permission of instructor. Topics depending on interest and qualifications of the students will be chosen from sampling theory, decision theory, probability theory, Bayesian statistics, hypothesis testing, time series or advanced topics in other areas. May be repeated under different topics to a maximum of 6 credits. Spring. (O)

TECHNICAL COURSES

Note: Laboratory courses designed to develop technical competence; for majors in Technology Education, Industrial Technology and Engineering Technology, and, where indicated, to satisfy General Education requirements.

TC 112 DIGITAL IMAGING FOR PRE-PRESS 3
Techniques of drawing and digital imaging for prepress. Emphasis on computer operations and the use of image editing software programs in digital pre-press production. Skill Area IV [c]

TC 113 INTRODUCTION TO INFORMATION PROCESSING 3
Emphasis placed on the computer as a productivity tool. Student will use application software for word processing, spreadsheets, databases, and CAD. HTML programming, operating systems, and electronic mail are also presented. Laboratory assignments are related to technical applications. Area C/Skill Area IV [c]

TC 114 INTRODUCTION TO ENERGY PROCESSING 3
Survey of energy conversion systems, including aspects of energy transmission and control employed by industry to increase its value and usefulness. Laboratory experiments include development and use of various energy systems. Open to all students. Area C

TC 118 INTRODUCTION TO MATERIAL PROCESSING 3
Principles and concepts of how industry changes forms of raw materials to increase value and usefulness. Laboratory work and demonstrations to develop awareness of nature and characteristics of raw materials, thereby permitting associations to be made regarding selection of processes by which materials may be changed. Open to all students. Area C.

COURSE DESCRIPTIONS

TC 353 INTRODUCTION TO SURVEYING  
Prereq.: MATH 115 or 119 or 121. Activities that will acquaint the student with instruments and tools of the surveyor including their use in the techniques of field surveying. Emphasis on actual layouts and areas and elevations as performed in the civil and construction disciplines. Fall.

TC 356 MATERIALS OF CONSTRUCTION  
Prereq.: MATH 115 and IT 150. Investigates the strength and other properties required of various materials used in construction. The testing, proper use, and application of aggregates, concrete, structural steel, and timber will be emphasized. Area C

TC 363 DIGITAL CIRCUITS  
Prereq.: Permission of instructor. Principles and applications of digital circuits, number systems, Boolean Algebra, combinatorial and sequential logic circuits, arithmetic circuits, and MSI logic circuits. Laboratory experiments focus on circuit building and troubleshooting using TTL integrated circuits. Fall. [c]

TC 405 APPLIED TECHNICAL TOPICS 1 TO 3  
A laboratory-oriented course providing comprehensive study of a selected technical topic. Course may be repeated for maximum of 6 credits for different topics, but students may not take the course under the same topic more than once. Irregular.

TC 414 AUTOMATED ASSEMBLY CELL DESIGN 3  
Prereq.: ET 251. IT 480. Industrial robotics programming, cell design procedures, product evaluation, feeder selection, cell layout, and multi-task end effector design. Emphasis on developing a cost-effective automated assembly cell followed by cell simulation testing and evaluation. Fall. [c]

TC 416 PRINCIPLES OF NUMERICAL CONTROL 3  
Prereq.: Permission of instructor. Principles essential for computer numerical control part programming and machine tool operation. Laboratory experiences include word address programming, computer-aided programming, and CNC machine tool setup and operation. [c]

TC 436 ADVANCED COMPUTER NUMERICAL CONTROL 3  
Prereq.: TC 416 or permission of instructor. Investigation of advanced CNC programming and machining. Laboratory experiences include MacroB and parametric word address programming, 3-D and multi-axis CAM programming, and part machining using CNC mills, lathes, and wire EDM machine tools. Spring. [c]

TC 442 PRINTING PRODUCTION 3  
Prereq.: TC 212. Applied study of pre-production, production, and post-production in the printing industry. [c]

TC 443 ELECTRONIC COMMUNICATION 3  
Prereq.: TC 323. RF transmitting and receiving circuits, amplitude and frequency modulation and detection, phase modulation, antennas, RF transmission lines, and data transmission. Focus on units of measurement. Laboratory experiments cover resonance, modulation, demodulation, and transmission channels. Spring. [c]

TC 445 CONSTRUCTION SYSTEMS 3  

TC 446 TOOL AND DIE FUNDAMENTALS 3  
Prereq.: TC 416 or permission of instructor. Introductory study of and experiences in design and construction of tools, dies, and work-holding devices used in tooling for manufacturing. [c]

TC 449 ADVANCED NETWORKING 3  
Prereq.: TC 349. Laboratory based course focusing on local area networking technologies. Includes the design, implementation, and analysis of the functions and capabilities of various networking configurations. Fall. [c]

TC 453 MICROCOMPUTERS 3  
Prereq.: TC 363. Microprocessor architecture including basic memory design, address decoding and internal register structure, and assembly language programming including addressing modes and instruction set. Laboratory work consists of programming and debugging assignments. Spring. [c]

TC 462 ADVANCED GRAPHIC ARTS TECHNIQUES 3  
Prereq.: TC 442. Integrated experience of advanced instruction in both letter-press and offset printing. Experiences will include advanced camera work leading to halftone photography, process color photography, and other camera manipulations. Cultural and historical aspects of graphic arts and industrial visits. [c] Area C

TC 463 PROGRAMMABLE LOGIC CONTROLLERS 3  
Prereq.: Junior standing. A study of programmable sequence controllers and programmable logic controllers for motion and process control. The role of feedback as a control strategy, regulators, and servomechanisms is included. Fall. [c] Area C

TE 110 TECHNOLOGICAL SYSTEMS 3  
A holistic perspective of technological systems and their impacts on social institutions. Focus on human endeavors in the development, use and control of technology. Fall. Mode 7/Study Area II

TE 199 ORIENTATION TO TECHNOLOGY EDUCATION 1  
Orientation to teaching technology education. Develops a sense of professional behavior, purpose and identity. Introduces planning of technical lessons, teaching technology education, and laboratory safety procedures. Spring.

TE 399 PROFESSIONAL STRATEGIES OF TECHNOLOGY EDUCATION TRAINING 3  
Prereq.: Permission of instructor. Development of knowledge and skills needed by an individual to function as a professional technology education teacher. Preparation, presentation and evaluation of student-developed lessons and methods of student assessment, unique to technology education laboratories, will be emphasized. Fall.

TE 400 TEACHING OF TECHNOLOGY EDUCATION 3  
Prereq.: Admission into the Professional Program. A professional course which stresses preparation for student teaching, or supervised teaching, and objectives, planning techniques, and problems of teaching technology education at the secondary, middle and elementary school levels. Required of all undergraduate majors in Technology Education and graduate students in the Technology Education certification program. This course is a prerequisite to student teaching. Fall.

TE 410 COMMUNICATION SYSTEMS 3  
Prereq.: 24 credits of technical courses including TC 113, 121 and 212, or permission of instructor. Laboratory application of graphic and electronic communication systems which extend human capability with focus on how the individual components function together as a given system. Research and lab activities will include computer graphics, desktop publishing, photography, and telecommunications. Lecture/lab. Spring.
TE 412 COMPUTER-AIDED PUBLISHING 3
Pre req.: TC 113. Presentation and application of the basic concepts of electronic publishing. Instruction and laboratory activities will focus on software usage, applying accepted design techniques, and producing appropriate materials for classroom implementation. Irregular.

TH 117 LIGHTING 3
Lighting techniques in modern theatre practice. Two lectures per week. Mode 4/Study Area I

TH 121 COSTUMING 3
Brief history of costume and constructing costumes. Introduction to design principles. Two lectures and average of two hours laboratory work per week. Mode 4/Study Area I

TH 126 MAKEUP 1 2
Laboratory course in stage makeup. Crew assignments on theatre productions are normally required. One two-hour session per week. Fall. Study Area I

TH 135 SPEAKING-VOICE DEVELOPMENT 3
Development of a more relaxed and vibrant speaking voice in dramatic performance through analysis of each student's non-clinical voice-use problems followed by drills and body-voice exercises to free body, breath, and vocal tract. Spring. Mode 4/Study Area I

THEATER

TH 211 RENDERING AND DRAWING FOR THE STAGE 2
Pre req.: TH 111 and 121. Studio course covering the various media for drawing and rendering stage and costume designs. The emphasis will be in developing student skills in drawing and rendering with watercolor, gouache, pen and ink. Irregular.

TH 212 STAGE MECHANICS 3
Pre req.: TH 111 or permission of instructor. Study of multi-scene productions, including change time factors and quick-change systems, as well as unit sets and machinery of the theatre. Spring. (O) Mode 4

TH 213 SCENE PAINTING I 2
Laboratory/studio course in the techniques of painting scenery for the stage. Meets two hours twice each week. Irregular.

TH 214 SCENE PAINTING II 2
Continuation of TH 213. Meets for two hours twice each week. Irregular.

TH 217 SCENO-GRAPHIC TECHNIQUES 1
Pre req.: TH 111. Laboratory/studio course in various methods of graphic presentations of stage sets and designs, including measurements and specifications. Meets one hour each week. Spring. (E) Mode 4

TH 222 HISTORY OF FASHION 3
Study of the history of dress stressing the influence of culture upon fashion and original period research for the theatre. Two lectures and an average of two hours per week laboratory time working on period costumes. Spring. (E) Mode 4/Study Area I [I]

TH 235 THEATRE MOVEMENT I 2
Pre req.: DAN 151 or 152 or permission of instructor. Development of an understanding of body, placement and projection. Emphasis on body and spatial awareness in relation to environment. What, where, why and how of movement. Interaction of body and mind.
TH 336   THEATRE MOVEMENT II  
Prereq.: TH 235. Application of body-space-movement awareness to acting and characterization objectives. Physicalization of a character and movement in a scene. Reinforces and extends organic connections in characterization, assisting the actor to find the organic reality of character.  

TH 246   ACTING II  
Prereq.: TH 145. Continuation of TH 145. Emphasis on basic techniques of acting, including introduction to scene study and characterization. Fall. Mode 4/Study Area I

TH 251   STAGE MANAGEMENT  
Prereq.: TH 111 and 253 or permission of instructor. Study of function, duties, and methods of operation of the stage manager, to include a study of the Actor's Equity Association contract.

TH 253   SCRIPT ANALYSIS FOR THE THEATRE  
Reading and analysis of plays from various periods and countries. Focuses on text analysis from viewpoint of theatre artists: director, actor, designer. Fall. Mode 4/Study Area I

TH 275   AMERICAN THEATRE TODAY  
Survey of theatre in America, with special focus on current developments. Topics include: organizational structure, social and cultural objectives, economic issues, artistic trends, theatre education, multi-culturalism, and new plays. May include field trips (ticket charge required), guest speakers and research on selected subjects. Fall. (E) Mode 4/Study Area I

TH 316   SCENE DESIGN  
Prereq.: TH 111 and 217 and departmental permission. Designing scenery for various kinds of stages and plays. Work on ground plans and elevations, perspective drawing, and finished design. Fall. (E)

TH 318   LIGHTING DESIGN  
Prereq.: TH 111, 117. Lighting design and layout for the proscenium, open, and arena stages. Special emphasis on design problems, equipment and control systems. Spring. (O)

TH 327   MAKEUP II  
Prereq.: TH 126 or prior permission of instructor. Advanced makeup projects with attention to mask building and prosthesis. Crew assignments on theatre productions are normally required. One two-hour session per week. Open to Theatre majors only. Fall. (E)

TH 330   DESIGN TUTORIAL  
Prereq.: Major or minor in Theatre and permission of instructor. Tutorial to solve skill problems through individual lessons and coaching with design major preparing to fulfill project requirements. May be repeated for a total of six credits.

TH 352   DIRECTING FOR THE STAGE  
Prereq.: TH 253. Principles of stage directing and practice. Emphasis on modern methods of directing and the use of its main elements such as space, time, sound, image and the actor. Spring. (O)

TH 347   ACTING III  
Prereq.: TH 338, 246 or permission of instructor. Performance considerations in scene study and character development, as well as self-scripted pieces. Two lectures and one two-hour lab per week. Spring.

TH 348   PROJECTS: SCENERY  
Prereq.: TH 316 and departmental permission. Individual projects in reading, research, or production under guidance of member of Theatre staff.

TH 373   THEATRE SURVEY II  
Theatre from 18th century to present day, including physical theatre, audiences, acting style, and other elements of production. Representative plays from standpoint of performance. Fall. (I)

TH 447   ACTING IV  
Prereq.: TH 347 and departmental permission. Performance considerations in scene study and role development, with emphasis on plays of varying styles and different periods. Fall. (O)

TH 456   SHAKESPEAREAN PRODUCTION  
Prereq.: TH 253 and 246, or permission of instructor. Analysis of selected plays from perspective of actor and director. Students act in and stage scenes as major requirements. Irregular.

TH 465   CREATIVE DRAMATICS FOR CHILDREN  
Trains teachers to develop the imagination, creativity, and communication skills of children ages 5 through 12. Includes pantomime, theatre games, improvisation, and formal theatre experience. Spring. Area C

TH 474   PROJECTS: DANCE  
Prereq.: Permission of instructor. Individual projects in choreography, research, or production under the guidance of Dance/Theatre staff. Irregular.

TH 480   PROJECTS: LIGHTING/SOUND/STAGE MANAGEMENT  
Prereq.: TH 318 and departmental permission. Individual projects in reading, research, or production under guidance of member of Theatre staff.

TH 481   PROJECTS: COSTUMING  
Prereq.: TH 332 and departmental permission. Individual projects in reading, research, or production under guidance of member of Theatre staff.

TH 482   PROJECTS: ACTING B  
Prereq.: TH 483 and departmental permission. Individual projects in reading, research, or production under guidance of member of Theatre staff.

TH 484   PROJECTS: ACTING A  
Prereq.: TH 347 and junior standing and departmental permission. Individual projects in reading, research, or production under guidance of member of Theatre staff.

TH 485   PROJECT: DANCE  
Prereq.: TH 489 or departmental permission. Projects in reading, research, or production under guidance of member of Theatre staff.

TH 486   PROJECTS: DIRECTING  
Prereq.: TH 352 and departmental permission. Individual direction of student production under faculty supervision.

TH 487   PROJECTS: RESEARCH  
Prereq.: TH 374 or departmental permission. Individual projects in reading, research, or production under guidance of member of Theatre staff.

TH 488   STUDIES IN THEATRE/DRAMA  
Prereq.: Permission of instructor. Selected area of theatre and/or drama not covered in other courses. Topic varies. May be repeated for credit. Irregular. Mode 4

TH 490   SUMMER THEATRE WORKSHOP  
Prereq.: Permission of instructor. Students work with experienced directors in a summer theatre production workshop learning the craft of acting and performing, culminating in a public performance. May be repeated for a maximum of 6 credits. Summer.

TH 495   THEATRE INTERNSHIP  
Prereq.: Permission of department. Substantial work in approved area/regional theatre(s) offering experience or research opportunities unavailable on campus. May be repeated for a total of 12 credits. On demand.
VOCATIONAL-TECHNICAL EDUCATION

URS 300 INTRODUCTION TO URBAN STUDIES 3
Interdisciplinary introduction to America's cities. Provides perspectives on "urban" issues and problems with an emphasis on Greater Hartford as a laboratory. Course serves as a foundation for the Urban Studies minor. Fall. Mode 6 or 7/Study Area III

URS 420 INTERNSHIP IN URBAN STUDIES 3
Prereq.: URS 300, nine additional credits in Urban Studies minor, permission of supervising department chair and a 3.0 GPA. Practical experience working with agencies active in dealing with the issues and problems of urban communities. On demand.

URS 430 READINGS IN URBAN STUDIES 3
Prereq.: URS 300, nine additional credits in Urban Studies minor, permission of supervising department chair and a 3.0 GPA. Directed independent study in Urban Studies. On demand.

VIETNAMESE

VIET 111 ELEMENTARY VIETNAMESE I 3
Basic sounds and structure patterns of Vietnamese established through a direct audiolingual approach. Irregular. Skill Area III

VIET 112 ELEMENTARY VIETNAMESE II 3
Prereq.: VIET 111 or permission of instructor. Continued study of Vietnamese linguistic structure with further practice in conversation, pronunciation, and dictation. On demand. Skill Area III [I]

VIET 190 VIETNAMESE FOR VIETNAMESE SPEAKERS I 3
Prereq.: Permission of instructor. Designed to improve diction, reading, and grammar of standard Vietnamese. On demand. Skill Area III [I]

VOCAOTIONAL-TECHNICAL EDUCATION

Note: Courses designed to develop professional competence; for students seeking certification in Vocational Technical Education and special studies majors with a specialization in Vocational-Technical Education.

VTE 113 ANALYSIS AND TEACHING OF VOCATIONAL-TECHNICAL EDUCATION I 3
Basic introductory course for students in vocational education. First principles of teaching and learning and their applications in the development of instructional objectives, occupational analysis techniques, progress records, skill and informational lesson plans, instructional sheets, written and performance tests, and grading systems.

VTE 116 ANALYSIS AND TEACHING OF VOCATIONAL-TECHNICAL EDUCATION II 3
Prereq.: VTE 113. Additional development and application of principles and practices introduced in VTE 113. The selection and/or development of multimedia materials and cooperative learning techniques. Students develop and present planned lessons utilizing lecture, discussion and demonstration techniques.

VTE 117 SUPERVISED TEACHING FOR VOCATIONAL-TECHNICAL EDUCATION I 3
Prereq.: VTE 113 or taken concurrently and employed at least half-time as a vocational teacher in a public school system. Beginning instructors in the vocational technical programs teach for one semester under the supervision of Central Connecticut State University faculty with emphasis on Connecticut common core of teaching in both classroom and shop/lab areas. Two seminars provide opportunity for identification of problems and solutions applicable to vocational teaching. Open to instructors in vocational technical education during their first calendar year of teaching. Open only to matriculated special studies majors with a specialization in VTE.

VTE 118 SUPERVISED TEACHING FOR VOCATIONAL-TECHNICAL EDUCATION II 3
Prereq.: VTE 116 and VTE 117 (VTE 116 may be taken concurrently) and at least half-time employment as a vocational teacher in a public school system. Continuation of VTE 117 with an emphasis on integrating instructional theory and practice in the shop or related subject areas. Instructors teach for one semester under the supervision of Central Connecticut State University faculty. Two seminars provide opportunity for identification of problems and solutions applicable to vocational teaching. Should be taken in first year of teaching. Open only to special studies majors with a specialization in VTE.

VTE 328 SHOP ORGANIZATION AND MANAGEMENT 3
Physical aspects of vocational schools and shops. Purchase and inventory of supplies, surplusing of equipment, selection and installation of equipment, and development of desirable shop layouts. The basic philosophies and practices of exploratory work offered and the specialized training which follows. Laboratory safety, public relations, use of instructional aids, and development of programs for special groups. Fall.

VTE 400 EVALUATING STUDENT ACHIEVEMENT IN VOCATIONAL TECHNICAL EDUCATION 3
Prereq.: VTE 113. Procedures for evaluating student achievement of instructional objectives with application in vocational education subjects that is reflective of BEST portfolios. Spring.

VTE 415 PRINCIPLES OF VOCATIONAL EDUCATION 3
An introduction to the principles and philosophy of vocational education and its impact on society. A brief historical development of vocational education, supportive legislation, characteristics of the various program fields, delivery systems, and current issues and problems. Area C

VTE 421 OCCUPATIONAL SPECIALIZATION 25
Award of academic credit for occupational experience. Candidates must demonstrate technical knowledge and manipulative skills by passing a written and performance examination. Open to any vocational technical instructor enrolled in the baccalaureate program. On demand.

VTE 440 HUMAN RELATIONS IN THE WORKPLACE 3
A study of human relations with emphasis on self-awareness, role multiplicity, and the effect of life stresses on the adult in the workplace. Attitudes, values, problem-solving, and communication techniques are explored in the context of effective interpersonal relationships. Concepts of group dynamics and adult learning are addressed with emphasis on recognition and skill development. Fall. Area C

VTE 450 PRINCIPLES AND ORGANIZATIONS OF COOPERATIVE WORK EDUCATION 3
The development and organization of work experience programs at the secondary school level. Examines those activities necessary to establish, maintain, and improve cooperative work education programs. Fall.

VTE 455 LABOR MARKET TRENDS AND STUDENT JOB READINESS 3
Analysis of factors influencing the work placement of cooperative work education students. Special attention given to the study of present needs as well as anticipated trends in Connecticut's labor market, and the development of a curriculum to establish job readiness skills. Spring.

VTE 490 TOPICS IN VOCATIONAL TECHNICAL EDUCATION 3
Special purpose programs designed to meet the needs of selected groups of vocational teachers or directed independent studies for individual students. Provides a mechanism that encourages the vocational instructor to elect, with the guidance of University faculty, job-specific and short-term selective experiences to insure the instructor's technical expertise. May be repeated on different topics to a maximum of 6 credits. On demand. (Contact the Coordinator/Adviser, School of Technology; 832-1807. prior to registration.) On demand.
WOMEN’S STUDIES

WS 200  INTRODUCTION TO WOMEN’S STUDIES  3
Focus on issues concerning women. Examines gender issues in societies, political institutions, education, the arts, medicine, science, and the family. Spring. Mode G/Study Area III

WS 400  FEMINIST THEORY  3
Prereq: WS 200 or permission of instructor. Examination of central theoretical and critical concepts, ideas and traditions in the development of feminist theory. Spring.

WORD PROCESSING

WP  204  INTRODUCTION TO WORD PROCESSING  1
Introduction to a popular word processing software package. Includes document creation, editing, formatting, printing, archiving, and some specialized software features. Irregular. [c] Area C
FACULTY, ADMINISTRATIVE STAFF, LIBRARIANS

Note: Date of appointment to Central Connecticut State University in parenthesis.

RICHARD L. JUDD, Ph.D., University of Connecticut; President (1964).

DISTINGUISHED PROFESSORS:

HENRY C. LEE, Ph.D., New York University; Professor of History and holder of the Endowed Chair in Chinese Studies (1977).

WILLIAM A. O'NEILL, M.A., State University of New York; Professor of English (1968).

STANISLAUS BLEJWAS, Ph.D., Columbia University; Professor of Modern Languages (1990).

FATEMEH ABDOLLAHZADEH, Ph.D., Loughborough University; Professor of Polymer Science and Technology (1990).

ENDOWED CHAIR HOLDERS:

ABIGAIL E. ADAMS, Ph.D., University of Virginia; Associate Professor of Education (1992).

DON ADAMS, Ph.D., Cornell University; Associate Professor of Sociology and Social Work (1992).

THOMAS BURKHOLDER, Ph.D., University of Michigan; Associate Professor of Psychology (1994).

Gwendolyn O. Brathwaite, M.F.A., Central Connecticut State University; Associate Professor of English (1994).

JAMES BRUNER, B.S., Daniel Webster College; Business Manager, ILET (1994).

JAMES BRYANT, M.A., University of Pennsylvania; Associate Professor of Psychology (1992).

PETER A. BUDWITZ, M.A., Bucknell University; Associate Professor of Accounting (1992).

PAULA W. BUNCE, Ph.D., Eastern Connecticut State University; Institutional Research Specialist, Planning and Institutional Research (1994).

CASSANDRA BROADUS-GARCIA, Ph.D., Ohio State University; Associate Professor of Art (1994).

THOMAS BRODEUR, B.A., University of Connecticut; Purchasing Manager (1989).

JAMES BRUNER, B.S., Daniel Webster College; Business Manager, ILET (1994).

JAMES BRYANT, M.A., University of Pennsylvania; Associate Professor of Psychology (1992).

PETER A. BUDWITZ, M.A., Bucknell University; Associate Professor of Accounting (1992).

PAULA W. BUNCE, Ph.D., Eastern Connecticut State University; Institutional Research Specialist, Planning and Institutional Research (1994).

CASSANDRA BROADUS-GARCIA, Ph.D., Ohio State University; Associate Professor of Art (1994).

THOMAS BRODEUR, B.A., University of Connecticut; Purchasing Manager (1989).

JAMES BRUNER, B.S., Daniel Webster College; Business Manager, ILET (1994).

JAMES BRYANT, M.A., University of Pennsylvania; Associate Professor of Psychology (1992).

PETER A. BUDWITZ, M.A., Bucknell University; Associate Professor of Accounting (1992).

PAULA W. BUNCE, Ph.D., Eastern Connecticut State University; Institutional Research Specialist, Planning and Institutional Research (1994).

CASSANDRA BROADUS-GARCIA, Ph.D., Ohio State University; Associate Professor of Art (1994).

THOMAS BRODEUR, B.A., University of Connecticut; Purchasing Manager (1989).
ANTOINE CAPITAO, Ph.D., University of Connecticut; Professor of Physical Education and Health Fitness Studies (1971).

JOSEPH CARCHIDI, B.A., Central Connecticut State University; Campus One Card Assistant (2000).

LEEDS M. CARLUCCIO, Ph.D., Cornell University; Professor of Biological Sciences (1966).

DOUGLAS R. CARTER, Ph.D., University of Illinois; Professor of Biological Sciences (1991).

CAROL J. CARTER-LOWERY, Ed.D., University of Massachusetts; Professor of Educational Leadership (1980).

RONNIE PAUL CASELLA, Ph.D., Syracuse University; Assistant Professor of Teacher Education (1998).

NELSON CASTANEDA, Ph.D., Indiana University; Assistant Professor of Mathematical Sciences (1998).

STEVEN CAVALIERI, Ph.D., Rensselaer Polytechnic Institute; Professor of Management (1980).

CYNTHIA B. CAYR, M.S., Central Connecticut State University; Director of Development and Alumni Affairs (1998).

JACQUELINE COBBINA-BOIVIN, M.S., Central Connecticut State University; Associate Librarian, On-line Services (1982).

ADOLFO CHAYARRO, Ph.D., State University of New York; Professor of Computer Science (1993).

YUANQIAN CHEN, Ph.D., University of Kansas; Professor of Management Information Systems (1996).

JOSEPH CARCHIDI, B.A., Central Connecticut State University; Professor of Management Information Systems (1993).

BASANT DEY CHAKRABORTY, Ph.D., Utkal University; Associate Professor of Management (1998).

TAMMY COLEGROVE, B.S., Central Connecticut State University; Director of Development and Alumni Affairs (1998).

PENELOPE N. COE, Ph.D., Brandeis University; Acting Director, Career Services and Cooperative Education (2000).

PETRA CLARK-DUFNER, M.A., University of Connecticut; Professor of Political Science (1992).

JEROLD J. DUQUETTE, Ph.D., University of Massachusetts; Assistant Professor of Political Science (2000).

THOMAS EISENLOHR, JR., M.S., Central Connecticut State University; Associate Director of Continuing Education and the Enrollment Center (1971).

CHERYL ETTINGER, M.S., University of Nebraska; Associate Professor of Political Science (1993).

DARRELL F. EvANS, Ph.D., University of Wyoming; Associate Professor of Economics (1979).

DANIEL D'ADRO, M.B.A., Old Dominion University; Professor of Finance (1998).

WILLIAM DAVIS, Ph.D., University of New Hampshire; Professor of Management (1990).

SUSAN DAVIS, Ph.D., University of Connecticut; Professor of Management (1990).

BARRY A. DAVIS, Ed.D., University of Maine; Professor of Management (1997).

REGINA KLONSI DARDZIENENIENI, M.S., Central Connecticut State University; Director of Media Services, Graphic Design (1995).

TENNISON T. DARO, M.B.A., Old Dominion University; Professor of Finance (1985).

RICHARD CHURCHILL, M.L.S., University of Rhode Island; Associate Librarian, Head of Government Documents (1999).

NINA CICCHETTI, M.S., Central Connecticut State University; Director of Residence Life (1986).

SALVATORE CINTORINO, M.S., Central Connecticut State University; Associate Librarian, Director, Inter-collegiate Athletics (1992).

GEORGE F. CLAFFEY, Ed.D., Indiana University; Associate Professor of Management (1993).

LYNNS CLAFFEY, Ph.D., State University of New York; Assistant Professor of Physical Education and Health Fitness Studies (1992).

PETRA CLARK-DUFNER, M.A., University of Connecticut; Associate Librarian, Pre-College and Access Services (1996).

JACKIE CORBENA-BOVIN, M.S., Central Connecticut State University; Coordinator, North Bergen Women's Center (2000).

NINA COBRAIN, M.A., Bowling Green State University; Assistant Director, Career Services and Cooperative Education (1985).

FAYE COHEN, M.S., Central Connecticut State University; Assistant Professor of Business Education (1965).

JONAH COHEN, M.S., Central Connecticut State University; Administrative Assistant, Academic Center for Student Athletics (2000).

RALPH S. COHEN, Ph.D., University of Missouri-St. Louis; Associate Professor of Human and Health Services (1993).

TAMMY COLEGROVE, B.S., Central Connecticut State University; Coach, Intercollegiate Athletics (1999).

GLADYS COHEN, M.S., Ph.D., Ohio State University; Assistant Director, Financial Aid (1999).

JAMES M. CONWAY, Ph.D., University of Connecticut; Associate Professor of Psychology (1998).

JOHN D. CONWAY, Ph.D., University of Connecticut; Professor of English (1999).

DOROTHY COOK, Ph.D., University of Connecticut; Professor of English (1973).
JESSICA GREENBAUM, Ph.D., Syracuse University; S. LOUISE GOULD, Ed.D., Columbia University; IVAN S. GOTCHEV, Ph.D., Sofia University; ANTHONY GERVASE, M.S., Central Connecticut State; SUSAN GILMORE, Ph.D., Cornell University; ROBERT LEWIS GLARNER, Ph.D., University of Arizona; ALFRED GATES, P.E., Ph.D., University of Connecticut; MICHAEL GENDRON, Ph.D., State University of New York; ANTONIO GARCIA-LOZADA, Ph.D., University of Maryland; VINCENT C. GAGLIARDI, M.F.A., University of Iowa; JANE M. HIGGINS, Ph.D., University of Connecticut; LAWRENCE D. KLEIN, Ed.D., Indiana University; DIANE HURLBURT, M.S., Georgia Southern University; JIM HICKEY, B.S.G.S., University of Connecticut; JOHN A. HEITNER, Ph.D., University of Rochester; VINCENT M. HORST, M.S., Central Connecticut State University; H. JANE FRIED, Ph.D., Union of Experiencing and Universities, Assistant Professor of Health and Human Development (1990). JEREMIAH N. JARRETT, Ph.D., Tufts University; Assistant Professor of Biological Sciences (1997). LOTUS JESTIN, Ph.D., Yale University; Professor of English (1973). CHUN JIN, Ph.D., University of Southern Louisiana; Associate Professor of Mathematical Sciences (1994). BEVERLY JOHNSON, Ph.D., Indiana University; Assistant Professor of English (1997). FREDERICK JOHNSON, M.S., Central Connecticut State University; Systems Support Assistant, Information Services (1994). LOUISE B. JOHNSON, M.F.A., Ohio University; Professor of Theatre (1968). MONTEZ JOHNSON, M.S., Central Connecticut State University; Assistant Director, Advising Center (1994). LYNN JOHNSON-CORCORAN, M.L.S., University of Rhode Island; Associate Librarian, Collection Development (1977). CAROL A. JONES, Ph.D., University of Iowa; Associate Professor of Computer Science (1989). CATHERINE H. JOST, B.A., Central Connecticut State University; Assistant Director of Alumni Relations (1994). JAMES F. JOST, M.S., Central Connecticut State University; Associate Vice President and Dean of Students (1971). SARAH JU, Ph.D., University of Belgrade; Assistant Professor of Computer Science (1999). ROBIN KALDER, Ed.D., Columbia University; Assistant Professor of Mathematical Sciences (2000). ELIAS KAPETANOUPOLOS, Ph.D., Yale University; Professor of History (1968). MIMI KAPLAN, B.A., University of Connecticut; Assistant Director of Sponsored Programs (1994). MARTIN A. KAPPER, Ph.D., Louisiana State University; Associate Professor of Biological Sciences (1992). PAUL KARPUK, Ph.D., University of California; Associate Professor of English (1992). GEORGE KAWECZ, M.S.Ed., Central Connecticut State University; Assistant Professor of Intercollegiate Athletics and Mens Cross Country and Track Coach (1992). FRANCIS E. KEFFE, Ph.D., University of Kentucky; Director of Advising Center (1988). JOHN J. KELLEHER, M.A., University of Connecticut; Associate Professor of Intercollegiate Athletics and Head Mens Cross Country and Track Coach (1978). D.J. KELLY, M.S., Central Connecticut State University; Assistant Professor of English (1992). AMY JAMES, Ed.M., M.A., Teachers College of Columbia University; Assistant Professor of Health and Human Development (1997). ANDREJ T. JARMOSZKO, Ph.D., University of Arizona; Associate Professor of Management Information Systems (2001).
ANDREA G. OSBINE, Ph.D., Cornell University; Professor of English (1985).

PETER OSIE, Ph.D., University of Tennessee; Associate Professor of Biological Sciences (1993).

SHELLEY A. OSTERREICH, M.L.S., Pratt Institute; Assistant Librarian, Technical Processing (1980).

STEVEN D. OSTROWSKI, Ph.D., State University of New York, Albany; Professor of English (2000).

HARRY PACHECO, B.S., Trinity College; Associate Director, Pre-Collegiate and Access Services (1995).

JOAN E. PACKER, M.L.S., University of Texas; Assistant Librarian, Technical Processing (1985).

ANDREA G. OSBINE, Ph.D., Cornell University; Assistant Professor of Special Education (1999).

WARREN PERRY, Ph.D., CUNY; Professor of Anthropology (1973).

N. CAROLLA PARR, D.M.E., Indiana University; Associate Professor of Music (1998).

MARIA P. PASSARO, Ph.D., City University of New York; Associate Professor of Modern Languages (1989).

SUSAN E. PEASE, Ph.D., Florida State University; Professor of Criminal Justice (1989).

CLIFFORD L. PELLETIER, M.S., University of Rhode Island; Associate Professor of Computer Science (1976).

CLAYTON A. PENNINN, Ph.D., University of New Hampshire; Associate Professor of Biological Sciences (1992).

LAUREN PERDUE, Ph.D., State University of New York at Stony Brook; Associate Professor of Psychology (1992).

JOSHUA PERLSTEIN, M.E.A., University of Massachusetts; Associate Professor of Anthropology (1992).

RAYMOND J. PERREULL, JR., Ph.D., University of Maryland; Professor of Industrial Technology (1989).

PAMELA PERRY, D.M.A., University of Hartford; Professor of Music (1990).

WARREN PERRY, Ph.D., CUNY; Associate Professor of Anthropology (1993).

CARMELA PESCA, Ph.D., University of Connecticut; Associate Professor of Modern Languages (1995).

SHERY PESINO, M.S., Central Connecticut State University; Assistant Professor of Media Services (1998).

OLGA PETKOVA, D.Com, University of Pretoria; Associate Professor of Management Information Systems (2001).

ROBERT J. PETRAUSCH, M.S., Boston University; Assistant Director of Career Services (1992).

ANNA J. RAE, M.B.A., M.P.A., University of Hartford; Assistant Director of the Advising Center (2012).

JUAN A. REYES, B.S., Central Connecticut State University; Assistant Professor of Modern Languages (1992).

JUHLE RICHBINSCH, M.M., Eastman School of Music; Professor of Music (1978).

LISA RICCI, M.S.O.M., Central Connecticut State University; Information Center Manager, Information Services (1985).

SANFORD E. RICH, M.A., Ball State University; Professor of Industrial Technology (1959).

ALFRED C. RICHARD, Ph.D., Boston University; Professor of History (1966).

TIMOTHY J. RICKARD, Ph.D., University of Kansas; Professor of Geography (1971).

KAREN J. RIM, Ph.D., University of Connecticut; Associate Professor of Psychology (1994).

ANTHONY RIGAZIO-DIGILIO, Ed.D., University of Massachusetts; Professor of Educational Leadership (1990).

KAREN A. RITZENHOFF, Ph.D., University of Minnesota; Associate Professor of Communication (1994).

KATHLEEN ROCKWOOD, M.S., Southern Connecticut State University; Coordinator of Professional Development, School of Education and Professional Studies (1994).

THOMAS RODDEN, M.S., Central Connecticut State University; Assistant Director, Career Services and Cooperative Education (1990).

PETER A. RODRIGUES, M.S., Central Connecticut State University; Assistant Professor of Technology Education (1972).

RAMON RODRIGUEZ, B.S., Cayey University College; Assistant Director, Financial Aid (2001).

MARIE-CLAI ROHINSKY, Ph.D., University of Caen; Associate Professor of Modern Languages (1992).

RUTH E. ROLLIN, Ph.D., Colorado State University; Professor of Biological Sciences (1986).

THILAS A. ROPP, Ph.D., Syracuse University; Professor of Physics and Earth Sciences (1985).

PATRICIA ROOT, J.D., University of Connecticut; Associate Professor of Finance (1994).

PETER M. ROSA, Ph.D., University of Connecticut; Vice President of Student Affairs (1998).

JUDITH H. ROSENBERG, Ph.D., University of Connecticut; Professor of Health and Human Service Professions (1981).

MYRA ROSENSTEIN, M.D., State University of New York-Buffalo; Medical Director of Health Service (1987).

RICHARD L. ROTH, Ph.D., Rutgers University; Associate Dean, School of Arts and Sciences, and Associate Professor of Biological Engineering (1994).

MARIA LOURDES ROXAS, Ph.D., University of Georgia; Professor of Accounting (1993).

HENRY RUDZINSKI, J.R., M.S., Central Connecticut State University; Computer Facilities Manager, School of Technology (1990).

MARILYN RUPF, B.S., Central Connecticut State University; Campus Card Administrator (1984).

SHANN RUTLEDGE, Assistant to the President, Human Resources (1995).

EDWARD RYBCZYK, Ed.D., University of Bridgeport; Director, Institute for Industrial and Engineering Technology (1990).

NANDINJAH SADANAND, Ph.D., University of Connecticut; Professor of Physics and Earth Sciences (1984).

LINDA SAGNELLI, B.S., Long Island University; Volleyball Head Coach, Intercollegiate Athletics (2000).

H. A. SALAHU-DIN, Ph.D., Kansas State University; Associate Vice President for Academic Affairs (1990).

MOISES F. SALINAS, B.A., University of Texas at Austin; Assistant Professor of Psychology (1999).

EDWARD SARISLEY, J.R., Ph.D., University of Connecticut; Professor of Engineering Technology (1982).

D WIGHT SCHERBAN, Ph.D., University of Connecticut; Professor of Marketing (1977).

RAE SCHIPKE, Ph.D., University of Pennsylvania; Professor of English (1993).

ROBERT SCHNEEWEISS, M.Ed., University of Miami; Director of Student Activities/Leadership Development (2002).

PEGGY SCHUBERT, M.S., Central Connecticut State University; Director of Continuing Education and the Enrollment Center (1978).

SUSAN N. SEIDER, Ed.D., Pennsylvania State University; Associate Professor of Teacher Education (1989).

PARK SELLERS, B.S., Central Connecticut State University; Coach I, Intercollegiate Athletics (1999).

LINDA SERHSEN, B.A., University of Bridgeport; Registrar/Recruitment Coordinator, Career Services and Cooperative Education (1995).

BENJAMIN SEVITCH, Ph.D., Indiana University; Professor of Communication (1975).

JAMES SFIRIDIS, Ph.D., University of Connecticut; Associate Professor of Finance (1990).

HARLAN SHAKUN, C.P.A., M.S., University of Hartford; Assistant Professor of Accounting (1981).

ANGELA SHAW, M.S., University of Connecticut; Assistant Professor of Technology Education (1997).

JUDITH H. SHINE, Ph.D., University of Connecticut; Associate Professor of Chemistry (1987).

CLAUDIA SHUSTER, Ed.D., University of Massachusetts; Associate Professor of Teacher Education (1993).

ROBERT P. SILVER, B.A., Central Connecticut State University; PC Support Manager, Information Services (1999).

CHRISTOPHER J. SIMICK, B.S., University of Connecticut; Associate Director of Information Services (1992).

RACHEL SIPORIN, M.F.A., Yale University; Professor of Art (1984).
SUSAN SITON, A.S., Massachusetts Institute of Technology; Associate Professor of Economics (1998).

MARY JANE MURPHY, B.S., University of Connecticut; Assistant Professor of Educational Leadership (1985).

MARY J. WILSON, B.S., Colorado State University; Assistant Professor of History (1996).

RENEE T. WHITE, B.S., Yale University; Associate Professor of Sociology and Social Work (1996).

ELLEN V. WHITFORD, Ed.D., Rutgers University; Dean of the School of Education and Professional Studies (2001).

RICHARD F. WILKINSON, Ph.D., University of Texas at Austin; Professor of Health and Human Service Professions (1995).

CAROL G. WILLIAMS, Ph.D., Boston University; Assistant Professor of Nursing (2000).

LOUISE R. WILKINS, Ph.D., Columbia University; Assistant Professor of History (1997).

MAE WILLIAMS, Ph.D., University of Connecticut; Associate Professor of Special Education (1998).

MARY JANE M. WILLIAMS, Ph.D., University of Connecticut; Professor of Nursing (1999).

MICHAEL J. WILLIAMS, Ph.D., University of Maryland; Professor of Technology Education, (1970).

KIM A. WILSON, Ph.D., University of Pennsylvania; Associate Professor of Biological Sciences (1989).

WILLIAM WINSOR, Ph.D., Columbia University; Assistant Professor of English (2001).

ROBERT S. WOLF, Ph.D., University of Minnesota; Assistant Professor of History (1998).

EWA WOLNYSKA, M.L.S., Simmons College; Associate Librarian and Archivist for Special Collections (1988).

CAROL YOUNG, B.S., Westfield State College; Assistant Director, Health and Human Service Professions (2000).

DEBORAH ZANELLA, Ed.D., Nova Southeastern University; Associate Professor of Industrial Technology (1992).

PATRICIA ZAPATKA, RN.C., American Nurses Certification Board; New Britain General Hospital School of Nursing; College Health Nurse, Health Services (1989).

JOSEPH A. ZEBI, M.B.A., University of New Haven; Assistant Director, Career Services and Cooperative Education (1988).

LEYLA ZIDANI-EROGLU, Ph.D., University of Wisconsin-Madison; Assistant Professor of English (1997).

NELI ZLATAREVA, Ph.D., Higher Institute of Mechanical and Electrical Engineering (Bulgaria); Professor of Computer Science (1992).

ARMAND Z. ZOTTOLA, Ph.D., Catholic University, Professor of Economics (1970).

EMERITI FACULTY

E. DON JAMES, Ph.D., President, Emeritus (1968).

ADLINE ABEL, Ph.D., Professor of Modern Languages, Emerita (1989).

PAULINE ABRAHAMSON, M.S., Associate Professor of Education, Emerita (1968).

GAVRO ALTMAN, Ph.D., Professor of Political Science, Emeritus (1976).

HERBERT G. ANDERSON, Ph.D., Professor of Biological Sciences, Emeritus (1965).

THOMAS ANDREWS, M.S., Director of Clinical Practice, Associate Professor of Teacher Education, Emeritus (1970).

MARCO A. ARENAS, Ph.D., Professor of Modern Languages, Emeritus (1970).

RICHARD T. ARVITCH, M.Ed., Associate Professor of Accounting, Emeritus (1970).

JAMES W. BALLETTI, Ph.D., Professor of English, Emeritus (1970).

ABNER S. BAKER III, Ph.D., Associate Professor of History, Emeritus (1970).

BURT R. BALDWIN, Ph.D., Professor of Sociology, Emeritus (1970).

BARBARA BARD, Ph.D., Professor of Science, Emeritus (1970).

JOHNNY BARNARD, Ph.D., Associate Professor of Industrial Arts Education, Emeritus (1970).

LAWRENCE K. WANG, Ph.D., University of Cincinnati; Associate Professor of Modern Languages (1987).

HERBERT G. ANDERSON, Ph.D., Professor of Biological Sciences, Emeritus (1965).

JOSEPH A. ZEBI, M.B.A., University of New Haven; Assistant Director, Career Services and Cooperative Education (1988).

LEYLA ZIDANI-EROGLU, Ph.D., University of Wisconsin-Madison; Assistant Professor of English (1997).

NELI ZLATAREVA, Ph.D., Higher Institute of Mechanical and Electrical Engineering (Bulgaria); Professor of Computer Science (1992).

ARMAND Z. ZOTTOLA, Ph.D., Catholic University, Professor of Economics (1970).
ADRIENNE W. KOZLOWSKI, Ph.D., Professor of Chemistry, Emeritus

HONORARY DEGREE RECIPIENTS

Doctor of Health and Physical Education

David C. Campo ’73, Head Coach, Dallas Cowboys Football Club .................................................................................. May 22, 1999

Doctor of Humane Letters

Jimmy Carter, President of the United States ........................................... April 16, 1985
Ernest L. Boyer, President of the Carnegie Foundation for the Advancement of Learning ........................................... October 5, 1987
Gerald R. Ford, President of the United States ........................................ March 23, 1988
Mary Hatwood Futrell, President of the National Education Association ........................................... October 4, 1988
Benjamin L. Hooks, Executive Director of the NAACP ......................................................... May 20, 1988
Mong Koo Chung, Chairman of the Hyundai Precision and Industry Company ........................................... May 26, 1989
Donald W. Davis, Chairman of The Stanley Works ........................................... May 26, 1989
C. J. Huang, Chairman of the C. J. Huang Foundation ........................................... May 10, 1990
Shigenori Adachiara, Mayor of Atsugi City, Atsugi, Japan ........................................... May 23, 1990
Angelo Tomasso, Jr., Chairman and Chief Executive Officer of Telcon, Inc. ........................................... May 25, 1990
Jeanne J. Kirkpatrick, United States Representative to the United Nations ........................................... April 4, 1991
Simon A. Clarke, Education Adviser to United Nations Educational, Scientific and Cultural Organization ........................................... April 24, 1991
Franz J. Rothenbiller, Lord Mayor of Rastatt, Germany ........................................... June 6, 1991
Young Seek Choue, Chancellor of Kyung Hee University ........................................... October 22, 1991
Francis T. Vincent, Jr., Commissioner of Major League Baseball ........................................... April 28, 1992
Helmut Schmidt, Chancellor of the Federal Republic of Germany ........................................... April 28, 1993
Eric Jensen, Deputy to the Under-Secretary-General and Special Representative for Public Affairs of the United Nations ........................................... May 27, 1993
Lech Walesa, President of Poland ........................................... April 10, 1996
Bruno Ficili, Commissioner of Education, Siracusa, Italy ........................................... October 23, 1996
Chungwon Choue, President, Kyung Hee University ........................................... May 23, 1998
John Paul Wodarski, Monsignor ........................................... April 29, 1999
Iurma Margarita Nevares de Rossello, First Lady of Puerto Rico ........................................... May 20, 1999

Doctor of Laws

Jozsef Antall, Jr., Prime Minister of the Republic of Hungary ........................................... September 30, 1991
J. William Burns, Commissioner, Connecticut State Department of Transportation ........................................... January 3, 1995
George H. W. Bush, President of the United States ........................................... March 11, 1999
George J. Mitchell, U.S. Senator and Senate Majority Leader ........................................... April 12, 2000
George W. Bush, President of the United States ........................................... April 18, 2001

Doctor of Science

Antonia Coello Novello, Surgeon General of the United States ........................................... May 28, 1993
Andrzej Wiszniewski, Rector, Technical University of Wroclaw ........................................... May 28, 1993
Alexander M. Butman, Executive Director, Emergency Training Institute ........................................... April 28, 1994
E. Dorrit Hoffleit, Senior Research Astronomer Emerita, Yale University ........................................... October 20, 1998
Phyllis Macpherson-Russell, Minister of Education, Jamaica ........................................... December 4, 1999

Doctor of Social Science

Harry Jack Gray, Chairman and Chief Executive Officer, United Technologies Corporation ........................................... May 17, 1985
Henry A. Kissinger, Secretary of State of the United States ........................................... March 24, 1987
Brian Mulroney, Prime Minister of Canada ........................................... April 26, 1994
Vincent O’Leary, President, State University of New York at Albany ........................................... May 28, 1994

DIRECTIONS TO CENTRAL CONNECTICUT STATE UNIVERSITY

FROM THE NORTH
Take I-91 South to I-84 West to Exit 39A, to Rte. 9 South. Take Exit 29 off Rte. 9 South to Ella Grasso Boulevard and take a right turn to the University. Alternate Route: Take I-91 South to I-84 West to Exit 40 (Corbins Corner). As you proceed down the Exit 40 ramp, bear left at the first traffic light. At the next traffic light (facing Sears), turn right onto Route 71 South. The University is approximately three (3) miles away.

FROM THE SOUTHWEST
Take I-95 North to I-91 North to Exit 22 North to Rte. 9 North. Follow Rte. 9 to Exit 29, Cedar Street (Rte. 175). At the traffic light at the end of the ramp, take a left turn to the second traffic light, and take a right turn onto Paul Manafort Drive to the University.

FROM THE SOUTHEAST
Take I-95 South to Rte. 9 North to Exit 29, Cedar Street (Rte. 175). At the traffic light at the end of the ramp, take a left turn to the second traffic light, and take a right turn onto Paul Manafort Drive to the University.

FROM THE EAST
Take I-84 West to Exit 39A to Rte. 9 South. Take Exit 29 off of Rte. 9 to Ella Grasso Boulevard and take a right turn to the University. Alternate Route: Take I-84 West to Exit 40 (Corbins Corner). As you proceed down the Exit 40 ramp, bear left at the first traffic light. At the next traffic light (facing Sears), turn right onto Route 71 South. The University is approximately three (3) miles away.

FROM THE WEST
Take I-84 East to Exit 39A, to Rte. 9 South. Take Exit 29 off of Rte. 9 South to Ella Grasso Boulevard and take a right turn to the University. Alternate Route: Take I-84 East to Exit 35, Rte. 72 East (New Britain exit). Follow Rte. 72 East to Rte. 9 North and take Exit 29 to Cedar Street (Rte. 175). At the traffic light at the end of the ramp, take a left turn to the second traffic light, and take a right turn onto Paul Manafort Drive to the University.
